School Board Approval

N/A

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The Mission of the District is: Meaningful achievement of academics facilitated by teachers, administrators, parents & the community enabling students to become confident, self-directed & responsible lifelong learners.

The mission of Mater Academy of International Studies is to provide an innovative, challenging, bilingual and multi-cultural curriculum, preparing students to have a global edge. We will strive to create a thirst for knowledge in all disciplines of the curriculum and enrich every student with a sense of purpose, a belief in their own efficacy, and a commitment to the common good.

Provide the school's vision statement.

The Vision of Mater Academy, Inc. is to provide students a viable educational choice that offers an innovative, rigorous, and seamless college preparatory curriculum, providing Mater students, at every level from PK-12th grade, with a competitive advantage against their contemporaries. To that end, Mater Schools strive to:

- create a thirst for knowledge in all disciplines;
- kindle the art of thinking and serve as a springboard for lifelong learning; and
- deliver and enrich every student with a sense of purpose, a belief in their own efficacy, and a commitment to the common good.

The vision of Mater Academy of International Studies is to provide a loving, caring, and supportive educational environment, where the whole child is developed and a philosophy of respect and high expectations is instilled for all students, parent, teachers, and staff

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The lowest data component was in Science achievement, scoring at 58%. One contributing factor is the language barrier among the testing population. However, the assessment proficiency increased from 29% in 2018 to 58% in 2019. Additionally, the data exceeds both the district and state scores.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

There was no decline in data from the prior year.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The greatest gap in comparison to the state average is in math achievement with the state scoring at 63%, and Mater Academy of International Studies scoring 61%. There is an increase from 49% to 61% in math achievement from the prior year.

Which data component showed the most improvement? What new actions did your school take in this area?

The most improvement in data was in the ELA Lowest 25th percentile group. The average increased from 53% in 2018 to 78% in 2019. Mater Academy of International Studies took many actions in this area. One action was to focus on Tier II WonderWorks intervention. Additionally, the school incorporated i-Ready instruction, focusing on student data and individual needs.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

With most of our students being ELL and Hispanic, we are continuing to work on closing the learning gaps with adequate instructional strategies.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Increasing math achievement proficiency.
2. Increasing science achievement on the fifth grade FCAT assessment.
3. Maintaining ELA achievement at at least 65% proficiency.
4. Increasing proficiency among ELL and SWD population.
5. Increasing math proficiency among the lowest 25th percentile.

Part III: Planning for Improvement

Areas of Focus:

#1

Title	If core instruction is increased in all content areas, the student achievement will improve.
Rationale	Core Instruction in all content areas need to interlink. Integration of ELA & Math within Science and Social Studies is of utmost importance to ensure that core instruction is successful. This year at Mater Academy of International Studies some teachers lack the sufficient experience in teaching core instruction in the content areas and would benefit from additional professional development. Students are also not used to using reading or math strategies during science and social science times. Students who have difficulty in reading comprehension will find that having to use comprehension strategies in the content areas will also be a struggle as they aim to master skills. Lack of teacher experience is a barrier for this goal.

State the measurable outcome the school plans to achieve Teachers will incorporate core strategies across the curriculum throughout all grade levels. Students will have numerous opportunities to engage in critical thinking and inquiry activities. This process will help students demonstrate what they know and acquire a greater understanding of the content specific to each of the disciplines.

Person responsible for monitoring outcome Stephanie Ocampo (socampo@materacademyis.com)

Evidence-based Strategy According to our school data our Math Achievement level was 61% while the district was at 69% and the state at 63%. In order to close this gap this year we will be focusing on comprehension strategies in Math. We will also work on providing teachers and students with more test prep material.

Rationale for Evidence-based Strategy This year teachers will be using Problem Solving strategies, such as C.U.B.E.S. This strategy will require our students to break down the word problem and completely understand what the word problems are asking them to solve.

Action Step

Description

1. Administrators and teachers will provided professional development opportunities through workshops, PLCs, and lesson studies to acquire effective techniques to incorporate during all content area instruction.
2. Administrators will monitor ongoing data through bi-weeklies, interim assessments and i-Ready reports submitted by teachers.
3. Lesson Plans will be checked on a weekly basis to ensure the core strategies are incorporated in science and social sciences.
4. Writing across all content areas will be monitored by Instructional coaches and administration

Person Responsible Stephanie Ocampo (socampo@materacademyis.com)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, Â§ 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

Mater Academy of International Studies is a Title I school. Please refer to the PFEP Document.

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

The overall well-being of Mater Academy of International Studies Charter School students is an integral part of our philosophy. Student Support Services seeks to provide support both in and out of the classroom in the areas of academic support, social-emotional development and physical well-being. The Mater Academy of International Studies Charter School Student Services Team consists of a general education teacher, a full-time counselor and a school psychologist. These professionals work closely with students, parents, community agencies and school personnel to ensure that every student is provided the opportunity to maximize his or her social, emotional and intellectual abilities. The Student Services Team helps students to feel at ease with teachers and the school environment. Individual and group counseling sessions are conducted to address students' social and emotional needs. Conflict resolution tips are provided to students. Teachers work diligently to prevent bullying and violence in the school and community. The Student Services Team meets with parents, teachers and school administration to discuss student academic and behavioral needs and to determine if students need assistance outside of the traditional classroom setting.

Student Services Personnel welcome the opportunity to meet with parents, discuss concerns and assist students in any way possible. Counseling is included in every student's curricula at Mater Academy of International Studies Charter School.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Preschoolers are screened for Kindergarten readiness to determine the specific skills and knowledge of students. Low-performing students are targeted and participate in iReady Intervention Program and/or Wonder Works intervention program. Parents attend an Open House meeting where they are presented with an overview of the Kindergarten program, support provided by the school and teacher as well as a packet that describes ways they can assist their child make the transition into Kindergarten.

Mater Academy of International is part of one school building that is shared by students and teachers of kindergarten to ninth grade. Upon promotion from fifth grade, the students are assigned to the middle school code but remain in the same building but following a middle school framework. This provides the

platform for an easy transition in a school environment in which the staff can see the development of the child over time.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

Mater Academy of International Studies' leadership team follows specific guidelines when aligning and purchasing resources for the school in order to meet the needs of all students.

At the start of every year, teachers are provided a box of classroom essentials. The materials include staplers, construction paper, glue, pens, pencils, among other things. An inventory of resources is collected at the beginning and end of every school year. The inventory includes the instructional materials, curricular materials, technology, and classroom furniture in the individual teachers' classrooms. The instructional materials list are separated by subject area. The leadership team reviews the inventory and creates a spreadsheet by grade level of materials within the building.

The leadership team discusses the effectiveness of the instructional materials in terms of alignment to the standards. Research is done to ensure that the materials are up-to-date with the current standards. The materials are compared to the district-adopted materials and pacing guides that are correlated to the standards. The team reviews usage and performance reports to analyze student progress on the programs. The programs are checked for standards alignments and decisions are made for renewal. Grade level team leaders also offer their input on the effectiveness of the programs.

Purchases are made based on the projected number of students for the new school year. Intervention and tutoring material estimates are based on Standardized assessment data. The administration will brainstorm on how the purchasing of materials will affect the budget and determine the best option on how to allocate funds and what account the funds will come from. The EESAC committee approves funding of programs and materials throughout the year.

Leadership meetings are held weekly. Within the meetings instructional and curricular materials are analyzed by performance reports, bi-weekly spreadsheets with academic data are analyzed, and observations are conducted by the team.

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Mater Academy of International Studies promotes academic and career planning by organizing a day dedicated to different careers. Community professionals from a variety of careers volunteer their time to share what they do with the students at our school. Students have the opportunity to interact with professionals from areas of their own individual interests and also share discussions and ask questions that relate to the tasks and responsibilities within that career.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: If core instruction is increased in all content areas, the student achievement will improve.	\$0.00
Total:			\$0.00
