School Board Approval

This plan is pending approval by the Sarasota County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan is pending approval by the Sarasota County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Brookside Middle School Mission Statement:

Brookside Middle School places the child at the center of its learning activities to enable all learners to lead productive, responsible and healthful lives. Brookside prepares students to achieve the highest learning standards by engaging high-quality staff, involved parents and a supportive community.

The following beliefs will be the principles by which we achieve our goals:

- Expectations for learning and behavior will reflect the highest possible standards.
- Successful schooling is a shared responsibility requiring commitment and communication between parents, students, and staff.
- In an atmosphere of shared respect, all students and staff have a right to learn and work in a healthy, caring and safe environment.
- A variety of research-based best practice techniques will be utilized to meet individual needs.

At Brookside, our students are held accountable for following the Cuda Code.

- Cudas are committed.
- Cudas are prepared.
- Cudas are respectful.
- Cudas are appropriate.
- Cudas are prompt.

Provide the school's vision statement.

Brookside Middle School Vision:

To develop knowledgeable and caring young people to create a better and more peaceful world through intercultural understanding and respect.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Chase, Ryan	Principal	To provide the visionary leadership necessary to administer an instructional program and support services to establish and maintain a safe, caring and enriching environment to promote student success.
Sims, Nicole	School Counselor	School Counselor for students M-Z.
Fuesy, Jessica	Assistant Principal	To assist the Principal with administrative and instructional functions to meet the educational needs of students.
Mims, Ginger	Administrative Support	ESE Liaison
Rojas, Amanda	Assistant Principal	To assist the Principal with administrative and instructional functions to meet the educational needs of students.
Varlas, Melissa	Teacher, K-12	Teacher on Special Assignment: Master Schedule, Testing Coordinator and ESOL Support
Davis-Cokley, Pamela	School Counselor	School Counselor for students A-L.
Serino, Paul	Administrative Support	Behavior Specialist- student support services and interventions with groups of students across campus. Coordinates PBIS initiatives and provides assistance with behavioral data and progress monitoring.

Demographic Information

Principal start date

Monday 6/15/2020, Nathaniel Francis

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

2018-2019 School Grade Data:

The data component that showed the lowest performance was the percent of the lowest quartile demonstrating learning gains in ELA at 54% overall. While this percentage is the lowest among the categories, this was a 7% increase from the 17-18 school year. Over the past several years ELA learning gains of the lowest 25% have increased each year.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

2018-2019 School Grade Data:

The component that showed the greatest decline from the prior year was Acceleration. The number of points for eligible students who participated in an EOC or Industry Certifications declined five points from 79% to 74%. While there were multiple supports in place, there was a change in teachers causing students in Algebra to have a certified long-term substitute for much of the year. This lack of consistency with teachers in the Algebra classes is a contributing factor to the decline. During the 2019-2020 school year, a change in Algebra teachers took place again, with our Algebra students having a certified substitute until a certified teacher was hired for the remainder of the school year.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

2018-2019 School Grade Data:

Brookside Middle School is above the state average in all data components for school grade. The area closest to the state average are ELA learning gains with Brookside Middle at 57% and the state

at 54%. In this category, Brookside is also 1% lower than the district average. One factor that may have contributed to this is a lack of consistency with Intensive Language Arts teachers.

Which data component showed the most improvement? What new actions did your school take in this area?

2018-2019 School Grade Data:

Civics was the area with the most improvement during the 2018-2019 school year. The percent of students at or above grade level increased from 66% to 87%. The Civics teachers worked collaboratively throughout the school year to plan standards-based instruction. They met during the school year for data chats with administration and the Curriculum Specialist from the district to identify areas of need among students. Throughout third and fourth quarters, teachers also began small group support for students identified as needing the most remediation. The district curriculum specialist worked with the teachers to identify and reteach standards based on district benchmark data.

Another factor that helped the Civics component was that in 2018, Brookside's advanced students did not participate in the Civics assessment (advanced students had already taken the assessment) but did participate in the 2019 Civics EOC.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

EWS Data Potential Areas of Concern:

The number of students with more than one indicator on the EWS data has increased significantly. While the number of students attending less than 90% of school has improved, it is still 151 students. The number of out of school suspensions also increased this school year to 44.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Increase the percent of students scoring at or above grade level in reading.
2. Increase the percentage of SWD students making learning gains in ELA and math.
3. Increase the percent of students making a learning gain math.
4. Increase the supports offered to students on campus to decrease the number of out of school suspensions and students with attendance below 90%.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Area of Focus Description and Rationale: Reading scores at Brookside Middle School have increased on a consistent basis for the past several years. This year, our goal is to increase two percentage points in each of the ELA components: achievement, learning gains, and learning gains of the lowest 25%. These two percentage points would move Brookside Middle School students above the district average in learning gains and continue improvement overall.

Measurable Outcome: Brookside Middle School students will increase two percent in each of the ELA components: achievement, learning gains, and learning gains of the lowest 25%.
 Achievement: 63% to 65%
 Learning Gains: 57% to 59%
 Learning Gains of the Lowest 25%: 54% to 56%

Person responsible for monitoring outcome: Amanda Rojas (amanda.rojas@sarasotacountyschools.net)

Evidence-based Strategy:

- Common planning for PLC groups
- Review iReady Diagnostic Data (Among departments, teams, PLCs and with students)
- Standards Mastery Assessments (six) throughout the school year
- iReady LAFS Workbooks
- IXL Standards-Based Online program
- Springboard Textbooks for all Advanced ELA classes
- Rev It Up Vocabulary Support
- Flocabulary Vocabulary Support
- Utilize DAR Assessment for students scoring at the K-3 grade levels for iReady.
- Rewards Program for students needing support with Phonics and Phonological Awareness
- Intensive Language Arts classes for students in the lowest quartile
- Weekly SWST Meetings to support remote and in-person learners regarding attendance and grades
- Quarterly Data Chats with teachers and administration
- PLC Leads utilizing the Distance Learning Playbook (Fisher, Frey, and Hattie) to support the needs of all learners while some are remote learners
- Teachers will collaborate within their PLC group members to align curriculum with the Reading Standards and develop common assessments to maintain a targeted focus of instruction.

Rationale for Evidence-based Strategy: This school year will be focused on filling in the gaps from the end of the 2019-20 school year and supporting learners in a variety of school settings (remote, face-to-face, and concurrent teaching). The strategies above help teachers improve their instructional practices to focus on standards-based instruction. Data will be used to drive instruction and the above programs will assist teachers in teaching the content.

Action Steps to Implement

1. iReady Diagnostic (and data review) to determine gaps and areas of success from the past year
2. SWST Weekly Meetings: The Schoolwide Support Team will review students of concern each week, in particular connecting with our remote learners to ensure academic success for all students
3. ELA and ILA Support from the district curriculum specialist (Meeting with PLCs, pushing into classrooms, and meeting to support remote learners)
4. Data Chats with teachers, district curriculum support, and administration to identify gaps and strategies to support student growth.

Person Responsible Amanda Rojas (amanda.rojas@sarasotacountyschools.net)

#2. Instructional Practice specifically relating to Math

Area of

Focus Description and Rationale: Students at Brookside Middle School have made significant growth in mathematics achievement. The math department is committed to ensuring that all math students growth every year in order grasp the standards and maximize student achievement.

Measurable Outcome: The percentage of students earning a year's worth of growth in math will increase 2% from 69% to 71%.

Person responsible for monitoring outcome:

Jessica Fuesy (jessica.fuesy@sarasotacountyschools.net)

Evidence-based Strategy:

- Common planning for PLC groups
- Review iReady Diagnostic Data (Among departments, teams, PLCs and with students)
- Standards Mastery Assessments (six) throughout the school year
- iReady MAFS Workbooks
- IXL Standards-Based Online program
- USA Test Prep.
- KUTA Math Software
- Weekly SWST Meetings to support remote and in-person learners regarding attendance and grades
- Quarterly Data Chats with teachers and administration
- PLC Leads utilizing the Distance Learning Playbook (Fisher, Frey, and Hattie) to support the needs of all learners while some are remote learners
- Teachers will collaborate within their Professional Learning Community group members to align curriculum with the Math Florida Standards and develop common assessments to maintain a targeted focus of instruction.

Rationale for Evidence-based Strategy:

This school year will be focused on filling in the gaps from the end of the 2019-20 school year and supporting learners in a variety of school settings (remote, face-to-face, and concurrent teaching). The strategies above help teachers improve their instructional practices to focus on standards-based instruction. Data will be used to drive instruction and the above programs will assist teachers in teaching the content.

Action Steps to Implement

1. Master Schedule will include common PLC planning time in order to focus on standards based instruction.
2. iReady Diagnostic (and data review) to determine gaps and areas of success from the past year
3. SWST Weekly Meetings: The Schoolwide Support Team will review students of concern each week, in particular connecting with our remote learners to ensure academic success for all students
4. Math support from the district curriculum specialist (Meeting with PLCs, pushing into classrooms, and meeting to support remote learners)
5. Data Chats with teachers, district curriculum support, and administration to identify gaps and strategies to support student growth.

Person Responsible Jessica Fuesy (jessica.fuesy@sarasotacountyschools.net)

#3. Culture & Environment specifically relating to Early Warning Systems

Area of Focus Description and Rationale: Building relationships on campus and remotely is crucial to creating a positive school culture for students to maintain an academic focus. With students working remotely 4th quarter of the 2019-2020 school year, a need to lower the number of out of school suspensions, and a continual focus on improving attendance, positive school culture is needed across campus to support all students.

Measurable Outcome: Out of School Suspensions will decrease by 25% from last year (decreasing from 44 students to 33 students)

Person responsible for monitoring outcome: Amanda Rojas (amanda.rojas@sarasotacountyschools.net)

Evidence-based Strategy:

- Follow Cuda Code as a campus to set high expectations for all students.
- Utilize PBIS reward systems to encourage positive choices on campus (in person and remote students)
- Utilize student planners to keep track of rewards
- Project Success Mentoring Program: Pair at risk students with adults on campus for weekly/daily check in for positive support.
- IB Lessons across campus related to the Learner Profile Attributes (ex. risk taker, caring, balanced)
- Mental Health Lessons for all students (District provided curriculum)
- Review CHAMPS with all staff and review classroom management routines and procedures
- Weekly SWST meetings to monitor students of concern for in-person and remote students.
- Tuesday and Thursday Night School to support students needing additional academic or behavioral support.
- Data Chats with Administration, Behavior Specialist, and Behavior Tech.
- Staff support to push into classes needing behavior support

Rationale for Evidence-based Strategy: Students need to feel part of the community at Brookside Middle School. Decreasing the out of school suspensions will increase the amount of instructional time for students. Visible Learning for Teachers (John Hattie) focuses on deliberate practices for teachers. Building teacher-student relationships has a .72 effect size and student expectations has a 1.44 effect size.

Action Steps to Implement

1. PBIS Positive Behavior Supports rewards and interventions for remote and face-to-face learners.
2. Mentor program to support identified students across campus.
3. Continue to implement CHAMPS across campus for consistency in routines and procedures.
4. Tuesday and Thursday Night School for academic support.
5. Consistent review of students at SWST identifying supports needed for face-to-face and remote learners.

Person Responsible: Amanda Rojas (amanda.rojas@sarasotacountyschools.net)

#4. ESSA Subgroup specifically relating to Students with Disabilities**Area of Focus Description and Rationale:**

During the 2018-2019 school year, students with disabilities at Brookside Middle School improved in each of the school grade components. The improvements were between 5% and 29% for each component of the school grade. With distance learning during the spring of 2020, students will be working to fill gaps in their learning from this time. To continue their growth, our SWD are offered additional supports and services from their ESE teachers, ESE Instructional Aides and targeted instruction.

Measurable Outcome:

Students with disabilities at Brookside Middle School will increase 5% in learning gains in Math and ELA. The ELA learning gains will increase from 50% to 55% and the mathematics learning gains will increase from 61% to 66%.

Person responsible for monitoring outcome:

Amanda Rojas (amanda.rojas@sarasotacountyschools.net)

Evidence-based Strategy:

- Common planning for PLC groups (ESE teachers included)
- Monthly ESE teacher meetings
- Review iReady Diagnostic Data (within departments, teams, PLCs, and with students)
- Standards Mastery Assessments throughout the school year (6 in math and 6 in ELA)
- IXL Standards-Based Online program for remediation and enrichment
- Flocabulary Vocabulary Support
- Utilize DAR Assessment for students scoring at the K-3 grade levels for iReady.
- Rewards program for students needing support with Phonics and Phonological Awareness
- Intensive Language Arts classes for students in the lowest quartile
- Rev It Up Vocabulary Support within ILA classes
- Weekly SWST Meetings to support remote and in-person learners regarding attendance, grades, and ESE supports
- Quarterly Data Chats with teachers and administration
- PLC Leads utilizing the Distance Learning Playbook (Fisher, Frey, and Hattie) to support the needs of all learners while some are remote learners
- Tuesday Night and Thursday Night School to support students regarding make-up/missed assignments

Rationale for Evidence-based Strategy:

Students will be learning this year in a variety of formats. Some students will be face-to-face, others remote, and many students will be in a classroom with their teacher teaching concurrently. With that, monitoring students with learning disabilities to ensure they are supported in their academic progress will be vital to their ability to comprehend their grade level standards and successfully master them.

Action Steps to Implement

1. Master Schedule will include common PLC planning time in order to focus on standards based instruction. This PLC time includes ESE teachers.
2. Monthly ESE Teacher and Liaison Meetings
3. iReady Diagnostic (and data review) to determine gaps and areas of success from the past year
4. SWST Weekly Meetings: The Schoolwide Support Team will review students of concern each week, in particular connecting with our remote learners to ensure academic success for all students
5. District curriculum specialist support (Meeting with PLCs, pushing into classrooms, and meeting to support remote learners)
6. Data Chats with teachers, district curriculum support, and administration to identify gaps and strategies to support student growth.

Person Responsible

Amanda Rojas (amanda.rojas@sarasotacountyschools.net)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

While each of the areas noted in 2.E are connected to a measurable outcome, it is crucial for Brookside Middle School staff to support the social emotional needs of students on campus. With being away from a traditional academic setting for six months, students have missed learning opportunities as well as time with their peers. Coming back together this school year with some students face-to-face and others remotely has reconnected Brookside as a school. Ensuring the whole child is focused on from mental health, to teaching about the IB Learner Profile attributes, to relationship building with teachers will help students to continue to grow as individuals.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Brookside Middle School is a community of learners. As an IB World School, students are focused on a global education and building a positive learning environment on our campus. There are a variety of ways we build positive school culture ensuring all stakeholders are involved:

- Teaming of students across campus (Marine Science Academy, Talented and Gifted Team, Creative Arts Team)
- PBIS: Positive Behavior Supports to celebrate face-to-face and remote learners and provide interventions as needed.
- Project Success Mentoring Program
- School Advisory Council for parents, families, and other community stakeholders.
- PTSO meets monthly and supports activities on campus. PTSO has their own social media platforms to connect with families and the community.
- Schedule pick up days for new incoming students. Tours of campus (when able) to welcome new families to Brookside.
- Communication to parents through the school website, Facebook, and Community Engagement communication tool.
- Blackboard Learn and Zoom are utilized to connect remote learners with face-to-face learners
- Social-Emotional Learning support from school counselors and behavior specialists as well as outside agencies (Big Brother Big Sisters, First Step, Safe Children's Coalition, and JFCS)
- IB Lessons throughout the school year focused on the ten Learner Profile Attributes (ex. caring, knowledgeable, inquirer)
- Athletics and Intramural Sports

- A/B Honor Roll, Renaissance, and School Socials
- Marine Science Academy: Creation of a Sea Lab and connections with Sarasota High School, Riverview High School and community groups to support learning about the Sarasota Bay and Marine Life

Brookside Middle School provides Parent and Family Engagement materials and training designed to provide assistance to parents and families in understanding challenging State academic standards, State and local academic assessments, how to monitor a child’s progress, and how to work with educators to improve the achievement of their children at convenient, flexible times such as mornings and evenings as well as at-home/attendance zone visits to fulfill the school’s mission and support the needs of students. Additionally, technology including social media and virtual meeting programs (Zoom, Teams, etc.) promote participation and awareness through live and recorded sessions to accommodate varying schedules. In addition, the district and school website contain links, resources, and materials, such as parent guides, study guides, practice assessments, student performance materials, technology support and training to help parents and families work with their children to improve achievement.

The full text and summary of this Schoolwide Improvement Plan may be found online or as a hard copy by request.

Parents and families are regularly invited to attend Brookside Middle’s School Advisory Council to formulate suggestions and to participate, as appropriate, in decisions relating to the education of their children. Brookside Middle School responds to any such suggestions as soon as practicably possible as evidenced by meeting minutes and notes. If this schoolwide improvement plan is not satisfactory to parents, parents/families are encouraged to submit such comments in writing so that the school can document and submit any parents’ comments.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
