School Board Approval

N/A

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The mission of HIVE Preparatory School is to collaborate with stakeholders in creating a Highly Inquisitive Versatile Education that will facilitate a student-centered, adaptable learning environment. The School will provide students with a rigorous academic and social preparation that will promote dignity, courtesy, discipline, responsibility, and high expectations in order to achieve high academic standards and become productive citizens.

Provide the school's vision statement.

HIVE Preparatory School establishes the following goals in achieving its vision:

- 1.Create a safe, nurturing academic environment where all students will achieve high academic standards and professionals are empowered to embrace accountability.
- 2.Ensure students are exposed to a broad swath of cultural and academic experiences as preparation for success in a global economy.
- 3.Furnish adequate resources to achieve the School's mission including the recruitment and retention of highly qualified teachers and motivated staff.
- 4.Deliver an instructional system that will be tailored to individual learning styles including; differentiated instructions, active learning, and learning centers.
- 5.Serve students with disabilities according to their IEP.
- 6.Provide a flexible and versatile approach that will ensure continuous improvement of all learners.
- 7.Maintain an effective level of parental involvement.

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Gonzalez, Carlos	Principal	Contribute to the school improvement process with an emphasis on math and science.
Zequeira, Jennifer	Assistant Principal	Contribute to the school improvement process with an emphasis on ELA.
Bonilla, Sergio	Assistant Principal	Contribute to the school improvement process with an emphasis on ESOL and middle school.
Gonzalez, Alejandra	Teacher, ESE	Contribute to the school improvement plan process with an emphasis on special education.

Early Warning Systems

Current Year

The number of students by grade level that exhibit each early warning indicator listed:

Indicator	Grade Level													Total
	K	1	2	3	4	5	6	7	8	9	10	11	12	
Number of students enrolled	135	144	92	74	67	96	79	65	85	0	0	0	0	837
Attendance below 90 percent	6	1	0	2	4	3	1	4	6	0	0	0	0	27
One or more suspensions	2	0	1	0	0	0	0	0	0	0	0	0	0	3

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

SWD students scored a 41% proficiency in English Language Arts. This group of students have been identified as struggling learners and are already receiving multiple levels of support. An adjustment to the quality of support was made last year and showed an increase of 20 percentage points. However, this subgroup has consistently under performed when compared to other subgroups.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

ELA lowest 25th percentile students decreased in proficiency from 65% to 62%. Intensive reading classes were scheduled back to back which led to a "dragging" feeling, according to the classroom teachers. Keeping the kids engaged for such long times proved to be difficult.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

HIVE Prep outperformed the State in every category. Thus, the component that outperformed the State the least was ELA Lowest 25th Percentile. As mentioned within part b, adjusting the schedules and/or the classroom structures in a way that support student engagement will be the priority.

Which data component showed the most improvement? What new actions did your school take in this area?

Math Lowest 25th Percentile showed the most improvement. Middle school intensive math was made mandatory for all students scoring a level 1 or 2 in the prior year's FSA. Elementary intervention groups placed a focus on math scores sooner than in previous years.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

TBA

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. SWD ELA scores
2. ELA Lowest 25th Percentile
3. 8th Grade Science
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	ELA scores for SWD students
Rationale	This subgroup has consistently been the lowest performing group in the school. While scores improved dramatically from 2018-2019, they were still significantly lower than any other subgroup.
State the measurable outcome the school plans to achieve	Increase ELA proficiency for the SWD subgroup by 5 percentage points, from 40% to 45%.
Person responsible for monitoring outcome	Alejandra Gonzalez (agonzalez@hiveprep.com)
Evidence-based Strategy	Individualize the curriculum of interventions
Rationale for Evidence-based Strategy	Currently, interventions focus on subgroup deficiencies. This year, the school will increase the number of individuals involved in interventions so that the SWD students can receive instruction directly related to his/her needs. i-Ready intervention software will be used to determine the needs and multiple classroom resources (core, i-Ready, etc.) will be utilized to instruct.
Action Step	
Description	<ol style="list-style-type: none"> 1. Identify individual needs via i-Ready diagnostics 2. Group student according to exact deficiencies 3. Implement intervention program 4. Review student progress (bi-weekly, mid-year diagnostics) 5. Adjust as needed
Person Responsible	Jennifer Zequeira (jlzequeira@hiveprep.com)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, Â§ 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

See Parental involvement Plan

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

HIVE Prep embeds a strong focus on Character Education. Respect and responsibility are just two of the values at the heart of the School. The School community lives in an age where technology and social concerns dictate the need for a deepening concern for character. The basic principles for an integrated character education program will include, but not be limited to: the teacher as a caregiver, model and mentor; the classroom as a democratic community; activities that promote values and ethics; encouraging character reflection; discussion of issues and answers, problems and solutions; conflict resolution and students as mediators; parent and community involvement; character education task force comprised of teachers, administration, and parents.

The character education program is integrated through a mentoring program that contains activities that will help to determine how to appropriately infuse character attributes into all social-emotional situations in an effort to empower our students.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

HIVE Prep will continue to harbor relationships with local VPK programs by developing parent liaison committees and informational orientations regularly. HIVE Prep will participate in the College Bound Parents program: a program that provides information and assistance to incoming kindergarten parents throughout their K-12 years and will assess the incoming Kindergarten students using the FLKRS test as a baseline assessment as well as the CELLA test for the ELL students. Incoming students' social and emotional development will be assessed through the use of ECHOS. Data will be used to plan instruction and determine the need for interventions. Core academic and behavioral instruction is based on data and includes social skills instruction. Throughout the year the students' progression will be continually monitored through our iReady testing.

HIVE Prep hosts three high school transition meetings that prepare and support families as they prepare to apply and attend high school. The first meeting focuses on best practices on applying, comparing, and locating schools. The second meeting involves follow-up to the applications and site-visits. The final meeting is student-centered and how to prepare each child for high school requirements.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

The MTSS Leadership Team use the Tier 1 Problem Solving process to set Tier 1 goals, and monitors academic and behavioral data to evaluate progress towards those goals at least three times per year by: Holding regular team meetings where problem solving is the sole focus.

Using the four step problem solving process as the basis for goal setting, planning, and program evaluation during all team meetings that focus on increasing student achievement or behavioral success. Determining how we will know if students have made expected levels of progress towards proficiency? (What progress will show a positive response?)

Respond when grades, subject areas, classes, or individual students have not shown a positive response? (MTSS problem solving process and monitoring progress of instruction)

Responding when students are demonstrating a positive response or have met proficiency by raising goals or providing enrichment respectively.

Gather and analyze data at all Tiers to determine professional development for faculty as indicated by group or individual student diagnostic and progress monitoring assessment.

Ensure that students in need of intervention are actually receiving appropriate supplemental Tier 2 intervention. Gather ongoing progress monitoring (OPM) for all interventions and analyze that data using the Tier 2 problem solving process after each OPM.

Tier 2

The second level of support consists of supplemental instruction and interventions provided in addition to and in alignment with effective core instruction and behavioral supports to groups of targeted students who need additional instructional and/or behavioral support. Tier 2 problem solving meetings occur regularly (monthly is suggested) to:

Review OPM data for intervention groups to evaluate group and individual student response.

Support interventions where there is not an overall positive group response

Select students (see SST guidelines) for SST Tier 3 intervention

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.
