## School Board Approval

This plan was approved by the Highlands County School Board on 10/8/2019.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F . This plan is also a requirement for Targeted Support and Improvement (TS\&I) and Comprehensive Support and Improvement (CS\&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS\&I, a school must have one or more ESSA subgroup(s) with a Federal Index below $41 \%$. This plan shall be approved by the district. There are three ways a school can be designated as CS\&I:

1. have a school grade of $D$ or $F$
2. have a graduation rate of $67 \%$ or lower
3. have an overall Federal Index below 41\%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.
The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all noncharter schools with a current grade of D or F, or a graduation rate $67 \%$ or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## School Board Approval

This plan was approved by the Highlands County School Board on 10/8/2019.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of $D$ or F .

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all noncharter schools with a current grade of $D$ or $F$ (see page 4). For schools receiving a grade of $A, B$, or $C$, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part I: School Information

## School Mission and Vision

Provide the school's mission statement.
In four years at Sebring High School, our students will obtain a quality education in a nurturing environment that prepares them for success in college and career. Our students will be encouraged to become productive citizens and life-long learners.

Provide the school's vision statement.
Students Are Here to Succeed

## School Leadership Team

## Membership

Identify the name, email address and position title for each member of the school leadership team:

| Name | Title |
| :--- | :--- |
| Ervin, Kimberly | Principal |
| Eshelman, Ilene | Assistant Principal |
| Delgado, Jenn | Instructional Coach |
| Giordano, Julie | Teacher, K-12 |
| Khang, Pang | School Counselor |
| Mann, Angie | Instructional Coach |
| Wolfe, Rhoda | Teacher, K-12 |
| Sherley, Laura | Assistant Principal |
| Barnett, Julie | Teacher, K-12 |
| Colbert, Mark | Teacher, K-12 |
| McLeod, Cynthia | Teacher, K-12 |
| Van der kaay, Ruth | Teacher, K-12 |
| DeWitt, Jennifer | Teacher, Adult |
| Caton, Pat | Teacher, K-12 |
| Noethlich, Annie | Instructional Technology |
| Holder, David | Assistant Principal |

## Early Warning Systems

## Current Year

The number of students by grade level that exhibit each early warning indicator listed:

## Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

## Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our students performed the lowest on the Algebra 1 EOC with only $30 \%$ of our students scoring a level 3 or higher. This is a $-22 \%$ difference from the district average and a $-31 \%$ difference from the state average. Last year we had an Algebra 1 teacher leave during pre-school week and we had to have several teachers take on an Algebra 1 sections to cover the loss. Some of these teachers had not taught Algebra 1 in several years. This year we have been able to schedule all of our Algebra classes with two teachers who have a strong background in Algebra I. This also makes it easier for them to collaborate and plan with each other. We have also scheduled our lowest quartile Algebra 1 students in math study hall periods with math teachers who can provide them with extra assistance.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Both our Geometry and US History EOC results showed a decline of 5 percentage points from the previous school year. One of our two geometry teachers was out from January through May of last year and there was a substitute teacher filling in. This could have been a contributing factor to the decline in this subject area. All of our US History teachers were the same last year and are veteran teachers with this subject area. It will be important to make sure these teachers review the standards for their course, use progress monitoring data to plan for instruction, and use time to collaborate with each other.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Our Algebra 1 EOC data component had the greatest gap when compared to the state average $(-31 \%)$ in 2019. This is a trend with our Algebra 1 student performance with a gap of $-30 \%$ when compared to the state average in 2018. In 2018-19, we had a teacher leave during pre-school week. His classes were absorbed by other math teachers, some of whom had not taught Algebra 1 in many years.

Which data component showed the most improvement? What new actions did your school take in this area?

Our 9th grade ELA scores showed the most improvement. We were able to close the gap between our school and the state's average from $-5 \%$ to $-2 \%$. Our teachers focused on using content aligned to the standards and using research based instructional strategies. Our students were given many opportunities to read on-grade-level text and complete assignments aligned to the rigor of the standards. This year we have only two teachers teaching Algebra 1.

## Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Looking at our EWS data, course failures in 9th grade English and Math are a definite area of concern. Additionally, the number of suspensions in 9th grade are higher than any other grade level. We have added an Algebra 1A course to our master schedule that focuses on students who may not be ready for Algebra 1. We also have scheduled all of 9th grade level 1 and 2 ELA students in an intensive reading class to give them extra support. Students have a 90 minute study hall twice per week where they can go and see their teachers for additional assistance.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Improve the percentage of students scoring proficient on the Algebra 1 EOC.
2. Reduce the number of students failing English and Math courses in 9th grade.
3. Improve the percentage of students in the lowest 25 th percentile making learning gains in reading and math.
4. Increase the percentage of students in all subgroups that are taking College and Career Acceleration Courses
5. Increase the percentage of all students making learning gains in math.

Part III: Planning for Improvement
Areas of Focus:
Title Improving Algebra 1 Proficiency Rates

Students who score at or above proficiency on the Algebra 1 EOC are more likely to be

## Rationale

 successful in the course and earn required course credit. This course provides the foundation that students need to be successful in higher level math courses. Scoring proficient on the Algebra 1 EOC is a graduation requirement.
## State the measurable

outcome the Increase the percentage of students scoring proficient on the Algebra 1 EOC from $30 \%$ to school 40\%.
plans to achieve
Person responsible for Kimberly Ervin (ervink@highlands.k12.fl.us) monitoring outcome

| Evidence- | Use data to identify students that may need to be in an Algebra 1A math course to address <br> skill gaps. Follow the district's Algebra 1 instructional map. Administer and analyze iReady |
| :--- | :--- |
| based | Algebra 1 data to inform instruction and identify remediation that is needed. Provide |
| Strategy | students with additional support in study hall. |
| Rationale | Students who have significant skill gaps may need additional time to master pre-algebra |
| for | and algebra content. Algebra 1A will give them the time they need. Following the district's <br> Evidence- <br> instructional map ensures that our teachers are on pace to cover the concepts students will |
| based | see on the Algebra 1 EOC. Students who are taking Algebra 1 and who are part of our <br> Strategy |
| learning gains calculation will be in a math study hall to receive additional assistance. |  |

Action Step

1. Identify students for Algebra 1A.
2. Identify students for Algebra 1 study halls.

Description
3. Administer and analyze iReady progress monitoring assessment and data.
4. Provide teachers time to review data and make changes to their instruction plans.
5. Teachers will follow the district's instructional plan for Alg 1, Alg 1A, and Alg 1B.
6. Teachers will use specialized curriculum in math study halls.

Person
Responsible
Kimberly Ervin (ervink@highlands.k12.fl.us)

Increase pass rates for 9th grade English and Math Courses
Rationale
Students who pass 9th grade English and Math are more likely to be on track for graduation and less likely to drop out of school.

## State the

 measurable outcome theIncrease percentage of students passing English 1 and 9th grade math courses by 10\%.

## school plans

to achieve
Person responsible
for
Ilene Eshelman (eshelmai@highlands.k12.fl.us)
monitoring outcome

Evidencebased Strategy

Rationale for Evidencebased Strategy

Identify incoming 9th graders who are at-risk for course failure based on teacher recommendations and FSA data. Provide these students with supports such as Algebra 1A, math study halls, intensive reading, etc. Use available data to progress monitor course failure rates at progress report, and report card times.
By taking Algebra 1A, students have a longer time to master the content for Algebra 1. Students will receive additional math support in study halls. Students that receive additional support in an intensive reading class will improve their overall ELA skills. If teachers are aware of their course failure rates, they can provide additional assistance to students that need it.

Action Step

1. Identify at-risk students who need to be in an Algebra 1A class.
2. Identify at-risk students who need to be in an intensive reading class.

Description 3. Review course failure data at progress report and report card time and share with teachers.
4. Adjust interventions for students based on course data.

Person
Responsible
Ilene Eshelman (eshelmai@highlands.k12.fl.us)

## \#3

Title
Increase the percentage of students in the lowest 25th percentile making learning gains Many of our subgroups that have achievement gaps are scoring in the lowest 25th Rationale percentile on state assessments. If we can improve the percentage of students in the lowest 25 th percentile who make learning gains, our subgroup data will improve.

## State the

 measurable outcome the school plans to achieve
## Person

responsible for monitoring outcome

Evidencebased Strategy

Increase the percentage of students in the lowest 25th percentile making learning gains in math from $26 \%$ to $31 \%$. Increase the percentage of students in the lowest 25 th percentile making learning gains in ELA from 38\% to 45\%.

Rationale for Evidencebased Strategy

Teachers following district instructional plans for Algebra 1 and Geometry. Identifying students that need to take Algebra 1A and Informal Geometry before taking Algebra 1 and Geometry. Teachers collaborating to share best practices and to review progress monitoring data.

Action Step

|  | 1. Identify students in the lowest 25th percentile for ELA and Math. <br> 2. Identify students that need to be in Algebra 1A and or Informal Geometry. <br> 3. Identify the students that need to be in Intensive Reading. <br> 4. Ensure that interventions are implemented. |
| :--- | :--- |
| 5. Monitor student progress monitoring data. |  |
| Person | Kimberly Ervin (ervink@highlands.k12.fl.us) |

## \#4

Title

Rationale

Increase the percentage of black, ELL, and SWD taking College and Career Acceleration Courses

Students who enroll and pass assessment in college and career acceleration courses are better prepared for college and careers.

## State the

 measurable outcome theschool
plans to achieve

## Person

 responsiblemonitoring outcome Strategy

## Rationale

for
Evidencebased Strategy

## Action Step

Students may not be aware that they qualify for DE courses. Advertising the programs that we offer at SHS will guarantee students are aware that they qualify for DE Courses.

## Description

1. List CTE pathways in Program of Studies.
2. Review EOC data to identify students that may be successful in DE, IB, or AP Courses.
3. Advertise CTE Pathways and accelerated course options.
4. Actively recruit students to take AP, IB, DE, and CTE courses.

Person
Responsible
for Kimberly Ervin (ervink@highlands.k12.fl.us)

Identify students who are interested in taking industry certification pathway courses.
Evidence- Identify students who are interested in taking DE, IB, or AP courses. Students will receive based information about the requirements for participating in DE, IB, or AP courses and industry certification pathways that are available. Interest inventories, counselors speaking to students, using data to identify students, course requests.
Increase the percentage of students in each subgroup (ELL, SWD, Black) who take and earn college credit or an industry certification by $5 \%$.

## \#5

Title
Rationale
Increase the percentage of students making learning gains in math.
If students are making learning gains then they are showing improvement from one year to the next and teachers are teaching effectively.

## State the

 measurable outcome the school plans to achievePerson responsible for monitoring outcome

## Evidence-

 based StrategyPlacing students that are part of our learning gains denominator for Algebra 1 and Geometry in specialized study halls with Algebra 1 and Geometry teachers to receive additional support. Check to make sure that teachers are following district curriculum maps and that they are providing effective instruction to students.

Rationale for Evidencebased Strategy

Providing students with extra support in Algebra 1 and Geometry will help them master content and standards. Following district curriculum maps for Algebra 1 and Geometry will ensure that teachers are covering the content aligned to the standards and using all available resources.

## Action Step

| Description | 1. Determine students who are in our denominator for Algebra 1 and Geometry learning gains. |
| :---: | :---: |
|  | 2. Identify teachers who will provide extra support to students in study hall. |
|  | 3. Determine materials that teachers will use for remediation. |
|  | 4. Extra assistance will be provided. |

| Responsible | Kimberly Ervin (ervink@highlands.k12.fi.us) |

## \#6

| Title | Reduce the percentage of students receiving 1 or more suspensions |
| :--- | :--- |
| Rationale | When students are in ISS or out of school for OSS, they are missing valuable instruction. |

State the measurable outcome the school plans to achieve
Person responsible
for Laura Sherley (sherleyl@highlands.k12.fl.us) monitoring outcome

Reduce the number of students receiving one or more ISS or OSS suspensions by $10 \%$.

Evidencebased Strategy

Code of Conduct review with students. Teachers calling parents if students receive a detention prior to giving a student ISS or OSS. Deans implementing preventative strategies by being in the hallways and visible around campus. Deans conferencing with students. Use of Threat Assessment team and mental health counselors.

Rationale
for Evidencebased Strategy

If students are aware of school rules and the consequences, they are less likely to break them. When teachers and staff involve parents, they are able to support the school and help us reduce the number of discipline incidents that result in ISS and OSS. Referring students to the Threat Assessment team and to our mental health counselors provides an opportunity to intervene with students and support them before their behavior results in ISS or OSS.

Action Step

1. Code of Conduct
2. Cell Phone Policy

Description
3. Change in Study Hall Policy to reduce transitions.
4. Referrals to mental health counsleors
5. Use of Threat Assessment team
6. Deans being visible

Person
Responsible
Laura Sherley (sherleyl@highlands.k12.fl.us)

Additional Schoolwide Improvement Priorities (optional)
After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

## Part IV: Title I Requirements

## Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, Â§ 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

Sebring High School utilizes numerous parent and stakeholder advisory groups to include the School Advisory Committee, Highlands International Baccalaureate Advanced Academic Partnership, academic, extra- and co-curricular parent support groups (e.g., band boosters).

A system of regular communications with parents and stakeholders is maintained via the Blackboard Connect system, progress reports/report cards, School Attendance Review Committee, teacher websites, teacher emails, school website, parent nights, college nights, college resource room, Skyward Parent Portal (online, web-based recording of grades and attendance with 24/7 access by staff, students, and parents), and Facebook.

## PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.
Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

With the establishment of the MTSS team of teachers and administrators, the integration of their work with the guidance staff and the SLT, the social-emotional needs of students is being monitored and addressed as issues are identified. Utilizing the services of the social workers and student services and the local agencies (e.g., Youth and Family Alternatives), the school is working to support and assist in a timely manner. Procedures are in place for administrators, guidance counselors, and teachers to refer students to outside agencies for services. District mental health counselors visit SHS weekly to meet with students. The school's Threat Assessment team meets to discuss students who have had issues on campus and provide them with support. Students will be receiving a minimum of five hours of socialemotional instruction on topics identified by state law.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

SHS hosts various orientation events for incoming ninth grade students and parents. The first event each year is the annual middle school visit to the high school during the school day. The purpose of the visit is to have students see the daily operation of the elective classes so they can choose an area of interest for their elective areas. This visit also involves the opportunity to interact with high school students representing various academic areas, elective and extra curricular programs. In addition to the student visit, the parents and students attend an evening event so the parents can seek information and understand the interest of their child and be involved in the scheduling and activity decision making.

Other high school program areas also conduct orientation sessions for students and parents in the areas of ESE, IB, FFA, Career and Tech, Highlands Career Institute, etc.

In addition, college nights are held on a regular basis to assist students and parents make decisions about colleges, programs, and financial aide.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

Title I Part C Migrant
Provides services to migrant students and their families. The primary goal of the program is to improve academic performance of migrant students, provide health and guidance services to them.

Title I Part D
Provides services to children who are delinquent/neglected. Students are referred by mental health specialists, guidance counselors, or school social workers.

Title II
Provides for teacher professional development and supports all teachers/paraprofessionals to be highly qualified. SHS teachers take part in PD offered by the district, through their PLCs, and colleagues in their departments.

Title III
Supports activities to assist students become proficient in English, supports teacher professional development in ELL strategies and parent involvement/education.

Title X Homeless
Student Services coordinates with Title I, Part A to provide resources for students identified as homeless under the McKinney-Vento Act to eliminate barriers for a free and appropriate education. Our teachers/ guidance counselors work with our district's homeless liaison/school social workers to connect students and their families to community resources.

## Violence Prevention

The district offers a non-violence and anti-drug program to students that incorporates field trips, community service, drug tests, and counseling. SHS's Positive Action Club addresses these issues with students.

Nutrition
Food Service Department facilitates grant funding to provide fresh fruit and vegetables in schools. They In addition, they provide services in summer for breakfast and lunches at various school and community locations.

## Career/Technical Education

Proposals are submitted annually to enhance selected Vocational Programs for regular, disadvantaged, and handicapped students in grades $7-12$. Title VI supports the operations of the Career Academy by providing $\mathrm{PD} /$ resources for progress monitoring.

## Job Training

A partnership with the city provides students with a job skills program that will allow students the opportunity to learn how to create a resume, dress for success, and perform well during a job interview.

## Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Upon entering Sebring High School, students are given several options to choose their academic paths. The first choice is to graduate in 3 years on the college bound or career options, or the same in 4 years. Recommendations from prior year teachers as to the level of academic class the student should enroll are used as guides for student placement. Assessment data is also reviewed along with student interest and plans for post high school.

In the spring of each year students are given a Program of Studies containing the class offerings for the
next year. A counselor will provide an academic history for each student and meet with each student to discuss interest and options. Students seek parent input and submit final choices to the counselor.

In the fall of each year counselors begin with the twelfth grade students and review their academic histories and present schedule to make sure they meet graduation requirements. Following the seniors, counselor work down to their ninth grade students. Counselors are assigned students alphabetically so they have the opportunity to know the student and family very well before they leave our school.

With the addition of a part-time college coach and a full-time graduation coach, SHS is dedicated to student, staff, and parent education regarding the requirements for graduation along with regular and timely feedback regarding student progress toward meeting those requirements. In addition, the school and district have connected with resources such as FLCAN, college university systems, and other resources that supply this school community with college/post-secondary opportunities for every student.

## Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

| 1 | III.A. | Areas of Focus: Improving Algebra 1 Proficiency Rates | $\$ 0.00$ |
