## **School Board Approval**

This plan is pending approval by the Brevard County School Board.

#### **SIP Authority**

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <a href="https://www.floridacims.org">www.floridacims.org</a>.

# Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

# **Part I: School Information**

#### **School Mission and Vision**

#### Provide the school's mission statement.

To meet the individual educational and social needs of all students through high expectations; therefore, promoting citizens of character and life-long learners in a positive and safe environment.

#### Provide the school's vision statement.

Working together to launch life long learners with excellence as our standard.

## School Leadership Team

#### Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Clarke, Jennifer	Principal	I will provide a common vision among all stakeholders, all academic implementations will be based on data driven decisions, coordinate the facilitation of the MTSS process among all responsible stakeholders, monitor the MTSS facilitation with school faculty, monitor fidelity of the intervention process and appropriate documentation procedures, provide school based need identified professional development to all staff, ensure collaborative planning time is inclusive of all grade level peers and participation is continuous and scheduled, daily classroom walks are completed with a specified schedule for each administrator to follow, and leadership team meetings are conducted each Friday to discuss upcoming needs and events. A schedule of events, professional development, reminders, and due dates is provided to all staff each week, a staff outlook calendar has been created and shared for all employees to view and maintain current information regarding school meetings and events.
Kraus, Danielle	Assistant Principal	Assist the principal in providing a common vision among all stakeholders, support the implementation of data driven decisions, monitor the coordination of facilitating the MTSS process among all responsible stakeholders, monitor the MTSS facilitation with school faculty, monitor fidelity of the intervention process and appropriate documentation procedures, provide school based need identified professional development to all staff, ensure collaborative planning time is inclusive of all grade level peers and participation is continuous and scheduled, daily classroom walks are completed with a specified schedule for each administrator to follow, and leadership team meetings are conducted each Friday to discuss upcoming needs and events. Maintaining the staff outlook calendar that has been created and shared for all employees to view and maintain current information regarding school meetings and events. Communicate with parents as a proactive resolve to disciplinary measures and coordinate the social/emotional needs of students with the guidance counselor.
Stripp, Michelle	Other	Title 1 Coordinator, Literacy Interventionist, and MTSS Facilitator. Identifies systematic patterns of student needs to identify appropriate and evidenced-based intervention strategies. Leading professional development, monitor i-Ready fidelity, passage rates, data development for progress monitoring. Monitor Tier 2 and Tier 3 interventions, facilitate the MTSS process, coordinate MTSS meetings with faculty and parents, attend weekly leadership team meetings and weekly PLC's.
Dieckmann, Jamie	Instructional Coach	Mentoring new classroom teachers through lesson modeling, lesson plan design, lesson structures, and facilitation of peer observations. Working through the coaching cycle with struggling teachers and/or teachers that are new to their subject area, collaborative planning, lesson designs, and peer mentor. Leading professional development, monitor i-Ready fidelity, passage rates, data development for progress monitoring. Monitor Tier 2 and Tier 3 interventions, facilitate the MTSS process, coordinate MTSS meetings with faculty and parents, attend weekly leadership team meetings and weekly PLC's.

## **Early Warning Systems**

#### **Analysis**

#### **Data Reflection**

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

At 22%, students with disabilities were the lowest performing student category in ELA. The number of students with disabilities has increased by 42% over the past few years. With more students identified with a disability, this is leading to an increase in the number of students with a proficiency gap of 1 or more grade levels below.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

5th grade Math had the greatest decline from the previous year. In 2018 54% of 5th graders scored a level 3 or higher, whereas, in 2019 35% of 5th graders scored a level 3 or higher. This is a 19% point drop from on year to the next. One of the contributing factors is the baseline achievement of the students at the beginning of the school year. This cohort of 5th graders was substantially lower than the previous year's 5th graders. The two 5th grade math teachers were new to Atlantis and were not familiar with the curriculum.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Multiracial and white students were 20% or more below the state average in Science. They

Which data component showed the most improvement? What new actions did your school take in this area?

Economically disadvantaged students increased math proficiency to 56%. The use of the Eureka math curriculum as a school-wide implementation has improved proficiency rates.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

- 1. Students with disabilities
- 2. Black/African American students

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. ELA Proficiency and Learning Gains Across all Groups
- 2. Math Proficiency and Learning Gains Across all Groups
- 3. Science Proficiency
- 4.
- 5.

# Part III: Planning for Improvement

**Areas of Focus:** 

#### #1 **Title** Standards Aligned Tasks to Increase ELA Proficiency ELA scores have declined over that past 3 years, specifically not meeting the district ELA Rationale average. Students scoring a 3+ on ELA are at 58%, whereas the district average is 62%. State the measurable outcome the ELA total achievement will improve from 58% to 63% for the 2019-2020 school year. school plans to achieve Person responsible Jennifer Clarke (clarke.jennifer@brevardschools.org) for monitoring outcome Evidence-Standard aligned tasks across ELA coursework and standard aligned tasks embedded based within writing prompts throughout all ELA courses. Strategy Rationale for The decrease in ELA scores is related to the level of task complexity within the ELA Evidencecourses. If the tasks are aligned with the standards and the writing prompts include an based increased complexity the ELA scores should increase. Strategy Action Step 1. Throughout ELA students will complete standard aligned tasks resulting in a product that will culminate a comprehensive understanding of the standard assigned. 2. Amanda Howell will provide three professional development opportunities on standard aligned tasks that incorporate higher order questioning in ELA. 3. Amanda Howell is also providing teachers with resources to access exemplary tasks that embed inquiry as a focus. 4. Standard Focus Board's are being introduced through professional development presented by Sandy Brusca, FLDOE Assistant Director of School Improvement. This will frame the use of the standard language, create a focus for the result of the day's lesson, **Description** and support students in connecting that day's learning to the overall mastery of the standard. 5. The literacy coach will develop a coaching plan for teachers/grade levels as needed based on observations from classroom walk throughs. 6. Teachers will provide standard aligned tasks for students in response to text. 7. Administrators will conduct classroom walkthroughs to monitor tasks. 8. Teachers will use LAFS books for Reading and Writing through Tier 1 and Tier 2 instruction.

Person

Responsible

Jamie Dieckmann (dieckmann.jamie@brevardschools.org)

#### #2 **Title** Standard Aligned Tasks to Increase Math Proficiency Our math learning gains decreased from 66% to 53% and the Lowest 25% learning gains decreased from 50% to 41% last year. Within the lowest 25% our students with Rationale disabilities subgroup and our black/african american students subgroups dropped below 41% proficiency. State the measurable During the 2019-2020 school year our two subgroups of students will increase their achievement levels above 41% and our learning gains will increase to 66% with our outcome the lowest 25% learning gains increasing to 58%. school plans to achieve Person responsible Danielle Kraus (kraus.danielle@brevardschools.org) for monitoring outcome Evidence-Classroom walks, observations, professional development opportunities, iXL online program for math supplemental support, purchase of the Eureka homework helpers to based Strategy assist families with math support at home. Rationale for The decrease in math proficiency is the cause of a lack of fidelity to the Eureka program. The use of the hands-on manipulatives and the assigned homework supports the mastery Evidencebased of the daily lesson. Mastery of the standard and foundational skills will be achieved with Strategy teacher fidelity to the Eureka curriculum and timeline. Action Step 1. Eureka daily lessons will utilize the standard aligned tasks that are associated with each module, incorporating hands-on manipulatives for practice, weekly sprints, daily exit tickets, and homework practice problems. 2. Standard Focus Board's are being introduced through professional development presented by Sandy Brusca, FLDOE Assistant Director of School Improvement. This will frame the use of the standard language, create a focus for the result of the day's lesson, Description and support students in connecting that day's learning to the overall mastery of the standard. 3. The assistant principal will develop an observation schedule aligned with the Eureka timeline and monitor the fidelity of the lessons.

# Person Responsible

Danielle Kraus (kraus.danielle@brevardschools.org)

4. Administration will monitor Eureka pacing and tasks with fidelity.

#### #3

#### **Title**

Standard Aligned Tasks to Increase Science Proficicency

#### Rationale

Science proficiency rates have declined from 56% to 49% over the last year. This has been a continual decline in science proficiency. Not only do our overall science percentages rank far below the district average of 60%, but also the state average of 58%. All of our reportable subgroups ranked below the district and state averages.

# State the measurable

school plans to

outcome the During the 2019-2020 school year our science proficiency rates will increase from 49% to 58%.

# Evidencebased Strategy

Classroom walks, observations, professional development sessions provided by Michelle Ferro, district created standard based science assessments, hands-on science lab each week on the activity wheel, and science fair workshops providing support to the nature of science standards.

# Rationale for Evidencebased Strategy

The decrease in science scores is related to the level of task complexity within the science content. If the tasks are aligned with science standards and writing tasks include an increased complexity the science scores should increase.

#### Action Step

1. Science lab is part of the activity rotation for grades 3-6, with each class attending lab for 40 minutes once per week. The lab teacher, provided with Title 1 funds, is focusing on 3rd and 4th grade standards with 5th and 6th grade students as a review to those standards that are not supplemented in other grade levels. The 3rd and 4th grade students will be provided grade level standards that are high complexity and high depth of knowledge. 2. A science fair workshop is being offered over multiple weeks for students in grades 4-6. The students are introduced to nature of science standards, they select a project based on an area of interest, each group is lead by teachers that will walk then through the

#### Description

3. Standard Focus Board's are being introduced through professional development presented by Sandy Brusca, FLDOE Assistant Director of School Improvement. This will frame the use of the standard language, create a focus for the result of the day's lesson, and support students in connecting that day's learning to the overall mastery of the standard.

experiment process, assist with research, and complete the science board.

- 4. Michelle Ferro, district science resource teacher, is planning with the science lab teacher in order to focus on standards that will not be revisited once taught in their current grade level. She is also focusing on question stems and depth of complexity.
- 5. Administrator is conducting classroom walkthroughs to monitor the fidelity of the science pacing guide, use of stemscopes, and use of hands on applications in the classroom.
- 6. Science lab teacher is monitoring SSA data among grades 3-6 and planning with teachers to determine areas of need.

#4	
Title	Character Education
Rationale	Character education instruction to sustain the decreasing number of discipline referrals in K-2.
State the measurable outcome the school plans to achieve	We plan to have less than 70 discipline referrals in grades K-2 this school year.
Person responsible for monitoring outcome	Michelle Stripp (stripp.michelle@brevardschools.org)
Evidence-based Strategy	Social Emotional Activities and Learning (S.E.A.L.) is taught by Mrs. Pettis through the activity class for grades K-2.
Rationale for Evidence-based Strategy	During the 2018-2019 school year, there was a 30% decrease in discipline referrals as a result of social emotional supports that were provided through the guidance counselor. In order to continue this improvement we have incorporated S.E.A.L. in grades K-2 on the activity rotation.
Action Step	
Description	<ol> <li>Students will attend S.E.A.L. training, once per week during their activity time for 40 minutes.</li> <li>The PBIS team will monitor student discipline referrals on a monthly basis through the Rtl database.</li> <li>4.</li> <li>5.</li> </ol>
Person	Joanna Pettis (nettis joanna@brevardschools org)

#### Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Joanna Pettis (pettis.joanna@brevardschools.org)

# Part IV: Title I Requirements

#### Additional Title I Requirements

Responsible

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, § 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

Community Business Partners, Faith Based Partners, and Parent Volunteers will be volunteering at school events throughout the year, Character assemblies, Fun Run, Morning Mile, Family Game/PE Night, Science Fair, Ocean Day with first grade, Fall Festival, Light Up Atlantis, SEAL Training, National Physical Education Week, National Literacy Week, Kindergarten Roundup, and Grade level requested events. The students will build relationships with the stakeholders, thus creating a school and community relationship that supports the needs of our students. Each group of volunteers is contributing to our school culture by providing educational opportunities related to career development, social interaction, and community awareness. Our families will have an awareness of resources available to them, as well as, a networking system that has been established in the community and school. According to the parent survey, Atlantis parents and community member would like school events that vary throughout the school day and during the evening hours. The Atlantis community has a diverse population with availability that is not consistent. Feedback indicated that parents who work did not feel connected to the school because many events take place during the school day. We have accommodated this request by scheduling events at varying times through the day and evening hours.

## **PFEP Link**

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

K-2 students are provided Social Emotional Awareness Learning via the activity wheel 40 minutes once per week. The guidance counselor has scheduled counseling sessions into her daily schedule for students with behavior intervention plans, social/emotional goals, and students in crisis. The counselor is also working with the school based threat assessment team in identifying areas of concern among the community that may have an adverse affect on the student population.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Kindergarten students and parents attend kindergarten round-up for introduction and information, taste of kindergarten is offered as a half day introduction, prior to the start of the school year, for all incoming kindergarten students. They meet new students, meet the teachers, and participate in a short activity rotation so they can experience transitions for the first time. After the first nine weeks Mrs. Marks, Media Specialist, hosts a pirate and pajama night for kindergartners and their parents so they can check out a book from the Media Center for the first time while demonstrating what they have learned thus far. The sixth grade students will have an academic night, multiple middle schools are present, the students and their parents can learn about the choice program options available to them and extracurricular activities that they can join. The sixth graders will visit Space Coast Jr/Sr High school, meet with the dean, and speak with a group of high school students that can share experiences.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

The Title 1 coordinator, Michelle Stripp, coordinates the implementation of a school-wide intervention program on a daily basis that assists with Tier 2 and Tier 3 students through the use of the LLI program. Intervention groups are supported by Michelle Stripp, Michelle Grimes, Joanna Pettis, and a Title 1 IA, Courtney Parker. Title 1 is also supporting students on the activity wheel with a science lab for grades 3-6, which is taught by Michelle Grimes and a social/emotional class for grades K-2, which is taught by Joanna Pettis, students attend their class for 40 minutes once per week. ASP will be offered to grades

2-4 students after school, two days per week, as a supplement to ELA with a focus on Phonics as this is the largest deficit among students school-wide. ASP will be taught by classroom teachers that are funded through ASP. The literacy coach is monitoring assessment and instructional deliveries of i-Ready, reporting the data, coordinating planning sessions with teachers to determine deficits and needs. VPK-Blended offers a full day of academic services to 18 students that are comprised of students with disabilities and students without disabilities. Mrs. Divine-VPK teacher, Mrs. Rios-VPK IA, and Mrs. Watson-VPK IA support the classroom instruction, monitor the progress of the students both developmentally and academically. The VPK-Blended program is 5 days per week and 6 hours per day.

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Grades 4-6 will be participating in the school-wide science fair, a science fair workshop is being conducted for students in grades 3-6 with school based personnel and professionals assisting students with their science projects, Grades 4-5 will be attending a week long zoo school experience at the Brevard Zoo, 3rd grade students will be attending the astronaut experience at the KSC Visitor Complex, 6th grade students will participate in space week with a culminating field trip to the KSC Visitor Complex to learn about the aerospace inducstry, 4th grade students are participating in a program with the Brevard Zoo and Indian River Lagoon Preservation Society learning about the importance of oyster beds to the ecosystem, 4th grade students are also participating in Lagoon Quest in which they learn how the Indian River Lagoon contributes to and supports the local ecosystem.
