## School Board Approval

This plan is pending approval by the Duval County School Board.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at [www.floridacims.org](http://www.floridacims.org).

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

**Analysis**

**Data Reflection**

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

**Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.**

Needs to be completed

**Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.**

-

**Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.**

-

**Which data component showed the most improvement? What new actions did your school take in this area?**

-

**Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?**

-

**Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.**

- 1.
- 2.
- 3.
- 4.
- 5.

**Part III: Planning for Improvement**

**Areas of Focus:**

**#1. Instructional Practice specifically relating to Standards-aligned Instruction**

**Area of Focus Description and Rationale:** Ensure that all students at Samuel Wolfson School for Advanced Studies are offered the equivalent experience that they will see in the assessments at the end of the year. The majority of classroom grades and scores on summative and/or end of year assessments have limited correlation.

**Measurable Outcome:** The vast majority of our current teachers will implement classroom assessments that are aligned to the complexity of the standards as measured by the standards walkthrough document.

**Person responsible for monitoring outcome:** Christopher Begley (begleyc@duvalschools.org)

**Evidence-based Strategy:** To facilitate PLC and common planning to create equivalent experiences aligned to assessments would ensure ALL students develop the capacity to understand content that is complex and challenging.

**Rationale for Evidence-based Strategy:** Students that develop the capacity to understand content that is complex and challenging, will directly impact performance on assessments.

**Action Steps to Implement**

1) Teachers collaborate to identify targeted content aligned to the standards.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

2) Teachers review the data on a regular basis to identify students needing extended remediation of the standards not mastered.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

3) Teachers and admin to continuously review the district assessment data to improve students' achievement of rigorous standards-based instruction tested.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

4) Teachers and admin participate in district provided Professional Development to identify effective instructional strategies for low performing students and how to scaffold their learning.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

5) Admin to conduct frequent Standards-Based Instructional walk-throughs to observe the aligned instruction.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

6) Teachers analyze tests results to diagnose student learning, improve assessments and instruction, and modify their instructional strategy to re-teach the rigorous content.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

7) Teachers collaboratively analyze and revise assignments and assessments to increase the cognitive complexity and alignment to standards.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

8) Teachers create blended learning opportunities that challenge students to perform at higher levels of learning from a variety of sources.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

**#2. -- Select below -- specifically relating to**

**Area of Focus Description and Rationale:** Ensure that all students at Samuel Wolfson School for Advanced Studies enrich their partnership of trust with teachers. According to the 5Es survey, Wolfson students could increase their connection of trust.

**Measurable Outcome:** The vast majority of our current teachers will implement classroom protocols that will raise the confidence of the students that they have a genuine connection with their teachers. This will be measured by an increase in the 5Es standard of teacher/student connection.

**Person responsible for monitoring outcome:** [no one identified]

**Evidence-based Strategy:** To facilitate faculty meeting, PLCs and common planning to create procedures and protocols to make elevate the connection between students and teachers.

**Rationale for Evidence-based Strategy:** Students who develop the confidence in teacher/student relationships will directly impact performance on assessments and grades.

**Action Steps to Implement**

Teachers will participate in either coaching, tutoring, sponsoring of clubs to build relationships with students.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

Teachers will input grades in a more timely manner - not just what is expected in their contract.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

Teachers will employ a system of logging in turned in assignments so that the students feel confident that their work is not being lost.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

Teachers will quickly give feedback on assigned material so that the students do not have a delay in their learning.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

Teachers will grade and log into FOCUS all assignments so that students and parents are ensured receipt of the work giving validation to their effort.

**Person Responsible** Christopher Begley (begleyc@duvalschools.org)

**Additional Schoolwide Improvement Priorities**

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

## Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.
