School Board Approval

This plan is pending approval by the Broward County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our lowest performing data component was our ELL subgroup ELA proficiency at 11%. However, our learning gains (31%) and bottom quartile learning gains (23%) for our ELL subgroup were higher. We had 54% of our ELLs with language classifications of Entering (level 1- 31%) or Emerging (level 2-23%) and 45% of our ELLs with language classification of Developing (level 3 - 33%) or Expanding (level 4 -12%). It is difficult for students new to the English Language to reach proficiency in only 1 or 2 years. However, the learning gains of the bottom quartile ELL students is most troubling. Even though all level 1 students were scheduled into a Developmental Arts ESOL Reading course, those students need additional support for language acquisition. Content area teachers struggled to utilize ELL teaching strategies in their subject area instruction. We also had a lack of resources for ELL reading Tier 3 pull-out intervention groups.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Our greatest decline from the prior year was in ELA learning gains, dropping 5 points from 43% to 38%, and in ELA lowest 25% learning gains, dropping 6 points from 35% to 29%. The tested group came in with over 40% of students not scoring proficiency in literacy. Our ELA and Reading department struggled to collaboratively utilize data from formative assessments to provide targeted remediation. Our content area teachers also struggled to utilize reading and writing strategies and assignments through core subject areas that aligned with ELA FSA standards and tested item construction. Finally, there was a lack of resources for providing targeted, tier 3, reading intervention for bottom quartile students not showing growth.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The data component that had the greatest gap when compared to the state average was our Geometry EOC scores. We had 23% proficiency, while the state had 61% proficiency, a 34 point difference. Most students who have strong mathematics skills take the Algebra 1 and Geometry EOC in accelerated middle school programs. An overwhelming majority of students who enter our high school without having already taken the Algebra 1 and Geometry EOC have had a long history of failure with mathematics concepts. Recognizing this, 2 years ago we began implementing the Algebra Project which gives students a 90 minute block of math for two years with the same teacher in order to prepare them for the Algebra 1 EOC. Algebra project students who took the Algebra 1 EOC last year scored much higher overall than in previous years. This school year, that first Cadre of students will be taking the Geometry EOC, and we expect to see similar improvement in Geometry this year.

Which data component showed the most improvement? What new actions did your school take in this area?

US History EOC is the data component that showed the most improvement, increasing 8 percentage points from 42 to 50% in 2019. Teachers met during common planning time to create common formative assessments, discuss student data, and plan instruction based on formal and informal assessment data. Additionally, they utilized monthly common formative assessment data to offer pull-out review activities for students needing remediation for standards assessed that month. Students tracked their own data in their data tracking folders, and held monthly data chats with their SS teacher regarding their progress. We also utilized PLCs and department meetings for analysis of authentic student work, such as exit slips, essential questions, graphic organizers, projects, essays, and constructed responses, which yielded qualitative information that provided us more insight into students' thinking in order to pinpoint any gaps in understanding as well as misconceptions.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

One major area of concern is the % of students who have less than 90%. 21% of freshman, 31% of sophomores, 34% of juniors, and 41% of seniors have less than a 90% attendance rate. If students are not in school, they are not learning. Our attendance committee has identified several actions they will take to reduce attendance concerns. Students with 1 to 4 absences will recieve a robo call informing them of their child's absence. On absence #5, the teacher will call the parent to discuss the student's attendance concern. When a student is absent 6-9 times, they are referred to the RTI team and the Behavior Specialist, Grade level administrator, and school social worker work together to develop an attendance contract with the student. Improvement in attendance will result in an incentive to be agreed upon with student and administrator. Students who show improvement in attendance will also receive HERO points that can be used for entry into our schools PBIS monthly reward parties. Student will meet with Behavior Specialist monthly to address attendance plan and concerns. Students who miss more than 15 days will be referred to the school social worker, CINS-FINS, the truant officer, the Florida Department of Motor Vehicles, and the Florida State Attorney Truancy Intervention Program, and the Broward Sheriff's office. These students will also be assigned a schoolbased adult mentor as well as a peer mentor from one of our mentoring programs. Students will also be referred to an extracurricular club or activity.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. ELL ELA proficiency
- 2. ELA Learning Gains
- 3. Geometry EOC
- 4. Algebra 1 EOC
- 5. Improving Attendance

Part III: Planning for Improvement

Areas of Focus:

#1

Title ELL ELA Proficiency

> Our ELL subgroup only scored 11% proficiency on the ELA FSA. This was our poorest subgroup performance, and our worst performing data component. We want to see more of our ELL students utilize strategies that allow them to demonstrate literacy proficiency on

the ELA FSA exam.

State the measurable

Rationale

school plans to achieve

outcome the In the 2019-2020 school year, 15% of our ELL students will be proficient in literacy as measured by the English Language Arts Florida State Assessment.

Person responsible

for monitoring outcome

Evidence-

based

Strategy

Sonja Sherman (sonja.sherman@browardschools.com)

into their class. Level 1 entering students are also scheduled into a 90-minute block of Developmental Language Arts Reading class for ESOL students. Newcomer level 1 students will receive additional English Language and Literacy instruction utilizing the pullout model during their study hall/personalization period. Language Enrichment Camp will be provided after school and on Saturdays for all ELL students. Incoming ELL students will receive an ESOL ambassador who speaks their native language as a peer mentor. All teachers will participate in staff development to help them utilize ACCESS data and WIDA Can-do descriptors when designing classroom instruction, assignments, and assessments for ELLS. All ELL students will receive instruction in using a heritage language dictionary, and they will be provided dictionaries.

Level 1 entering students in 9th, 10, and 11th grade are scheduled into an English through ESOL class with high qualified teachers who have been trained to utilize ESOL strategies

Rationale for Evidencebased Strategy

Based on last year's assessment results, classroom observations, and student survey data, ELL students demonstrate a need for additional instruction in using a heritage language dictionary during assessments. Based on a professional development needs assessment and classroom observations, we see a need to provide additional professional development for utilizing ESOL teaching strategies in content areas.

Action Step

- 1. Schedule level 1 students into Developmental Language Arts ESOL Reading course and English through ESOL.
- 2. Provide professional development for teachers in utilizing Ellevation, data tracking, and ESOL strategies in all content areas.
- Create pull-out English language intervention and enrichment groups during Study Hall/ Personalization periods.

Description

- 4. Complete Broward County Grant funding request for Language Enrichment Camp after school and on Saturdays.
- 5. Implement Language Enrichment Camps for ELL students after school and on Saturdays.
- 6. Use formative assessments to monitor progress towards mastery of Language Arts Florida Standards.
- 6. In all classes, provide instruction and practice utilizing heritage language dictionaries and test taking strategies.
- 7. Provide ESOL ambassador peer mentors for all newcomer ELL students.

Person Responsible

Sonja Sherman (sonja.sherman@browardschools.com)

#2

Title

ELA Learning Gains

ELA learning Gains is an area of focus for us because it is an area where we had the biggest decline from the prior year, dropping 5 points from 43% to 38%, and in ELA lowest quartile learning gains, dropping 6 points from 35% to 29%. This is a red flag that we need to make adjustments. Students who are not making learning gains in literacy and remain permanently in bottom quartile status often struggle with literacy content in all content area classes, struggle to maintain the 2.0 GPA that is mandatory for graduation, and often struggle to just remain on track for graduation, causing many of them to leave school without a high school diploma. This creates further problems for them as they struggle to find meaningful employment and/or further their education at an institution of higher learning. We need to adjust our processes for these students.

State the measurable

Rationale

school plans to achieve

In the 2019-2020 school year, at least 45% of 9th and 10th grade students will make outcome the learning gains in literacy as measured by the ELA Florida State Assessment. Additionally, at least 45% of students who fall into the bottom quartile will make learning gains in ELA as measured by the English Language Arts Florida State Assessment.

Person responsible

for monitoring outcome

Evidencebased Strategy

Latanga Igbarese (latanga.igberaese@browardschools.com)

Department members met before pre-planning week to create grade level instructional focus calendar, and to create a common progress monitoring calendar for the year. Teachers will meet weekly in professional learning communities to develop common formative assessments, and will work collaboratively to analyze assessment data for the purpose of informing classroom instruction, remediation, and enrichment activities. All 9th and 10th grade students in the bottom quartile for ELA will receive targeted remediation based on common formative assessment data that address specific areas of deficiency. Intensive Reading and English teachers will receive professional development related to unpacking the Florida State English Language Arts Standards, and aligning classroom instruction and assessment to the LAFS. Content area teachers will utilize the school wide literacy plan activities requiring bi-weekly literacy components through use of the "Rhetorical Triangle" strategy to be added to their core content assignments. Content-area literacy training through PLCs will be conducted.

Rationale for Evidencebased Strategy

It has long been viewed as a Best Practice to ensure a focus on learning through common planning and content or grade level professional learning communities.

Action Step

- 1. Prepare common, grade-level instructional focus calendars and align instructional pacing with the Language Arts Florida Standards and Florida Standards Assessment.
- 2. Create common formative assessments that align with the ELA FSA utilizing GRAIDE NETWORK and CommonLit.com

Description

- 3. Use department PLC time to analyze formative assessment data to inform instructional planning for instruction, remediation, and enrichment.
- 4. Create support personnel pull-out and push-in schedule for targeted remediation groups.
- 5. Utilize formative assessment data to plan school-day review sessions for all bottom

quartile students on Early Release Days

- 6. Complete enrollment drive for after school literacy tutoring program, targeting students who need remediation in reading.
- 7. Complete enrollment drive for Saturday Academic Success Camp, targeting students who need remediation in reading.
- 8. Market the student incentive plan in place for students who show growth on their common formative assessments each month.

Person Responsible

Sonja Sherman (sonja.sherman@browardschools.com)

#3

Title SWD ELA Proficiency

Only 17% of students with disabilities met proficiency in English Language Arts, far below Rationale the federal index % of 41%. This indicates an area of needed attention.

State the measurable

school plans to

outcome the In the 2019-2020 school year, 20% of our students with disabilities will meet proficiency on the florida standards assessment for English Language Arts.

Person responsible

achieve

for monitoring outcome

Mark Howard (mark.howard@browardschools.com)

Evidencebased Strategy

Department members met before pre-planning week to create grade level instructional focus calendars, and to create a common progress monitoring calendar for the year in all departments. Teachers meet weekly in professional learning communities to develop common formative assessments, and work collaboratively to analyze assessment data for the purpose of informing classroom instruction, remediation, and enrichment activities. All 9th and 10th grade students with disabilities in the bottom quartile for ELA will receive targeted remediation based on common formative assessment data that address specific areas of deficiency. All students with disabilities will receive academic support through their support facilitator in the ESE resource room or through push-in classroom assistance.

Rationale for Evidencebased Strategy

It has long been viewed as a Best Practice to ensure a focus on learning through common planning and content or grade level professional learning communities. Students with disabilities will benefit from targeted, small group interventions.

Action Step

- 1. Prepare common, grade-level instructional focus calendars and align instructional pacing with the Florida Standards in each curriculum area.
- 2. Create common formative assessments that align with the Florida Standards in each department.

Description

- 3. Use department PLC time to analyze formative assessment data to inform instructional planning for instruction, remediation, and enrichment.
- 4. Create support personnel pull-out and push-in schedule for targeted remediation groups.
- 5. Analyze student formative assessment data to adjust small group instruction with SWDs.

Person Responsible

Annette Pickney (annette.pinckney@browardschools.com)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Algebra 1 and Geometry EOC proficiency will also be a priority to address. Math teachers will meet weekly to collaborate in departmental PLCs. The math department will create a common instructional pacing guide and common formative assessments. Teachers will analyze data in order to inform

classroom instruction, remediation, review, and enrichment activities and assignments. Students will track their own progress utilizing student data folders. Students with a history of level 1 mathematics achievement will be scheduled into a daily 90 minute block of math utilizing the Algebra Project model. Students who do not score proficiency on the Algebra 1 EOC will receive an additional year of liberal arts math as remediation before taking the Geometry EOC as well as preparation for the Algebra 1 EOC retake.

Additionally, our school will focus on increasing attendance as an additional school wide improvement priority.

Our attendance committee meets monthly to review attendance data, and to meet with students who have attendance problems. students with 1 to 5 absences will receive a robo call home to inform their parents. Students with 6-9 unexcused absences will be referred to the RTI team and placed on an attendance contract. Students who have 10 or more unexcused absences will be referred to the school social worker. Students with 15 or more unexcused absences will also be referred to Children In Need of Services (CINS) or Families in Need of Services (FINS) and benefits may be suspended. The State Attorney Truancy Intervention Program and Broward County SHeriff's office will also be contacted to report habitual truancy. Students with excessive tardies (more than 5 in a marking period) will be placed on an attendance contract and must meet monthly with the behavior specialist and/or administration. The contract will outline consequences for continued tardies and rewards for improved attendance.

Part V: Budget
