School Board Approval

This plan is pending approval by the Marion County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Positive caring educators will provide a rigorous curriculum incorporating high expectations with emphasis on character education. Legacy Elementary students will be responsible and respectful members of the community who take pride in all they do.

Provide the school's vision statement.

Learning with Pride...Leaving a Legacy.

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

| Name | Title | Job Duties and Responsibilities |
|---------------------|---------------------------|---|
| Murphy, Shameka | Principal | The Principal is the driving force and instructional leader of the school. She provides a common vision for the use of data-based decision–making, models the Problem Solving Process; supervises the development of a strong infrastructure; conducts assessment of the skills of school staff; ensures implementation of high yield instructional strategies, collaborative learning, intervention support and documentation; provides adequate professional learning opportunities; develops a culture of expectation with the school staff; ensures resources are assigned to those areas of most need; and communicates with parents as necessary. |
| Page, Ashley | School Counselor | The Guidance Counselor participates in collection, interpretation, and analysis of data; facilitates development of intervention plans; provides support for intervention fidelity and documentation; assists with professional development for behavior concerns; assists in facilitation data-based decision making activities. She also provides quality services and expertise on issues ranging from IEP development to intervention with individual students. She communicates with child-serving community agencies to support the students' academic, emotional, behavioral, and social success. |
| Swain, Angela | Assistant Principal | The Assistant Principal assists the Principal in providing a common vision for the use of data-based decision-making, assists in the development of a strong infrastructure of resources for the implementation of high yield instructional strategies, further assists the principal in the assessment of school staff, assists with the monitoring of implementation of intervention and necessary documentation, assists with the delivery of professional development for effective instructional delivery. The assistant principal carefully monitors the additional academic support schedule to ensure all personnel are serving in their specified areas. |
| Mason, Erinn | Administrative Support | The Content Area Specialist assists teachers with the interpretation and implementation of the Florida Standards for Language Arts and Writing and provides instructional support to include preparation of lesson plans, content alignment, content delivery methods and instructional modeling.She also assists in the design and implementation for progress monitoring, data collection, and data analysis, participates in the design and delivery of professional development. |
| Patton, Amanda | Administrative Support | The Content Area Specialist assists teachers with the interpretation and implementation of the Florida Standards for Math and provides instructional support to include preparation of lesson plans, content alignment, content delivery methods and instructional modeling. She also assists in the design and implementation for progress monitoring, data collection, and data analysis, participates in the design and delivery of professional development. |
| Schooley, Morgan | School Counselor | The Guidance Counselor participates in collection, interpretation, and analysis of data; facilitates development of intervention plans; provides |

| Name | Title | Job Duties and Responsibilities |
|--------------------|-------|---|
| | | support for intervention fidelity and documentation; assists with professional development for behavior concerns; assists in facilitation data-based decision making activities. She also provides quality services and expertise on issues ranging from IEP development to intervention with individual students. She communicates with child-serving community agencies to support the students' academic, emotional, behavioral, and social success. |
| Bagley, Lorenzo | Dean | The Student Services Manager (Dean) provides teachers with classroom support and feedback to ensure a safe, cooperative environment for learning to take place. Resources, such as behavior contracts, for at-risk students are carefully considered and shared by the SSM. He coordinates efforts to use positive reinforcements to encourage more positive behavior choices by students. He also monitors and shares disciplinary/attendance data, and serves on the PBIS/Safety committee. In addition, the SSM may act as a liaison with outside agencies that offer support to students and families |

Early Warning Systems

Current Year

The number of students by grade level that exhibit each early warning indicator listed:

| Indicator | Grade Level | | | | | | | | | | | | | |

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The science proficiency had the lowest performance with 39%. There has been a decrease in science proficiency since 16-17 school year. The drop in science proficiency from 16-17 school year (56%) to the 17-18 school year (39%) was 17% percentage points. The science proficiency form 17-18 school year to 18-19 school year remained the same. Continue to focus on understanding the standards and aligning the resources and materials to the depth of the Science standards.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Math proficiency dropped 3 percentage points. During math blocks their was no remediation and enrichment build in. The focus will to provide time for remediation and enrichment during the math blocks.Continue to focus more on bottom quartile students and not providing enrichment to the on and above students.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Math proficiency had the greatest gap of 18 percentage points when compared to the state average. There has been a decrease in math proficiency since 17-18 school year. The drop from 16-17 school year (56%) to the 17-18 school year (48%) was 8% percentage points. The math proficiency from 17-18 school year (48%) to 18-19 school year (45%) was 3% percentage points. We did not focus on remediation and enrichment during math blocks due to allocated time.

Which data component showed the most improvement? What new actions did your school take in this area?

ELA bottom quartile improved 19 percentage points. Teachers during data meetings tracked student progress and created plans for students that needed remediation of specific standards and adjusted the intervention based on individual student needs.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Reflecting on the EWS data the area of focus will be attendance and suspensions. Poor attendance has an negative impact on student learning. Students need to be present to receive instruction.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Improve proficiency in ELA
- 2. Improve proficiency in Math
- 3. Improve proficiency in Science
- 4. Improve the Federal Index for black/African Americans and students with disabilities
- 5. Improve Attendance rate (including decrease in out of school suspension)

Part III: Planning for Improvement

Areas of Focus:

| #1 | |
|---|--|
| Title | Collaboration |
| Rationale | Some teachers are not familiar or do not have a deep understanding of their content area standards which impacts them from properly aligning their instructional materials. |
| State the measurable outcome the school plans to achieve | If we provide teachers with supported collaboration opportunities focusing on standards based lesson planning (Backwards Design lesson planning) then the following will improve on the state assessments: ELA student learning gains from 51% to 56% ELA lowest 25% percentile from 46% to 51% ELA student proficiency from 43% to 48% Math student learning gains from 55% to 60% Math lowest 25% percentile from 45% to 50% Math student proficiency from 45% to 50% Science student proficiency from 39% to 44% |
| Person responsible for monitoring outcome | Shameka Murphy (shameka.murphy@marion.k12.fl.us) |
| Evidence- based Strategy | Collaboration - focused on understanding of the standards and instructional materials aligned to the standards |
| Rationale for Evidence- based Strategy | When teachers work collectively to deepen their knowledge of the curriculum, it has a positive impact on improving student achievement. Sharing best practices and utilizing instructional materials that align to the depth of the standards also has a positive impact on student achievement. The article written by Carla Thomas McClure "The benefits of teacher collaboration" it states, "to determine the relationship between teacher collaboration and student achievement, the researchers used reading and math achievements scores for 2, 536 fourth-graders, controlling for school context and student characteristics such as prior achievement. They found a positive relationship between teacher teacher collaboration and differences among schools in mathematics and reading achievement." |
| Action Step | |
| Description | Provide professional development on standard base lesson planning (Backwards Design Lesson Planning) for teachers. Provide collaboration opportunities every Tuesdays of the week for teachers to unpack standards and develop standard based lesson plans. (Math/ELA - K-2 alternate each week and 3-5 departmentalized meet every Tuesday) Provide collaboration opportunities every 1st and 3rd Thursdays of the week for teachers to review data to drive instruction. |
| Person Responsible | Shameka Murphy (shameka.murphy@marion.k12.fl.us) |

| #2 | |
|---|---|
| Title | Curriculum |
| Rationale | Students who cannot read have difficulties comprehending the content of other subject areas which impacts student academic performance. |
| State the measurable outcome the school plans to achieve | If we integrate literacy across content areas with differentiated instruction then the number of students in subgroups Student with Disabilities and Black/African American federal index will increase to 41% proficiency in ELA, Math, and Science. |
| Person responsible for monitoring outcome | Shameka Murphy (shameka.murphy@marion.k12.fl.us) |
| Evidence- based Strategy | I-Ready Achieve 3000 STEMScopes |
| | i-Ready diagnostic scores are strongly correlated with the scores on the FSA administered to students. Research also indicates that students achieve greater gains with at least 30-49 minutes per subject per week of i-Ready online instruction. This provides additional support to students to improve their reading. |
| Rationale for Evidence- based Strategy | Achieve3000 provides a literacy platform that provides differentiated instruction with embedded assessments to automatically deliver grade-appropriate content at students' individual reading levels. This will provide enrichment for the on and above students to maintain proficiency and increase their leaning gains in ELA. |
| | Schools that used STEMscopes improved their science proficiency by 3 percentage points on average. The results support previous research showing that inquiring-based science instruction has a cumulative effect on student science achievement. The more exposure students had to inquiry-based science through STEMscopes, the better they performed on the Florida state science assessment. |
| Action Step | |
| Description | Provide professional development for teachers on literacy and instructional strategies across the content areas. We will have a school wide emphasis on one strategy (S.P.A.D.E) which will be used in all content areas. Provide collaboration opportunities every Tuesday of the week for teachers to plan lessons and share best practices. Teachers utilize I-Ready tool box to use with students to improve literacy. Students will use I-Ready online program and workbooks as a supplement to assist in improving literacy. 5th grade teachers will use STEMScope and kits as a supplement to assist in improving literacy. Ready online program as a supplement to assist in improving literacy. Paraprofessional working with teacher and students to improve student achievement during class and MTSS block |

| Person | Shameka Murphy (shameka.murphy@marion.k12.fl.us) |
|-------------|--|
| Responsible | Shameka Mulphy (Shameka.mulphy@mahon.k12.n.us) |

| #3 | |
|---|--|
| Title | Instruction |
| THE | |
| Rationale | If students have the opportunity to talk through their thought process then they will be able to obtain the knowledge learned. To provide |
| State the measurable outcome the school plans to achieve | If we focus on developing students' Numbers Sense abilities through data analysis, hands on learning, small group instruction, and informal classroom assessments then the number of students scoring a 3 or higher in the Math FSA will increase from 45% to 50%. |
| Person responsible for monitoring outcome | Shameka Murphy (shameka.murphy@marion.k12.fl.us) |
| Evidence- based Strategy | Number Talks |
| Rationale for Evidence- based Strategy | Number talks is to support students' mathematical sense making and promote flexible thinking. Provides opportunity for students to develop number sense focused on making sense of quantity and mathematical relationships. Helps students understand that there can be many ways to solve a mathematics problem. Providing opportunities to explain their reasoning will assist in improving student achievement in math. |
| Action Step | |
| Description | Provide professional development on number talks for teachers. Provide collaboration opportunities every Tuesdays of the week for teachers to discuss best practices and next standard to address during instruction. Provide collaboration opportunities every 1st and 3rd Thursdays of the week for teachers to review data to drive instruction centered around number talks. |
| Person Responsible | Shameka Murphy (shameka.murphy@marion.k12.fl.us) |

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, § 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

The school will provide opportunities for parents, families, and other community stakeholder to participate in events that will build positive relationships and assist in fulfilling the school's mission and support the needs of students. The parents, families, and other community stakeholders will have opportunities to make suggestions and give feedback about the programs currently being utilized.

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

The Leadership team, Behavior Specialist, School Psychologist, and Social Worker meet twice a month to discuss students and any special needs. Students may be recommended for counseling, interventions, enrichment, behavior groups/monitoring, etc.

Legacy Teachers are proactive and make immediate contact with the guidance counselor should a concern arise with a student. A variety of community services are available to parents. Small group counseling sessions will be provided through the guidance department and community resources to support student emotional needs.

n/a

n/a

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Marion County Public Schools offer an Exceptional Education Pre-K program at Legacy for children 3-5 years of age. All students are fully integrated into our school thus helping them transition into Kindergarten. Kindergarten Safari is offered to incoming kindergarten students.

Middle school orientations are offered to 5th graders at Legacy to support the transition to middle school.

Articulation meetings are held for Pre-K ESE entering Kindergarten and 5th grade ESE and regular ed students entering middle school to provide a smooth transition and appropriate services.

FLKRS and ECHOS is administered to Kindergarten within the first 30 days to evaluate the effectiveness of these and other Pre-K programs.

Kindergarten registration kicked off in April and continued throughout the summer. Marion County Public Schools coordinated with Childhood Development Services Inc. and the Early Learning Coalition to get Pre-K students registered for Kindergarten in April. A school based week long Kindergarten Safari is planned for the Spring and is advertised through community based flyers, letters sent home with current students, and a "Skylert" phone message. Stagger Start is a district initiative to assist kindergarten students in transitioning into local elementary schools. The primary focus of stagger start is to give the staff the opportunity to administer assessments, including FLKRS, and begin to develop one-on-one relationships with students.

FLKRS and iReady is utilized in the first month of school for baseline data.

Legacy will offer a special orientation to all Kindergarten parents to give them information regarding school policies and procedures to help orient them to the school around April.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

Legacy Leadership team meets weekly to discuss data, observations of Tier 1 data/curriculum, and Tier 2 and Tier 3 students.

Title I Part A - Review Legacy Elementary's Title I budget.

Title I – Part C – Migrant Program:

District funds are used to purchase:

• School supplies,

• Fund a Migrant Liaison that works with schools and families to identify students and provide need referrals for families

Referrals to After School Tutorial Program to improve grades, increase promotion, improve attendance and reduce the dropout rate.

Families must meet the federal eligibility to participate in the program.

Title II – Part A: - District provides staff development activities to improve basic educational programs and to assist administrators and teachers in meeting highly qualified status.

Title III – Part A: Services are provided through the District, for education materials and ELL district support services on an as needed basis to improve the education of immigrant and English Language Learners.

Title X: District Homeless Social Worker provides resources for students identified homeless under the McKinney-Vento Act to eliminate barriers for a free and appropriate education.

Supplemental Academic Instruction (SAI)

Funds are used to help students gain at least a year of knowledge for each year in school and to help students not be left behind.

Exceptional Student Education: The Florida Diagnostic Learning Resource System is funded through EHA-Part B as amended by PL94-142, to provide Support Services to Exceptional Student Education Programs.

Health Department: District and schools coordinate with the Health Department for Absences Programs, Asthma Programs and Nurses that oversee school health clinics.

Voluntary Pre-Kindergarten Program: State funded Pre-K program offered at select school sites during the school year and summer offered at selected school sites.

Law Enforcement- Marion County Sheriff's Department: Bike Safety Week, Walk your Child to School....

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Marion County Public School implements standards provided by the state that are set to prepare students for success and make them competitive in the global workplace. Each Florida Standard provides clear expectations for the knowledge and skills students need to master in each grade (k-12) and subject so they will be prepared to succeed in college, careers and life.
