School Board Approval

This plan is pending approval by the Alachua County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Stephen Foster commits to STEAM ahead toward Leadership by:

- Synergizing with all
- Taking personal responsibility
- Encouraging genius
- Achieving our goals
- Making everyone a Leader

Provide the school's vision statement.

Steamers are Leaders!

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

| Name | Title | Job Duties and Responsibilities |
|--------------------|---------------------|---|
| Peterson, Lisa | Principal | Instructional Leader |
| Ball, Kim | Assistant Principal | Instructional Leader |
| Pearson, Karen | School Counselor | Student Support Services |
| Rodriguez, Mistie | Instructional Coach | Progress Monitoring |
| Yocum, Todd | Dean | Positive Behavior Intervention and Supports |
| Houde, Michele | Teacher, K-12 | Team Leader |
| Gatson, Julia | Teacher, K-12 | Team Leader |
| Andes, Summer | Teacher, K-12 | Team Leader |
| Davis, Shaci | Teacher, K-12 | Team Leader |
| Carrier, Julie | Teacher, ESE | ESE Team Leader |
| Ramos, Christina | Teacher, K-12 | Team Leader |
| Hemmerich, Kamie | Teacher, K-12 | Team Leader |
| Van Hart, Jenni | SAC Member | SAC Chairperson |
| Freiberg, Samantha | Teacher, K-12 | Team Leader |
| Weaver, David | Teacher, K-12 | Team Leader |

Early Warning Systems

Current Year

The number of students by grade level that exhibit each early warning indicator listed:

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Students with Disabilities and Black/African American students are performing below their same aged peers who are not in these categories in ELA, math and science. Contributing factors to low performance include: lack of prerequisite skills, and knowledge, targeted assistance with deficit skills, need for professional development for teachers, limited background knowledge and vocabulary, supports for school personnel related to class size and need for targeted instruction.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Growth was exhibited in all areas except for third and fifth grade reading, and 5th grade science. Factors that may have contributed to declines include: lack of prerequisite skills and knowledge, targeted assistance with deficit skills, need for professional development for teachers, limited background knowledge and vocabulary, supports for school personnel related to class size and need for targeted instruction,

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Stephen Foster students outperformed the state average in all areas. However, there are significant gaps in learning when looking specifically at students with disabilities and African-American students who are struggling in ELA, math and science. While a greater percentage of students scoring in the lowest quartile in ELA and math demonstrated a learning gain in ELA and math compared to 201/2018, these students continue to struggle.

Contributing factors to these gaps include needs for: learner readiness skills, improvement in classroom culture, professional development for new teachers, additional lesson planning to meet the

needs of diverse groups, standards based instruction with accommodations to meet the needs of learners with disabilities, and cultural responsiveness training.

Which data component showed the most improvement? What new actions did your school take in this area?

Our fourth grade math scores were significantly higher than the year before. Additional minutes for instruction and practice are a contributing factor as were targeted assessment/enrichment/ remediation of skills. Teachers worked together to develop standards based lessons. The teachers also worked with instructional coaches from the US Department of Education to refine their instructional practice.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

A large number of students exhibit attendance less than 90%. There are many students that are scoring below a level 3 in ELA and/or math. These same students are also struggling with satisfactory grades in those subjects.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Improve outcomes for students with disabilities
- 2. Improve outcomes for African American students
- 3. Improve learning gains in ELA for students in the lowest quartile
- 4. Improve learning gains in math for students in the lowest quartile
- 5. Increase equity in discipline

Part III: Planning for Improvement

Areas of Focus:

| TitleImprove outcomes for Students with DisabilitiesRationaleStudents with disabilities are not performing at the same level as their non- disabled peersState the measurable outcome the school plans to achieveAt least 41% of students with disabilities will score a level 3 or higher on state assessmentsPerson responsible for monitoring outcomeLisa Peterson (petersls@gm.sbac.edu)Evidence-based StrategyInstruction in general education classrooms, targeted instruction in deficit skills, higher order problem solving and questions, high expectations, and parental involvementPationale for Evidence-Students with disabilities that receive support in general education | | |

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Stephen Foster Elementary is in the second year of implementation of the Leader in Me. The Leader in Me is a school-wide school culture initiative targeting improved outcomes for all students through direct

instruction in the 7 Habits of Highly Successful Students. The Leader in Me Lighthouse Team identified multiple priorities based on the LIM End of Year Measurable Results Assessment. Priorities include improving student attendance, improving a supportive environment, increasing student led achievement, increasing family involvement, and improving student behavior. These priorities are the main focus of our school's leadership Lighthouse Team. The Lighthouse Team is comprised of the leaders of Action Teams

The Lighthouse Team constructed a Lead Plan that highlights school priorities for the Action Teams. Action Teams are focused on School Culture, Leadership and Academics. Teachers have received professional development in the 7 Habits of Highly Effective People, Launching Leadership, Creating Culture, and Aligning Academics. There is a priority instructional focus on one habit per month. Through the Leader in Me we are addressing the paradigm that Everyone Can be a Leader where leadership potential is recognized in all students.

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, § 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

Stephen Foster is committed to increasing parent and family engagement. Recent data suggests this is a major need at our school. We are working closely with our Parent Learning Action Team, Title I, and the PTA to coordinate meaningful activites for parents. These activities include regular parent meetings, science day, meetings for parents of ELLand ESE students, Leader in Me learning opportunities for parents, weekly school newsletter and phone homes, Student led conferences, Dad's Bring Your Kids to School day, the school carnival, and Leadership Day. in addition, parents have access to parent conferences throughout the year.

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

Stephen Foster students are learning the 7 Habits of Highly Effective Students through the Leader in Me program. There is a monthly focus on one habit per month starting with Habit 1: Be Proactive. Weekly time is devoted to direct instruction in the 7 Habits with a culminating Leadership Day at the end of the year.

Students are also engaging in social emotional lessons via the Harmony curriculum daily. Teachers host Morning Meetings in their classrooms. The school counselor has prescribed lessons in each class each month.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

We offer a middle school information night for parents. We conduct transition meetings for ESE students.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

The school leadership team includes the principal, assistant principal, school counselor, instructional coach and behavior resource teacher. The leadership team meets weekly to review practices and priorities. The leadership team meets with the grade level team monthly to address the priorities and goals for the school year. Data is collected and goals set based on needs of the school. Resources are allocated based on the needs and input from stakeholders.

Grade level team leaders meet with school leadership in the Steering Committee at least monthly to review progress and set goals. Information from the Steering Committee meeting is shared by the grade level Team Leader to the grade level teams. In addition, grade level teachers meet at least weekly to review data, design instruction, plan assessment, and redefine goals for the upcoming month. Grade level teams also meet with the the Instructional Coach to design standards based lesson plans and assessments.

All teachers participate in a Leader in Me Action Teams meet monthly to address goals and design activities for Leader in Me implementation.

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

In addition to college and career lessons and the Leader in Me lessons, teachers are encouraged to share their college journey story with their students. Teachers also display their college diplomas and other college themes in their classrooms as part of the common board configuration.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
