School Board Approval

This plan is pending approval by the Duval County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

7th grade ELA. Contributing factors include: fluidity of the migrant nature of admission to the program.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Biology. Factors that contributed: an increase in enrollment at residential facility whose control of student time and access is a limitation.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

7th grade ELA. Contributing factors include: fluidity of the migrant nature of admission to the program.

Which data component showed the most improvement? What new actions did your school take in this area?

N/A as there is no prior year data.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Attendance.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Attendance
2. Participation with virtual learning and online tutoring.
- 3.
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Federal Index - Black/African American Students
Rationale	Our students are constantly changing every year by entering and exiting at different times of the year. Some of our African American Students need additional layers of support based on the federal index percentage.
State the measurable outcome the school plans to achieve	Prior year was 37%. Current year focus it to reach 41%.
Person responsible for monitoring outcome	Matthew Macy (macym@duvalschools.org)
Evidence-based Strategy	Helping students in goal setting and a personal reward system.
Rationale for Evidence-based Strategy	Improve student self-confidence and instill self-worth.
Action Step	
Description	<ol style="list-style-type: none"> 1. Create the Virtual learning lab access on a scheduled basis. 2. Ensure that the BlackBoard sessions for individual/group instruction is available at multiple times per week. 3. 4. 5.
Person Responsible	Matthew Macy (macym@duvalschools.org)

#2	
Title	Federal Index - Students with Disabilities
Rationale	Due to the migrant student population related to their temporary disability of illness or incapacitation, the students are all assigned ESE status for the period of time assigned to the school.
State the measurable outcome the school plans to achieve	Prior year was 37%. Current year focus it to reach 41%.
Person responsible for monitoring outcome	Mark Ertel (ertelm@duvalschools.org)
Evidence-based Strategy	One-on-one instructional support using blended learning model and online tutoring.
Rationale for Evidence-based Strategy	This strategy increases the opportunity for an ill/incapacitated student to have direct interaction with a teacher for direct instruction when personal contact is not an option.
Action Step	
Description	<ol style="list-style-type: none"> 1. Create the Virtual learning lab access on a scheduled basis. 2. Ensure that the BlackBoard sessions for individual/group instruction is available at multiple times per week. 3. 4. 5.
Person Responsible	Matthew Macy (macym@duvalschools.org)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).
