Regional Executive Director	<u>Cassandra Brusca</u>
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	TS&I

\* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here.

## **School Board Approval**

This plan is pending approval by the Duval County School Board.

## **SIP Authority**

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <a href="https://www.floridacims.org">www.floridacims.org</a>.

#### **Purpose and Outline of the SIP**

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## **Part I: School Information**

## **School Mission and Vision**

#### Provide the school's mission statement.

We encourage a positive collaborative community that differentiates instruction and challenges students to do their best.

#### Provide the school's vision statement.

Enterprise Learning Academy provides an engaging environment that empowers students to be compassionate and responsible learners.

## **School Leadership Team**

## Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

#### **Analysis**

#### **Data Reflection**

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Math LPQ had 30% learning gains, up just 4% from the previous school year. Contributing factors include the following: lack of monitoring student progress, lack of differentiation to meet needs of LPQ students, teaching not aligned to the standard, etc.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Science proficiency showed the greatest decline, a 7% drop from the previous school year. Contributing factors may include the following: lack of monitoring student progress, not teaching to the standard, teachers not implementing science curriculum, etc.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The area of math learning gains for the LPQ had the greatest gap compared to the state average. Factors may have included the following: lack of monitoring student progress, lack of differentiation to meet the needs of LPQ students, not teaching to the standard, etc.

Which data component showed the most improvement? What new actions did your school take in this area?

The area that showed the most improvement was the LPQ for ELA. A reading interventionist worked solely with the LPQ students in grades 3-5.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

The number of students who are 1 or more levels behind in Reading.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Instructional Culture
- 2. Math LPQ
- 3. Reading Proficiency
- 4. Science Proficiency
- 5. Reading and Math Learning Gains

# Part III: Planning for Improvement

Areas of Focus:

## #1. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus
Description and Rationale:

Based on administration classroom walkthroughs, only 50% (0.5 of 1.0 scale) of classrooms observed adequately assessed student learning. The data suggests that students are not being afforded opportunities to demonstrate whether they have truly mastered the standard/content.

100% of our current core content teachers will successfully engage in common planning by using learning arc process to prepare common aligned assessments to determine student mastery.

Measurable Outcome:

Under the Assessing of Student Learning dashboard, improve "Determines Mastery" dial from 0.5 to 0.7 for 20-21 school year.

Person responsible

for Faylene Blake (blakef@duvalschools.org)

monitoring outcome:

Common Planning for all Enterprise Learning Academy teachers by content and by grade

level

Evidencebased Strategy: During common planning, teachers will utilize learning arcs to increase content knowledge

and use of Understanding by Design by beginning with the end in mind

Teachers will plan exit tickets and other assessments that are aligned to the Florida

Standards and Achievement Level Descriptors

Teachers will discuss student results to determine student mastery and plan next steps

Rationale for

Evidencebased Strategy: Based on a review of last year's SWT dashboard and evidence presented it was determined that we needed to improve the alignment of assessing student learning.

#### **Action Steps to Implement**

Administration will revisit Standards Walkthrough Tool and calibrate in order to promote alignment

Person Responsible

Jeff Collins (collinsj1@duvalschools.org)

Develop master schedule that affords opportunities for teachers to engage in weekly common planning sessions

Person Responsible

Jeff Collins (collinsj1@duvalschools.org)

Provide tiered professional development on Understanding by Design framework and review of Learning Arc process

Person Responsible

Faylene Blake (blakef@duvalschools.org)

During administrative-led common planning sessions with content specific grade bands, Enterprise Learning Academy teachers will complete learning arcs on specific standards

Person Responsible

Faylene Blake (blakef@duvalschools.org)

Teachers will use the learning arc to develop common assessments and exit tickets that are aligned to the Florida Standards and Achievement Level Descriptors

Person

Hope Teper (smithh1@duvalschools.org)

Responsible

Administration will complete Standards Walkthrough Tool and meet weekly to discuss progress and determine next steps

Person

Candice Glover (gloverc@duvalschools.org)

Responsible

Principal will meet monthly with region leadership to calibrate and receive feedback for actionable next steps

Person

Jeff Collins (collinsj1@duvalschools.org)

Responsible

Principal will meet monthly with partner principal to calibrate and receive feedback for actionable next steps

Person

Responsible Jeff Collins (collinsj1@duvalschools.org)

Teachers will complete deep data dives when analyzing student assessments so they can adequately plan, make instructional decisions, and plan next steps for students

Person

Responsible Hope Teper (smithh1@duvalschools.org)

#### #2. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus
Description and

Based on the 5 Essentials Survey Data, teachers rated the area of Collective Responsibility as very weak (19%). Specifically, only 23% of the teachers at ELA feel responsible when students fail. This area directly impacts student development, school improvement, and professional growth and this was one of our weakest areas.

Rationale:

Future 5 Essentials Survey

Measurable Outcome:

Mini assessments to identify student deficits and areas to address deficits from prior grades

that prevent students from mastering current grade level content

Baseline data (i-Ready)

Person responsible

for

Jeff Collins (collinsj1@duvalschools.org)

monitoring outcome:

Evidence-

Participation in vertical articulation among grade levels

based

Vertical articulation to work together to develop the mini assessments

Strategy: Include interventionists with common planning Include interventionists with grade level PLC(s)

Rationale

for Evidence-

Teachers need to quickly identify areas of student deficiencies and address accordingly Based on 5 Essentials Survey, they did not have collective responsibility from one grade

based level to the next

Strategy:

## **Action Steps to Implement**

Provide strategic and intentional opportunities throughout the school year for teachers to engage in vertical articulation across grade levels and content areas

Person

Responsible

Jeff Collins (collinsj1@duvalschools.org)

Instructional coach will work with teachers to examine standards, learning arcs, and how standards build on each other from one grade level to the next

## **Additional Schoolwide Improvement Priorities**

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

We will continue this year right where we left off in the 2019-2020 school year. We will utilize Corrective Reading to address students who are 1 or more years behind in the area of Reading. In addition, LPQ Reading students will work specifically with a Reading Interventionist. Our LPQ Math students will work with a Math Interventionist. We will continue to build the foundation of our instructional culture and improve teacher trust and relationships among each other. In the area of Science proficiency, we will continue to use instruction that is aligned to the standard, develop common assessments and exit tickets to assess student mastery of the standard and then develop/plan next steps.

Para professionals will be utilized to assist with small group instruction to improve student achievement. Our parent liaison will be utilized to leverage and increase parent engagement which in turn will promote student achievement. The additional technology such as document cameras, projectors, and/or interactive monitors will be used to increase student engagement and positively effect student achievement. Site licenses for Reflex Math and Study Island will provide additional supplemental opportunities for our students to advance learning and student achievement.

## Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Our approach to build and sustain a positive school culture is multi-faceted. We begin by listening to all stakeholders and setting up a framework whereby they can share in a non-threatening manner. We set up meetings with stakeholder groups and documented their input. Next, we built a plan to address these perceived areas of opportunity. In addition, we devised a school improvement plan that embodied their input. This information was then circulated and shared with all groups and continuously revisited via faculty meetings, parent nights, school advisory council, etc.

#### Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

## Part V: Budget

# The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Standards-aligned Instruction	\$0.00
2	III.A.	Areas of Focus: Instructional Practice: Standards-aligned Instruction	\$0.00
		Total:	\$0.00
