School Board Approval

This plan is pending approval by the Pasco County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The AES community empowers, educates and believes all students will succeed by fostering a culture of respect, creativity, trust and collaboration.

SAIL - Soar, Achieve, Inspire, Lead

Provide the school's vision statement.

All students achieving success in college, career and life.

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

| Name | Title | Job Duties and Responsibilities |
|---------------------|------------------------|---|
| Thomas, Ellen | Principal | The administration leads the guiding coalition, a team of leaders wanting to promote excellence and lead change throughout the building. This will be accomplished through identifying best practices and building upon them, problem solving issues, to come up with innovative, practical responses to improve or correct the problems and building a culture of community by modeling personal dedication to students, faculty, parents and the community at large. The undertone of all decisions will be made by answering the question - Is this best for students? |
| Pitkoff, Jessica | Assistant Principal | |

Early Warning Systems

Current Year

The number of students by grade level that exhibit each early warning indicator listed:

| Indicator | Grade Level | | | | | | | | | | | | | | |

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our lowest performing students were students with disabilities and black students. While we focused on our lowest quartile we did not focus on subgroups within the lowest quartile. Our third grade ELA and Math scores showed a dramatic drop.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Our overall Science score declined from the previous year. We did not have a clear focus on Science as we were mainly focusing on Math and ELA. We had two teachers new to fifth grade as well.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The data component that had the greatest gap compared to the state average were our science scores. We did not have a clear focus on Science.

Which data component showed the most improvement? What new actions did your school take in this area?

The data component that showed the most improvement was our lowest quartile. We had a tight MTSS for our lowest quartile of students.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Attendance and number of discipline referrals.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Culture
- 2. Tier 1 instruction
- 3. Writing across curriculum
- 4. MTSS
- 5. PLC's

Part III: Planning for Improvement

Areas of Focus:

#1

Title

Collaborative Culture - Student and Staff Engagement

Rationale

At this time, students and staff are not leading their learning and promoting the engagement and culture of the school. Until all stakeholders play a role in the overall success of the school, there will not be long lasting change and improvement. All stakeholder's engagement must be addressed in order for improvement manifestation over time. Improving engagement will in itself improve culture and assist in retaining teachers.

State the measurable outcome the school plans to achieve

Students will attend school at a higher average rate as they want to be part of the school community. Behavior referrals and discipline calls will be reduced as a result of the continuation of restorative circles and the implementation of the Leader in Me Process to support Staff and Student leadership. As students and teachers are more engaged, they will be present at a higher percent, than it is expected that student achievement will go up. Building relationships will also help improve the overall achievement of our subgroups that are underperforming. (SWD's and Black) We will learn to better understand their plights and respond with respect and understanding. We will also be reaching out to parents with our leadership training as well to be partners.

Person responsible for monitoring outcome

Ellen Thomas (ethomas@pasco.k12.fl.us)

Evidencebased Strategy

This year we are building our learning about Leadership through The Leader in Me process from Franklin Covey. Leveraging leadership is a way to engage all stakeholders in many facets of the school community. By learning to be leaders we expect student and staff engagement to improve. Expectations and language will be clear and aligned.

Rationale for Evidencebased Strategy

We selected this strategy as a means to build engagement at our school. Our Gallup scores, both in Staff and 5th grade were low compared to nationwide and District comparable data. We also completed a comprehensive needs assessment where teachers and staff we at a high level of concern for safety because of the behaviors in the school. We believe this approach to positively build leaders instead of the typical punitive model may benefit our students who need the SEL as well as the skills necessary to be engaged in their learning. By continuing our restorative circle work we began last year and add the leadership component, we believe engagement will increase, leading to more productivity and proficiency.

Action Step

- 1. Conduct interviews and surveys for a Comprehensive Needs Assessment. Analyze data and come up with a plan. Investigate options.
- 2. Contact The Leader in Me for information regarding their process to build leaders in an organization.
- 3. Conduct a book study on the book The Leader in Me with instructional staff
- 4. Contract with Franklin Covey to provide 7 Habits training with Staff (Priority PD days).
- 5. Work in school teams to align behavior and 7 habits processes and expectations.

Description

- 6. Provide PD to staff on Launching Leadership and Building Culture in the classroom (Franklin Covey)
- 7. Bi-Weekly meetings with Leadership Team (Lighthouse Team)to get feedback on how things are going and determine if a response is necessary(PD), or we remain on the path.
- 8. Create a Sharepoint to store lessons, resources and ideas to continue to progress.
- 9. Work in conjunction with PBIS team, Behavior experts, Leadership team to create a plan to celebrate 7 Habits language and usage with students and staff. Create a student and staff celebration plan.

- 10. Conduct parent nights to educate on the 7 habits and leadership strategies.
- 11. Add Leadership quotes/art to our school displays to let students know things are different at AES.
- 12. Check data on 2 underperforming subgroups and develop a plan to better meet their needs.

#2

Title

High Impact Instruction-Integrated Writing Curriculum

At this time, teachers do not have a systematic and vertical approach to teaching writing across the grade levels and content areas. Thus, Core Connections is well positioned to help teachers meet the increased rigor and expected reading-writing integration of the Florida Standards. This interdisciplinary approach to literacy recognizes that as students learn to read, write, and think critically in response to a variety of texts across the curriculum, relationships are discovered, connections become clear, and student

Rationale

State the measurable school plans to achieve

Student proficiency will increase as measured by the FSA in grades 4-5. Common outcome the Formative Assessments will be utilized in grades K-5 to measure proficiency and to inform instruction for writing. Both underperforming subgroups (SWD and Black) will perform at or above the 41st percentile by using the writing skills and strategies.

Person responsible for

monitoring outcome

Ellen Thomas (ethomas@pasco.k12.fl.us)

achievement improves.

Evidencebased Strategy

With the implementation of Core Connections, students in grades K-5 will learn explicit steps in writing. Core Connections provides the framework for integrating writing through all subject matters. There is vertical alignment through grades K-12.

Rationale for Evidencebased Strategy

We selected this strategy as a means to increase student writing competency across all grade levels. In addition, we expect to see an increase in proficiency as measured by the FSA. Over a three year period our FSA scores have decreased in grades 3-5 in ELA. We started implementing Core Connections in 4th grade in the 2018/2019 school year. We saw a significant increase in proficiency in our 4th grade students 47% to 60%.

Action Step

- 1. Full day initial overview workshop with Core Connections Facilitator for teachers and administrators.
- 2. 2 times Quarterly, grade level teams meet with CC Facilitator and analyze and respond to student writing, and participate in model lessons for students.
- 3. Ongoing teacher lessons to model an implement in their classroom and formative assessment to measure student progress.

Description

- 4. Weekly PLC's to analyze data and create actions steps based on student need. A deliberate focus will be made to dissegregate the date for our SWD's and Black students who are performing below the 41st percentile.
- 5. Learning Design Coach will have a focus on writing, coaching teams and individual teachers.

Person Responsible

#3

Title

Data Driven Decisions- Tier 1 Instruction

At this time, few grade level teams have core instruction that meets the standard of 80 percent proficiency in Tier 1. We will continue to build on our knowledge of identifying students that require tier 2 and tier 3 instruction, but we must improve the proficiency in Tier 1. For the 18/19 school year the focus was on the Tiers of support and interventions. The number of students requiring intervention was too high. We cannot Tier 2 and 3 ourselves out of an ineffective Tier 1.

Rationale

State the measurable school plans to achieve

Student proficiency will increase by 5% in ELA and Math by providing effective tier 1 outcome the instruction and then follow it up with dynamic tiered levels of support. Student subgroups performing below the 41st percentile will increase their overall proficiency to at least 41 percent.

Person responsible

for monitoring outcome

Ellen Thomas (ethomas@pasco.k12.fl.us)

Evidencebased Strategy

MTSS is a systematic process to ensure every student receives additional time and support to learn at high levels. Professional Learning Communities that focus on learning, work collaboratively and are results driven, have a significant impact on student achievement. PLC's will focus on data to drive instruction. We will utilize the Processes and instructional practices for highly effective PLC's to improve our overall classroom practices in Tier 1 Instruction.

Rationale for Evidencebased Strategy

Professional Learning Communities offer the foundation for teachers to learn and grow in their instructional practice. By utilizing classroom data to reflect on our instruction, reading about and learning effective practices, the number of students proficient should improve with better Tier 1 instructions.

Action Step

- 1. Develop a Master Schedule including multiple inventions times for tiers of support.
- 2. PLC teams will Identify priority standards by Unit/Module of Study.
- 3. Unpack the Standards (answer the questions, what do we expect students to learn, how do we know they are learning it, how do we respond whey they do not learn, how do we respond when they have already learned?
- 4. Develop Common Formative Assessments to measure our Tier 1 progress.

Description

- 5. Implement the Teach Teaching-Assessing Cycle
- 6. Identify Students for Tier 2 Support by Student, by Standard, and Learning Target Pay particular attention to our SWD's and Black students.
- 7. Monitor Progress of students receiving Tier 2 supports
- 8. Identify Students needing intensive (Tier 3) levels of support
- 9. Provide necessary supports in Tier 2 and 3 while working to improve the number of students proficient in Tier 1.

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

N/A

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, § 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

We are a Leader in Me School for the upcoming school year which entails, building leadership among our students, staff, and families. As part of our goal we will be offering parenting classes utilizing the Seven Habits of Highly Effective Families. Families will be invited monthly to attend workshops that will help build stronger relationships, supports, and understanding for one another. By utilizing the 7 habits we intend to build stronger relationships with our lower performing sub-groups to better understand and serve them.

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

For new incoming students we have a team of student leaders that show students around the building. Our outgoing students follow the Middle School plan for transitions. In 5th grade teachers specialize to allow students to familiarize themselves with having multiple teachers.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

The school leadership team meets at least monthly to determine how resources should be managed. Parent surveys, SAC members and community needs all play a part in supplying the leadership team with feedback for use and spending of funding. District supports and research are used to ensure

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

School leadership in the form of a guiding coalition, develops a plan for scheduling and how to align resources to meet the needs of all students. We utilize a Comprehensive Needs Assessment surveying parents and staff to identify areas for improvement and supplemental materials needs. Coaches and Resource Manager inventory assets to ensure ample resources are available to support student and teacher needs. The Leadership team continues the learning/best practice process to determine how to best deploy our assets.

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Anclote Elementary is an AVID school. We follow the principles of AVID and work to incorporate college and career ready skills in our daily work with students. Our 5th grade students participate in a leadership academy prior to the beginning of the school year and lead community service projects (all students participate in them) during the course of the year.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
