## School Board Approval

This plan was approved by the Lake County School Board on 10/26/2020.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS\&I) and Comprehensive Support and Improvement (CS\&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS\&I, a school must have one or more ESSA subgroup(s) with a Federal Index below $41 \%$. This plan shall be approved by the district. There are three ways a school can be designated as CS\&l:

1. have a school grade of $D$ or $F$
2. have a graduation rate of $67 \%$ or lower
3. have an overall Federal Index below 41\%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.
The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all noncharter schools with a current grade of D or F, or a graduation rate $67 \%$ or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part I: School Information

## School Mission and Vision

Provide the school's mission statement.
The mission at Eustis Elementary is EVERY student, EVERY day, achieves high levels of learning
Provide the school's vision statement.
A safe, inclusive, and collaborative school community that has high expectations for all students, and supports, engages, and celebrates learners.

## School Leadership Team

## Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name Title Job Duties and Responsibilities

Voytko, $\quad$ Principal $\quad$| facilitates targeted feedback cycles with leadership team, completes daily |
| :--- |
| learning walks to provide non-evaluative feedback to teachers, manages |
| regular communication with staff and community through newsletters, |
| Corrie |
| SchoolMessenger System, email, scheduled meetings, and social media, |
| and serves as a Common Collaborative Planning Facilitator. |

|  | Tushena Scott, Assistant Principal- responsible for discipline and safety, |
| :--- | :--- | :--- |

Kristy Beach, CRT- leads Science, Technology, Engineering, and Math initiatives, School Communication (Facebook, Twitter, etc.), maintains school
Beach, Other
Kristy website, serves as Assessment Coordinator, serves as TEAM contact, manages volunteers, Common Collaborative Planning Facilitator, provides assistance to teachers, oversees parent engagement activities, and serves as Title I Contact.

| Isabelle, | Teacher, | SAC Chair, PTO Member |
| :--- | :--- | :--- |
| Renee | K-12 |  |

Michelle Wiseman, Literacy Coach- serves on MTSS team, provides Wiseman, Instructional assistance to teachers with ELA curriculum, provide small group instruction Michelle Coach to bottom quartile students, engages in targeted feedback cycles, and serves as a Common Collaborative Planning Facilitator.

Broadway, Instructional
Charles Coach

Math Content Coach- provides small group instruction to bottom quartile students, common collaborative planning facilitator, manages and provides iReady support for teachers and students, MTSS member

Tanyhill, School Manages MTSS, ELL students, 504s, and provides counseling to students in Raven Counselor all grade levels. Assists teachers with creating academic and behavior plans.

## Demographic Information

## Principal start date

Sunday 7/1/2018, Reanna Boardway
Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

| Economically Disadvantaged Students Subgroup Below 41\% in the Current Year? | NO |
| Number of Consecutive Years Economically Disadvantaged Students Subgroup Below 32\% | 0 |

## Analysis

## Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

> Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

ON the 2019 FSA, Our Math lowest twenty fifth percentile showed the lowest performance with 26\% proficient, up $16 \%$ from the previous year. We implemented strategic interventions, but focused heavily on ELA as our ELA lowest quartile had decreased 17 points from the previous year.

On the midyear iReady diagnostic, our lowest ELA performance was first grade reading at 31\% on or above grade level. Our lowest Math performance was also 1st grade with $24 \%$ of students on or above grade level in first grade. Contributing factors included lack of fidelity with intervention program implementation and a common planning structure/agenda that focused on housekeeping/logistical items and was transitioning to one that allowed for teacher collaboration around the PLC questions
(What do we want students to know and be able to do? How will we respond when they don't learn? How will we respond when they already know it?).

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The state assessment data component that showed the greatest decline was the Science Achievement, which dropped 19 points from $59 \%$ to $40 \%$. Possible contributing factors include lack of common planning focused on Science instruction, teachers using different texts to guide instruction, minimal hands-on experiments, lack of data discussions, and a priority on ELA and Math instruction.

On our midyear iReady diagnostic, the greatest decline was 3rd grade ELA in which $18 \%$ fewer students were on grade level compared to the previous year. One contributing factor was the need to raise teacher expectations and build collective efficacy.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The data component with the greatest gap compared to the state average is FSA Math Lowest 25th Percentile. Our proficiency was $26 \%$ and the state's was $51 \%$. Potential factors include inconsistency among teachers regarding which materials to use, hesitancy to common plan together, and an intervention system that consisted of teachers differentiating within their classrooms rather than collaborating to target individual students' needs. There was a primary focus on ELA instruction during intervention time.

Which data component showed the most improvement? What new actions did your school take in this area?

From 18-19 to 19-20, the iReady midyear diagnostic showed that 5th grade ELA had the most improvement, increasing the number of students on or above grade level at midyear from $28 \%$ to $49 \%$. The team was restructured, teammates had high expectations for all students, intervention groups were targeted and fluid, and teachers met weekly to plan together, focusing on the PLC questions to guide their work.

## Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

## 1. Absences

2. Course Failures

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Equity for all students
2. Active participation in a PLC to establish clear a purpose for student learning (What are we learning? Why are we learning it? How will we know when we have learned it?)
3. High expectations for all students using CHAMPS as a guideline
4. Create and protect an intervention time of at least 30-45 minutes four days a week in which instruction is targeted to individual needs and student groups are fluid
5. Student attendance > 90\%

## Part III: Planning for Improvement

## Areas of Focus:

## \#1. Instructional Practice specifically relating to Standards-aligned Instruction

We will focus on the District Instructional Framework, specifically setting the purpose. When planning for instruction, teachers will make sure the purpose of the lesson is aligned to the standards, focuses on student learning rather than a task, and is interesting and relevant. Students will be able to state what they are learning, why they are learning it, and how they will know they have learned it. If students are receiving instruction that is not
aligned with the standards, then they will not be proficient on standards-based
Area of Focus Description and
Rationale: assessments nor be engaged in learning that addresses the level of rigor appropriate for the students' grade level. If students cannot state what they are learning as it relates to the standard, then they have no way to gauge their own progress through the use of success criteria. If students do not understand why they are learning the content, then they will not associate importance or relevance with the work, therefore becoming less engaged. If students do not know the success criteria, they will not be motivated to rise to high expectations. Our lowest 25th percentile data indicates that students do not have mastery of the standards. Our subgroup data shows that black students scored below the overall federal index, earning $31 \%$ of the available points possible. This indicates that the learning is not relevant and interesting to them.
On the 2020 FSA, we will increase our ELA and Math lowest 25th percentile gains to $62 \%$.

## Measurable Science achievement on the state assessment will rise to $62 \%$.

Outcome: On the midyear iReady diagnostic, we expect $50 \%$ of students to be on or above grade level in all grade levels.

## Person

responsible
for
monitoring outcome:

Corrie Voytko (voytkoc@lake.k12.fl.us)

## Evidence-

## based

Strategy:
Meet weekly in PLC to plan instruction that focuses on four questions:

Rationale
for
Evidence-
based
Strategy:

1. What do we want students to know and be able to do? (What are we learning?)
2. How we will we know if they are learning? (Success Criteria)
3. How will we respond when they don't learn? (Interventions)
4. How will we respond when they already know it? (Enrichment)

## Action Steps to Implement

1. Create and protect a weekly PLC time (Wednesdays 2:30-3:30)
2. Include intervention on the master schedule for 30-45 minutes 4 days a week for grades K-5.
3. Make sure students have access to high quality intervention materials, including Collaborative Classroom materials (SIPPS), student response boards to use as a tool for ongoing ELA and Math intervention formative assessments, and Curriculum Associates Materials (iReady, Ready MAFS/LAFS, CAMS/STAMS, etc.).
3.Ensure classrooms have the technology needed to support students' instruction and display the purpose-related questions -What are we learning? Why are we learning it? How will we know we have learned it? (working document cameras, power strips to support charging Chromebooks, etc.).
4. Meet quarterly with grade levels in data meetings to monitor the progress of all students.

## Person Responsible

## \#2. Culture \& Environment specifically relating to Early Warning Systems

We will use CHAMPS, a school wide positive behavior support system to improve classroom behavior, including increased time on-task, work completion, and cooperation. Teachers will establish high, clear classroom behavior expectations with logical and fair responses to misbehavior and motivate students to put forth their best efforts. Doing so will increase academic engagement as adults will spend less time disciplining students and more time teaching them. CHAMPS supports the development of a common language about behaviors through its use of the Guidelines for Success, strengthening the staff's collective efficacy. The clear discipline flowchart, incident reports aligned to the Guidelines for Success, and strategies for supporting student behavior ensures that new teachers have support with behavior management and will be more likely to stay at the school. CHAMPS will be utilized both during the school day and during after-school clubs, such as Robotics Club, Art Club, Scrabble Club, and our three music-related clubs.
We plan to improve attendance so that the rate of attendance is $90 \%$ or above for all

## Measurable

 students.Outcome: We plan to reduce the number of behavior incidents, as evidenced by a decreased number of referrals when compared to prior years.

## Person <br> responsible <br> for <br> monitoring <br> outcome:

## Evidence-

based
Strategy:

Rationale
for
Evidence-
based
Strategy:
We will consistently implement CHAMPS, including the use of school-wide attention signals, common voice levels, clear expectations in the classrooms and common areas, Guidelines for Success, and the discipline flowchart both during the day and during our after-school clubs.

If we use CHAMPS to promote positive behavior, students will spend less time being disciplined or engaged in misbehavior and more time actively learning. If we offer opportunities for students to participate in extracurricular clubs where CHAMPS is used as a guideline, students and staff members will feel more connected to the school. Research finds a positive correlation between participation in extracurriculars and reading and math achievement, course grades, sense of belonging and academic self-concept.

## Action Steps to Implement

1. Staff members will teach students the Guidelines for Success, state them daily, and refer to them when addressing student behavior. Guidelines for Success will be posted in classrooms and common areas.
2. Posters of the CHAMPS expectations will be placed in common areas.
3. The attendance team will meet monthly to address student absences and develop systems of support and incentives.
4. Student achievement, both academic and behavioral, will be celebrated quarterly through awards and socials, including honor roll socials.
5. Provide opportunities for students to participate in extracurricular activities, including Art Club, Scrabble Club, Robotics Club, and a variety of music-based clubs.

Responsible
Tushena Scott (scott@lake.k12.fl.us)

## \#3. Instructional Practice specifically relating to Differentiation

Teachers will form fluid, differentiated intervention groups to support learners at every level based on formative assessments. If we form fluid, differentiated intervention groups to

Area of Focus Description and Rationale: support learners at every level, then students will receive targeted instruction and the lowest quartile ELA will increase from $39 \%$ to $62 \%$. Lowest quartile math achievement will increase from $26 \%$ to $62 \%$. When planning for interventions, teachers will collaborate with one another, including ESE teachers, to ensure that students with disabilities are receiving equitable learning opportunities and tasks. Interventions for students with learning disabilities can yield a 0.77 effect size if done consistently and correctly. Teachers will also discuss how black students will be exposed to and engaged in rigorous learning experiences and how the content will be relevant and engaging to them.
Measurable The lowest quartile ELA achievement will increase from $39 \%$ to $62 \%$. Lowest quartile math Outcome: achievement will increase from $26 \%$ to $62 \%$.

## Person

 responsible for monitoring outcome:Corrie Voytko (voytkoc@lake.k12.fl.us)

## Evidence-

based
Strategy:
During weekly PLCs, we will use data from the Benchmark Assessment System, iReady, groups based on students' current needs. Groups will be formed using iReady Instructional Grouping Profiles as a starting guide. Explicit and strategic small group instruction will be planned using the four PLC questions and implemented during scheduled intervention time.

## Rationale

for
Evidence-
based
Strategy:
According to John Hattie's "Visible Learning" research, if teachers collaborate with peers to improve practice, then learning will increase (Collective Teacher Efficacy- +1.57 effect size).Early interventions can yield an effect size of 0.44 and response to intervention can yield a 1.29 effect size!

## Action Steps to Implement

1. Use assessment data, including iReady, SIPPS mastery tests, and Benchmark Assessment System, to form intervention groups that will be fluid based on ongoing assessment results and data.
2. Create and establish an intervention schedule with identified interventions by assigned interventionists. Strategically schedule instructional and support staff to support students during intervention time.
3. Meet weekly in PLC to monitor student progress and discuss intervention and enrichment responses for students with special attention to bottom quartile students, students with disabilities, and black students.

## Person Responsible <br> Corrie Voytko (voytkoc@lake.k12.fl.us)

## Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Our three areas of focus explicitly address purpose, high expectations through CHAMPS guidelines, and consistent, targeted interventions for students. Attendance was addressed within the Culture \& Environment focus area. Our school leadership team will address equity by forming an equity team that will meet regularly to plan equitable learning opportunities and experiences for all students., The team will also plan and deliver professional development to staff to address equity and data and engage in quarterly data meetings that address subgroup data. During weekly PLC conversations, leadership team facilitators will engage teacher collaborators in planning equitable opportunities for all students with a focus on our previously underrepresented achievement groups (black students and students with disabilities).

## Part IV: Positive Culture \& Environment

#### Abstract

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Each month, the school holds at least one family engagement event, including Meet the Teacher in August, our annual Title 1 curriculum night and Donuts with Dear Ones in September, a Family Picnic in October and February, Report Card Conferences in October, a STEAM Night in November, a Reading Night in December, a Science Fair Night in January, a March Madness Testing Information Night, a Night of the Arts in April, and a Muffin But Love event for mothers and positive role models in May.

Once a month, our School Advisory Council (SAC) meets to allow all stakeholders input in making school improvement decisions. Our Parent Teacher Organization (PTO) meets directly afterwards each month with the purpose of working together to promote positive relationships among all stakeholders, especially parents and teachers.

Eustis Elementary has many business partners that support our staff members and students through incentives, recognition, and school improvement projects. Our business partners include Leesburg Home Depot, St. Thomas Episcopal Church, Lake Eustis Christian Church, Lifepointe Church, Sonic in Eustis, Dunkin' Donuts in Eustis, Mount Dora Lowes, and First Presbyterian Church of Eustis.

Information is given to all stakeholders via social media, including Facebook and Twitter. Our school is one of a few schools piloting the use of Instagram to connect with our community. Our school website is updated regularly and stakeholders also receive flyers and call-outs, inviting them to participate in SAC and PTO.

## Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

## Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
