School Board Approval

This plan is pending approval by the Escambia County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our lowest data component on the FSA was ELA lower quartile learning gains at 43%. This area has been the lowest for the last two testing years.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The data shows no decline in any of the testing areas.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The biggest gap, when compared to the state average, is our ELA lower quartile learning gains at 43%
while the state is 53%.

Which data component showed the most improvement? What new actions did your school take in this area?

The area showing the most improvement was Math learning gains at 81%, which is 12
points gain from the previous year, 69%. All students received individualized math instruction using supplemental math programs such as i-Ready, Accelerated Math and Moby Max. Teachers and administration
reviewed progress monitoring data together on a quarterly basis, and teachers adjusted instructional calendars and activities accordingly.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

We have 89 students who have attendance below 90% and 24 who failed ELA or Math in grades 1-5.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Based on FSA data: Learning Gains for our Lower Quartile
2. Based on FSA Data: Science Achievement
3. Based on EWS: the number of students with attendance below 90%
4.
5.

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	ELA Lower quartile learning gains
Rationale	Based on FSA data, we gained 1% point from 42% to 43% this year.

State the measurable outcome the school plans to achieve	Blue Angels will increase ELA lower quartile learning gains to 45%
Person responsible for monitoring outcome	Jayne Murphy (jmurphy3@ecsdfl.us)
Evidence-based Strategy	We will continue SRA small groups in grade 3-5; teachers will provide small group differentiated instruction in the classroom based on STAR 360, i-Ready data as well as daily observations; Students will complete leaner specific i-Ready lessons weekly.
Rationale for Evidence-based Strategy	SRA offers a direct teaching approach based on the students current reading level; differentiated small groups int the classroom, based on data, provides different avenues for learning objectives; i-Ready offers individual lesson based on the students skill base and they move at their own pace.

Action Step	
Description	1. Provide a scheduled time for SRA groups 2. Provide materials and training as needed for differentiated learning groups 3. Meet with instructional staff to discuss the progress of students 4. 5.
Person Responsible	Jayne Murphy (jmurphy3@ecsdfl.us)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).
