School Board Approval

This plan is pending approval by the Duval County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Math Lowest Performing Quartile was the lowest performing area for 2018-2019.

Contributors for last year's low performance/trends:

- *Time Management-not enough time to provide differentiated small-group instruction (centers)
- *Too much emphasis and confidence in Blended Learning programs compared to Teacher-Led instruction during small-group/center time
- *Daily Exposure to Standards-Based Instruction for all students and daily practice to problems, questions, etc. aligned to standard, test specifications, etc.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Math Lowest Performing Quartile was the lowest performing area for 2018-2019.

Contributors for last year's low performance/trends:

- *Time Management-not enough time to provide differentiated small-group instruction (centers)
- *Too much emphasis and confidence in Blended Learning programs compared to Teacher-Led instruction during small-group/center time
- *Daily Exposure to Standards-Based Instruction for all students and daily practice to problems, questions, etc. aligned to standard, test specifications, etc.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Math showed the greatest gap when compared to the state average.

Factors/Trends Contributing to this Gap:

- *Time Management During Instructional Time (not enough time for small-group instruction compared to whole-group core instruction)
- *Lack of Math Fluency
- *Lack of Math Vocabulary

Which data component showed the most improvement? What new actions did your school take in this area?

5th Grade Reading showed the most improvement

Actions Taken to See Increase: Frequent Data Chats with students, daily monitoring of data, Standards-Mastery assessments, novel studies.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

- *Data Chats and Student Monitoring of Data and Performance
- *Student Tasks/Assignments aligned to standards and require students to complete tasks at the same rigor that they will see on assessments.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Math Gains
2. Reading Gains
3. Science Proficiency
4. Math Proficiency
5. Reading Proficiency

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Daily Standards-Based Instruction in K-5 ELA, Math, and Science Classrooms
Rationale	In order to ensure that students are meeting grade-level expectations in Reading, Math, Science, and other academic and arts areas, it is important that teachers provide standard-based instruction to all students on a daily basis during their whole-group instructional block time.
State the measurable outcome the school plans to achieve	2018-2019: Reading Proficiency: 69% 2019-2020 Reading Proficiency Goal: 70% Reading LPQ Gains: 50% Reading Gains: 55% Math Proficiency: 63% Math Proficiency: 65% Math LPQ Gains: 38% Math Gains: 45% Science Proficiency: 58% Science: 60%
Person responsible for monitoring outcome	Michelle Matthews (eastern@duvalschools.org)
Evidence-based Strategy	*DCPS created Standards Walk-Through Tool *Classroom Walk-Throughs and Observations *Admin-Led Common Planning Session *Unpacking Standard Protocol and Lesson Planning
Rationale for Evidence-based Strategy	Through the use of the Standard-Based Walk-Through Tool during classroom visits, data will be analyzed and used to drive Admin-Led Common Planning sessions. In addition, teachers will be supported with unpacking content-area standards and with lesson planning as needed to ensure that all students are being provided the opportunity to practice problems, answer questions, read text, etc. in the same manner in which they will be assessed on the Florida Standards Assessment.
Action Step	
Description	1. Minimum of 10 Classroom Visits Using the Standard Walk-Through (SWT) Tool each week by each administrator with feedback to teachers 2. Review of data collected through the SWT Tool and use to provide differentiated Admin-Led Common Planning Sessions each week. 3. Lesson Planning/Curriculum/Standards Support provided by Administration and District Specialists 4. Data Chats with Administration 5. Review Lesson Plans 6. Review Student Work Samples
Person Responsible	Michelle Matthews (eastern@duvalschools.org)

#2	
Title	Reading Gains and Lowest Performing Quartile Gains
Rationale	Through observations, there is too much time spent on whole-group instruction compared to differentiated small-group instruction. Blended Learning Programs such as iReady and Achieve 3000 should not be the only differentiated learning opportunities students receive throughout the school day. Meeting with small groups of students in a Teacher-Led group setting is vital.

State the measurable outcome the school plans to achieve	2019-2020 Reading LPQ Goal: 55% Reading Gains Goal: 65%
Person responsible for monitoring outcome	Michelle Matthews (eastern@duvalschools.org)
Evidence-based Strategy	Admin-Led Common Planning and Data Chats with both students and teachers including individual goal-setting and frequent student monitoring
Rationale for Evidence-based Strategy	Reviewing student data frequently not only shows the students that you are continuously monitoring their performance, it also helps the teacher to make shifts in his/her instruction when planning for future lessons.

Action Step	
Description	1. Admin/Teacher Data Chats and Review of Student Work Samples 2. Data Chats with Students (by Teachers and Administrators) 3. Support in a Small-Group Setting (differentiated instruction) by teacher or other faculty/ staff member (i.e. administrator, tutor, other teacher, paraprofessional...)
Person Responsible	Michelle Matthews (eastern@duvalschools.org)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).
