Demographics

Principal: Michael George

Start Date for this Principal: 7/30/2020

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	High School 9-12
Primary Service Type (per MSID File)	K-12 General Education
2019-20 Title I School	No
2019-20 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	57%
2019-20 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities English Language Learners Asian Students Black/African American Students Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: A (65%) 2017-18: A (62%) 2016-17: B (54%) 2015-16: C (50%)
2019-20 School Improvement (SI) Information*	
SI Region	Northeast
Regional Executive Director	Cassandra Brusca
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	N/A

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Duval County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Our Mission is to provide educational excellence in every school, in every classroom, for every student, every day.

Provide the school's vision statement.

Our Vision is to ensure every student is inspired and prepared for success in college or a career and life.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Spaulding, Zeina	Principal	n/a
Smith, Michael	Assistant Principal	
Humphreys, Julie	Assistant Principal	
George, Marie	Assistant Principal	
McMahon, Emily	Assistant Principal	

Demographic Information

Principal start date

Thursday 7/30/2020, Michael George

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

Total number of teacher positions allocated to the school

127

Number of Consecutive Years Economically Disadvantaged Students Subgroup Below 32%	0

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The ELA Lowest 25 Percentile showed the lowest performance. The contributing factor to last year's performance was students needed more instructional time mastering the standards in their English classroom.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Math Lowest 25 Percentile showed the least amount of growth from the prior year. Unfortunately, we have have math teacher turnover in the building. The Math PLC is at the beginning stages of learning the standards and the task demands. As a result, there was not much time cultivating lessons for differentiated instruction on a consistent basis.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The greatest gap compared to the state average was the ELA Learning Gains and US History EOC Proficiency. In both subjects, we were above the state average, but the difference between the two years was less than 2% points. The factor that contributed the most is that we did not offer consistent differentiated instruction in the classroom.

Which data component showed the most improvement? What new actions did your school take in this area?

The data component that showed the most improvement was Math Learning Gains. During PLCs, the team focused on unwrapping standards and ensuring tasks were aligned to the standard.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

As of 7/30/20, the data has not populated in EWS Part 1(D). Once data has been updated, potential areas of concern will be identified.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Math L25 (54%)
2. ELA L25 (45%)
3. ELA Proficiency (52%)
4. Math Proficiency (56%)
5. Biology EOC (74%)

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus Description and Rationale: The slight majority of the classrooms at Atlantic Coast High School show standards aligned instruction, tasks, or assessments. When students and teachers were asked about the rigor experienced in the classroom in the 5 Essentials Survey, most replied the rigor was adequate, indicating most of our students are experiencing the negative impact of the Opportunity Myth.

Measurable Outcome: The vast majority of our current core content teachers will engage in successful standards-based instruction planning procedures using the Standards Walk-Through form.

Person responsible for monitoring outcome: Zeina Spaulding (khanachetz@duvalschools.org)

Evidence-based Strategy: Facilitate and monitor PLC and common planning sessions that result in instructional delivery that ensures students are exposed to standards aligned instruction, tasks, and assessments.

Rationale for Evidence-based Strategy: In order for students to be adequately prepared for state assessments, students must be consistently provided instruction, tasks, and assessments that are standards aligned. More specifically, students must have the opportunity to practice the task demands that will be given on the state assessments.

Action Steps to Implement

Facilitate PLCs that promote conversations around the standard based instruction.

Person Responsible Michael Smith (smithm6@duvalschools.org)

The PLC will unwrap the targeted standards that are being taught within the unit. When teachers are unwrapping the standards, they will identify the verbs and nouns of the standard. Also, they will use the Learning Arc Document throughout this process.

Person Responsible Michael Smith (smithm6@duvalschools.org)

Administrators and teachers will engage in common planning to ensure that tasks and assessments are aligned to the appropriate component of the Learning Arc and that students have an equivalent FSA experience.

Person Responsible Julie Humphreys (humphreysj@duvalschools.org)

Administrators will meet regularly on Thursdays to discuss their instructional review walks for the week. During these meetings, the admin team will focus on classrooms that did not have instruction or tasks that were aligned to the standard. The team will create weekly actionable steps based on needs in the building.

Person Responsible Julie Humphreys (humphreysj@duvalschools.org)

#2. Culture & Environment specifically relating to Parent Involvement

Area of Focus Description and Rationale:	Insufficient data was found in the climate survey domain that involves community involvement.
Measurable Outcome:	To ensure at least five point increase with parent involvement will show gains in the 2020-2021 the school climate 5 Essential Survey.
Person responsible for monitoring outcome:	Julie Humphreys (humphreysj@duvalschools.org)
Evidence-based Strategy:	Implement a parent involvement activities throughout the school year.
Rationale for Evidence-based Strategy:	In order for parents to support their student with their high school academics, mental health, and post secondary, the school needs to provide parent involvement activities such as parent night presentations.

Action Steps to Implement

Admin will collaborate with the school counselors to brainstorm parent involvement topics for each quarter. We will advertise the parent involvement nights through all forms of social media.

Person Responsible Julie Humphreys (humphreysj@duvalschools.org)

Admin and school counselors will facilitate parent involvement night for each quarter. Admin will record the presentation to be posted on the school website.

Person Responsible Julie Humphreys (humphreysj@duvalschools.org)

Increase communication on a weekly, monthly, and quarterly basis with parents. Admin will create a quarterly newsletter, send out weekly robo calls, and create a Youtube video to communicate with the families upcoming school events.

Person Responsible Zeina Spaulding (khanachetz@duvalschools.org)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

The school leadership team will address the remaining school wide priorities through facilitating PLCs, Common Plannings. Also, the leadership team will meet on a weekly basis to analyze standard walk throughs to determine areas of growth within these priorities.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

The Positive Behavior Interventions and Support model will continue to be implemented at Atlantic Coast High School for the 2020-2021 school year. It is a planned approach for school behavior that emphasis: prevention of problem behaviors through proactive instruction of desired behavior; regular reinforcement of appropriate behavior; monitoring and correction of problem behavior; application of more intensive and individualized behavior support for students who do not respond to prevention effort. Furthermore, the leadership team will build positive school culture by rewarding students for the academic and social behavior. For example, students who earn A/B Honor will receive an incentive each quarter such as an ice cream party as well as public recognition through our school newsletter. For students that do not receive a behavior referral, will be allowed to participate in school wide social events. Stakeholders such as the PTSA and SAC will be involved with planning the PBIS events as well as requesting donations from business partners.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.
