## School Board Approval

## N/A

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS\&I) and Comprehensive Support and Improvement (CS\&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS\&I, a school must have one or more ESSA subgroup(s) with a Federal Index below $41 \%$. This plan shall be approved by the district. There are three ways a school can be designated as CS\&l:

1. have a school grade of $D$ or $F$
2. have a graduation rate of $67 \%$ or lower
3. have an overall Federal Index below 41\%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.
The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all noncharter schools with a current grade of D or F, or a graduation rate $67 \%$ or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part I: School Information

## School Mission and Vision

Provide the school's mission statement.
Perpetuate a school community that cultivates emotional, moral and
Physical well-being while
Motivating and preparing students to achieve
High standards in order to become effective leaders
Provide the school's vision statement.
At Pinecrest Preparatory Middle-High (PPMH), we will strive to perpetuate a community of learners in which the pursuit of Honor, High Standards, and Intellectual Growth is complemented by a concern for the physical, cultural and character development of each student. Through its academic rigor, PPMH promotes a sense of identity, community, personal integrity and values that prepare students to become effective leaders.

School Leadership Team

## Membership

Identify the name, email address and position title for each member of the school leadership team:

## Analysis

## Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The lowest performing subgroup as identified by the 2019 School Grade Components by Subgroups data disaggregation tool is the SWD. In terms of their math achievement, the SWD subgroup demonstrated a $27 \% 2019$ math achievement score (compared to $41 \%$ in 2018) and $13 \%$ math learning gains (compared to $53 \%$ in 2018). These students have continued to struggle with geometry standards and have not optimized the remediation opportunities given.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

As stated above, the math achievement and learning gains demonstrate that greatest decline for the SWD subgroup.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The greatest gap when compared to the state average is demonstrated by the Math lower quartile group. The trend identified is that these students have exhibited gaps in math standards, and at our school, take Algebra I in the high school (while the majority of students have taken this course as part of acceleration curriculum in our feeder school). As a result, students that enroll in the geometry course as sophomores are hindered by their knowledge of geometry, and did not receive adequate supplemental support.

Which data component showed the most improvement? What new actions did your school take in this area?

The data component that showed the most improvement was the ELA achivement. This year, all English I students were exposed to the College Board, research-based, Pre-Advanced Placement curriculum.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

As identified in the EWS data, the areas of potential concern is the students not fulfilling the Algebra I EOC graduation requirement, as well as the number of students still earning a level 1 or 2 on the FSA Reading Assessment.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. SWD- math learning gains and achievement
2. Students not fulfilling the Algebra I EOC graduation requirement
3. 
4. 
5. 

Part III: Planning for Improvement
Areas of Focus:

Title Math Learning Gains and Achievement - SWD
As identified by the 2019 School Grade Components by Subgroups data disaggregation tool, the lowest performing subgroup is the SWD. In terms of their math achievement, the
Rationale SWD subgroup demonstrated a $27 \% 2019$ math achievement score (compared to $41 \%$ in 2018) and $13 \%$ math learning gains (compared to $53 \%$ in 2018). These students have continued to struggle with statistics and have not optimized remediation opportunities given.

## State the

 measurableoutcome the Utilizing the 2019-2020 Algebra I EOC, it is expected that $50 \%$ of our SWD population will
school make one year worth of learning gains.
plans to
achieve
Person responsible
for monitoring outcome

## Evidence-

 based StrategyIn addition to the intensive mathematics course that is offered to all Level 1 and 2 students, SWD will be offered mandatory pull-out tutoring in small group settings.

## Strategy

## Action Step

As per attendance logs, this subgroup has shown lack of attendance for after-school or Saturday tutoring.

|  | 1. Use a certified interventionist to provide pull-out tutoring during FOCUS period. <br> 2. Student Services will inform parents of the tutoring and continue to monitor academic <br> progress. |
| :--- | :--- |
| 2. Respective math teacher will collaborate with interventionist to design prescriptive |  |
| Description |  |
| lessons based on results from formative and summative assessments. |  |
| 4. |  |
| 5. |  |

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

In order to address students not earning a passing score on the Algebra I EOC, teachers will continue implementing the PreAP curriculum in Algebra I. Morning and after school tutoring will be offered to students not exhibiting adequate growth in formative and summative assessments (topic tests, mid-year assessments, and classroom based assessments).
