<b>SI Region</b>	Southeast
<b>Regional Executive Director</b>	<a href="#">LaShawn Russ-Porterfield</a>
<b>Turnaround Option/Cycle</b>	N/A
<b>Year</b>	
<b>Support Tier</b>	

ESSA Status	TS&I
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, <a href="#">click here</a> .	

### School Board Approval

This plan is pending approval by the Broward County School Board.

### SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at [www.floridacims.org](http://www.floridacims.org).

### Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

### School Board Approval

This plan is pending approval by the Broward County School Board.

### SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at

<https://www.floridacims.org>.

### Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part I: School Information

### School Mission and Vision

#### **Provide the school's mission statement.**

The mission of Stranahan High School is to empower students with the academic, social, and career decision-making skills to prepare them to become productive, responsible citizens in a global society and to pursue a career plan to meet the challenges of the workplace.

#### **Provide the school's vision statement.**

The vision of Stranahan High School is through positive reinforcement, a rich cultural diversity and an innovative curriculum with quality instruction, Stranahan graduates will have acquired the necessary knowledge and skills needed to make positive decisions and to assume civic responsibility in a more diverse world.

### School Leadership Team

#### **Membership**

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Padura, Michelle	Principal	Provide the leadership and management necessary to administer and supervise all programs, policies and activities of the school to ensure high quality educational experiences and services for the students in a safe and enriching environment.
Ward, Kenneth	SAC Member	SAC Chair - The chair is responsible for notifying members of upcoming meetings and votes. The chair, or designee, will facilitate the SAC meetings and inform the SAC of relevant issues related to school improvement activities. They also ensure that a quorum is present before an action item on the agenda comes to a vote and works in collaboration with the SAC secretary to ensure minutes are recorded and filed promptly.
Brown, Chukwunyerem	Instructional Coach	<p>The goal of the Instructional Math Coach is to improve and sustain student achievement by promoting a culture of guidance and support around professional capacity systems that support the systemic use of data, accelerated student learning and engagement with teachers in deliberate dialogue around targeted groups of students.</p> <ol style="list-style-type: none"> <li>1. Support instructional coach and teacher collaboration to ensure planned lessons are aligned with Florida standards and reflect evidence of student learning.</li> <li>2. Provide support in the development of effective grade/subject level lesson plans.</li> <li>3. Observe classroom lessons, collect instructional practice data, and effectively communicate feedback.</li> <li>4. Assist coaches in examining student data through the inquiry process to work toward student learning goals.</li> <li>5. Oversee collection, analysis and use of data to identify student learning assets and needs and support instructional improvement for accelerated growth.</li> <li>6. Support coaches and teachers in setting instructional outcomes, and designing and using formative assessments to inform instruction and accelerate student learning.</li> <li>7. Collaborate in the development of opportunities to deepen teachers' knowledge of culturally responsive instructional strategies and their effective use.</li> <li>8. Plan and facilitate data analysis meetings with teacher collaboration teams (PLC's).</li> <li>9. Provide professional learning on understanding and implementing the Florida standards and aligned to the instructional practice framework.</li> </ol>

Name	Title	Job Duties and Responsibilities
		<p>10. Provide background and leadership on the instructional practices rubric to staff; assist teachers in understanding elements, support teachers in effectively implementing instructional practices in the classroom and ensure they are aligned to the Florida Standards.</p> <p>11. Collaborate with principals to ensure school goals are being met.</p> <p>12. Collaborate with the Office of Academics and the Office of School Performance and Accountability to ensure seamless instruction of content.</p> <p>13. Facilitate instructional rounds as planned by the school leadership team.</p> <p>14. Maintain and submit required documentation, including but not limited to, coaching logs, data analysis for coach and teacher development and calendar reflecting support activities and scheduled meetings</p> <p>15. Perform and promote all activities in compliance with the equal employment and nondiscrimination policies of The School Board of Broward County, Florida.</p> <p>16. Participate in professional learning to enhance individual skills and proficiency related to the job responsibilities.</p> <p>17. Review current developments, literature and technical sources of information related to job responsibilities.</p> <p>18. Ensure adherence to safety rules and procedures.</p> <p>19. Follow federal and state laws, as well as School Board policies.</p> <p>20. Perform other duties as assigned.</p>
Brown, Samantha	Instructional Coach	<p>The goal of the Instructional Literacy Coach is to improve and sustain student achievement by promoting a culture of guidance and support around professional capacity systems that support the systemic use of data, accelerated student learning and engagement with teachers in deliberate dialogue around targeted groups of students.</p> <p>1. Support instructional coach and teacher collaboration to ensure planned lessons are aligned with Florida standards and reflect evidence of student learning.</p> <p>2. Provide support in the development of effective grade/subject level lesson plans.</p> <p>3. Number of Consecutive Years Economically Disadvantaged Students Subgroup Below 32%	

## Analysis

### Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

**Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.**

According to the 2019 School Data, the lowest performing component identified is Math Achievement with a proficiency of 35%. In addition, the subgroup students with disabilities (SWD) depicts a 16% proficiency for the Math Achievement component. A new program, Math Nation, was introduced and possibly contributing to low proficiency. In addition, an inconsistency in monitoring the students with disabilities (SWD) and English language learners (ELL) subgroups to insure student deficiencies are being met. Other contributing factors might include students having more support for receiving and completing make-up assignments due to absenteeism or transportation barriers might exist that need investigating. Additional data trends for lowest performance include a proficiency of 12% for ELA Achievement and 14% Science Achievement within the students with disabilities (SWD) subgroup. In addition, data also shows a proficiency of 18% for ELA Achievement within the English language learners (ELL) subgroup. When taking a closer look at the data for subgroups, the students with disabilities (SWD) subgroup shows 6 points for College & Career Acceleration in 2016-17.

**Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.**

According to the Components by Subgroup 2019 data, the Math Learning Gains Lower 25% component showed a 38 point decline in proficiency for the English language learners (ELL) subgroup. (WHAT WERE THE CONTRIBUTING FACTORS?)

**Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.**

According the 2019 School Data, the Social Studies Achievement component showed the greatest gap compared to the state average with a 25 point deficit differential. (CONTRIBUTING FACTORS) Data trends show that the school's gap differential is about 20 points below the state average for all statewide assessments.

**Which data component showed the most improvement? What new actions did your school take in this area?**

The data component that showed the most improvement was the Graduation Rate between 2018-2019 for the students with disabilities (SWD) subgroup, showing a 26 point increase. In addition, the Science Achievement showed an 18 point increase within the English language learners (ELL) subgroup. (What new actions did your school take in this area?)

**Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)**

Analysis of the Early Warning Signs data shows a direct correlation between the number of students in 9th and 10th grades with attendance and suspension issues and the number of failures in either ELA or Math proficiency and a Level 1 on the statewide assessment. These correlation numbers are most likely affecting the student achievement data within Math and ELA.

**Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.**

1. Students with disabilities (SWD) subgroup proficiency of 41% within the ESSA Federal Index.
2. English language learners (ELL) subgroup proficiency of 41% within the ESSA Federal Index.
3. All students increasing proficiency in Achievement, Learning Gains, and Learning Gains Lower 25% in ELA state assessment.

## Part III: Planning for Improvement

### Areas of Focus:

#1	
<b>Title</b>	Increase the ESSA Federal Index of Student With Disabilities (SWD) to 41%
<b>Rationale</b>	Our ESSA federal index for the subgroup of SWD is 29%, which is below the 41% for the federal index threshold.
<b>State the measurable outcome the school plans to achieve</b>	By June 2020, the ESSA federal index for SWD will increase to 41% through the implementation of evidence based instructional strategies, professional development for all general education teachers and ESE teachers and staff to enhance the quality of instructional practices, and parental/community involvement.
<b>Person responsible for monitoring outcome</b>	Alice Thurston (alice.thurston@browardschools.com)
<b>Evidence-based Strategy</b>	<p>The following evidence -based strategies will be implemented with fidelity. Florida Continuous Improvement Model (FCIM) will allow teachers will to disaggregate student assessments, follow instructional calendars, and deliver rigorous and relevant lessons, while conducting ongoing common assessments, provide tutoring for non-mastery students and providing enrichment for mastery students. Leadership will conduct classroom walk-through (CWT) and data chats to ensure progress monitoring. A Multi-Tiered System of Support (MTSS) that is inclusive of both explicit and differentiated instruction throughout the tiered model of support to address the variance of learning needs of ALL students in an engaging and rigorous learning environment. Family and Community Engagement, (FACE), by developing and maintaining relationships with parents, municipalities, business partners, and non-profit organizations leading to an increase in the motivation of our staff and students, creating opportunities to celebrate student and employee success, and bringing our community together.</p>
<b>Rationale for Evidence-based Strategy</b>	<p>Our school's annual needs assessment, which is administered to our internal stakeholders (teachers, staff, and families), noted that there was an identified need to increase the rigor within our subjects by providing students with more challenging assignments, differentiating instructional strategies, and providing additional homework. Our data also indicates that our instructional efforts needs to be more efficient in the core instruction (Tier 1) and the instruction in Tier 2 and 3 should support core by addressing the academic needs of the student. Families identified a need for additional communication from teachers on their child's progress and having a better understanding of how their child is graded. In addition, parents would like to have more support services such as counseling, tutoring and/or career planning.</p>
<b>Action Step</b>	
<b>Description</b>	<p>Stranahan's teachers will be actively collaborating with each other through common planning and authentic PLCs. Within our departmental Professional Learning Communities, the district's Curriculum, Assessment, Remediation and Enrichment (C.A.R.E) cycles are being used to help teachers with meeting the academic needs of their students. District Instructional Focus Calendars (IFC) are being used to help teachers facilitate Florida State Standards. During PLCs, teachers collaborate to create Instructional Cycle/ Assessment calendars that meet the needs of specific departments and are aligned to the dates of the End-of-Course (EOC) and Florida State Assessment, (FSA). PLCs are using common formative assessment data to monitor student achievement. The data is being used to drive remediation and enrichment strategies. Instructional coaches and department chairs are facilitating PDs for unwrapping the Florida Standards with the teaching staff during</p>

common planning and PLCs. The district provides content specific learning goals and performance tasks through the district share point which teachers are accessing to help guide instruction. Administrative data chats will be conducted for the 1st half of the year according to content-area PLCs. Math, English, Reading and Biology PLCs are using this data to help drive their instruction by identifying students' success and deficiency to help facilitate student remediation and enrichment through pullouts and extended learning opportunities such as Saturday Camps. Lower quartile (LQ) student data aligned with gain predictions toward proficiency were provided to instructional staff to help in targeting students' strengths and weaknesses. In addition, Level 2 student data aligned with gain predictions toward proficiency were also provided. Administration, instructional coaches and department chairs will continue to provide on-going support, monitoring of fidelity of implementation on the FCIM lessons and student response to mini-lessons. In addition, Stranahan's authentic PLCs will continue to identify strengths and weaknesses of students, utilize data to drive discussion with PLC's and/or department meetings, and utilize data to target, differentiate, and drive instruction for students within content-specific areas. The RTI process is in place and teachers are currently implementing interventions for all TIER II or TIER III students with Early Warning Signs. Teachers are provided with updates on their students being serviced through the RTI process. Based on Admin feedback from classroom walk through (CWT) data, our PD will focus on the following areas for improving quality of instruction – Marzano Framework (Providing Rigorous Learning Goals and Performance Scales (Rubrics), Establishing Classroom Routines, and Helping Students Practice Skills, Strategies, and Processes), Effective Instructional Grouping, Effective Data Driven Instruction, and Effective Technology Integration. Stranahan's high school students have the opportunity to attend dual enrollment classes that will provide them with the necessary credits to further their education at Broward College. Broward College courses are located on campus for all students who met the criteria to attend.

#3	
<b>Title</b>	Increase student proficiency on the ELA state assessment to 47%
<b>Rationale</b>	Our ELA FSA data shows that our students are not achieving at the same levels as the average student in the district/state. An analysis of our assessments data indicated that our assessments/ assignments are not as rigorous as the state demands on the FSA. Our focus this year is to increase the rigor in our classrooms, without putting our students at risk for failure, by providing support to students needed for them to be successful.
<b>State the measurable outcome the school plans to achieve</b>	By June 2020, 47% of the students in grades 9 and 10 will score a level 3 or higher on the Florida Standards Assessment through the implementation of evidence based instructional strategies, professional development for all general education teachers and staff to enhance the quality of instructional practices, and parental/community involvement.
<b>Person responsible for monitoring outcome</b>	Samantha Brown (samantha.l.brown@browardschools.com)
