Demographics

Principal: Martin Aftuck

Start Date for this Principal: 9/13/2019

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	High School PK, 9-12
Primary Service Type (per MSID File)	K-12 General Education
2018-19 Title I School	No
2018-19 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	49%
2018-19 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities English Language Learners* Black/African American Students Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: B (60%) 2017-18: B (59%) 2016-17: B (54%) 2015-16: C (46%) 2014-15: B (59%)
2019-20 School Improvement (SI) Information*	
SI Region	Northeast
Regional Executive Director	Cassandra Brusca
Turnaround Option/Cycle	N/A
Year	
Support Tier	

ESSA Status	N/A
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Clay County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at

<https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

To provide a safe, educational environment that fosters students' intellectual, social, emotional and physical potential, empowering them to become productive, lifelong learners.

Provide the school's vision statement.

Middleburg High School Beliefs:

- *Students will develop the skills necessary to think independently and become effective problem solvers.
- *Students will develop an appreciation and understanding of the value of lifelong learning through enrichment courses and activities.
- *Teachers will encourage students to learn valuable lessons through athletics, performing arts and other extracurricular activities.
- *Teachers will engage the intellectual curiosity and creativity of students, allowing them to become multifaceted learners.
- *Students will learn to accept and adapt to change and will recognize the value of work.
- *Teachers will encourage students to create ethical relationships with other students, faculty members and all members of the community.
- *Students will develop a positive sense of leadership, personal responsibility, and good citizenship.
- *Students will develop awareness of career opportunities and the skills and education required for entrance into various occupational fields.
- *Teachers will encourage a sense of community within the school and provide an atmosphere that encourages parental participation.
- *All members of the school community will strive to create an environment of toleration of diverse opinions and beliefs.

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Number of Consecutive Years Economically Disadvantaged Students Subgroup Below 32%	

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our ELA Lowest 25th Percentile component showed the lowest performance at 34%. The scores decreased from the previous year, as did scores for the county and state, thus following a trend for this component. Our students showed the lowest performance on the Integration of Knowledge and Key Ideas and Details categories on the FSA. ELA teachers are required to dissect the data for individual students and focus on the standards in these categories to increase overall scores.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

In 2019, Science Achievement scores were at 67% as compared to 95% in 2018. When Biology was moved from 9th grade to 10th grade, it caused 2018 scores to be skewed due to testing only Biology Honors level students that year. When we compare our 2019 scores to a similar testing group inclusive of a wide range of students in 2017, we actually increased our scores by 10%.

Biology EOC % Passed
 2015-2016 388 of 430 44%
 2016-2017 396 of 471 57%

2017-2018 146 of 153 *Honors Students only 95%
 2018-2019 67%

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

We had two factors with a gap of 8% when compared to the state average.

The school ELA Lowest 25th Percentile component average is 34% compared to the state average of 42%. The scores decreased from the previous year, as did scores for the county and state, thus following a trend for this component. Our students showed the lowest performance on the Integration of Knowledge and Key Ideas and Details categories on the FSA. ELA teachers are required to dissect the data for individual students and focus on the standards in these categories to increase overall scores.

The Math Achievement component shows our school at 59% as compared to the state average of 51%. We did not show a decrease or growth from the previous year, but our scores are 8% higher than the state average. This is even taking into account that our Algebra classes are strictly students who have scored a 1 or 2 due to the junior high schools testing students with a 3 or above in 8th grade.

Which data component showed the most improvement? What new actions did your school take in this area?

The Math Lowest 25th Percentile component for 2019 increased to 48% from 36% in 2018. Our school took steps to intentionally schedule students into Algebra 1A and 1B block classes. Administration has placed teachers with proven track records and experience to increase scores and help students succeed. The Math Department is also utilizing Chromebooks for self-directed practice to achieve student growth.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

N/A

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. ELA Lower Quartile Student Gains to Improve School Grade
2. Increased Attendance
3. Increase Mental Health Support
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Increase ELA Lower Quartile Student Gains
Rationale	We want to assist lower quartile students in making gains in ELA because it has the greatest impact on school grade.
State the measurable outcome the school plans to achieve	The number of ELA Lower Quartile students making learning gains will increase by 3%.
Person responsible for monitoring outcome	Deborah Segreto (deborah.segreto@myoneclay.net)
Evidence-based Strategy	<p>1. ELA department will implement and utilize a spreadsheet that tracks not only the lower quartile, but the bottom 33%. This tracker includes any key players involved in specific student's day, including all subject area teachers. Teachers will meet in groups to discuss strategies to assist specific students that they have in common. Reading and writing strategies will be implemented throughout the school and in every subject area to assist the ELA department.</p> <p>2. Technology access for teachers and students will benefit the Lower Quartile students. Teachers will use Achieve 3000 data and track lexile scores through the year. Individual data tracking on the student's behalf will help them take ownership of their own learning and growth.</p>
Rationale for Evidence-based Strategy	The Tracker will assist not only ELA teachers, but all subject area teachers to track specific students in the lower 33%, work in groups to brainstorm ideas that will assist individual student needs, and improve overall ELA scores. The students will be assisted on all fronts throughout the day, thus showing the importance of reading and writing skills in every subject. Evidence of this strategy's success should be seen through lexile score increases on Achieve 3000. ELA and Reading teachers will track Achieve 3000 scores throughout the year to monitor growth of the lowest 33%.
Action Step	
Description	<ol style="list-style-type: none"> 1. Create and distribute spreadsheet identifying lower 33%. 2. All subject area teachers meet as a group to discuss individual student needs. 3. Teachers implement strategies that were discussed in the meeting. 4. Reading and ELA teachers track lexile score growth using Achieve 3000. 5.
Person Responsible	Deborah Segreto (deborah.segreto@myoneclay.net)

#2	
Title	Attendance
Rationale	We know that we cannot teach students who are not at school. We need attendance to increase so that we can achieve a higher school grade.
State the measurable outcome the school plans to achieve	The goal is for our school's average daily attendance to be over 97%.
Person responsible for monitoring outcome	Deborah Segreto (deborah.segreto@myoneclay.net)
Evidence-based Strategy	This year, we are utilizing the "All Here" program. This is an outside company that will be focusing on data and targeting students with low attendance by making phone calls and sending text messages to absentees, and helping navigate through attendance meetings. We believe that this will help us alleviate chronic absenteeism.
Rationale for Evidence-based Strategy	We chose the "All Here" program to help us reach our average daily attendance goals because the company utilizes data, contacts absentees, and assists in attendance meetings.
Action Step	
Description	<ol style="list-style-type: none"> 1. Calculate attendance data. 2. Align our school with the "All Here" program. 3. Monitor the results of the "All Here" program throughout the school year. 4. 5.
Person Responsible	Deborah Segreto (deborah.segreto@myoneclay.net)

#3	
Title	Increase Provided Student Mental Health Services
Rationale	Students who struggle with issues should have an outlet and a source for support. Our school wants to increase services that we provide for student mental health. We believe that we will see growth in attendance, school program participation, scores, and overall student well being.
State the measurable outcome the school plans to achieve	We will use the Panorama Student Survey. This survey gathers student's perceptions of school experiences and gives us an insight to overall student social and emotional health.
Person responsible for monitoring outcome	Stephanie Palmer (stephanie.palmer@myoneclay.net)
Evidence-based Strategy	Our school will use the data from the Panorama Survey and brainstorm strategies to combat any social or emotional issues. This school year, we have added an additional full-time Mental Health Counselor. Our mental health counselors will work closely with students and teachers to implement strategies for specific students. We have also implemented a Student Service Team who work to complete social projects and bring awareness to fellow classmates. We had a "Start with Hello" presenter speak to all of our P.E. classes about the importance of being connected at school. Lastly, we have a monthly newsletter to faculty and staff in regards to mental health that includes helpful ideas and strategies to improve Student Mental Health.
Rationale for Evidence-based Strategy	Using the survey will help us implement strategies that will increase overall student mental health. Using the data from last year has already helped us move forward in this area and add additional support services.
Action Step	
Description	<ol style="list-style-type: none"> 1. We hired an additional Mental Health Counselor. 2. Implemented Student Service Team. 3. "Start with Hello" presentation to all P.E. classes. 4. Students will take the Panorama Survey. 5. Our team will use this data to brainstorm strategies to combat any social or emotional issues.
Person Responsible	Stephanie Palmer (stephanie.palmer@myoneclay.net)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Other school-wide improvement priorities are being addressed through Action Teams. Administration divided areas of improvement into five categories, including Climate and Culture, Curriculum and

Instruction, Discipline and Safety, Family and Community, and Marketing and Design. Teachers and staff work together in the Action Teams to discuss and solve issues pertaining to the designated team.

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, Â§ 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

n/a

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

n/a

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

n/a

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

n/a

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

n/a
