School Board Approval

This plan was approved by the Alachua County School Board on 10/6/2020.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

We are committed to the success of every student.

ALA is a H.E.A.R.T.-based family that fosters our students' eagerness for lifelong learning, and their development of moral character and practical life skills, while preparing them to contribute as valuable members of the community.

Provide the school's vision statement.

Educating students to become exemplary citizens of the world with H.E.A.R.T..

We will graduate students who have the knowledge, skills, and personal characteristics to be lifelong learners and independent thinkers. Our graduates will excel in their chosen careers and be productive and contributing members of the global community.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Rivera, Krishna	Principal	
Kaseder, Jaya	Administrative Support	

Demographic Information

Principal start date

Tuesday 10/1/2013, Krishna Rivera

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

4

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The data component showing the lowest performance was 8th grade Science. Even though 8th grade science data was our lowest performance data component, it was still 13% above the state average. ALA is a small school with only one class per grade. This small sample size can cause a large variance in test scores from year to year.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The data component showing the greatest decline was 8th grade Science. Even with the decline, 8th grade science data was 13% above the state average. ALA is a small school with only one class per grade. This small sample size can cause a large variance in test scores from year to year.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The data component showing the greatest gap was 6th grade math. 6th grade math data was 35% above the state average. ALA is a small school with only one class per grade. This small sample size can cause a large variance in test scores from year to year.

Which data component showed the most improvement? What new actions did your school take in this area?

The data component showing the most improvement was 6th grade ELA. 6th grade ELA data increased 17% from last year and was 27% above the state average. ALA is a small school with only one class per grade. This small sample size can cause a large variance in test scores from year to year.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

A potential area of concern is 8th-grade science. Statewide assessments indicated early warnings in this area.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1.8th-grad	le science
------------	------------

- 2.
- 3.
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Science

Area of Focus
Description and
Rationale:

A potential area of concern is 8th-grade science. Statewide assessments

indicated early warnings in this area.

Measurable Outcome: Our outcome is to reach a science achievement of 70% from the current 61%

on statewide science assessments.

Person responsible for monitoring outcome:

Krishna Rivera (rivera@ourala.org)

Evidence-based

Strategy:

Increasing hands-on experiences in science.

Rationale for Evidence- By increasing the frequency of lab work, students are better able to retain based Strategy: conceptual knowledge which will positively impact statewide assessments.

Action Steps to Implement

1. Schedule dedicated lab time

- 2. Provide additional staff support
- 3. Review AIMS data
- 4. Reevaluate strategy based on data

Person Responsible Krishna Rivera (rivera@ourala.org)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

ESE Communication and Collaboration

Continue to improve our team decision-making process to ensure students with disabilities(SWD) transition from grade to grade, school to school and district to ensure placement in the least restrictive environment.

Providing opportunities to learn and practice skills associated with self-determination; coordinating orientation for students moving from elementary to middle school, including giving tours of the buildings, reviewing important information in the student handbook and orienting students to school procedures and ensuring that annual IEP participants page is signed will improve ESE communication and collaboration to ensure smooth transitions for SWDs.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

ALA builds positive relationships with parents, families, and other community stakeholders by providing timely information about school programs and activities through conducting an Annual Meeting. Scheduled mailers, school newsletters and handouts are generated each semester and sent to parents to inform them of all programs and the assessment methods used. Another way is by maintaining a Parent & Family Resource Area consisting of information related to the school and other programs as well as academic resources available for home use. The school also provides Making the Parents Make a Difference newsletter available through the school website. The school website also provides parent involvement documents and materials.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
