Demographics

Principal: Tom Patton

Start Date for this Principal: 7/9/2019

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	High School 9-12
Primary Service Type (per MSID File)	K-12 General Education
2018-19 Title I School	No
2018-19 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	69%
2018-19 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners* Asian Students Black/African American Students Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: B (58%) 2017-18: B (57%) 2016-17: C (52%) 2015-16: C (50%) 2014-15: B (59%)
2019-20 School Improvement (SI) Information*	
SI Region	Southwest
Regional Executive Director	
Turnaround Option/Cycle	N/A
Year	
Support Tier	

ESSA Status	TS&I
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Polk County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan is pending approval by the Polk County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Our mission is that each student is prompt, polite, and prepared.

Provide the school's vision statement.

Our vision is that each student will graduate with the skills necessary to be successful in college or in a career.

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Patton, Tom	Principal	<p>Provides a common vision for the use of data-based decision making, ensures that the school-based team implements sound instructional practices, conducts evaluations of school staff, ensures implementation/ documentation of a multitiered system of interventions and supports, ensures that adequate professional development opportunities exist and that these opportunities represent research-based, educational best practices that serve to enhance both the depth and breadth of the school's abilities both academic and beyond.</p> <p>The principal also ensure that appropriate and diverse methods of communication are in place to inform parents and other community stakeholders of school-based plans and activities.</p>
Emmerling, Lacy	Assistant Principal	<p>Assist and facilitate the common vision for the use of data-based decision making, ensure that the school-based team is implementing research-based, effective instructional strategies, conduct both informal and formal assessments of school staff, ensure implementation/documentation of a multi-tiered system of interventions and supports, ensure that adequate professional development opportunities exist and that these opportunities represent research-based, educational best practices that serve to enhance both the depth and breadth of the campus' instructional capacity, and communicate with parents regarding school-based plans and activities.</p>
Hiers, William	Assistant Principal	<p>Assist and facilitate the common vision for the use of data-based decision making, ensure that the school-based team is implementing research-based, effective instructional strategies, conduct both informal and formal assessments of school staff, ensure implementation/documentation of a multi-tiered system of interventions and supports, ensure that adequate professional development opportunities exist and that these opportunities represent research-based, educational best practices that serve to enhance both the depth and breadth of the campus' instructional capacity, and communicate with parents regarding school-based plans and activities.</p>
Goodman, Robert	Instructional Technology	<p>To ensure that the quality and quantity of technology is abundant and satisfactory across campus, and that teachers feel supported and ready for the classroom concerning their technology. In addition, Mr. Goodman diligently keeps track, updates, and monitors all technology across campus, and makes sure that each piece of technology is up to date and ready for usage and any time.</p>
Crosby, Erin	Dean	<p>This group provides information about core instruction, participates in student data collection, helps facilitate instructional and intervention supports, collaborates with staff to improve/implement intervention supports, and integrates materials/instructional techniques within the framework of the district curriculum maps.</p>
Rawson, Daniel	Dean	<p>This group provides information about core instruction, participates in student data collection, helps facilitate instructional and intervention</p>

Name	Title	Job Duties and Responsibilities
		supports, collaborates with staff to improve/implement intervention supports, and integrates materials/instructional techniques within the framework of the district curriculum maps.
Walton, Jonathan	Dean	This group provides information about core instruction, participates in student data collection, helps facilitate instructional and intervention supports, collaborates with staff to improve/implement intervention supports, and integrates materials/instructional techniques within the framework of the district curriculum maps.
Provino, Lisa	Instructional Coach	The reading coach is instrumental in knowing the instructional practices and capacity of our teachers and providing input regarding professional development themes/design that would be beneficial for all staff. She will work with our deans to run an induction program for our new teachers and will ensure that they are monitored, encouraged, and provided with necessary support. She will work closely in designing cohesive lessons in our Reading and English departments in an effort to ensure seamless instruction and to maximize literacy-based efforts.
Akins, Ladreda	Assistant Principal	Assist and facilitate the common vision for the use of data-based decision making, ensure that the school-based team is implementing research-based, effective instructional strategies, conduct both informal and formal assessments of school staff, ensure implementation/documentation of a multi-tiered system of interventions and supports, ensure that adequate professional development opportunities exist and that these opportunities represent research-based, educational best practices that serve to enhance both the depth and breadth of the campus' instructional capacity, and communicate with parents regarding school-based plans and activities.
Vancamp, Jane	Other	Our school success coach works to identify students are behind in grade level when compared to their cohort, have a GPA below 2.0, or are otherwise deemed at-risk to not graduate with a diploma. Once identified, she works to build relationships with these students and their families, learn their goals and their strengths/weaknesses, and develop a plan to ensure that they successfully graduate with a diploma. Once a plan is created, she monitors students' progress towards achieving the goals within the plan, ensures that necessary supports are in place, and continually updates the plan of action, as needed. The role of the Success Coach is to ensure that every child, no matter the background or difficulties, has the support needed to graduate with a diploma and a plan for success in life after high school.
Corcelles, Taina	Teacher, K-12	The ELL instructor provides guidance for the ELL plan and participates in the collection, interpretation, and analysis of student data. She facilitates the development of intervention/support plans, provides support for intervention fidelity and documentation, and provides professional development and technical assistance for problem-solving activities including data collection, data analysis, intervention planning, and program evaluation. She also

Name	Title	Job Duties and Responsibilities
		facilitates data-based decision making activities that enhance the effectiveness of instruction delivered to our ELL students.
Hamid, Linda	Teacher, ESE	Serve as the facilitator and Lead Teacher for the ESE department and participate in student data collection, integrate core instructional activities/ materials into the instructional framework, and ensure that collaboration between ESE teachers and general education teachers are utilized consistently through activities such as consult, co-teaching, and support facilitation.
Odum, Denise	Teacher, ESE	Serve as the facilitator and Lead Teacher for the ESE department and participate in student data collection, integrate core instructional activities/ materials into the instructional framework, and ensure that collaboration between ESE teachers and general education teachers are utilized consistently through activities such as consult, co-teaching, and support facilitation.
Durham, Dan	Assistant Principal	Assist and facilitate the common vision for the use of data-based decision making, ensure that the school-based team is implementing research-based, effective instructional strategies, conduct both informal and formal assessments of school staff, ensure implementation/documentation of a multi-tiered system of interventions and supports, ensure that adequate professional development opportunities exist and that these opportunities represent research-based, educational best practices that serve to enhance both the depth and breadth of the campus' instructional capacity, and communicate with parents regarding school-based plans and activities.

Early Warning Systems

Current Year

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The data component that showed the lowest performance was Algebra EOC with a 50%. Students entered Algebra without sufficient computational ability. A contributing factor to the decline in achievement was the increased amount of students who were enrolled in Algebra IB; the students scheduled in Algebra IB have history of scoring an achievement level of one or two on state assessments.

Another area that is noted is our school's ESSA data with Students with Disabilities. The mandatory state average must be 41%, and the George Jenkins current average is 35%. With this in mind, a focus will be placed on strategically hand-scheduling students into supports in academic classes, additional trainings for both content teachers and ESE teachers, increasing common planning for ESE teachers to identify and develop interventions for students' struggling in multiple contents, and scheduling changes for struggling students in academic courses mid-year.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The data component that showed the greatest decline was Algebra, with a -13% decline from 63% in 2018 to 50% in 2019. A contributing factor to the decline in achievement was the increased amount of students who were enrolled in Algebra IB; the students scheduled in Algebra IB have history of scoring an achievement level of one or two on state assessments.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

With the current data available, the component that had the greatest gap when compared to the state average was for 9th grade ELA, with a -2%. The school's average was 53% and the state's average

was 55%. Factors that contributed to this gap and trends would be specific content related teacher absences. In addition, data from our ESE student achievement continues to indicate that this subgroup needs additional interventions and support.

Which data component showed the most improvement? What new actions did your school take in this area?

The data component that showed the most improvement was a 21% gain in Geometry, from 41% to 62%. There was a unilateral focus on common assessments during horizontal and vertical planning, there was extra tutoring after school, and there were item reflection with progress monitoring assessments.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

After reflecting on the EWS data from Part I, two/three identified areas of concern were attendance below 90% for ninth grade students, which was 75 students (the highest among all grades), the course failure for 12th grade students (ALG I, ALG 2, ELA, or MA), which was 92 students, and the level I score on statewide assessments for ninth grade students, which was 142 students.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Student with disabilities.
2. Lowest 25% for Math gains.
3. Lowest 25% for ELA gains.
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	SWD
Rationale	Students with disabilities were below the mandated percentage of 41% with the school's ESSA data.
State the measurable outcome the school plans to achieve	The measurable outcome that the school plans to achieve is to raise the total by 3%, from 34% to 37%.
Person responsible for monitoring outcome	Lacy Emmerling (lacy.emmerling@polk-fl.net)
Evidence-based Strategy	There will be a thorough review of ESE students' classes and utilizing their Teachers of Record to make sure that each student will have the necessary support in the classroom needed. In addition, ESE students will be hand scheduled, based on their IEP's, and efforts will be made to match students with teachers who will best compliment their learning styles and personalities.
Rationale for Evidence-based Strategy	We collaborated with the district-based ESE staff to determine the best placement for students based on their services and accommodations.
Action Step	
Description	<ol style="list-style-type: none"> 1. Strategically hand-scheduled students into supports in academic classes. 2. Additional trainings for both content teachers and ESE teachers. 3. Increase in common planning for ESE teachers to identify and develop interventions for students' struggling in multiple contents. 4. Schedule changes for academic courses mid-year.
Person Responsible	Lacy Emmerling (lacy.emmerling@polk-fl.net)

#2	
Title	Lowest 25% in Math
Rationale	This group covers a wide range of subgroups. Focusing on the lowest 25% of math also covers multiple core math classes, such as ALG I, ALG IB, and Geometry. Sufficient growth in this component has not been evident throughout the past three years.
State the measurable outcome the school plans to achieve	The measurable outcome the school plans to achieve is a 3% gain for the 2019-2020 school year.
Person responsible for monitoring outcome	William Hiers (william.hiers@polk-fl.net)
Evidence-based Strategy	Teachers will identify and track the progress of their lowest 25% throughout the year. Common planning meetings will show an intentional focus on identifying common deficiencies within this subgroup and incorporating remedial teacher strategies/materials into instruction.
Rationale for Evidence-based Strategy	Embedding an ongoing plan for data analysis is a best practice that allows teachers to incorporate "live" data/assessment results into the lesson planning process. It allows for an ongoing analysis of specific standards that students have mastered, while also showing areas of needed growth. Common planning meetings among teachers have shown to produce tasks and assessments whose quality exceeds that of individual teachers.
Action Step	
Description	<ol style="list-style-type: none"> 1. Teachers and administration will utilize data available in Unify to determine students' past performance in mathematics. Baseline pre-requisite skills tests will be incorporated within the first two weeks of school to provide additional, current information about students' abilities 2. Teachers and administration will determine which students comprise the lowest 25% component. 3. Common planning meetings will show a focus on tracking these students and showing growth throughout the school year. 4. Support from district math coaches will be utilized, as needed, to incorporate resources that will engage the lowest 25% of students. 5.
Person Responsible	William Hiers (william.hiers@polk-fl.net)

#3	
Title	Lowest 25% in ELA
Rationale	This group covers a wide range of subgroups, such as ESE (34%), ELL (43%), and Black/African American Students (45%). Focusing on the lowest 25% of ELA allows a narrow focus on students who take ELA I and ELA II FSA exam; allowing administration to provide better support with either tutoring, additional reading classes, and/or progress monitoring with teachers.
State the measurable outcome the school plans to achieve	The measurable outcome the school plans to achieve is a 5% gain for the 2019-2020 school year.
Person responsible for monitoring outcome	Lacy Emmerling (lacy.emmerling@polk-fl.net)
Evidence-based Strategy	<p>The strategy will be multi-tiered. Curriculum will be adjusted to fit the FSA testing schedule, so that teachers' content will match testing content. Also, to add focus on writing, teachers will be grade norming progress monitoring essays multiple times a year, and have students go through the writing process up to four separate times. In addition, teachers will have a week of reading prep before the FSA reading exam, and a week of writing prep for the FSA writing exam. Finally, each ninth and tenth grade teacher will have a personalized breakdown of the prior scores from the 2018-2019 school year and a breakdown for new students entering their class for the 2019-2020 school year; allowing them to narrow down the focus of their instruction.</p>
Rationale for Evidence-based Strategy	<p>The level of evidence will be a weekly meeting discussing best practices and well as grade norming for progress monitoring essays. In addition to grade norming, for each progress monitoring essay there will be a reflection process for each teacher, narrow down the scope of what writing strategies they should be working on. There will also be weekly walk-throughs by administration, and provided reading/writing prep for students prior to both the FSA reading and Writing exams. In addition, Ms. Provino (Reading coach) and Mr. Walton (Dean of students) will also be available for support and accountability, as well as meeting with Ms. Musselman (Department Head) and other English teachers on certain practices or ideas they wish to implement.</p>
Action Step	
Description	<ol style="list-style-type: none"> 1. Each teacher receives a breakdown of prior scores from 2018-2019 school year on FSA reading and Writing, as well as a breakdown on students entering their classrooms for the 2019-2020 school year. 2. Adjusted curriculum for FSA testing. 3. Multiple thorough writing process for each student on progress monitoring essays. 4. Reading and writing prep before FSA exams. 5. Narrowed scope for common planning with grade norming.
Person Responsible	Lisa Provino (lisa.provino@polk-fl.net)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, Â§ 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

N/A

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

Our incoming freshman class is targeted in January prior to the freshman year. We host a parent/student night that showcases our career academies, AP courses, clubs, and athletics for students to be involved in. Freshman Orientation is scheduled in the evening, separate from Upperclassmen Orientation, and provides an opportunity for incoming freshmen to familiarize themselves with our campus, club and sports opportunities, and school procedures. During the freshman year our guidance staff meets with every freshman to discuss the next three years and post-secondary options. Each year after the student meets the guidance staff to review the same information and help explore more options. During the junior year a focus is placed on the post-secondary level with college and career fair and meetings with guidance staff. This focus continues as the student prepares for the senior year where several dual enrollment and AP courses are offered. During the senior year, the guidance staff along with the senior level teachers assist student with the college application process, exploring scholarship opportunities, and complete a check list for graduation requirements.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

The leadership team meets once a week to discuss and identify needs of the students and staff. Each team member provides input on academic instruction, student concerns, dropout prevention, professional development, policies, and facility issues. The team works together to address the issues/ concerns and the implementation of policies. Input from the School Advisory Committee, Academic Booster Club, and Career Academy Advisory Boards are also brought to the group during these meetings. The leadership team provides insight to the principal so that he can make decisions which determine how to apply resources for the highest impact.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

Each fall we host a college and career fair for all juniors and seniors to attend. In addition we have universities and businesses that visit the school throughout the year to recruit students and provide information about various opportunities. Our guidance department has a college and career center that students can visit to receive more information. Reach Higher Polk was created last year in an attempt to make students aware of opportunities that exist with both College and Career. As part of the Reach Higher Polk initiative, our guidance office offered a FAFSA night and invited students and parents to come into our Media Center and complete the FAFSA form for financial aid. Our guidance counselors were available to assist in the completion of the FAFSA. Several of our teachers also assist students before and after school with college/university applications and scholarship applications. All of our career academies offer exposure to industry/community organizations and several of these relationships have led to formal internships or job opportunities.

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.
