School Board Approval

This plan is pending approval by the Broward County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Based on The Quest Center 2019 FSAA data: Black/African American Subgroup ELA Learning Gains was 11% as compared to the White Subgroup. The contributing factors are due to difficulty with vocabulary acquisition and comprehension skills.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The Black/African American and White Subgroup showed the greatest decline in ELA Level 3+. This factor that contributed to this decline is the lack of additional remediation on the standards students had difficulty with.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

ELA and Math scored lower than the state average. Overall factors that may have contributed is the consistent use of various modes of communication when presenting new content for our students with disabilities.

Which data component showed the most improvement? What new actions did your school take in this area?

All subgroups improved or maintained in the area of Math.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Teacher utilizing various mode of communication to improve instruction for our diverse population of students with disabilities.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. High-Quality Instruction
2. Progress Monitoring
3. Improve teaching and learning in order to increase performance
4. Effective Communication
5. Safe and Secure Environment that fosters learning

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	ELA
Rationale	
State the measurable outcome the school plans to achieve	Based on the 2018 FSAA data and SES Band, The Quest Center will be focusing on English Language Arts (ELA). In the area of English Language Arts, the highest learning gains in our SES Band scored a 45% in ELA learning gains our ELA learning gains were 25%.
Person responsible for monitoring outcome	Michelle Laurent (michelle.laurent@browardschools.com)
Evidence-based Strategy	The Quest Center will utilize Professional Learning Communities to review and analyze student learning via Common Formative Assessments. Based on the collaboration of grade level and team teachers teachers will provide data-driven instruction based on the results of three week Common Formative Assessments. Core text comes from Attainment aligned to student grade levels and Unique Learning Systems. Other supplements for instruction come from Boardmaker online, STAR, EDmark, and iReady.
Rationale for Evidence-based Strategy	Teachers will submit three-week pre and post-test data to administration. While in PLC, teachers will discuss student learning /achievement and successful instructional strategies. Teachers will also during PLC ensure that the assessments and activities are aligned with the learning goal. Core text comes from Attainment aligned to student grade levels and Unique Learning Systems. Other supplements for instruction come from Boardmaker online, STAR, EDmark, and iReady.
