School Board Approval

This plan is pending approval by the Lake County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

It is the mission of Cypress Ridge to ensure all of our students acquire the knowledge and skills essential to achieve high levels of success and become productive citizens.

Provide the school's vision statement.

As a school community we believe in: Collaborating to support all learners Celebrating success Integrating cross-curricular standards with a focus on STEAM Using evidence to drive instruction

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Voytko, Scott	Principal	Instructional Leader voytkos@lake.k12.fl.us
Schoenthaler, Virginia	Instructional Coach	Instructional Leader, STEAM schoenthalerv@lake.k12.fl.us
Perez, Betzaida	Administrative Support	Supporting the instructional leaders perezb@lake.k12.fl.us
Brouhard, Nicole	Assistant Principal	Professional Development and Instructional Leader brouhardn@lake.k12.fl.us
Spanswick, Marcella	Instructional Coach	ELA gelardim@lake.k12.fl.us
Taylor, Stacy	Teacher, K-12	Interventionist taylors3@lake.k12.fl.us
Kuennen, Jessica	Teacher, ESE	ESE Specialist

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our Math Lower Quartile was our lowest in 2019 and their growth was in question last winter according to Iready year of year comparisons. We will continue to target this group as our lowest performing.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

1st grade reading. Our grade level planning was inconsistent and not all teachers were aligned to teaching the standards.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The greatest gap was Math Lower Quartile by 12% points. This was due to a lack of targeted interventions and lack of instructor understanding of standard. While we have had this gap for 3 years, we do see a positive trend on local data from I-ready showing our students in 2019 were on track to make learning gains.

Which data component showed the most improvement? What new actions did your school take in this area?

Science- Our 5th grade team focused on aligning tests to standards and created a clearer purpose in science lessons.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

No students qualified for EWS.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 5.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Standards-aligned Instruction

#1. Instructional Practice specifically relating to standards-anglied instruction					
Area of Focus Description and Rationale:	Our area of focus is ensuring that student independent work aligns to the rigor called for form the standard Research shows a disconnect between what the standard asks students to know, and the work that students actually do. When students do work that does not align to the standard they will rarely have the ability to master the content. Due to the published research and information gathered in walkthroughs, our gaps may exist due to a lack of high quality independent work.				
Measurable Outcome:	A research study showed 17% of independent work matched the standard, so we are aiming for 60% of students independent work to meet the demands of the standard.				
Person responsible for monitoring outcome:	Scott Voytko (voytkos@lake.k12.fl.us)				
Evidence- based Strategy:	Teachers will plan and review student independent work to determine if the work assigned (and the student product) meets the standard. Teachers will unpack the standard to make this determination.				
Rationale for Evidence- based Strategy:	If we implement, monitor and support more standard based tasks for students, then we will see a higher percentage of students mastering the standard.				
Action Steps to Implement					

1. Continue PLC structure and attend a grade level community weekly.

2. Walk through rooms capturing student work, providing feedback of what kids are doing compared to what is being asked in standard.

Person

Scott Voytko (voytkos@lake.k12.fl.us) Responsible

#2. Outline & Environment specifically relating to Equity & Diversity					
Area of Focus Description and Rationale:	Teachers and staff were presented with data that showed evidence of the disparity between the number of proficient white students on honor roll compared to the number of African American, Hispanic, and Economically disadvantaged students on honor. Based on this data, we created a guiding coalition to ensure that as a staff we eliminate unknown biases and monitor that all students receive the support they need to ensure equity.				
Measurable Outcome:	Close the gap of proficient students receiving honor roll among subgroups. We want to see less than a 10% gap between White, Hispanic, African American, and Economically-Disadvantaged students receiving honor roll who show proficiency.				
Person responsible for monitoring outcome:	Nicole Brouhard (brouhardn@lake.k12.fl.us)				
Evidence- based Strategy:	We will utilize a Guiding Coalition team. This team will conduct Guiding Coalition meetings which consists of teachers and staff to ensure that we can work on improving and eliminating unknown biases. We will look at Iready scores of students and the grades they receive in the classroom. We will also continue the use of iready data to monitor the progress of all students in regards to proficiency and grades students receive by the teacher. Students not meeting expectations will be invited to tutoring for supplemental support outside of the scheduled school day in math and reading. Additionally, teachers will be selected to attend the 2021 PLC conference to learn more about equity and the PLC implementation.				
Rationale for Evidence- based Strategy:	After attending a Lake County summer training/conference that was led by Dr. Anthony Muhammad, the leadership team and team of teachers went through the data presented that identified the honor roll disparity. As a team we decided to create a team of teachers and staff that could help support the change needed for our students. The Guiding Coalition team will look into individual student grades and performance scores to ensure that Gaps are addressed.				

#2. Culture & Environment specifically relating to Equity & Diversity

Action Steps to Implement

1. Ensure a structure for PLC meeting times

2. Meet with grade teams on under performing students, as well as MTSS coordinator, to keep students tracked and in interventions.

3. Schedule and invite students to tutoring

4. Invite staff to attend PLC conference.

Person

Scott Voytko (voytkos@lake.k12.fl.us) Responsible

#3. Instructional Practice specifically relating to Differentiation

Area of Focus Description and Rationale:	Instructional practice specifically related to differentiation is an area of need based on our bottom quartile data and students in the ESSA subgroups. When student gaps in learning form, teachers rely on differentiating instruction to close gaps so all students can achieve mastery within the standard. In our PLC teachers will work on Question 3, what do we do for students who don't get it, to plan these activities to differentiate and intervene content so that all students meet the intended purpose. We have historical data that indicates only about 50% of under achieving students close the gap while in 3-5th grade.			
Measurable Outcome:	We want to see 100% of our students identified in the lower quartile for ELA and Math demonstrate Learning Gains on the FSA assessment.			
Person responsible for monitoring outcome:	Scott Voytko (voytkos@lake.k12.fl.us)			
Evidence- based Strategy:	Professional Learning Communities with an area of focus on standard based instruction and strategies to utilize for students who are not meeting the standard will be used to increase proficiency in the lower quartile in the area of math. To monitor this strategy the leadership team will participate in the PLC's with grade levels K- through fifth, supporting these teams in unpacking standards and identifying the causes for gaps and the plan to deliver differentiated instruction. , The leadership team will conduct classroom walk- throughs, and work with teams. Additionally, Students needing further differentiation will be invited to supplemental afterschool tutoring to work on specific gaps in skill.			
Rationale for Evidence- based Strategy:	Its essential that teachers differentiate instruction, but at the same time we must not lower our expectation to anything below what the standards calls for. While we can differentiate these pathways, we need the make sure it remains aligned to our PLC and school focus of understanding standards			
Action Steps	to Implement			
 Implement PLC Leadership Team attends PLC and supports question 2 and 3 of PLC model Students needing support are invited to tutoring Some teachers will be invited to PLC conference summer 2021. 				

Person

Responsible Scott Voytko (voytkos@lake.k12.fl.us)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Supporting walkthroughs to ensure that independent work aligns to standard in science.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

As a school we address building a positive school culture by implementing The Seven Habits of Happy Kids by Dr. Covey. Each month starting in the month of September teachers and students work on one habit. Students are recognized at terrific kid for demonstrating those habits. These focus on character, respect, and working through feelings.

In addition as a school we provide multiple opportunities for parents to be involved in our campus activities. We host curriculum nights, movie nights, Father Daughter events, school carnivals, breakfast and luncheons to encourage student/parent participation in our school culture and environment.

Monthly SAC meetings and PTO meeting take place to ensure all stakeholders are involved in decisions made for the whole of the school.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Standards-aligned Instruction			
2	III.A.	Areas of Focus: Culture & Environment: Equity & Diversity	\$0.00		
3	III.A.	Areas of Focus: Instructional Practice: Differentiation	\$0.00		
		Total:	\$0.00
