School Board Approval

This plan was approved by the Duval County School Board on 10/1/2019.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our lowest performance area is Reading Least Performing Quartile. It should be noted that this component improved 30 points from the year prior. We utilized all instructional support personnel to push in and provide academic interventions.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The only component with an area of decline is the area of Science Proficiency. Science has declined the last three years. Factors leading to this decline include lack of fidelity in primary grades and gaps in instruction.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Our largest gap is in the component of Reading proficiency. Seabreeze Elementary, at 75%, was 18 points higher than the state average.

Which data component showed the most improvement? What new actions did your school take in this area?

The data component with the most improvement is the area of Least Performing Quartile Gains in the subject of Reading.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

We have two areas of concern. We have ten children whose attendance has fallen below 90%. We also have ten children that scored a Level 1 of the FSA state assessment.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Science achievement: expected goal is to achieve 70% or higher in Science proficiency
2. Maintaining our school grade without any areas of decline
3. Improving culture and climate data as evidenced by our 5Essentials survey
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Improve Science Proficiency
Rationale	Due to the consistent historical decline, Seabreeze Elementary will focus on improving Science proficiency.
State the measurable outcome the school plans to achieve	Science proficiency will improve to at least 70%
Person responsible for monitoring outcome	Aimee Kimball (kimballa1@duvalschools.org)
Evidence-based Strategy	Seabreeze Elementary will incorporate brain-based Thinking Maps professional development, integrating the material with each grade level's Science curriculum.
Rationale for Evidence-based Strategy	Teachers are in Year 2 of implementation for this program, and are eager to apply it across the content areas.
Action Step	
Description	<ol style="list-style-type: none"> 1. Meet monthly to plan and prepare engaging Science lessons through the use of Thinking Maps. 2. Incorporate enrichment extension lessons through the use of a Science Lab, Community Education programs, and Extended Day programs. 3. Engage stakeholders in supporting our STEM program and funding our Science Lab year round. 4. Track Baseline data and track growth throughout instruction through use of PMAs 5. Monitor and reward use of Penda online lessons.
Person Responsible	Aimee Kimball (kimballa1@duvalschools.org)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

We will focus on maintenance of other school grade components by continuing to implement interventions with fidelity. We will follow the MTSS guidelines, use data to track the effectiveness of programs, and monitor classroom instruction and intervention. For culture and climate, school leadership will focus on team building exercises, opportunities for empowerment and building relationships. The goal is to align our resources, mission, and people towards a common collective good.

Part IV: Title I Requirements

Additional Title I Requirements
 This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, Â§ 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

N/A

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

N/A

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

N/A

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

N/A

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.
