Demographics

Principal: Marina Saporito Middleton S

Start Date for this Principal: 7/1/2017

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Middle School 7-8
Primary Service Type (per MSID File)	K-12 General Education
2018-19 Title I School	No
2018-19 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	98%
2018-19 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners Asian Students Black/African American Students* Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: B (60%) 2017-18: C (53%) 2016-17: B (57%) 2015-16: C (53%) 2014-15: B (60%)
2019-20 School Improvement (SI) Information*	
SI Region	Southeast
Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	

ESSA Status	TS&I
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Brevard County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at

<https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Johnson Middle School strives to form a literate community of lifelong learners, staff, students and families who embody determination, perseverance, independence and a desire for excellence. (date last revised)

Provide the school's vision statement.

Johnson Middle School is committed to excellence in education and preparation of all students with the knowledge, skills, and ethics required for responsible citizenship, higher education and productive employment. (date last revised)

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Conneely, Tanza	Assistant Principal	Support the principal to cultivate a collaborative working environment. Coordinate and monitor the development and implementation of school instructional goals, strategies, and outcome measures. Monitor the school improvement planning process. Enforce all federal, state and district regulations, policies and procedures.
Middleton, Marina	Principal	Manage and administer the overall activities of assessing, developing and implementing instructional and school programs. Ensure compliance with Board rules and applicable federal laws and regulations. Manage and coordinate district, state and national testing. Maintain records as required. Enforce all federal, state and district regulations, policies and procedures.
Tracy, Kavitha	Dean	Student supervision, review and analyze data to facilitate student behavior change, participate in the development and implementation of all school practices and the implementation of school-site safety programs and appropriate drills. Manage and coordinate district, state and national testing. Maintain records as required. Enforce all federal, state and district regulations, policies and procedures.
Scott, Roberta	Instructional Coach	Plan and implement professional development opportunities that address both current research and future instructional needs. Provide direct, classroom-based, professional development for teachers through regular modeling of research-based literacy instruction. Manage and coordinate district, state and national testing. Maintain records as required. Enforce all federal, state and district regulations, policies and procedures.
Latorre, Rayna	Teacher, K-12	Plan standards based lessons, with the use of appropriate instructional strategies and materials for relevant educational learning experiences.. Enforce federal, state and district regulations, policies and procedures.
Langlie, Ryan	Teacher, K-12	Plan standards based lessons, with the use of appropriate instructional strategies and materials for relevant educational learning experiences.. Enforce federal, state and district regulations, policies and procedures.
Comer, Heidi	Teacher, K-12	Plan standards based lessons, with the use of appropriate instructional strategies and materials for relevant educational learning experiences.. Enforce federal, state and district regulations, policies and procedures.
Ortiz, Mercedita	Teacher, K-12	Manage and coordinate district, state and national testing. Maintain records as required. Enforce all federal, state and district regulations, policies and procedures.

Early Warning Systems

Current Year

The number of students by grade level that exhibit each early warning indicator listed:

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Data reveals our Students with Disabilities subgroup was below 41% for the 2018-2019 school year. Although the subgroup continues to be below 41%, data shows areas of significant gains. Contributing factors could include: higher student academic, behavior, and social-emotional needs, staff changes in the guidance department and school-based support services, resulting in process restructuring, and deliberate instructional strategies embedding AVID/WICOR strategies. There is a trend of overall increase improvement and therefore will remain an area of deliberate focus.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The data shows the greatest decline of achievement with our Lowest 25% ELL subgroup. Contributing factors include an increase of ELL students, with increased limited/no English understanding, ESOL contact change from a bilingual staff member to a non-bilingual staff member, and time taken to reestablish school-based resources. Although this is not an area of decline, Civics remaining at 64%, requires an assessment of achievement strategies. The recurrent scores could be contributed to new hires and training within the Social Studies Department. Additional support and resources will be an area of focus for the 2019-2020 school year.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Data shows 8th Math has the greatest gap when compared to the state average. Our school average was 32% under the state average in 2018 and remains under the state average at 26%. Contributing factors include a decline in teacher retention, choice of instructional materials and resources, and an analysis of math data for deliberate student placement in the accelerated math course.

Which data component showed the most improvement? What new actions did your school take in this area?

Although 8th Grade Math data reveals the greatest gap when compared to the state average, it also indicates the greatest improvement, with an increase of 7%. A laser focus on content instruction, allocation of teacher assignment, deeper data analysis for student placement, and embedding AVID/WICOR strategies into instruction were actions contributing to increased student achievement.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

1. Increase social-emotional awareness among teachers and students to minimize absences and discipline.
2. Analyze and use MTSS and PBIS data to drive Tier 1- 3 instruction. Support teachers' implementation of instructional strategies for increased student achievement, increase state assessment scores, and student promotion.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Teacher Instruction
2. Data analysis to support and drive instruction
3. AVID/WICOR strategies school-wide
3. Social-Emotional Learning
4. Cross-curriculum collaboration among teachers
5. Increasing parent engagement/involvement

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Civics
Rationale	Data reveals two years of 64% achievement. Student grades indicate a higher level of content understanding.
State the measurable outcome the school plans to achieve	7th Grade Civics average will meet the 2018-2019 state average of 71%.
Person responsible for monitoring outcome	Tanza Conneely (conneely.tanza@brevardschools.org)
Evidence-based Strategy	School wide AVID / WICOR strategies across the content area with a focus on text features and evidenced based writing. Civics teachers will collaborate with district resource teacher about effective achievement strategies, will be trained and implement Study Skills Days once a month, and analyze data to diagnose students' learning needs, inform instruction, and monitor progress.
Rationale for Evidence-based Strategy	The root cause of poor performance has to do with a combination of teacher expectations and knowledge of how to support all students. Coaching in the use of AVID / WICOR strategies will benefit all students. If students are learning about civics and writing about civics, proficiency scores will increase.
Action Step	
Description	<ol style="list-style-type: none"> 1. AVID site coordinator will conduct WICOR strategy training through PLC's to 7th and 8th grade social studies teachers. 2. Literacy coach will facilitate common planning with special area teams focused on incorporation of text-based writing strategies in unit plans. 3. Support provided to all teachers with instructional coach and district resource teacher to collaboratively plan Civics instruction that includes vocabulary, hands on engagement, written responses and study skills. 4. Teachers will provide students with scheduled help days making themselves available 1 day per week before school from 9:00-9:25. 5. Once per quarter teachers receive informal feedback on their social studies instructional practices by administration.
Person Responsible	Tanza Conneely (conneely.tanza@brevardschools.org)

#2	
Title	ELA Learning Gains
Rationale	Develop a consistency of growth with students, with an intentional focus on the ELL and SWD subgroups, learning learning gains from one year to the next. As indicated the last 4 years 46%, 51%, 47% and most recently 57% growth has occurred however at an inconsistent rate.
State the measurable outcome the school plans to achieve	57%+ 7th and 8th grade students will make learning gains as indicated by the scale score received on the grade level FSA. SWD subgroup will achieve above the 41%, by 3%. The ELL subgroup will achieve learning gains by 5%.
Person responsible for monitoring outcome	Roberta Scott (scott.roberta@brevardschools.org)
Evidence-based Strategy	PLCs will work with the literacy coach to review and analyze data in order to identify students with the potential to make learning gains. In addition, district resource teachers are collaborating and analyzing data with ELA and ILA teachers to enrich instructional strategies, by utilizing deliberate resources.
Rationale for Evidence-based Strategy	We believe that potential for learning gains lies in aligning the task complexity to grade level standards. If tasks are aligned to standards, with text-based writing incorporated into those tasks, we believe that learning gains would increase.
Action Step	
Description	<ol style="list-style-type: none"> 1. Intensive Language Arts teachers will promote more independent reading embedded within their curriculum. 2. Literacy coach will provide all content area teachers with support to help teach students content literacy. 3. AVID Coordinator will develop professional develop opportunities for teachers to provide WICOR strategies in the classroom, with a focus on reading and writing. 4. ESOL district contact, school-based contact, and instructional assistant will collaborate, review and utilize instructional-based and vocabulary-building resources, and closely monitor ELL students. 5. Media Center Specialist will lead a Book Bash Team. 6. Media Center Specialist will design displays within the Media Center to highlight the award winning books that are of high interest to the students. 7. ILA and ELA teachers will collaborate to design lessons that are closely aligned to the standards in those content areas. 8. ILA and ELA teachers will collaborate with ESE case managers to collect and analyze data to provide standard-based instruction with appropriate accommodations.
Person Responsible	Tanza Conneely (conneely.tanza@brevardschools.org)

#3	
Title	Math
Rationale	Data reveals although the 8th grade school average scores increased by 7%, student scores continue to be below the 43% district average and 46% state average.
State the measurable outcome the school plans to achieve	8th grade school average will continue to increase by no less than 5%, bringing it 25%.
Person responsible for monitoring outcome	Tanza Conneely (conneely.tanza@brevardschools.org)
Evidence-based Strategy	The math department will implement, with fidelity, AVID/WICOR strategies. Math teachers will be trained and administer the new MAP Growth progress monitoring tool, three times this year. Implementation of the Support Facilitation model and the scheduling of Instructional Assistants to high needs ESE classes, to support instruction and learning. Teachers will analyze student data to identify student learning needs and differentiate instruction. Continue collaboration within the department and with district resource teacher about effective achievement strategies.
Rationale for Evidence-based Strategy	Teachers will continue to hold students accountable for being prepared for class and for their own learning. Data will support teachers' understanding of necessary strategies to enhance student content knowledge. Coaching and modeling the use of AVID/WICOR strategies will benefit all students.
Action Step	
Description	<ol style="list-style-type: none"> 1. AVID site coordinator will conduct WICOR strategy training through PLCs. 2. Department lead and test coordinator will be trained to facilitate and analyze MAP Growth data, for progress monitoring. 3. Support and professional development will be provided within the department, by administration, and district resource teachers. 4. Teachers will receive administration or peer feedback on their instructional practices.
Person Responsible	Tanza Conneely (conneely.tanza@brevardschools.org)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

School Counselors and Social Worker will facilitate social-emotional student groups, provide teacher training, classroom lessons and activities, and educational evenings (3-4 times a year) to encourage parent engagement/involvement.
