Demographics

Principal: Marzella Mitchell

Start Date for this Principal: 7/9/2016

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Elementary School PK-5
Primary Service Type (per MSID File)	K-12 General Education
2019-20 Title I School	Yes
2019-20 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	100%
2019-20 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners* Black/African American Students* Hispanic Students Economically Disadvantaged Students*
School Grades History	2018-19: B (60%) 2017-18: C (43%) 2016-17: C (42%) 2015-16: F (30%)
2019-20 School Improvement (SI) Information*	
SI Region	Southeast
Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	N/A
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Palm Beach County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Mission Statement: Grove Park Elementary is committed to guiding students to become advocates of excellence in their own learning. At Grove Park, we strive to customize instruction, infused with technology, for all unique learning styles. We celebrate the whole child, by fostering connections across a range of subjects. Parents, teachers, and students collaborate to further develop knowledge and attitudes that lead to global-mindedness and, college and career readiness.

In addition, Grove Park's mission aligns with the district's overall mission for students and school accountability:

The School District of Palm Beach County is committed to providing a world-class education with excellence and equity to empower each student to reach his or her highest potential with the most effective staff to foster the knowledge, skills, and ethics required for responsible citizenship and productive careers.

Provide the school's vision statement.

Grove Park's vision aligns with the district's overall vision for student achievement and school accountability: The School District of Palm Beach envisions a dynamic collaborative multicultural community where education and lifelong learning are valued and supported, and all learners reach their highest potential and succeed in the global economy.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Rogers, JoAnne	Principal	<ul style="list-style-type: none"> - School Accountability, Student Achievement Curriculum/Instructional/Assessment Alignment to Standards Progress Monitoring (Student Proficiency, Gains, Lowest 25%) Closing Achievement Gap Programs (IB Candidate School; Holiday Camps, Tutorials) Professional Development, School Sustainability (Formal & Embedded PD, Coaching, PLC) Highly Qualified Staff IB Candidate School Authorization Process - Family Involvement Trainings, related to core content areas Curriculum Nights and School Tours School Advisory Council (SAC) Strategies that address/reduce Absenteeism Partnerships Volunteerism - School Safety FortifyFL Koginto Crisis and Drill Compliance Systems, Routines of the Instructional Day swPBS (Climate, School Morale, Celebrations, Learner Profiles) Clubs (Enrichment): Ballet, Drumline, SECME, Leadership - Facilities Classroom Environments Maintenance Work Orders

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Grove Park increased its school-letter grade from a "C" to a "B." Although there was a slight increase in ELA from 37% in FY18 to 39% in FY19, ELA proficiency continues to be the lowest performance measure as a trend.

2016, 24%

2017, 28%

2018, 37%

2019, 39% (compared to mathematics-66% and science-42%)

Contributing factors to GP's ELA growth trend are students entering third grade as struggling readers, lack of word knowledge and ability to determine word meaning in context, understanding higher text complexity, and overall stamina.

Overall increases include the following:

- 17.4 points in math achievement
- 30.5 points in math gains
- 30.2 points in Low 25 math gains
- 1.2 points in ELA achievement
- 11.9 points in ELA gains
- 13.4 points in Low 25 ELA gains
- 11.1 points in science achievement

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

ELA had the greatest gap when compared both to state averages and district averages.

District:

Proficiency 59%; Learning Gains, 57%; Lowest 25%, 47%

Grove Park, compared to state averages, by grade level:

Proficiency:

3rd Grade (GP 35%, state 58%)

4th Grade (GP 39%, state 58%)

5th Grade (GP 43%, state 56%)

Although trends show a gradual increase of ELA proficiency over the last four years from 24%, 28%, 37%, to 39%, the gap compared to the state's average is 23 points in 3rd grade; 19 points in 4th; and, 13 points in 5th

Factors that contribute to this gap:

- Students knowledge of the standards, lack of ability to make connections, vocabulary development, stamina, and testing taking strategies.
- Teachers' lack of deep understanding of standards; and instructional delivery of high yielding instructional strategies that increase students' mastery.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

ELA Proficiency, 39%

- Teacher capacity of the state standards
- Cultural Competence
- Lack of overall school readiness

- Parenting Influences
- Structural and institutional factors
- Lack of effective remediation of FSQ and USA

Which data component showed the most improvement? What new actions did your school take in this area?

Math Gains-

2019-77%

2018-47%

- Standards-based Curriculum, Instruction, Assessment, Resources, Materials
- Small Group Instruction
- Monitored Student Progress
- Extended School Day (additional time in ELA instruction)
- Teacher Collaboration and Planning
- Afterschool Tutorials (Weekdays, Saturdays, Spring Break)
- Expand knowledge in PLC of standards
- Enhance Teacher capacity with mentors and buddies
- Learning Walks of classes, and like schools

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Increasing students learning gains and proficiency in Literacy will allow for our students to develop the skills necessary towards future success. Children who have developed strong reading skills perform better in school and have a healthier self-image. They become lifelong learners and sought-after employees. Lacking basic reading and writing skills is a tremendous disadvantage. Literacy not only enriches an individual's life, but it creates opportunities for people to develop skills that will help them provide for themselves and a better future.

Increasing students proficiency in Math helps us think analytically and have better reasoning abilities. Analytical thinking refers to the ability to think critically about the world around us.

Ensuring learning gains & progress for ESSA categorized sub groups: we will analyze student data to identify which students fall under various subgroup categories. Students who fall within our ESSA Subgroups will specifically be monitored for progress and receive additional support by teachers ensuring lessons are planned based on the specific needs of the students

Our focus is to increase student engagement so students become active learners in their own academic journey as they learn by doing and putting strategies into practice. It is our hope that students take ownership and foster independence through their engagement in their daily lessons. This focus will be ongoing and PD will be provided during staff meetings and on professional development days.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Science - There is a need to re-focus in science with an emphasis on implementation of content and deeper understanding. We need to provide additional support to help with achievement in this content area including but not limited to mentoring, tutorials, focused teacher planning/collaboration & professional development to ensure we meet the needs of all of our students in an equitable and accessible manner. Science needs to be a focus in grades K-5. We will still continue using the double down model to assist with increasing student achievement.
2. ELA and Math Continuum - During PLCs, we will focus on developing effective and relevant instruction through: unpacking standards, analyzing data, developing standards based lesson using vetted resources and materials from the District, share best practices, following/participating with the coaching continuum model, incorporate research based strategies included but not limited to GO-To Strategies, balanced literacy, small group instruction, and differentiated learning. Teachers will

engage in common planning as well as lesson study to improve instructional capacity. Professional development opportunities include district support/training, in-school coaching opportunities, and independent study. Teachers are encouraged to share best practice implementation at PLCs and Common Planning as a way of increasing grade level capacity as a whole. By developing strong teacher capacity, we are able to increase student achievement as well as close the achievement gap.

3. Reading Proficiency/ Low 25% Learning Gains - If we focus on a positive impact to learning gains by ensuring standards based instruction and effective the use of research-based strategies and resources, we will ensure student learning and improved student achievement towards grade level success and ensure continuous improvement. Early identification of our Low 25% will allow for ample tracking and support to ensure their growth. Low 25% students will be connected with a reading endorsed/certified interventionist to ensure closing of the achievement gap. In the past, these students have been identified based on their critical area of need and offered priority for afterschool and Saturday tutoring. We will be able to implement a tutoring program in the FY21 school year, either virtual or in person, these students will continue receiving priority for tutoring sessions that include math, ELA, and writing.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Small Group Instruction

Area of Focus Description and Rationale:

To ensure progress towards student achievement in ELA and Math to align with the District's Strategic Plan; Strategic Theme: Effective and relevant instruction to meet the needs of all learners; LTO # 1; increase reading on grade level by 3rd grade. Historically, our Gr. 3-5 ELA proficiency has very slowly increased, and only this year did we reach 39% Gr. 3-5 ELA proficiency, according to FSA. Overall, our lowest 25% increased dramatically from 53% to 66% in ELA and from 39% to 69% in Mathematics from FY 17-18 to FY 18-19. Additionally, our subgroup data shows that our Students with Disabilities (SWD), Hispanic, and Black students are not making adequate progress or gains in reading and math compared to other years or other subgroups. In order to align with the District's plan and to ensure progress towards achievement in reading we need to increase in these areas through the use of small group.

Measurable Outcome: increase ELA proficiency in grades 3-5 by 10% from 39% to 49%

Person responsible for monitoring outcome: JoAnne Rogers (joanne.rogers@palmbeachschools.org)

Evidence-based Strategy:

Use of high yielding strategy of small groups, This will Guide student practice by asking questions and providing feedback. Small group instruction will also allow teachers to check that students understand text
 Full curriculum alignment to standards (also, instruction, assessment, and resources)
 - Whole (Explicit), Guided, Small Group Instruction (tailored to needs of each child)
 - Increased Rigor
 Scale, Expected Outcomes, Learning Target
 High Order Questions (Marzano Taxonomy, to knowledge utilization from retrieval)
 Question Stems
 Contextual Evidence and Proof
 Academic Language and Conversations
 Vocabulary in Context (spiraled throughout the year in the modules)
 Regular practice, high text complexity
 Whole Literacy combined with performance based approaches
 - Expanding Students Overall Schema & Background Knowledge
 Field Trips (transferring and applying knowledge outside of the classroom)
 Unit Integration of STEM components
 Special Clubs (Ballet, SECME, Leadership, Drumline, Art, Future Teachers, etc)
 Technology Integration (SMART Panels, too all teachers, 1:1 iPad Rollout, Chromebooks)

Rationale for Evidence-based Strategy:

Small group provides intensive instruction on specific skills on a daily basis that promotes the development of the various components of reading proficiency to students who show minimal progress after reasonable time in tier 2 small group instruction (tier 3).
 Assuring Curriculum Alignment
 When regularly exposed to standards-based instruction, assessment, and resources, students are better equipped to achieve proficiency and gains.
 - Whole Group, Guided, Small Group Instruction
 When instruction goes beyond teacher-explicit delivery to include small group, instruction is then tailored to the individual need of students, for a personal approach to learning.
 - Increased Rigor

When students are exposed to high-yielding strategies through both explicit and small group instruction, students' capacity to apply critical thinking and problem-solving is increased.

- Expanded Student Schema and Background Knowledge

Students are better able to connect to text and concepts when knowledge of vocabulary,

Action Steps to Implement

1. Academic Tutors to provide a double-down model for K-5 classrooms Schedules are maximized to ensure double-down model is implemented across all grade levels. Collaborative planning with tutors
2. General education teacher collaboration with ELL/ESE teachers for delivery of standards-based instruction, rigorous strategies, and appropriately used resources. PLC focuses on identifying the standard, a variety of instructional strategies to be implemented (the how) based on monitored data, and effective resources.
3. Extended Learning Opportunities
 - After school (Primary: focus on phonics instruction and word study)
4. Deliberate implementation of real-world, hands-on, field experiences to enhance learning (richer units) Professional Development opportunities and support are provided to develop units using interdisciplinary strategies, inquiry-based learning, STEM infusion, and Marzano Taxonomy.
5. Expand teacher capacity:
 - PLC collaboration
 - Learning walks
 - Modeling and Coaching by SSCC, Resource Teachers, Stem Coach, IB Coordinator
 - CWTs with specific, meaningful feedback by the administration

Person Responsible JoAnne Rogers (joanne.rogers@palmbeachschools.org)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Pillars of Effective Instruction: Students are immersed in rigorous tasks encompassing the full intent of the Florida State Standards and content required by Florida State Statute 1003.42 continuing to develop a single school culture and appreciation of multicultural diversity in alignment to S.B. 2.09 with a focus on reading and writing across all content areas. Our students focus on content and curriculum related to:

The History of the Holocaust

Grove Park has Holocaust survivors speak to our students. This year our students were able to hear and perform songs and skits to the student body through their classes as they learned about the varied cultures. Getting to know the history, culture, foods.

The History of Black and African Americans

The Contributions of Latino and Hispanics

The Contributions of Women

The Sacrifices of Veterans and Medal of Honor recipients within US History.

Our school integrates Single School Culture by sharing our Universal Guidelines for Success and communicating these expectations to parents via student protocols, and monitoring SWPBS through data. Our SWPBS Team conducted a behavior matrix and posted expectation posters throughout the school, as well as kid friendly videos. In alignment, to school board 2.09 and Florida State statute 1003.42 our school highlights multicultural diversity within the curriculum and the arts. We also have parent/family multicultural nights.

Our students participate in activities and studies including, but not limited to, art expos of different cultures and in music our students study music of different eras and countries and in media our library selection is filled with books related to the variety of cultures through in class learning and through the various clubs offered at our school.

We instill citizenship through our Safety Patrols, and our student school ambassadors this group consist of only 5th grade students who are responsible, respectful, and set a good example for the students at ETES. Their main job is to maintain the safety of our students.

Grove Park implements multiple measures of analyzing school-wide data that drives the RTI process. Student assessments include but are not limited to FLCKERS, Diagnostics, Performance Matters Assessments, Florida Standards Assessments, iReady district diagnostics, and RRR. The annual test administered for ELL students is ACCESS. In addition, the WIDA is used to assess ELL students' proficiency in the areas of speaking, listening, reading, and writing. Teachers are trained by instructional coaches to assess data, modify, and implement differentiated instruction based on the results of data.

Single school culture (Academics, Behavior, Climate)

Academics:

Collaborative Planning Communities (PLCs) occur every week per grade level. Grade level teachers meet with the SSCC, academic coaches and administration to discuss and analyze data, modify instruction, and create standards based learning goal scales. Student work and best practices are shared and analyzed. Grade levels meet for Common Planning. Teams create goals and plans based on standards, domains, units of study, and big ideas. It is then determined how all subject areas can be incorporated into the subject being taught.

Behavior: CHAMPS school wide, universal attention signal

Grove Park is implementing a School-wide Positive Behavior System. CHAMPS is being implemented by all staff members in all areas of the school.

Climate: Universal Behavioral Matrix

District resources allocated to our school:

Regional support teams

Curriculum support

Reading Interventionist

Single School Culture Coordinator

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

In an effort to build cultural relationships between teachers and students and all of our stakeholders, we stress the school and the district's statement of vision, mission, values, goals, and align with our school's School improvement strategies. Our school will embrace the varied cultures on the campus and within the community. Our school will infuse the content required by Florida Statute 10003.42(2) and S.B. Policy 2.09 (8) (b), as applicable to appropriate grade levels, including but not limited to:

- History of Holocaust
- History of Africans and African Americans
- Hispanic Contributions
- Women's Contributions
- Sacrifices of Veterans
- Florida History
- Character-development program (required K-12) with curriculum to address: patriotism; responsibility; citizenship; kindness; respect for authority, life, liberty, and personal property; honesty; charity; self-control; racial, ethnic, and religious tolerance; and cooperation.
- Health Education
- Hosting a multicultural event that will showcase the diverse cultures of students within our school to unite and develop single school culture.
- Provide professional development to staff on increasing positive interactions with students.
- Attend District provided Professional Development on multicultural offerings.
- Embed cultural activities within the curriculum and daily course work (e.g., reading selections, writing prompts).
- Assure all teachers will participate in the process of discussing climate guidelines
- Identify and engage school community stakeholders (e.g. parents, students, teachers, school counselors, etc.) in assessing the current state of the cultural awareness and student-teacher relationships (data-based decision making). Identify on-campus "relationship experts" to implement evidence-based strategies to develop cultural awareness, and cultural responsiveness to improve student-teacher relations, and close existing social justice/equity gaps
- Engage in collaborative efforts between community agencies and our school to infuse a mentoring program that will identify ways to support the students based on their individual academic, social, and emotional needs. This, in turn, will create a more supportive school environment that will meet the needs of all students and our stakeholders.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Small Group Instruction				\$197,313.25
	Function	Object	Budget Focus	Funding Source	FTE	2020-21
	5000	120-Classroom Teachers	1411 - Grove Park Elementary School	Title, I Part A		\$135,065.15
	5900	160-Other Support Personnel	1411 - Grove Park Elementary School	Title, I Part A		\$62,248.10
Total:						\$197,313.25
