Year	
Support Tier	
ESSA Status	TS&I

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Pasco County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Due to not having FSA testing data from spring, 2020, we based our performance on our local quarterly assessments administered through Performance Matters. Based on this data, our lowest performance was in Basic ELA 8th (26%), Math 8th (45%), Sci 8th (46%).

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Reviewing the subgroup data from 2019 compared to 2018, we are concerned with the drop in performance of our ELL population in ELA from 46% proficiency to 26% proficiency. An anomaly exists with the Learning gains for this same group that rose from 45% to 55% between these same two years.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

In all areas, our school outperformed the district and state averages. The greatest positive gap was in math achievement where Charles S. Rushe was 20 percentage points higher than the state average.

Which data component showed the most improvement? What new actions did your school take in this area?

Our learning gains, specifically in our lowest quartile, was our greatest improvement. We believe our work in providing tier 1 reteach opportunities and tier 2 intervention during structured times of the day have been the reason for this improvement.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

The number of students who we have identified as having two or more EWS indicators has ticked up, as has the number of students who were retained after 8th grade.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Continued focus on learning gains of the bottom quartile students
2. Continued focus on math and ELA mastery of standards - by student by standard
3. A close look at our students learning gaps as a result of distance learning during 4th quarter 2019-2020.
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

No activities were entered for this section.

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

GOAL: The learning gains of all students, especially our students in the lowest quartile, will increase by at least 10% in math and ELA.

Strategies and PD we will coordinate and/or facilitate to these goals?

1a. We will prioritize scheduling students in the lowest quartile in ELA or Math into the AIR Time class of their ELA or Math teacher.

1b. We will continue to schedule priority days for ELA and math during AIR Time for days not frequently missed due to holidays.

1c. Institute tutorial sessions for smaller groups of students to receive the support they require to master the standards.

1d. PD centered on what teachers do as a result of CFA data.

1e. Design and implement essential standards learning charts.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

At Charles S. Rushe Middle School, we have undergone a districtwide professional development in Social Emotional Learning (SEL). We have several forums dedicated to reviewing practices and data related to creating a positive and inclusive learning environment for all students. These groups include our School Advisory Council, our School Leadership Team, our Positive Behavior Intervention and Supports Committee, and our School Climate Committee. We use Gallup Staff and Student surveys to measure our stakeholders' feelings about our school culture, and we use this data to set goals and develop strategies for improvement. In addition, we promote various student-led clubs that work toward creating a more inclusive environment. Moreover, we review performance data on a regular basis to look for trends and patterns of student performance measures - academic, behavioral, and attendance - by subgroup to determine how we can address these effectively.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.
