#### **School Board Approval**

This plan is pending approval by the Osceola County School Board.

# **SIP Authority**

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <a href="https://www.floridacims.org">www.floridacims.org</a>.

#### **Purpose and Outline of the SIP**

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## **SIP Authority**

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <a href="https://www.floridaCIMS.org">https://www.floridaCIMS.org</a>.

# **Purpose and Outline of the SIP**

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

# **Part I: School Information**

## **School Mission and Vision**

#### Provide the school's mission statement.

Central Avenue Elementary School: Ensuring high levels of learning for all.

#### Provide the school's vision statement.

Central Avenue is a safe place where staff, students, and community members feel included as part of the school. We will ensure success for all by communicating and collaborating effectively to identify and meet the needs of the whole child while providing a positive and engaging environment, working toward high expectations set for all.

# **School Leadership Team**

#### Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
DeRight, Amanda	Assistant Principal	Mrs. Amanda DeRight is responsible for the school stocktake, will monitor the SIP and receive monthly reports and give feedback to the principal as well as facilitate the meeting process. Her responsibilities include observing and supporting instructional coaches and instructional staff members throughout the school, monitoring progress of students as per Tier I instruction, monitoring and acting on student data per school wide data analyzing, and providing supports where needed.
Derstine, Brandi	Instructional Technology	Brandi Derstine is the technology integration coach. She specifically oversee's any technology that is being implemented into our instruction. Our 3-5 teachers have 1-to-1 devices so she ensures that our teachers are using that technology in order to impact student achievement. More specifically, she helps the teachers use their LSI trackers in order to track student progress. She gives trainings throughout the year and also ensures that the Leadership Team is using our Growth Tracker and Trend Tracker (both part of the LSI Trackers) to perform our walkthroughs and "Look and Learns." This all helps teachers implement the specific LSI Techniques and then also be tracked by the Leadership Team to guide our coaching. Ms. Derstine also coaches 3-4 teachers every 2 weeks on the most recent instructional technique from our LSI work using the "Plan, Do, Observe, Act" coaching model.
Winston, Nadia	Principal	The principal (Nadia Winston) and the assistant principal (Amanda DeRight) are both responsible for the school stocktake, will monitor the SIP and receive monthly reports and give feedback. Both administrators also coach 2-3 teachers every 2 weeks on the most recent instructional technique from our LSI work using the "Plan, Do, Observe, Act" coaching model. In addition, we provide feedback on the evaluation tool in a timely manner to inform instruction and in turn, positively effect teaching and learning.
Kowalski, Melissa	Instructional Coach	Melissa Kowalski if our Math/Science Coach. Her specific responsibilities include but are not limited to overseeing math and science instruction throughout the whole school. She attends PLC's twice per week to ensure that teachers have the correct resources and are using appropriate strategies depending on their learning target and success criteria for the particular lessons they are planning. She also created the curriculum for the STEM Lab that is on the block wheel for kindergarten through fifth grade. This is to ensure science competency in all grades and ultimately ensure that when our 5th graders take the Science FCAT test they are proficient. Mrs. Kowalski also coaches 3-4 teachers every 2 weeks on the most recent instructional technique from our LSI work using the "Plan, Do, Observe, Act" coaching model.
Kincade, Sabrina	Instructional Coach	Sabrina Kincade is our Behavior Coach. Her specific responsibilities include but are not limited to overseeing the PBIS process school wide. She ensures that expectations are explicitly taught and are posted throughout the school in the appropriate areas. She also ensures that Zones of Regulation is explicitly taught to ensure that students become aware of their feelings and can calm down before the commit an act against the Student Code of Conduct. She

Name	Title	Job Duties and Responsibilities
		also leads the 3 self-contained EBD units to make sure that grade level instruction is being taught and the environment in each of these classrooms is conducive to learning. She also performs walkthroughs to help coach teachers on specific management strategies to ensure optimal instruction at all times. Mrs. Kincade also coaches 3-4 teachers every 2 weeks on the most recent instructional technique from our LSI work using the "Plan, Do, Observe, Act" coaching model.
Matos, Marla	Instructional Coach	Ms. Matos is the English for Speakers of Other Languages specialist at Central. Her duties are to maintain compliance with all students with limited English proficiency designations and to maintain assessment standards for students in this program and services provided to students to access and learn the English language. Ms. Matos also provides instructional staff members with the needed tools and resources to support the English Language learners within the academic areas. Ms. Matos is the owner of the Focus area related to English Language Learners.
Phillips, Karen	Instructional Coach	Mrs. Phillips works to structure and maintain systems related to the MTSS process and intervention programs school wide. Mrs. Phillips oversees supplemental resources and intervention processes as well as facilitates meetings and processes related to the progress monitoring of students within each Tier, as well as communications with parents and other stakeholders throughout the monitoring processes.
Wittko, Michelle	Instructional Coach	Mrs. Wittko is the Literacy Coach at Central. She is responsible for overseeing the school wide literacy plan as well as the literacy leadership team for the school. Mrs. Wittko is responsible for providing resources to instructional staff members in the area of literacy, as well as providing support to instructional staff members, students and parents in the area of literacy. Support includes facilitation of professional development, providing resources and providing support to students as needed.

#### **Analysis**

#### **Data Reflection**

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

In general, ELA is the lowest proficiency data component at 34% achievement. The two subgroups are SWD 17% and ELL 23% proficient. Targeted support for the identified subgroups was lacking due to inadequate planning for instruction. There was also a lack of understanding in how to support the needs of students to fill foundational gaps.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

5th grade in all academic areas showed the greatest decline from the prior year. ELA dropped 11%, Math 5% and Science 19%. A contributing factor to the decline is a lack of analyzing data to determine the differentiated instruction needed to enhance and support student achievement.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

4th grade ELA had the greatest gap compared to the state average at -34%. The need for focused writing instruction would allow students to better plan for responses when faced with a writing task.

Additionally, the specific needs of students need to be further identified through data analysis to include foundational instruction.

# Which data component showed the most improvement? What new actions did your school take in this area?

Our ELA LQ increased 4%, with 3rd Grade ELA achievement increase of 6%. The Math achievement increased 1%, with 3rd Grade Math achievement increase of 17%. There were Portfolio Focused lessons that year that was structured throughout the year as standards were taught. Our school also implemented a math CIM schedule to review standards and help with test taking strategies.

# Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Students exhibiting two or more indicators on the EWS, were higher in 4th and 5th grade which was where our largest drop and greatest gaps were.

# Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Focus on achievement through evidence of growth for all
- 2. Systems of supports for students, staff, and parents
- 3. Opportunities for students to have time on task across all content areas

# Part III: Planning for Improvement

**Areas of Focus:** 

#### #1. ESSA Subgroup specifically relating to Outcomes for Multiple Subgroups

Area of Focus Description and Rationale:

ESSA data showed in 2018-2019 Central Avenue had one sub groups below the ESSA level 41 %. This effected the proficiency and student achievement seen throughout the state reporting of school data. The school is TS&I status.

Measurable Outcome:

ESSA Data for 2018-2019 ESE - 33% will increase in 2020-2021 to be above 41%.

Person

responsible for monitoring outcome:

Amanda DeRight (amanda.deright@osceolaschools.net)

Strategy:

**Evidence-based** Teachers will differentiate instruction in academically diverse classrooms seeking to provide challenging learning experiences for all their students.

Tomlinson and Imbeau (2010) describe differentiation as creating a balance between

academic content and

students' individual needs. They suggest that this balance is achieved by modifying

Rationale for **Evidence-based** related to curriculum:

four specific elements

Content- the information and skills that students need to learn Strategy:

> Process - how students make sense of the content being taught Product - how students demonstrate what they have learned Affect - the feelings and attitudes that affect students' learning

# **Action Steps to Implement**

- 1. Teachers, that share common planning, will participate in weekly PLC meetings that will focus on the development of both standardized lesson plans and common assessments for all students.
- 2. PLC meetings will be supported and work in conjunction with the instructional coaches.
- 3. Teachers will focus on creating learning goals and targets for individual students.
- 4. Teachers will participate in professional development that focuses instructional strategies that scaffold content for ELL and ESE subgroups. Professional development training will include AVID WICOR instructional strategies, and ELLEVATION training.
- 5. The ELL and ESE support in the classroom will occur through the collaboration of ESOL compliance specialist ensuring students are supported in all courses by providing ELL and ESE instructional strategies and professional development for teachers.
- 6. Students will participate in targeted intervention Tier 1,2,& 3.

Person Responsible

Karen Phillips (karen.phillips@osceolaschools.net)

#### #2. Instructional Practice specifically relating to ELA

Area of

The data shows for ELA 34% of students in grades 3-5 are reading at proficient levels as

**Focus** measured on FSA.

**Description** and

Currently, students in grades 3-5 are 23 points below state level in proficiency. By providing students with more time on task in reading and writing, students will be able to increase

Rationale: reading

reading levels and improve student achievement.

Measurable Outcome:

Increase by 10% from 34% to 44% on the state exam. Each subgroup will show a year and

a half worth of growth in ELA as measured by the NWEA assessment.

Person responsible for

Michelle Wittko (michelle.wittko@osceolaschools.net)

monitoring outcome:

Research shows that if students are engaged in time on task their reading achievement will

approve. Evidence-based Strategy: Studies show that analysis of student assessment data

Evidencebased Strategy: serves a critical role in teacher decision making and meeting the diverse needs of individual students. Additionally, collaborative analysis of formative and summative assessment to adjust instruction produces significant learning gains for all students, including those with disabilities. Research also indicates that MTSS model and

differentiating appropriately has a great effect on student achievement.

Rationale

for Evidence-based

Strategy:

Research illustrates a correlation between student achievement and the development of an achievable, rigorous and aligned curriculum. Additionally, schools that consistently utilize common assessments have the greatest student achievement. The use of common formative assessments, when well implemented, can effectively double the speed of

learning, (William. 2007), (Marzano, 2003) /, 47

#### **Action Steps to Implement**

1. All staff will be trained in best practice strategies for increasing student engagement through quality instruction to improve student literacy. Best practices will be grounded in LSI and AVID as well as a focus on Guided Reading.

Person Responsible

Michelle Wittko (michelle.wittko@osceolaschools.net)

2. Implement a balanced literacy block that includes content-relevant strategies through whole group, differentiated small group, and independent time.

Person Responsible

Michelle Wittko (michelle.wittko@osceolaschools.net)

- 3. Teachers document and monitor student evidence of learning via LSI tracker.
- 4. PLC teams will analyze evidence of student learning to ensure a correlation among all progress monitoring data and adjust instruction to meet the needs of the students.
- 5. Teachers and students will use accurate progress monitoring data to set goals during one-on-one conferencing to meet the individual needs of all students.

Person Responsible

Brandi Derstine (brandi.derstine@osceolaschools.net)

- 6. Students (including all subgroups) will be trained on strategies to select and utilize across content areas during independent work time. For example, ELL students will have access to education tools and strategies that will help them enhance their performance and mastery of the grade standard.
- 7. Teachers will be trained on different ESOL strategies and programs that will enhance the academic engagement of ELL students.

8. Instructional staff will purposefully plan for ESE and ELL strategies based on data gathered through formal and informal assessments as evidenced by planning, instruction, and classroom visits

Person
Responsible Marla Matos (marla.matos@osceolaschools.net)

9. Instructional staff will implement targeted, tiered interventions using varied, research-based instructional strategies to improve literacy proficiency of all students as identified by the MTSS team following the analysis of assessment results.

Person
Responsible Karen Phillips (karen.phillips@osceolaschools.net)

- 10. Coach will conduct classroom observations in order to provide timely feedback and support for teachers and students with balanced literacy components through the coaching cycle.
- 11. Administration will protect intervention time to support struggling students.

Person
Responsible Michelle Wittko (michelle.wittko@osceolaschools.net)

#### #3. Instructional Practice specifically relating to Math

Area of Focus Description and Rationale:

The data shows for Math 47% of students in grades 3-5 are performing at proficient levels as measured on FSA. Currently, students in grades 3-5 are 16 points below state level and 8 points below district level in proficiency. By providing more time on task, students will be able to increase math levels and improve student achievement.

Measurable Outcome:

Math: Overall Achievement will increase by 10% from 47% to 57%. Each subgroup will show 2 years worth of measurable growth to close the achievement gap.

Person responsible for

Melissa Kowalski (melissa.kowalski@osceolaschools.net)

monitoring outcome:

Studies show that analysis of student assessment data serves a critical role in teacher decision making and meeting the diverse needs of individual students. Additionally, collaborative analysis of formative and summative assessment to adjust instruction

Evidencebased Strategy:

produces significant learning gains for all students, including those with disabilities. Research also indicates that MTSS model and differentiating appropriately has a great

effect on student achievement.

Rationale for Evidence-based

Research illustrates a correlation between student achievement and the development of an achievable, rigorous and aligned curriculum. Additionally, schools that consistently utilize common assessments have the greatest student achievement. The use of common formative assessments, when well implemented, can effectively double the speed of

Strategy: learning, (William. 2007), (Marzano, 2003) /, 47

#### **Action Steps to Implement**

- 1. All staff will be trained in best practice strategies for increasing student engagement through quality instruction to improve math proficiency. Best practices will be grounded in LSI and AVID as well as a focus on the Standards for Mathematical Practice and the Math Progression.
- 2. Implement a balanced math block that includes content-relevant strategies through whole group, differentiated small group, and independent time.

# Person Responsible

Melissa Kowalski (melissa.kowalski@osceolaschools.net)

- 3. Teachers document and monitor student evidence of learning via LSI tracker.
- 4. PLC teams will analyze evidence of student learning to ensure a correlation among all progress monitoring data and adjust instruction to meet the needs of the students.
- 5. Teachers and students in Grades 4-5 will set goals during one-on-one conferencing to meet the individual needs of all students.

# Person Responsible

Brandi Derstine (brandi.derstine@osceolaschools.net)

- 6. Students (including all subgroups) will be trained on strategies to select and utilize across content areas during independent work time. For example, ELL students will have access to education tools and strategies that will help them enhance their performance and mastery of the grade standard.
- 7. Teachers will be trained on different ESOL strategies and programs that will enhance the academic engagement of ELL students.
- 8. Instructional staff will purposefully plan for ESE and ELL strategies based on data gathered through formal and informal assessments as evidenced by planning, instruction, and classroom visits.

## Person Responsible

Marla Matos (marla.matos@osceolaschools.net)

9. Instructional staff will implement targeted, tiered interventions using varied, research-based instructional strategies to improve math proficiency of all students as identified by the MTSS team following the analysis of assessment results.

Person
Responsible Melissa Kowalski (melissa.kowalski@osceolaschools.net)

- 10. Coach will conduct classroom observations in order to provide timely feedback and support for teachers and students with balanced math components through the coaching cycle.
- 11. Administration will protect intervention time to support struggling students.

Person Responsible

Melissa Kowalski (melissa.kowalski@osceolaschools.net)

# #4. Instructional Practice specifically relating to Science

Science education has been to cultivate students' scientific habits of mind, develop

their capability to engage in

Area of Focus
Description and
Rationale:

scientific inquiry, and teach students how to reason in a scientific context.

Science allows students to explore their world and discover new things. It is also an

active subject, containing

activities such as hands-on labs and experiments. This makes science well-suited to

active younger children.

Science is an important part of the foundation for education for all children.

Measurable Outcome:

In 2018-2019 science achievement was 36% In 2020-2021 science achievement will

increase by 10%.

Person

responsible for monitoring outcome:

Melissa Kowalski (melissa.kowalski@osceolaschools.net)

The science curriculum must be made relevant to students by framing lessons in

Evidence-based Strategy:

contexts that give f acts

meaning, teach concepts that matter in students' lives, and provide opportunities for

solving complex problems.

Rationale for Evidence-based Strategy:

Students who manipulate scientific ideas using hands-on/minds-on strategies and activities are more successful than peers who are taught by teachers relying primarily

on lecture and the textbook (Lynch & Zenchak, 2002).

## **Action Steps to Implement**

1. Teachers will attain and break down achievement data from district assessments during weekly common

planning PLC.

- 2. Science teachers participate in PLC process weekly to ensure content and pacing and re-teaching of standards.
- 3. Teachers will participate in PD that will AVID strategies including Kagan, WICOR, Cornell notes and interactive notebooks.
- 4. Teachers will learn and implement standards based stations and implement differentiated instruction as an instructional strategy to breakdown student data and content mastery.
- 5. ELL and ESE support in the classroom will occur through the collaboration of ESOL compliance specialist and RCS ensuring students are supported in science courses.
- 6. Teachers conduct individual student data chats.
- 7. Teacher will provide Tier 2 and Tier 3 instruction based on grade level standards, data, student tracking,

collaborative planning, and data analysis.

Person Responsible

Melissa Kowalski (melissa.kowalski@osceolaschools.net)

#### #5. Other specifically relating to Schoolwide Post Secondary Culture for all Students

A college-going culture builds the expectation of post-secondary education for all

students - not just the best

students. It inspires the best in every student, and it supports students in

achieving their goals. Students who

Area of Focus have the parental, school, and community expectations that college is the next

step after high school see

college as the norm. However, the idea that college is the next step after high

school may seem unrealistic for

those students who are from one or more of the following groups: low achievers,

middle to low-income levels,

under represented minorities, disabled youth, and families where no one has

attended college before.

Measurable Outcome:

**Description and** 

Rationale:

In 2019-2020 the grade distribution at the end of the year was as follows:

A-%, B-%, C- %, D-%, F-%

In 2020-2021 there will be an increase in grades A, B, and C by 5% each grade.

Person responsible for monitoring outcome:

Amanda DeRight (amanda.deright@osceolaschools.net)

Schools with a strong future orientation, that engage all students in planning for

life after graduation. With

effective school-based teams that are anchors of implementing postsecondary

Evidence-based Strategy:

work. Which shape a culture of

success in which students aspire to a quality life beyond school. Then in such

schools, students will fully

participate in their academic and personal development to access a variety of

opportunities to meet their needs.

Students should be supported ill their efforts to reflect on their future and should

Rationale for Evidence-based Strategy:

ationale for have multiple opportunities to

do so. A school culture committed to promoting students' aspirations for continuing their education must expand beyond just lessons students

alone.{Poliner & Lieber 2004)

#### **Action Steps to Implement**

1. Students will be supported, advised and encouraged in an environment that fosters post secondary college and career readiness for success in school and in life.

2. The school will participate in an articulated set of grade-level sequenced activities that focus on personal

development and career exploration, college preparation, and the completion of a postsecondary plan.

**Person Responsible** Amanda DeRight (amanda.deright@osceolaschools.net)

3. Administration and Guidance department will plan activities that will allow all students to have a greater voice in school life and develop and strengthen their capacity to engage in respectful dialogue and civil conversation that matter to them.

4. The school will create a plan that creates an environment that develops greater bonds with peers, usually

cutting across the exclusionary social groups.

**Person Responsible** Monique Badal (monique.badal@osceolaschools.net)

5. Teachers will enhance study skills and metacognitive skills that promote goal setting, self-assessment, time management, and planning through AVID.

6. Teachers will plan to incorporate activities that will practice 21st-century life skills and identify opportunities to expose students to future careers or goals during instruction.

**Person Responsible** Brandi Derstine (brandi.derstine@osceolaschools.net)

#### #6. Culture & Environment specifically relating to Social Emotional Learning

Well-implemented programs designed to foster SEL are associated with positive outcomes, ranging from better test scores and higher graduation rates to improved social behavior. Social-emotional competencies include skills, such as the ability to collaborate and make responsible decisions; mindsets, such as thinking positively about how to handle

Area of Focus
Description

challenges; and habits, such as coming to class prepared.

and

A positive school climate includes a safe environment, strong student and staff

Rationale: relationships, and supports for

learning. It provides the foundation that students need, to develop the social, emotional,

and academic

competencies they need to succeed in life.

Measurable Outcome:

2019-2020 SEL Climate Survey showed 59% of students answered favorable for school

belonging. In 2020-2021 this question will be increased 10%.

Person responsible

for Amanda DeRight (amanda.deright@osceolaschools.net)

monitoring outcome:

Evidencebased Strategy: In order for SEL to have a sustained effect, it needs to be integrated into the academic mainstream. Frey, Fisher, and Smith explain this as, "if we want students to learn, if we are willing to do what it takes to help them learn,m and if we believe that appropriate learning targets are more than mastery of core academic content areas, the SEL has to become a deliberate presence in our classrooms (p.13). SEL will be integrated at Tier 1 as part of the core instruction that every student receives every day.

Research suggests that time spent on SEL can facilitate academic learning (Durlak et al., 2011; Hawkins, Smith, & Catalano, 2004). In research conducted by Durlak and colleagues (2011) it is noted that classroom teachers were very effective in implementing SEL. In their

Rationale for Evidencebased Strategy: documented meta-analysis of SEL programs, teacher implementation resulted in statistically significant outcomes on all six factors studied. Durlak and colleagues suggest teachers' implementation of social and emotional skills, which has an effect size of .62, should focus on "identifying emotions from social cues, goal setting, perspective taking, interpersonal problem solving, conflict resolution, and decision making" (p.6). As Jones and colleagues (2018) explain, "Children who are able to effectively manage their thinking, attention, and behavior are also more likely to have better grades and higher standardized test scores" (p.15).

# **Action Steps to Implement**

- 1. School staff will take time to cultivate and deepen relationships, build partnerships, and plan for SEL to include student and family voice through two- way communication strategies.
- 2. School Behavior Coach will provide embedded professional learning to build capacity for all school staff to support students' social-emotional learning.

Person Responsible

Sabrina Kincade (sabrina.kincade@osceolaschools.net)

- 3. Teachers will plan to build an environment of belonging.
- 4. Teachers will increase student input and voice through shared decision-making and reflection activities.
- 5. Teachers and staff will plan activities that are relevant to students, by Identifying and building on students' individual strengths and passions, and engaging through active teaming strategies like hand-on, experimental, and project-based activities.

# Person Responsible Sabrina Kincade (sabrina.kincade@osceolaschools.net)

6. Teachers will integrate SEL strategies into their curriculum, such as self-management, self- confidence, self- efficacy, and social awareness where applicable to ensure consistent opportunities to learn about, reflect on, and practice SEL.

# Person Responsible Sabrina Kincade (sabrina.kincade@osceolaschools.net)

- 7. Students (including all subgroups) will be trained on self- management strategies, with an emphasis on emotional regulation, to select and utilize across content areas during collaborative and independent work time.
- 8. Teachers and students will participate in data chats to discuss goal setting and progress monitoring in all content areas consistently throughout the school year.

# Person Responsible Sabrina Kincade (sabrina.kincade@osceolaschools.net)

- 9. All district provided and school-based surveys will be analyzed to identify a schoolwide SEL plan and interventions, including small groups, that will support areas of deficiency.
- 10. The leadership team will review SEL common formative assessment data and monthly behavior data for all students and subgroups in order to develop tiered interventions as required.
- 11. Behavior Coach will conduct classroom observations in order to provide timely feedback and support for teachers and students with social-emotional components through the coaching cycle.

# Person Responsible Sabrina Kincade (sabrina.kincade@osceolaschools.net)

- 12. Access to mental health and trauma support, for students and staff, will be ensured through systems of support to include the school Behavior Coach, Guidance Counselor, Social Worker, and outside agencies as needed.
- 13. Conduct small group tiered lessons.

# Person Responsible Monique Badal (monique.badal@osceolaschools.net)

- 14. The SIT team will evaluate behavior and SEL data to track and determine interventions needed.
- 15. The SIT team will train teachers on how to monitor and implement SEL interventions.

# Person Responsible Karen Phillips (karen.phillips@osceolaschools.net)

#### **Additional Schoolwide Improvement Priorities**

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

The school leadership team will continue to monitor our students exhibiting two or more indicators on the EWS, (this year's 5th graders) which showed our largest drops and greatest gaps. Leadership team will target each students and attach them to a mentor. Data chats and other motivational items will take place to encourage student motivation and improvement. Students will also be invited to multiple activities (such as 21st Century learning program and acceleration opportunities) for added support. Students with three indicators will partake in SEL focused interventions as added support.

# Part IV: Positive Culture & Environment

Last Modified: 5/4/2024 https://www.floridacims.org Page 27 of 30

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

At Central Avenue, we strive to involve all parents and stakeholders as part of the planning, review, and improvement of Title I programs and our Parent & Family Engagement Plan. We invite families to participate in events including Homework Diner, family nights and other events as held during the year. The school has established an infrastructure to support family engagement, such as a decision-making SAC council. We encourage participation in SAC meetings and communicate with families through multiple methods. We strive to maintain high levels of customer service to create an environment where all stakeholders feel welcomed and included. We also ensure that logistics of parent/teacher conferences and other school events enable all parents to participate (schedule to accommodate varied work hours, offer translation, and provide food and childcare). It is a priority for the school to intentionally engage with families of historically underserved students (e.g., by providing opportunities for small-group conversations with school leaders).

The school engages families, students. and all faculty in a shared understanding of academic and behavioral

expectations and high-quality instruction, and hold staff responsible for implementing any changes. It frequently

communicate high expectations for all students (e.g., "All students are college material"). Leaders demonstrate

how those beliefs manifest in the school building.

A clear code of conduct for students and adults with input from students, families, and school personnel has been

created. Teachers meet in PLCs a minimum of twice a week to routinely examine disaggregated data to look for themes/patterns among student groups. This data and the following, discipline referrals or incident reports, in-and out-of-school suspension. and attendance also forms the basis for discussions of what's working (or not) for particular groups within a school. The next steps to take, such as, establishing specific strategies, but attainable for reducing disproportionate discipline with staff, student, and family input. Implementing evidence-based alternatives to exclusionary discipline (e.g., restorative practices and positive behavioral supports) and provide ongoing training and feedback to teachers on implementing these approaches. The administration ensures that teachers have resources, training, and ongoing support to meet them and provides frequent, constructive feedback, and, actively make themselves available to teachers and staff. The leadership team actively solicit staff feedback on schoolwide procedures and create opportunities for teachers to assume leadership roles. They also structure the master schedule to include collaborative planning and ensure it is rooted in data on student progress and interests. The school provides orientation for new teachers and ongoing support from a mentor teacher.

Teachers establish and practice clear expectations and classroom procedures, and provide frequent feedback to

students, and encourage students to be caring and respectful to one another and teachers model such interactions in the classroom. Central Avenue is a PBIS school that focuses on positive behavior. The

schools, curriculum and teachers' lesson plans draw on the diverse interests and experiences of students. Finally, The school provides all teachers with training on social and emotional skills and management.

# Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

# Part V: Budget

# The approved budget does not reflect any amendments submitted for this project.
