Demographics

Principal: James K IR K C

Start Date for this Principal: 9/10/2019

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	High School 9-12
Primary Service Type (per MSID File)	K-12 General Education
2018-19 Title I School	No
2018-19 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	32%
2018-19 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners Asian Students Black/African American Students Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: A (64%) 2017-18: A (63%) 2016-17: A (62%) 2015-16: B (60%) 2014-15: A (72%)
2019-20 School Improvement (SI) Information*	
SI Region	Southeast
Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	

ESSA Status	TS&I
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Brevard County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan is pending approval by the Brevard County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at

<https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The mission of Melbourne High School is to inspire students to strive for excellence in all aspects of their lives, embrace learning as a pathway to success, and contribute to our society as responsible citizens.

Provide the school's vision statement.

TBD

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities

Economically Disadvantaged Students Subgroup Below 41% in the Current Year?	NO
Number of Consecutive Years Economically Disadvantaged Students Subgroup Below 32%	

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

We continue to struggle with our SWD in reading and mathematics. We also saw a slight reduction in ELA performance overall as compared to the prior year.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Our African-American and Hispanic students experienced a decline overall in ELA scores. We believe access to grade level assignments on a consistent basis contributed to this decline.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Proficiency of our lowest 25% in mathematics.

Which data component showed the most improvement? What new actions did your school take in this area?

SWD made gains in ELA, Science, and Social Studies. Focus on standards-based instruction combined with additional push-in services in ELA may have helped improve scores in these areas.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Course failures remain a concern, especially since we know that most of our students fail classes because they have not submitted assignments instead of a lack of course proficiency.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Increase academic growth for ESE students in reading and math
2. Increase academic growth for struggling students in reading and math
3. Increase classroom support for ESE students
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Support for struggling students
Rationale	Melbourne High has not performed well with ESE students over the last three years. We were recently placed on the state list for targeted support for this sub-group. We recognize that we need to provide more support for struggling students in both reading and mathematics.
State the measurable outcome the school plans to achieve	Melbourne High School will improve the overall academic performance of our ESE students from 38% of the total points possible for that sub-group to at least 45% of points possible as measured in the 10 cells that count for school grade.
Person responsible for monitoring outcome	James Kirk (kirk.james@brevardschools.org)
Evidence-based Strategy	<p>Increase push-in support for struggling students in both reading and math. Revise curriculum in Learning Strategies to adopt a preview/acceleration model. Improve student access to rigorous curriculum and grade level assignments</p> <p>Struggling students often need more in-class subject specific support in order to demonstrate academic growth. We plan to provide more support in English 1, English 2, Algebra, and Geometry by adding support-facilitation teachers and instructional assistants. These additional resources will allow the teachers to provide more differentiation to students, break classes into small groups, and provide more individual attention. In addition, we plan to have our common unit lesson plans shared with Learning Strategies teachers in advance so that key vocabulary and concepts can be previewed before the students see that information in the regular classroom. Research by TNTP (2018) indicates that consistent access to grade level assignments may help students grow up to 7 months in comparison with their peers. We recognize that students in our non-honors classes have less opportunity to access grade level assignments than our students in honors, AP, or IB courses.</p>
Rationale for Evidence-based Strategy	
Action Step	
Description	<ol style="list-style-type: none"> 1. Increase push-in support in English and Math 2. Apply preview and acceleration model in learning strategies to help students assimilate key content. 3. Revise power hour policies to mandate students attendance if they are failing courses. 4. Increase access to grade level assignments in all core academic classes 5.
Person Responsible	James Kirk (kirk.james@brevardschools.org)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).
