School Board Approval

This plan is pending approval by the Broward County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The mission of Bright Horizons School is to provide an individualized, intensive and supportive education for exceptional students with significant global disabilities. Students over the age of 18 participate in a functional vocational program designed to prepare them for post-school opportunities. The Community Based Instruction program closely aligns with this instruction.

Provide the school's vision statement.

Following the belief that all students can learn, students are provided academic instruction through 12th grade in the areas of reading, math, language arts, science and social studies. Instruction is aligned with the Florida Standards Access Points. In addition, vocational, communication, social and self-help skills are emphasized.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Three subgroups were identified as low performers. Black/African American scored the lowest at 33%. These students have significant cognitive disabilities which impact their ability to learn at a rate commensurate with their typical peers. There are a significant percentage of these students who have medical conditions that impair their ability to retain and respond to verbal, gestural, and physical prompts on a consistent basis.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

All of our subgroups demonstrated improvement from the prior year.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Our economically disadvantaged subgroup had the biggest gap compared with the state. This subgroup made an increase in learning gains but have not made enough gains to close the gap with the state average.

Which data component showed the most improvement? What new actions did your school take in this area?

Students with Disabilities showed the greatest improvement. Quarterly data review and face-to-face individual meetings between teachers and administration contributed to the emphasized focus on the Standards and Access Points. Team PLCs addressed the unique challenges and peer collaboration was the result.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

attendance below 90 percent
students scoring Level 1

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. To increase performance in the Black/African American subgroup from 33% to 41%.
2. To increase performance in the Economically Disadvantaged subgroup from 34% to 41%
3. To increase performance in the Hispanic subgroup from 36% to 41%
4. To focus on the Students with Disabilities to ensure continued growth.

Part III: Planning for Improvement

Areas of Focus:

#1

Title

ELA Learning Gains

Rationale

There remains a gap between the learning gains of the economically disadvantaged, black/African American, and Hispanic subgroups and the state average.

State the measurable outcome the school plans to achieve

1. To increase performance in the Black/African American subgroup from 33% to 41%.
