ESSA Status	N/A

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Monroe County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Stanley Switlik Elementary School will empower our diverse population of students to attain an educational foundation that enables them to be persistent learners who are prepared for success in college and careers in an ever changing global society.

Provide the school's vision statement.

The Stanley Switlik school community fosters individual determination in a learning environment that emphasizes social/emotional well-being and academic goal setting to enable student citizens to act for the betterment of themselves and their community.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Paul, Christine	Principal	Provide leadership, guidance, and supervision of all aspects of academic and extracurricular programming.
Hendrix, Heather	Teacher, K-12	The Stanley Switlik Elementary leadership team is a peer elected body of colleagues representative of grade levels and departments (ESE & special areas). At-large members are selected by the principal. The role of the building level planning team (BLPT) is to serve as instructional leaders, engage stakeholders, and collaborate in the school's decision-making processes. Heather Hendrix is the kindergarten chair.
Jimenez, Zulma	Teacher, K-12	The Stanley Switlik Elementary leadership team is a peer elected body of colleagues representative of grade levels and departments (ESE & special areas). At-large members are selected by the principal. The role of the building level planning team (BLPT) is to serve as instructional leaders, engage stakeholders, and collaborate in the school's decision-making processes. Zulma Jimenez is the first grade chair.
Strama, Nicole	Teacher, K-12	The Stanley Switlik Elementary leadership team is a peer elected body of colleagues representative of grade levels and departments (ESE & special areas). At-large members are selected by the principal. The role of the building level planning team (BLPT) is to serve as instructional leaders, engage stakeholders, and collaborate in the school's decision-making processes. Nicole Strama is the second grade chair.
Gonzalez, Stacie	Teacher, K-12	The Stanley Switlik Elementary leadership team is a peer elected body of colleagues representative of grade levels and departments (ESE & special areas). At-large members are selected by the principal. The role of the building level planning team (BLPT) is to serve as instructional leaders, engage stakeholders, and collaborate in the school's decision-making processes. Stacie Gonzalez is the fourth grade chair.
Meier, Christy	Instructional Coach	The Stanley Switlik Elementary leadership team is a peer elected body of colleagues representative of grade levels and departments (ESE & special areas). At-large members are selected by the principal. The role of the building level planning team (BLPT) is to serve as instructional leaders, engage stakeholders, and collaborate in the school's decision-making processes. Christy Meier is an at-large member.
Sly, Tanya	Instructional Coach	The Stanley Switlik Elementary leadership team is a peer elected body of colleagues representative of grade levels and departments (ESE & special areas). At-large members are selected by the principal. The role of the building level planning team (BLPT) is to serve as instructional leaders, engage stakeholders, and collaborate in the school's decision-making processes. Tanya Sly is an at-large member.

Name	Title	Job Duties and Responsibilities
Willis, Chris	School Counselor	To advise the BLPT about social/emotional curriculum, student needs, and positive behavior interventions and supports.
Adams, Sarah	Assistant Principal	To perform those tasks assigned by the building principal and assist in the development and continuous implementation of an elementary school program which meets the needs and promotes the well-being of all students in the school.
Forgrave, Taylor	Teacher, K-12	The Stanley Switlik Elementary leadership team is a peer elected body of colleagues representative of grade levels and departments (ESE & special areas). At-large members are selected by the principal. The role of the building level planning team (BLPT) is to serve as instructional leaders, engage stakeholders, and collaborate in the school's decision-making processes. Taylor Forgrave is the third grade chair.
Wiley, Shannon	Teacher, K-12	The Stanley Switlik Elementary leadership team is a peer elected body of colleagues representative of grade levels and departments (ESE & special areas). At-large members are selected by the principal. The role of the building level planning team (BLPT) is to serve as instructional leaders, engage stakeholders, and collaborate in the school's decision-making processes. Shannon Wiley is the specials team chair.
LaFountain, Debra		The Stanley Switlik Elementary leadership team is a peer elected body of colleagues representative of grade levels and departments (ESE & special areas). At-large members are selected by the principal. The role of the building level planning team (BLPT) is to serve as instructional leaders, engage stakeholders, and collaborate in the school's decision-making processes. Debra Lafountain is the ESE program chair.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

ELA Lowest Quartile and ELA Learning Gains showed the lowest performance. In the cohort comparison, 4th grade students showed a 20 percentage point decline from their 3rd grade ELA scores and 5th grade students showed a 13 point percentage decline from their 4th grade performance. Trends over the the past few years show a double digit fluctuation in these components. Contributing factors include teacher turnover specifically in 4th grade, interventions delivery, and student engagement.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

ELA Lowest Quartile learning gains decreased by 17 percentage points. This component broken out by subgroups shows ESE with only 21 percent making gains and WHT with only 27 percent making gains. Contributing factors include teacher turnover in 4th grade, interventions delivery, and student engagement.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

ELA Lowest Quartile learning gains showed the greatest gap between the school and state average. Contributing factors include teacher turnover specifically in 4th grade, interventions delivery, and student engagement.

Which data component showed the most improvement? What new actions did your school take in this area?

Math Lowest Quartile learning gains showed the most improvement from 2018. Trends over the past few years show stable, incremental improvements in all three math components. In all three components Switlik has outscored the district and state. 5th grade same grade comparison shows a 14 percentage point gain and only a negative 2 percentage point decline in the cohort. Contributing factors are the inclusion of more standards based instruction, the implementation of learning goals/scales, and small group instruction.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Areas of concern are the number of students scoring level 1 on ELA/Math in grade 5. Another area of concern is the number of students with attendance below 90% in grades K-4.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Improve ELA overall learning gains and lowest quartile.
2. Increase student engagement through SEL curriculum.
3. Improve Tier 1 instruction and Tier 2/3 interventions for students in the ELA lowest quartile.
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Area of Focus Description and Rationale: According to our ELA learning gains and lowest quartile components, a majority of our students in grades 4 and 5 are not making gains. Improving instructional practices, implementing effective interventions, and fully engaging our students in the learning process will positively impact student learning in these critical grades.

Measurable Outcome: Our goal for ELA Lowest Quartile is to improve from 29% to 50% of students making gains in this category.

Person responsible for monitoring outcome: Christine Paul (christine.paul@keysschools.com)

Evidence-based Strategy: Teachers will implement targeted AVID, evidence-based strategies to enhance standards based instruction throughout the content areas and within our EL and ESE program.

Rationale for Evidence-based Strategy: The AVID program emphasizes student engagement through self advocacy and high impact instructional strategies.

Action Steps to Implement

1. Students will participate in the APM progress monitoring.
2. Teachers will participate in targeted AVID school-based professional development.
3. AVID individual goal setting and data chats.
4. Disaggregate data and align supports and interventions.
5. MTSS framework providing Tier 1, 2, & 3 supports throughout the curriculum.

Person Responsible: Christine Paul (christine.paul@keysschools.com)

#2. Culture & Environment specifically relating to Social Emotional Learning

Area of Focus Description and Rationale: Student attendance and engagement is critical for learning. Research has shown that all students are experiencing more stressors and anxiety as a direct result of the social and academic isolation caused by COVID-19. Happy, healthy, well-adjusted students achieve better outcomes.

Measurable Outcome: All students will be assessed in October and February through the use of a standardized, universal screener adopted by the district. Students will be grouped based upon the results of the screeners into Tiers 1, 2, and 3 according to the MTSS behavioral framework. Students in Tier 2 and Tier 3 will receive research-based SEL interventions with the intention that they will achieve growth on the February screener.

Person responsible for monitoring outcome: Sarah Adams (sarah.adams@keysstudents.net)

Evidence-based Strategy: Second Step curriculum as a Tier 1 strategy. Check In Check Out (CICO), Zones of Regulation, Individual and group counseling, and Strong Start will be some of the Tier 2 and Tier 3 strategies used.

Rationale for Evidence-based Strategy: During this challenging time, Stanley Switlik recognizes that students must have their physiological, safety, and well-being needs met before students can focus on learning. SEL curriculum and practices are a proven strategy for improving the learning environment for all students.

Action Steps to Implement

1. SEL universal screener (October & February).
2. Review SEL data and provide targeted supports.
3. Monitor effectiveness of supports for Tier 2/3 students and modify if needed.

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Additional areas of concern include the number of students scoring level 1 on ELA/Math assessments in grade 5 and student attendance in grades K-4. The school leadership team will monitor supports for these students to evaluate interventions and make modifications as needed. The attendance committee will monitor attendance weekly and intervene as necessary. Due to the required attestation form, we expect to see a decrease in overall school attendance however we are developing a menu of resources for students and parents to use at home in order to maintain skills and concepts.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

At Stanley Switlik Elementary School we utilize several methods to engage all stakeholders:

1. Virtual Town Halls
2. School Advisory Council/Parent Teacher Organization Meetings
3. Building Level Planning Team
4. Back to School Task Force (District/School)
5. School Newsletter, DOJO, Website, Facebook, & EdConnect
6. Title I Parent Engagement Nights
7. Meet the Teacher & Parent/Teacher Conferences
8. Parent Feedback Surveys

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: ELA	\$0.00
2	III.A.	Areas of Focus: Culture & Environment: Social Emotional Learning	\$0.00
3	III.A.	Areas of Focus: -- Select below --:	\$0.00
Total:			\$0.00
