Demographics

Principal: Sherry Donaldson

Start Date for this Principal: 7/28/2019

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Elementary School PK-5
Primary Service Type (per MSID File)	K-12 General Education
2018-19 Title I School	No
2018-19 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	88%
2018-19 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners Asian Students Black/African American Students Hispanic Students White Students Economically Disadvantaged Students
School Grades History	2018-19: C (49%) 2017-18: C (47%) 2016-17: C (51%) 2015-16: C (45%) 2014-15: B (55%)
2019-20 School Improvement (SI) Information*	
SI Region	Southeast
Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	

ESSA Status	TS&I
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Orange County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

To lead our students to success with the support and involvement of families and the community

Provide the school's vision statement.

To be the top producer of successful students in the nation

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Gjini, Xhuljeta	Principal	
Owens, Matthew	Assistant Principal	
Thinn, Latoya	Instructional Coach	
LeSuer, Brandon	Instructional Coach	
McGhee, Adriane	Instructional Coach	
Mitchell, Cynthia	Instructional Coach	
Cymbal, Sabreena	Instructional Coach	

Early Warning Systems

Current Year

The number of students by grade level that exhibit each early warning indicator listed:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Number of students enrolled	114	118	111	127	102	117	0	0	0	0	0	0	0	689
Attendance below 90 percent	13	14	12	7	7	0	0	0	0	0	0	0	0	53
One or more suspensions	1	1	2	1	0	1	0	0	0	0	0	0	0	6
Course failure in ELA or Math	7	11	11	2	4	3	0	0	0	0	0	0	0	38
Level 1 on statewide assessment	0	0	0	37	23	39	0	0	0	0	0	0	0	99

The number of students with two or more early warning indicators:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Students with two or more indicators	4	2	3	25	7	17	0	0	0	0	0	0	0	58

The number of students identified as retainees:

Number of Consecutive Years White Students Subgroup Below 32%	
Economically Disadvantaged Students	
Federal Index - Economically Disadvantaged Students	49
Economically Disadvantaged Students Subgroup Below 41% in the Current Year?	NO
Number of Consecutive Years Economically Disadvantaged Students Subgroup Below 32%	

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our lowest 25% in Math showed the lowest performance. PLC teams were learning the data analysis model throughout the year and began to work on differentiation of strategies to learn how to individualize instruction to close the gaps with this subset of students.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Our only area of decline was with the lowest 25% in ELA. The teams were using the whole group approach for instruction verses a small group approach for instruction. There was also an inconsistency in monitoring the data.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Our greatest gap from the state was Grade 3 Math. PLC teams were learning the data analysis model throughout the year and began to work on differentiation of strategies to learn how to individualize instruction to close the gaps with this subset of students

Which data component showed the most improvement? What new actions did your school take in this area?

Our area for most improved was ELA learning gains. This increase is due to the fourth grade team that implemented new instructional strategies after professional development in November. This team also took the data and analyzed and monitored throughout the remainder of the year.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Our areas of concern are level 1 on state assessment and attendance.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Increasing Learning Gains for our lowest 25% in Math and ELA
2. Increase Overall Achievement and Learning Gains of our Students with Disabilities

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Increasing Learning Gains for our lowest 25% in Math and ELA
Rationale	Currently our lowest quartile in ELA dropped from 51% to 45%. Although Math lowest quartile has increased from 34% to 36%, it is still below district and state average growth.
State the measurable outcome the school plans to achieve	Reading learning gains in the lowest quartile will increase from 45% to 51%. Math learning gains in the lowest quartile will increase from 36% to 45%
Person responsible for monitoring outcome	Xhuljeta Gjini (xhuljeta.gjini@ocps.net)
Evidence-based Strategy	We will use small group differentiated instruction during the Math and ELA blocks as well as push in and walk to intervention during FBS time. We will monitor this through the data chats during PLCs after each common assessment, as well as classroom observation with actionable feedback.
Rationale for Evidence-based Strategy	These strategies will target student achievement providing scaffolded support aligned with individualized academic needs.
Action Step	
Description	<ol style="list-style-type: none"> 1. We will provide professional development for teachers on authentic engagement and best instructional strategies 2. Administration and Coaches will provide ongoing collaborative discussions within PLCs weekly focused on, culturally relevant learning, scaffolded support for our lowest quartile, and data discussions creating small groups for instruction. 3. Adjusting small groups for FBS based on common assessments and monitoring the data from the groups to adjust based on learning needs. Teachers will use literacy strategies in small group instruction and across all content areas. 4. Offer Instructional Coaches providing ongoing support using the coaching cycle and modeling lessons 5. We will monitor this through the data chats after each i-Ready diagnostic assessment as a leadership team, as well as classroom observation with actionable feedback.
Person Responsible	Latoya Thinn (latoya.thinn@ocps.net)

#2	
Title	Increase Learning Gains for our SWD students by 5%
Rationale	Currently our SWD subgroup in ELA were 13% on grade level and 17% made learning gains. In Math we had 21% on grade level and 17% made learning gains. This group has not met the ESSA index and they are our focus group for the school year.
State the measurable outcome the school plans to achieve	SWD learning gains in ELA will increase from 17% to 22% and overall achievement will increase from 13% to 20%. SWD learning gains in Math will increase from 17% to 22% and overall achievement will increase from 21% to 30%
Person responsible for monitoring outcome	Xhuljeta Gjini (xhuljeta.gjini@ocps.net)
Evidence-based Strategy	In response to ESSA subgroup data, we will support students with support facilitation and push-in intervention. We also are going to make sure that bubble students are using acceleration strategies and preteaching strategies to students. Students are also pulled out during FBS time into small groups based on i-ready data. We will monitor this by analyzing IEP data as well as common assessment data.
Rationale for Evidence-based Strategy	These strategies will target student achievement providing scaffolded support aligned with individualized academic needs while addressing the individual needs and goals embedded within the individual student IEPs.
Action Step	
Description	<ol style="list-style-type: none"> 1. We will provide professional development for teachers on ESE strategies, authentic engagement and best instructional strategies 2. Administration and Coaches will provide ongoing collaborative discussions within PLCs weekly focused on, culturally relevant learning, scaffolded support for our SWD students, and data discussions creating IEP goals that are aligned to the student learning and standards. 3. Adjusting small groups for FBS based on common assessments and monitoring the data from the groups to adjust based on learning needs. 4. Offer Instructional Coaches providing ongoing support using the coaching cycle and modeling lessons with the SLD teacher specific to teachers that support SWD. 5. We will monitor this through the data chats after each i-Ready diagnostic assessment as a leadership team, as well as classroom observation with actionable feedback. 6. Teachers will use literacy strategies in small group instruction and across all content areas. 7. Students are also pulled out for, Tier II instruction, during FBS time into small groups based on i-Ready data.
Person Responsible	Sabreena Cymbal (sabreena.cymbal@ocps.net)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

These areas are our core concerns for this school year
