Demographics

Principal: Heather Smith A

Start Date for this Principal: 6/1/2018

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Middle School 7-8
Primary Service Type (per MSID File)	K-12 General Education
2018-19 Title I School	No
2018-19 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	55%
2018-19 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners Asian Students Black/African American Students* Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: B (56%) 2017-18: B (56%) 2016-17: B (54%) 2015-16: C (52%) 2014-15: B (59%)
2019-20 School Improvement (SI) Information*	
SI Region	Southeast
Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	

ESSA Status	TS&I
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Brevard County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan is pending approval by the Brevard County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at

<https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Central Middle School will provide quality education in a culture of collaboration and learning to prepare all students to be college and career ready fostering success in a global society. (Rev Aug 2018)

Provide the school's vision statement.

Central Middle School will empower students by promoting leadership through AVID practices. (Rev Aug 2018)

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Scheuerer, Todd	Principal	Leading the faculty and staff to maintain a safe learning environment for all.
Benjamin, Lorri	Assistant Principal	Leads the faculty and staff on implementation of curriculum, instruction, and scheduling that meets the needs of all students. AVID administrator
Higham, Lisa	Assistant Principal	Student services, discipline, and professional development
Mannes, Cole	Assistant Principal	Student services, discipline, and facilities
Zifer, Jennifer	Teacher, K-12	AVID Coordinator
Sanders, Julie	Teacher, K-12	Coordinating assessments and data analysis

Early Warning Systems

Current Year

Number of Consecutive Years Economically Disadvantaged Students Subgroup Below 32%	

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Students with disabilities in science, math, and language arts show the lowest performance. The ESSA federal index score for SWD has been below 32% for the past two years. Math FSA performance of lowest 25th percentile decreased from 46% to 39% proficient. Math proficiency decreased 18% from 7th grade FSA proficiency to 8th grade proficiency.

One factor impacting the decrease in proficiency from 7th to 8th grade is the acceleration model that we follow to provide more students with challenging Algebra curriculum, thus leaving a higher percentage of struggling math students in FSA tested classes.

Lack of progress monitoring and feedback and reflection, along with inconsistent inclusive practices, have led to students performing below grade level.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

There are multiple declining data sources. Math lowest 25th percentile decreased from 46% to 39% and Science proficiency decreased from 53% to 48%. Multiple subgroups experienced a decrease within science proficiency: BLK 33% to 23%, ELL 29% to 21%, SWD 15% to 13%, HSP 44% to 35%.

In addition to the contributing factors above, science classes did not experience consistent performance, hands on activities and assessments. Early in the school year, one 8th grade science teacher quit and due to the teacher shortage the position was not able to be filled. Classes were dissolved and students were absorbed into the other classes.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Eighth grade math proficiency is 7% below the state average, school wide math lowest 25th Percentile is 39% proficiency compared to the state proficiency of 51%. Science was 3 points below the state average.

A variety of factors could have contributed to these discrepancies. For example, personnel changes, inconsistent inclusive practices, no intensive math class, lack of prescribed progress monitoring tool, lack of vertical alignment when students transition to middle school.

Which data component showed the most improvement? What new actions did your school take in this area?

ELA Lowest 25th Percentile from 45% to 52% has shown the most improvement.

Several new actions were implemented in 2018-19 school year. The ESE push-in teacher for ELA demonstrated an effective model that promoted co-teaching and collaborative planning with the general education teacher. Reading Plus progress monitoring was implemented school wide and data was discussed and monitored. Goal-setting was implemented for students and supported by the Literacy Coach. The literacy coach worked with all MESH teachers to support comprehension and AVID strategies.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Two potential areas of concern are 329 identified students with Attendance below 90 percent and 241 students that earned a Level 1 on at least one statewide assessment.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Number of Consecutive Years Students With Disabilities Subgroup Below 32% for 2 Years
2. Science SWD ELL BLK HSP
3. Math L25

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Science Achievement
Rationale	48% of all students passed the Science FSA in 2019, which was a 3% discrepancy compared to the state and a 5% discrepancy from the year before. Only 13% of SWD students showed achievement.
State the measurable outcome the school plans to achieve	During the 2019-2020 school year at Central Middle School, 25% of students on the cusp of making a learning gain ("Bubble Kids"), will show positive growth.
Person responsible for monitoring outcome	Lorri Benjamin (benjamin.lorri@brevardschools.org)
Evidence-based Strategy	Central Middle School will implement AVID strategies and science interventions with data based feedback.
Rationale for Evidence-based Strategy	By improving performance in weak content areas students will better develop the foundational skills necessary for growth. Using inquiry based lessons, students who have struggled with content in more traditional settings have opportunity to master the skills. Differentiating instruction offers the opportunity to satisfy student needs. Evidence used includes analysis of state, district and school wide performances on individual strands of the Science FCAT.
Action Step	
Description	1. Identify Bubble students Using student's 5th grade Science FCAT scores teachers will identify students by their reasonable potential growth. Teachers can also use students FSA ELA scores from students 6th and 7th grade years respectively. "Bubble students" are those who are on the marginal cusp between achievement levels.
	2. Meet in PLCs to plan implementation of skills days The Science department will be implementing school wide "Skills Days" targeting weak science content areas. Skills days lessons will be designed to support improvement in these areas through inquiry based lessons and progress monitoring.
	3. Implement strategies to support all students with a focus on SWD students One such strategy includes AVID Focused Note Taking skills. Teachers will also focus on test taking strategies that help facilitate students with breaking down questions, item analysis and identification of misconceptions. All teachers will use schoolwide organizational tools such as the AVID binder and Student Planner Handbooks.
	4. Science PLC analyzes student samples of focused note-taking strategies
	5. First year Central is using the ASD 'Home Base' model created to support students in a regular education setting to support those students specifically.
	6. Progress monitoring using the Skills Days assessments Each Skills Days lesson will be accompanied with formative progress monitoring to help

determine which students need additional interventions.

7. Science teachers will use the progress monitoring data to differentiate and provide further remediation.

8. Admin and science teachers conduct walk throughs with district science resource teacher. Admin uses data to provide feedback to teachers, teachers use observations to improve own practice, and district resource teacher collecting trend data to share with department and admin.

9. BPIE team meets regularly to problem solve, facilitate two stakeholder input round table sessions, and make adjustments based on this input and problem solving. Problem solving will emphasize SWD achievement and goal setting, giving everyone more of a voice in educational planning.

Person Responsible	Lorri Benjamin (benjamin.lorri@brevardschools.org)
---------------------------	--

#2	
Title	Math Achievement
Rationale	Only 27% of Central Middle's SWD (Students with Disabilities) subgroup demonstrated proficiency on their end of year math assessment. Our 'Lowest 25%' missed the statewide average of students demonstrating proficiency by 12% and fell short of the district average by 6%. Overall, our students struggled to show math learning gains –only 51% total showed learning gains which is 4 percent short of the district average and 6% shy of the state average. For the past 2 years students in our SWD subgroup performed below the 32% Federal Index expectation. In 2018-2019, 0 students with disabilities were enrolled in Algebra 1
State the measurable outcome the school plans to achieve	35% of our students with disabilities will demonstrate proficiency on their end of year math assessment. 55% of our students school-wide will show learning gains on FSA math. We will have add 15 Acceleration points to our overall score.
Person responsible for monitoring outcome	Lorri Benjamin (benjamin.lorri@brevardschools.org)
Evidence-based Strategy	FOCUS note-taking (AVID/WICOR) Organization instruction (AVID/WICOR) Student placement in advanced math classes Peer (teacher) modeling/observation
Rationale for Evidence-based Strategy	“Algebra is the foundation for students' future success in science, technology, engineering, and math.” “Taking the course earlier in their academic careers allows students sufficient time to take the more advanced courses that are often prerequisites for postsecondary STEM majors.” NOV 2018 U.S. DEPARTMENT OF EDUCATION WICOR is AVID’s proven learning support structure that incorporates teaching and learning methods in critical areas to help students comprehend and present ideas at higher levels of understanding.
Action Step	
Description	<ol style="list-style-type: none"> 1. All 7th grade students are enrolled in Math 2 Advanced or higher 2. Analyze Data to place students in Algebra 1 3. Hold an Algebra 1 parent informational night 4. Utilize school wide AVID binder to organize math materials/notes 5. Use focused note taking strategies in math class 6. Math PLC analyzes student samples of focused note-taking strategies 7. Implement progress monitoring using MAPS 8. First year implementing ASD 'Home Base' model is created to support students in a regular education setting 9. ESE Resource teacher will push-in to 8th grade math classes to offer support to SWD in their math class 10. 7th grade SWD are exposed to general education math classes using the inclusion model 11. Additional support offered to all students via online tutorials and ‘face to face’ tutoring by math teachers 12. Boot camp will be held in the spring to review Algebra and focus on ESE students

13. Teachers will model lessons using effective strategies for their peers.
14. Learning strategies teacher will incorporate foundational math skill lessons into their classes.
15. BPIE team meets regularly to problem solve, facilitate two stakeholder input round table sessions, and make adjustments based on this input and problem solving. Problem solving will emphasize SWD achievement and goal setting, giving everyone more of a voice in educational planning.
16. Admin observing math instruction and giving regular feedback

Person Responsible Lorri Benjamin (benjamin.lorri@brevardschools.org)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).
