Regional Executive Director	
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	N/A
	•

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here.

School Board Approval

This plan is pending approval by the Hardee County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

We provide all students a high-quality education in a nurturing and creative environment to develop responsible citizens.

Provide the school's vision statement.

Empower and inspire all students for success.

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Durastanti, Stuart	Principal	
Wilson , Amy	Instructional Coach	
Rivas, Ray	Dean	
Flores, Gloria	Teacher, K-12	
Cruz, Daynaa	Teacher, K-12	
Morris, Debbie	Teacher, K-12	
Butler, Christina	Teacher, K-12	
Derringer, Brittany	Teacher, K-12	
Arce, Irma	Teacher, K-12	
Garcia, Roxanne	Teacher, K-12	
Gilliard, Jessica	School Counselor	
Albritton, Miranda	Teacher, K-12	

Early Warning Systems

Current Year

The number of students by grade level that exhibit each early warning indicator listed:

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

5th Grade Science- Low morale in 5th grade, two teachers in their last year of teaching.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

3rd Grade Math- Incoming low performing group. New teacher to the grade level.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

5th Grade Science- Low morale in 5th grade, two teachers in their last year of teaching.

Which data component showed the most improvement? What new actions did your school take in this area?

4th Grade Math- New teacher in the grade level.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Level 1s on statewide assessment in 5th grade.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. 5th Grade Science

2. 3rd Grade Math

3.

4.

5.

Part III: Planning for Improvement

Areas of Focus:

#1						
Title	5th Grade Science					
Rationale	BGE's lowest performing data component for 2018-19 was 5th Grade Science. We had a 13 point drop in 5th Grade Science from the previous year. The drop in 5th Grade Science negatively affected our total points possible on our school grade. This area of focus directly impacts student learning and success for their 6th grade class selection.					
State the measurable outcome the school plans to achieve	Our measurable outcome is to increase our Science Achievement from 26% to 38% for the 2019-2020 school year.					
Person responsible for monitoring outcome	Amy Wilson (awilson@hardee.k12.fl.us)					
Evidence- based Strategy	Delta Science Readers through Delta Resources					
Rationale for	FOSS Next Generation puts the Next Generation Science Standards (NGSS) into practice by integrating all three dimensions: the Disciplinary Core Ideas, the Science and Engineering Practices, and the Crosscutting Concepts, all within our classroom-proven tools and strategies to engage students and teachers in enduring experiences that lead to deeper understanding of the natural and designed world.					
Evidence- based Strategy	FOSS Next Generation: Engages all students with meaningful active learning experiences Prepares all students to succeed with the NGSS performance expectations Integrates robust reading and literacy strategies to support the Common Core ELA for all students Utilizes technology to deliver learning experiences and provide teachers with time-saving classroom management resources					
Action Step						
Description	 Review of Lesson Plans Walk-Thru Data Chats 5. 					
Person Responsible	Amy Wilson (awilson@hardee.k12.fl.us)					

#2					
Title	Rigor in Core Content Areas				
Rationale	Core instruction does not consistently provide increased rigor in core content areas as illustrated by our iReady and FSA data.				
State the measurable outcome the school plans to achieve	Our measurable outcome is to have a 10% increase in our FSA and iReady data from 2018-2019 school year.				
Person responsible for monitoring outcome	Amy Wilson (awilson@hardee.k12.fl.us)				
Evidence- based Strategy	Ready ELA and Math workbooks				
	Ready Mathematics helps teachers create a rich classroom environment in which students at all levels become active, real-world problem solvers. Through teacher-led instruction, students develop mathematical reasoning, engage in discourse, and build strong mathematical habits. The program's instructional framework supports educators as they strengthen their teaching practices and facilitates meaningful discourse that encourages all learners. Ready Mathematics:				
Rationale for Evidence- based	Encourages students to develop a deeper understanding of mathematics concepts through the embedded Standards for Mathematical Practice. Builds on students' prior knowledge with lessons that make connections within and across grade levels and directly address the major focus of the grade.				
Strategy	Ready Reading's rigorous yet supportive content is proven to make today's demanding standards reachable for all students. Its complex, authentic texts engage students in opportunities to practice close reading strategies across a variety of genres and formats.				
	Ready Reading instruction uses a consistent Read, Think, Talk, Write model in which teacher-led discussion and small group collaboration are central to student achievement. Lessons scaffold to build students' confidence as they develop important critical thinking and analytical skills. Students are immediately engaged by the variety of real-world source texts, from literature and poetry to blogs and news articles.				
Action Step					
Description	 Review of Lesson Plans Walk-Thru Data Chats 5. 				
Person Responsible	Amy Wilson (awilson@hardee.k12.fl.us)				
Additional Schoolwide Improvement Priorities (optional)					

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, § 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

Bowling Green Elementary has strong ties with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students. Every teacher is required to conduct a parent-teacher conference. At the parent-teacher conference the school compact is signed and all important information is shared with the parents.

Bowling Green Elementary will also have at least 15 parent involvement activities throughout the year. The Annual Title I meeting is conducted at the beginning of the year along with K-5 Orientation. Also, a monthly newsletter is sent home with the students. All notes are sent home in English and Spanish.

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

• Operational school based team that meets weekly to discuss students with barriers to academic and social success;

• Check-in/Check-out, Check and Connect utilized with students in need of positive adult interactions and positive feedback throughout the school day.

• Instruction and various campus activities that address social/emotional needs of students;

• Develop and implement a comprehensive school counseling program (Student Development Plan) with dedicated time to: (1) Assess the needs of the students and the barriers blocking their success (Data-Driven Decision Making), (2) Identify interventions that the research suggests works to remove the barrier to success (Evidence-Based Intervention), and (3) Evaluate your intervention and evolve (Evaluation).

• Engage with identified staff (i.e. school counselor, school-based team leader) to provide a differentiated delivery of services based on student/school need. Include core (classroom guidance, workshop, assembly), supplemental (solution focused small group counseling), and intensive supports (individual counseling/advisement, referral to community resources). Utilize data-based decision making to close academic, social-emotional and college-career equity gaps by connecting all students with the services they need.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Students from the Bowling Green Elementary service area that participate in pre-k programs are provided opportunities to participate in and attend school-wide orientation. Pre-k students are also invited to Bowling Green Elementary to tour the facility, participate in an actual kindergarten class and eat in the school cafeteria to orient those children to the lunch procedures of our k-5 school. Kindergarten teachers make visits to area pre-k programs to in-service parents and students on

transition to regular kindergarten classes. The principal and the early childhood directors meet at least twice per school year to discuss transition. The principal also makes scheduled visits to the early childhood program to give feedback to the directors. The school sends letters home to parents about the VPK (Voluntary Pre-K) that is offered in the summer. The FLRKS test is administered to entering kindergarten students to assess readiness to begin school.

Kindergarten Round-Up is traditionally scheduled in the spring of each school year. Kindergarten teachers are in attendance for the purpose of meeting students and conducting activities with the incoming students. Kindergarten Parent Orientation is also held early in the school year to assist parents with questions and answers about the school day, policies and procedures, and to set conferences with teachers.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

Our MTSS team consists of School Leadership Team members. This team: (1) provides data on tier 1, tier 2, and tier 3 targets; (2) identifies academic and social/emotional areas that need to be addressed; (3) sets expectations for instruction; (4) facilitates the development of a systemic approach to teaching; and (5) helps align processes and procedures.

Title I, Part A

Supplementary academic services are provided through after-school or summer school programs, a Literacy Coach, reading resource teacher and technology resources. Title I Part A, Title II, and the district collaborate in providing staff development and in funding Literacy Coaches. The district data coach and the Director of Student Services and Assessment will also assist the school in coordinating efforts to best serve the students of Bowling Green Elementary.

Title I, Part C- Migrant

The migrant coordinator and the migrant advocates collaborate with school staff to ensure that the needs of migrant students are met. Academic and support services enable migrant students to participate fully in the educational experience.

Title III

The District Data Coach and school site Literacy Coaches will present professional development that addresses the unique needs of ELL/immigrant students.

Supplemental Academic Instruction (SAI)

SAI (Supplemental Academic Instruction) pays for at least one teacher at each school to teach a remedial course (could be a pull out situation) and also provides extra duty for teachers to teach summer school.

Head Start

Bowling Green Elementary provides assistance to the local federally funded daycares by providing transition days. Kindergarten Round Up is done in the spring to provide information to parents of new students that will begin school the upcoming school year. Kindergarten teachers visit daycares to inform parents of the expectations of Bowling Green Elementary. These activities are done to ease the transition to school.

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

The School Counselor provides information to the 5th students about college and career awareness.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
