Demographics

Principal: Victoria Thomas

Start Date for this Principal: 7/1/2018

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Elementary School PK-5
Primary Service Type (per MSID File)	K-12 General Education
2018-19 Title I School	Yes
2018-19 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	100%
2018-19 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners* Black/African American Students* Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: C (43%) 2017-18: D (35%) 2016-17: C (46%) 2015-16: C (44%) 2014-15: C (45%)
2019-20 School Improvement (SI) Information*	
SI Region	Northeast
Regional Executive Director	Cassandra Brusca
Turnaround Option/Cycle	N/A
Year	
Support Tier	

ESSA Status	TS&I
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Marion County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan is pending approval by the Marion County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Belleview Elementary School will provide a quality learning environment where students will learn and become responsible, self-sufficient citizens, who will be willing and able to become contributing members of our democratic society.

Provide the school's vision statement.

Ensuring all students are learning to their maximum potential.

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Varnier, Stacey	Principal	To provide the visionary leadership necessary to design, develop, and implement a comprehensive program of instructional and support services which optimize available resources and to provide successful high quality experiences for students in a safe and orderly environment. Supervises all Administrative, Instructional, and Non-Instructional Personnel assigned to the school.
Clifford, Marty	Dean	To implement disciplinary procedures and policies to ensure a safe and orderly environment. In addition work with students and parents in creating educational plans for students that ensure improved academic success.
Binkley, Myriam	Instructional Coach	The Content Area Specialist serves as an academic coach for teachers and paraprofessionals utilizing effective coaching practices to build capacity and support student learning. Additionally, the Content Area Specialist serves as an intervention specialist for targeted students, based on need, for the specific area of content.
Finnie, Jasmine	Instructional Coach	The Content Area Specialist serves as an academic coach for teachers and paraprofessionals utilizing effective coaching practices to build capacity and support student learning. Additionally, the Content Area Specialist serves as an intervention specialist for targeted students, based on need, for the specific area of content.
Boireau, Ernestine	School Counselor	To provide students with educational, personal, and vocational counseling and to identify and coordinate all available resources to empower students to reach full potential.
Newton, Vincent	Teacher, K-12	To provide an educational atmosphere in which students will move toward the fulfillment of their potential for intellectual, emotional, physical, and psychological growth and maturation in accordance with District philosophy, goals and objectives.
Hamblen, Cristy	Teacher, K-12	To provide an educational atmosphere in which students will move toward the fulfillment of their potential for intellectual, emotional, physical, and psychological

Name	Title	Job Duties and Responsibilities
		growth and maturation in accordance with District philosophy, goals and objectives.
Woods, Vanessye	Teacher, K-12	To provide an educational atmosphere in which students will move toward the fulfillment of their potential for intellectual, emotional, physical, and psychological growth and maturation in accordance with District philosophy, goals and objectives.
Heyliger, Camille	Instructional Coach	The Content Area Specialist serves as an academic coach for teachers and paraprofessionals utilizing effective coaching practices to build capacity and support student learning. Additionally, the Content Area Specialist serves as an intervention specialist for targeted students, based on need, for the specific area of content.
Henry, Lindsey	Assistant Principal	The Assistant Principal assists the Principal in providing a common vision for the use of data-based decision-making, assists in the development of a strong infrastructure of resources for the implementation of high yield instructional strategies, further assists the principal in the assessment of school staff, assists with the monitoring of implementation of intervention and necessary documentation, assists with the delivery of professional development for effective instructional delivery. The assistant principal carefully monitors the additional academic support schedule to ensure all personnel are serving in their specified areas.
Weeman, Pamela	Teacher, K-12	To provide an educational atmosphere in which students will move toward the fulfillment of their potential for intellectual, emotional, physical, and psychological growth and maturation in accordance with District philosophy, goals and objectives.
Paiz, Laura	Teacher, K-12	To provide an educational atmosphere in which students will move toward the fulfillment of their potential for intellectual, emotional, physical, and psychological growth and maturation in accordance with District philosophy, goals and objectives.
Karr, Barbara	Teacher, K-12	To provide an educational atmosphere in which students will move toward the fulfillment of their potential for intellectual, emotional, physical, and psychological growth and maturation in accordance with District philosophy, goals and objectives.

Early Warning Systems

Current Year

The number of students by grade level that exhibit each early warning indicator listed:

Indicator	Grade Level													Total

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

According to our data from FSA our ELA component performed the lowest. The noticeable trend is our students are coming to us with a deficiency (majority in phonics). While we are working through the phonics continuum to meet the individual needs of the students, attendance and language barriers often times becomes a challenge to our systematic, explicit instruction.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

ELA showed the greatest decline from the previous year. ELA decreased by 1 percentage point with the number of students being proficient and 5 percentage points of students making learning gains in our lowest quartile. Many of our students in grades 3rd through 5th are missing the foundational components of reading, so by the time they are in upper elementary, they are struggling with reading to learn/master their grade level standards.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

ELA a 23 point difference from the state. Many of our students in grades 3rd through 5th are missing the foundational components of reading, so by the time they are in upper elementary, they are struggling with reading to learn/master their grade level standards.

Which data component showed the most improvement? What new actions did your school take in this area?

Math made the most improvement. Our Math and Science Content Area Specialists provided modeling, as well as analyze data with admin and teachers to address student weaknesses in their subject areas. Our Instructional Para's supported struggling students with additional resources throughout the day. Additional afterschool support was offered to selected students based off of their IReady Diagnostic AP2 data and resources were provided to them to meet their individual needs.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Our most potential area of concern is our attendance and mobility rate. Our School Counselor is planning HERO initiative to get students excited about being here.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Closing reading gaps in ELA
2. Building a strong reading foundation in K-2
3. Additional support to our students in our lowest quartile for ELA
4. Additional support to our students in our subgroups for ELA
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Improving Student Achievement in 3-5
Rationale	If students know their goals/standards and understand their individual data while teachers infuse rigor into their curriculum/instruction; our students will be able to master grade level expectations throughout the year.
State the measurable outcome the school plans to achieve	If we provide teachers with professional development focused on setting clear learning expectations, and infusing rigor into their instruction then learning gains of students in grades 3rd – 5th will increase from 46% to 51% in learning gains and 36% to 41% in proficiency as measured by district data analysis, QSMA, CSMA and FSA.
Person responsible for monitoring outcome	Lindsey Henry (lindsey.henry@marion.k12.fl.us)
Evidence-based Strategy	<p>The following strategies will be used to support teachers;</p> <ol style="list-style-type: none"> 1. Collaborative Planning 2. Ongoing data disaggregate 3. Co-teaching/ modeling by our CAS 4. Professional Development
Rationale for Evidence-based Strategy	If teachers are well prepared and understand how to instruct with rigor and, disaggregate data to meet the individual needs of students, then students will see an increase with students mastering grade level standards as measured by QSMA and FSA. Providing PD/ modeling in these areas will help our teachers and students be prepared during their ELA instruction block.
Action Step	
Description	Provide teachers with professional development to increase student engagement and rigor of instruction. The PD would include standards focus board, text complexity, collaboration, standards- based resources, item specs, and FSA blueprint. CAS will also provide coaching , co-teaching, modeling and data analysis support to effectively develop and implement standards- based instruction based on student needs and aligned with state standards. During Early Release Days, provide PD for our paraprofessionals, with standards- based resources and data analysis. As measured by the QSMA and IReady diagnostic, we will be able to determine if students' needs are being met.
Person Responsible	Lindsey Henry (lindsey.henry@marion.k12.fl.us)

#2	
Title	Improving Student Achievement in K-2
Rationale	Foundational skills are acquired developmentally during K-2 grades. Once they are acquired then full language literacy can be achieved.
State the measurable outcome the school plans to achieve	If we provide teachers and paraprofessionals with coaching, modeling, and data analysis support to effectively develop and implement standards based instruction based on students' needs and aligned with state standards then 70% of our students will be reading on grade level by the end of 19-20 SY as measured by IReady (growth and stretch goals).
Person responsible for monitoring outcome	Stacey Varner (stacey.varner@marion.k12.fl.us)
Evidence-based Strategy	<p>The following strategies will be used to support teachers;</p> <ol style="list-style-type: none"> 1. Collaborative Planning 2. Ongoing data disaggregate 3. Co-teaching/ modeling by our CAS 4. Professional Development
Rationale for Evidence-based Strategy	<p>Literacy is the ability to read for knowledge, write coherently and think critically about printed and orally presented material. The key to all literacy is reading development. This includes a progression of skills which moves from understanding spoken words to decoding/encoding written words and culminates into a deeper understanding of text.</p> <p>Reading development is the platform for reading fluency and comprehension. Once foundational skills are acquired then full language literacy can be achieved. The above strategies we will be using will give our students a stronger reading foundation as measured by IReady, DRA and standards checks.</p>
Action Step	
Description	Provide teachers with professional development to increase solid initial instruction on literacy. The PD would include standards focus board, phonics and vocabulary, collaboration, standards- based resources, and gradual release model. CAS will also provide coaching , co-teaching, modeling and data analysis support to effectively develop and implement standards- based instruction based on student needs and aligned with state standards. During Early Release Days, provide PD for our paraprofessionals, with standards- based resources and data analysis. As measured by standards checks, QSMA and IReady diagnostic we will be able to determine if students needs are being met.
Person Responsible	Stacey Varner (stacey.varner@marion.k12.fl.us)

#3

Title	Improving Student Achievement in Math K-5 Belleview Area of focus for the 2019-2020 school year is improving Number Sense within our students and assuring that our staff understands the different components of Number Sense: (a) fluency in estimating and judging magnitude, (b) ability to recognize unreasonable results, (c) flexibility when mentally computing, (d) ability to move among different representations and to use the most appropriate representations.
Rationale	Number sense is the foundation of our math skills as it refers to our ability to understand numbers and their relationships. Number sense and problem-solving are a big component of elementary Math because students need both skills to be able to answer questions that focus on quantitative problem-solving and algebraic problem-solving. Kindergarten :+6 First Grade : +18 Second Grade: +25 Third Grade: +21 Fourth Grade: +2 (80) Fifth Grade: + 31

State the measurable outcome the school plans to achieve	If we provide teachers with opportunities to participate in high quality collaborative planning focused on developing students' Number Sense abilities through data analysis, hands on learning, small group instruction, and informal classroom assessments then the IReady proficiency scores will increase to 75-80%.
Person responsible for monitoring outcome	Myriam Binkley (myriam.binkley@marion.k12.fl.us)
Evidence-based Strategy	The following strategies will be used to support our teachers; 1. Collaborative Planning 2. Professional Development 3. Disaggregate data 4. CAS Modeling/co-teaching
Rationale for Evidence-based Strategy	Research has proven that student scores improve when teachers collaborate and use data to drive instructions. According to the article by Joellen Killion: High Quality collaboration benefits teachers and students www.https://learningforward.org/docs/default-source/jsd-october-2015/high-quality-collaboration-benefits-teachers-and-students.pdf Results of this study suggest that teacher collaboration has positive effects on teachers and their students.

Action Step	
Description	We will focus on students Number Sense abilities are grade-level collaborations, small group instructions during centers, iReady progress monitoring, informal checks through classwork.
Person Responsible	Lindsey Henry (lindsey.henry@marion.k12.fl.us)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Part IV: Title I Requirements**Additional Title I Requirements**

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, Â§ 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

Our primary mission at Belleview Elementary School is to find ways of enhancing each child's learning opportunities. We strive to work collaboratively with parents and families to nurture a love for learning and to help our students become lifelong learners. We believe that each child should be given opportunities to achieve and be successful and understand active participation by parents and family will help promote this success. We will work together to establish effective family-school partnerships. School and home must also work together to help ensure our students will achieve and succeed.

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

Teachers and students have been told that the students can request time with the guidance counselor as needed. The procedure is for the teacher to call the guidance office to ensure that the guidance counselor is available. If there is need for long term counseling then the guidance counselor will refer the student out to community resources. The guidance counselor also offers classroom guidance lessons that any teacher can request at any time. The guidance counselor will also work with small groups of students on a weekly basis which focus on appropriate behaviors. She will service Tier II and Tier III students for behavior.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

We utilize a Title I Pre-Kindergarten/VPK program to be able to serve 20 pre-kindergarten students each year in preparation for kindergarten. We also encourage parents whose students are not enrolled in our pre-kindergarten program to enroll their child in another VPK program in a private setting or in the district's summer VPK program. We also have a ESE pre-kindergarten classrooms that serve pre-kindergarten students with identified special needs.

For our 5th grade students, we invite the middle schools in our area to come to our school to do an orientation session with our students during the school day. Special Education students attend their individual articulation meetings between our school and the middle school.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

The Instructional Coaches and Assistant Principal disaggregate data, create data charts/spreadsheets to share with Teachers and Principal, and create data charts. The administrators utilize the data information to determine how to provide additional support needed such as materials, adjustments of paraprofessionals to provide enrichment or remediation. The team meets throughout the year to discuss data results, professional development needs, and other training needs and makes decisions based on data and feedback. The assistant principal and CAS are responsible for keeping the inventory of resources available for teachers to use. The team examines individual needs of struggling students to select the program or materials that will best serve the students on Tier 2 or 3.

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Marion County Public Schools implements standards provided by the state that are set to prepare students for success and make them competitive in the global workplace. Each Florida Standard provides clear expectations for the knowledge and skills students need to master in each grade (K-12) and subject so they will be prepared to succeed in college, careers and life.
