School Board Approval

This plan is pending approval by the Duval County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

It is the mission of Lone Star Elementary School to challenge our students to achieve their goals and dreams.

Provide the school's vision statement.

Lighting the fire of learning in every child's mind.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

| Name | Title | Job Duties and Responsibilities |
|------------------------|---------------------|---------------------------------|
| | School Counselor | |
| Farrington, Leigh | Assistant Principal | |
| Quarles Gaston, Cheryl | Principal | |

Demographic Information

Principal start date

Saturday 7/1/2017, Cheryl Quarles Gaston R

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

1

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

3

Total number of teacher positions allocated to the school

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our data component with the lowest performance was LPQ math. We used our financial resources to provide push-in reading support and did not have any to provide push in math support.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

We did not have any data that declined from the previous year.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The data component that had the greatest gap compared to the state average was LPQ math. We did not have the human capital or financial resources to provide the necessary push-in support.

Which data component showed the most improvement? What new actions did your school take in this area?

The data that showed the most improvement was LPQ ELA. We utilized the available human capital and any resources available to provide necessary push-in support.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Level 1 on State Assessments in 3rd grade ELA.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. MTSS - improving the effectiveness of meeting the needs of all students.

2. 3-Phase Instruction for ELA - a) extended level instruction; b) instructional-level instruction; c) on grade-level instruction

3. 2-Phase Instruction for Math - a) on grade-level instruction; b) instructional groups and basic facts automaticity

4. Infuse science into all academic courses.

Part III: Planning for Improvement

Areas of Focus:

| #1. Instructional Practice specifically relating to Standards-aligned Instruction | | | |
|---|--|--|--|
| | Description of Area of Focus: Instructional practice specifically relating to standards-aligned instruction will focus on supporting teachers with research-based practices that follow state adopted standards within the specific content area. | | |
| Area of Focus Description and Rationale: | Rationale for Area of Focus: Standards-based data (FSA, Common Assessments, Walk- Through etc.) collected from the 2019-2020 school year showed students performing at grade level in ELA, Math, and Science with inconsistencies in tasks aligned to grade appropriate standards. Students are not provided with consistent opportunities to be successful with standards-aligned tasks while adhering to the district curriculum guide, and teachers have limited effective teaching methods to support learning. | | |
| | Walk-Through data collected from the 2019-2020 school year showed that 50% of teachers were providing grade appropriate standards-aligned tasks. | | |
| | * By October 2020 - at least 80% of teachers will provide opportunities for students to engage in standards-aligned tasks according to Walk-Through data (both virtual and brick & mortar). By December 2020, 100% of teachers will provide opportunities for students to engage in standards-aligned tasks. | | |
| Measurable Outcome: | We need to increase our school grade by gaining 13 points. *ELA proficiency: increase by 2; *ELA Gains: increase by 2; *ELA Bottom Quartile: increase by 2; *Math proficiency: increase by 2; *Math Gains: increase by 2; *Math Bottom Quartile: increase by 2; *Science: increase by 2. | | |
| Person responsible for monitoring outcome: | Cheryl Quarles Gaston (quarlesc@duvalschools.org) | | |
| Evidence- based Strategy: | Professional Learning Communities (PLC): Professional Learning Communities will be focused on standards-based planning, student work, project-based learning, analysis protocol, development of common assessments, and analyzing data. The work of the PLC will be centered around the research of Richard Dufour's PLC questions and will be utilized throughout the following Instructional format: 1. MTSS - improving the effectiveness of meeting the needs of all students. 2. 3 Phase Instruction for ELA - a) extended level instruction; b) instructional level instruction; c) on grade-level instruction 3. 2 Phase Instruction for Math - a) on grade-level instruction; b) instructional groups and basic facts automaticity 4. Infuse science into all academic courses. | | |
| Rationale for | | | |
| Evidence- based Strategy: | We are embracing the District's priorities and utilizing information attained from the Opportunity Gap to address them at the school level for our students. | | |
| Action Steps | to Implement | | |

1. Reorganization of Problem Solving Team with new members, procedures and accountability.

2. ELA-School-wide explicit vocabulary instruction, RMSE intervention for K-2; LLI intervention for 3-5; I-Ready K-5; Freckles 4-5; Achieve 3-5; Making Meaning K-5; Duval Reads for Science and Social Studies; Deliver grade-level standards-based instruction daily; Project-based learning (K-5); Push-in classroom support with paras and tutors.

3. Eureka Math, Acaletics (2-5), I-Ready K-5; Freckles 4-5; Zearn (3-5); Push-in support

4. Adoption of Genius Hour for interdisciplinary-constructivist teaching approach; emphasis on science, inquiry, & project-based learning (student-selected projecte)

projects).

5. Reading coach-analyze reading achievement progress; provide professional development; facilitate coaching cycles; and provide coaching for teachers.

6. Science Lab teacher-design and monitor science achievement progress and provide instruction for students and coaching for teachers

7. Reading interventionist-provide tier-2 and tier-3 intervention to struggling readers.

8. District Math Coach-analyze data, provide professional development & coaching for teachers.

Person Responsible Cheryl Quarles Gaston (quarlesc@duvalschools.org)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

n/a

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

We will use the data from our 5 Essentials Survey. We were in the green (very positive) in every category except one (we were "neutral"). That area was Teacher Collaboration. According to UofChicago (survey designers), 3 or more areas rated as "strong" (green) means your school is more likely to grow and succeed. She shared the results and we watched a video from DCPS about ways to address/improve the Teacher Collaboration portion. After the video, Mrs. Gaston asked grade level teams to complete a planning sheet with their ideas about ways to address this portion so that we can build it into our SIP. She asked all grade levels to submit this information to her by the end of the day. She also asked all faculty and staff to share any thoughts, ideas or discussions about our SIP and what we need to do in order to improve our school. All ideas have been integrated into our PLC's for the subsequent school year. Most Noteworthy:

Teachers would like opportunities to observe their colleagues to gain feedback and offer feedback. Therefore, Collaborative Coaching Cycles will be utilized for the upcoming school year.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
