School Board Approval

This plan was approved by the Alachua County School Board on 10/6/2020.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan was approved by the Alachua County School Board on 10/6/2020.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Lake Forest's mission is to promote academic excellence and maintain high expectations for all students in an environment that is centered around students, directed by teachers, and supported by home and community.

Provide the school's vision statement.

Lake Forest Elementary School is a place where students will learn how to utilize the knowledge and tools necessary to confidently meet challenges. Our students will be empowered to reach their potential, as well as become respectful and responsible leaders of the 21st century

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

| Name | Title | Job Duties and Responsibilities |
|------------------------|------------------------|---|
| Le Clear, Elizabeth | Principal | Principal: Provide opportunities for teacher collaboration; Facilitate implementation of RTI; communicate and reinforce expectation for data based decision making; conduct walk-throughs to monitor fidelity and integrity of core curriculum and intervention implementation; monitor teacher effectiveness; communicates with all shareholders information regarding school data and student achievement progress, implements and monitors behavior intervention. Provides opportunities for teacher professional development in effective teaching strategies and best practices. |
| Francois, Marjory | Assistant Principal | Assistant Principal: Provides instructional support and coordinate professional development/coaching support for instructors; Coordinate school wide assessments, conduct walkthroughs to monitor implementation of SIP strategies, implements and monitors behavior intervention, monitor student achievement through analyzing school-wide data, assist with the development of intervention and differentiated instruction |
| Pierre, Angie | School Counselor | Certified School Counselor: Schedule and attend IEP, EPT and RTI meetings; Maintain log of all students involved in EPT and RTI process; send parent invites; complete necessary EPT and RTI forms; Provide guidance on data collection, charting and graphing results and the use of technology in the collection of data for RTI; conducts small group and individual counseling sessions; conducts classroom lessons implementing "Speak Up and Be Safe" and "Student Success Skills" |
| Filippi, Betsy | Instructional Coach | Instructional Coach: Provides instructional support and professional development for instructors. Assist instructors with differentiated instruction to meet the needs of all students. Work with instructors through the coaching cycle. Supports instructors with instructional planning. Supports implementation of tiered intervention plans. |
| Foland, Nicole | Instructional Coach | Facilitates and supports data collection and analysis; supports the implementation of Tier 1, Tier 2 and Tier 3 intervention plans; provides instructional support and professional development for instructors. Work with instructors through the coaching cycle. Supports instructors with instructional planning |
| Jenkins, LaShandra | Dean | Collect and monitor school-wide discipline data. Support instructors in classroom management and behavioral interventions. Provide training and coaching related to discipline. Facilitate school-wide behavior management system. Provide support to students with behavioral concerns. |

Demographic Information

Principal start date

Tuesday 6/23/2020, Elizabeth Leclear

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Science Achievement showed the lowest performance. Departmentalization and large class size resulted in one teacher responsible for instruction of all fifth grade science students. (Teacher shortage hindered hiring of a third 5th grade teacher.) 23% of intermediate students demonstrated

attendance concerns (10 or more absences); teacher understanding of standards, test item specifications and alignment of tasks and student work to standards. These concerns speak to the 18-19 data. The 19-20 year saw experienced teachers at 5th grade, self contained classrooms, and utilization of a consultant for Teacher PD and coaching in science. Midyear AIMS data (62% achieved proficient score) suggested upward movement. The 19-20 fourth grade team included two first year teachers.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

ELA Learning Gains demonstrated the greatest decline from the prior year. Factors that contributed to this decline were: 5th grade ELA teaching position was vacant the entire school year (4 substitutes throughout the school year for 5th grade ELA); 23% of intermediate students demonstrated attendance concerns (10 or more absences); Teacher experience - 44% of 3rd - 5th grade teachers less than 2 years teaching experience; teacher absences led to loss of instructional time; teacher understanding of standards, test item specifications and alignment of tasks and student work to standards.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Math Achievement had the greatest gap when compared to the state average. Factors that contributed to this decline were: 23% of intermediate students demonstrated attendance concerns (10 or more absences); Departmentalization and large class size resulted in one teacher responsible for instruction of all fifth grade math students; Teacher experience - 44% of 3rd - 5th grade teachers less than 2 years teaching experience; teacher absences led to loss of instructional time; teacher understanding of standards, test item specifications and alignment of tasks and student work to standards.

Which data component showed the most improvement? What new actions did your school take in this area?

ELA Lowest quartile demonstrated the most improvement 56%. Actions taken in this area were students in the ELA lowest quartile were identified early in the school year and were targeted for support and progress monitoring and received supplemental small group instruction.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

An area of concern based on Early Warning System is student attendance. School wide 28% of students demonstrated attendance below 90%, with intermediate grades at 27%.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Increase learning gains in ELA and Math
- 2. Increase student achievement in ELA, Math and Science
- 3. Improve student attendance
- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Increase proficiency in ELA. Increase learning gains of the lowest quartile in ELA.

Area of Focus Description and Rationale:

Rationale

Based on 2019 FSA data in ELA, proficiency was below 40%. All subgroups demonstrated proficiency less than 40%. Lowest quartile learning gains in ELA was

below 60%, at 56%. The following subgroup

demonstrated less than 40% in lowest quartile learning gains in ELA: students with disabilities.

Measurable Outcome:

Proficiency in ELA will increase by at least 10% on the FSA.

Lowest quartile learning gains in ELA will demonstrate an increase of 4%.

Person responsible for monitoring outcome:

Nicole Foland (folandnl@gm.sbac.edu)

Progress monitoring of lowest quartile students in ELA Implementation of iReady, IRLA (Independent Reading Level

Assessment), SIPPS (Systematic Instruction in Phonemic Awareness, Phonics, and

Sight Words),

Differentiation of instruction based on student data Facilitated collaborative instructional planning

120 minute ELA block

Extended Day Reading Instruction

Evidence-based Strategy:

Standards-based Instruction

Educational field trips to build background knowledge

Extended day learning opportunities

Professional development opportunities for instructional staff and administration

Hire additional intermediate teacher unit for class size reduction

Instructional Paraprofessionals

Assigned para professionals to support both teachers and students with break out

rooms for small class instruction for digital classrooms

Utilized district technology coach with CANVAS and on line curricula

CANVAS management system and online curricula have digital progress monitoring

tools.

Lake Forest reading data falls within the lowest 300 schools in Florida; Differentiated instruction is needed based on individual student data; School

Rationale for Evidence-based Strategy:

data suggests student lack of foundational skills needed to build comprehension; data indicates that students are not meeting grade level

expectations: need for experiences that build student background

knowledge;

Action Steps to Implement

Collaborative instructional planning focused on analysis of tasks and student work aligned to FL Standards

Educational experiences to build student background knowledge

Differentiated instruction (small groups, work stations)

Extended learning opportunities

Hire additional intermediate teacher unit for class size reduction

Instructional Paraprofessionals

Two extra weeks of CANVAS training and follow up with district technology coaches and professional development coaches.

Person

Responsible

Betsy Filippi (filippea@gm.sbac.edu)

#2. Instructional Practice specifically relating to Math

Increase proficiency in Math and the increase the learning gains of the lowest quartile in

Math.

Area of Focus

Rationale

Description and Rationale:

Based on 2019 FSA data in Math, proficiency was below 40%. All subgroups

demonstrated proficiency less than 40%.

Math lowest quartile learning gains in Math was below 60%. Math lowest quartile learning gains were 37%. The following subgroups demonstrated less than 40% in lowest quartile learning gains in math: black and economically disadvantaged students

Measurable Outcome:

Proficiency in Math will increase by at least 10% on the FSA.

Math lowest quartile learning gains will demonstrate an increase of 23% as

measured by FSA.

Person responsible for monitoring outcome:

Nicole Foland (folandnl@gm.sbac.edu)

Progress monitoring of student progress (with special attention to the lowest quartile

students and subgroups) in Math

Implementation of Acaletics, iReady, Reflex Math, Differentiation of instruction based on student data Facilitated collaborative instructional planning Extended Math block to include Acaletics

Evidence-

Standards-based Instruction

based

Educational field trips to build background knowledge

Strategy: Extended day learning opportunities

Professional development opportunities for instructional staff and administration

Assigned para professionals to support both teachers and students with break out rooms

for small class instruction for digital classrooms

Utilized district technology coach with CANVAS and on line curricula

CANVAS management system and online curricula have digital progress monitoring

tools.

Rationale for Evidencebased

Strategy:

Differentiated instruction is needed based on individual student data; School

data suggests student lack of foundational skills needed to build

mathematical problem solving; data indicates that students are not meeting grade level expectations: need for experiences that build student background knowledge and

mathematics vocabulary; develop teacher problem analysis of math problem solving

Action Steps to Implement

Collaborative instructional planning focused on analysis of tasks and student work aligned to FL Standards

Educational experiences to build student background knowledge

Differentiated instruction (small groups, work stations)

Extended learning opportunities

Instructional paraprofessionals

Additional intermediate teacher unit for class size reduction

Two extra weeks of CANVAS training and follow up with district technology coaches and professional development coaches.

Person Responsible

Marjory Francois (francoismm@gm.sbac.edu)

#3. Culture & Environment specifically relating to Equity & Diversity

Based on the schools demographic information and academic performance, a need exists to increase the achievement of our culturally diverse student population.

Rationale

100% Economically Disadvantaged Rate (FRL)

28% Attendance Rate below 90%

Area of Focus
Description
and Rationale:

2018-2019 FSA Data 23% Proficiency in ELA 26% Proficiency in Math

18% Proficiency in Science ESSA federal indices:

Students with Disabilities 29%

Students who are Black/African American 32%

Students who are White 27%

Students who are Economically Disadvantaged 32%

Measurable Outcome:

Increase the academic performance of the four ESSA Subgroups (Students with Disabilities, Students who are Black/African American, Students who are White, Students who are Economically Disadvantaged) to 41% on their federal index.

Person responsible for monitoring outcome:

[no one identified]

Progress monitoring of lowest quartile students in ELA, using biweekly and monthly curriculum based assessments (Ready Florida, Reading Street, istation, iready, Acaletics, Achieve 3000, Reflex Math), as well as quarterly district assessments Targeted data chats with goal setting between leadership team members and students

in lowest quartile and subgroups

Implementation of evidence based supplemental and intervention curricula

Differentiation of instruction based on student data Facilitated collaborative instructional planning

Evidence-

120 minute ELA block

based Strategy: Extended Day Reading Instruction and learning opportunities

Standards-based Instruction

Educational field trips to build background knowledge

Extended day learning opportunities

Professional development opportunities for instructional staff and administration

Consultant to provide Professional and Technical Services/Professional Development in

the area of Culturally Responsive Teaching

Additional intermediate teacher unit for class size reduction

Instructional Paraprofessionals
Parent/Family Engagement Activities

Utilize Home-School Liaison

Rationale for Evidence-

Lake Forest School data suggests a need for increased student engagement. Performance of subgroups is below expectations (below 41% on Federal Index).

based 100% Economically Disadvantaged Rate (FRL).

Strategy: 28% Attendance Rate below 90%

Action Steps to Implement

Facilitated collaborative instructional planning

Targeted data chats with goal setting between leadership team members and students

120 minute ELA block

PLC's

Person Responsible Betsy Filippi (filippea@gm.sbac.edu)

Instructional paraprofessionals

Additional teacher for class size reduction

Person Responsible [no one identified]

#5. Leadership specifically relating to Leadership Development

Area of Focus Description and Rationale: The school required a turn around principal because of the DD status. This designation was given to Dr. LeClear when she turned Rawlings Elementary from an F to a C. Dr. LeClear's appointment was approved by the state. Lake Forest has experienced three leadership changes in the past two years. Dr. LeClear brings renewed stability to the school.

SCHOOL.

Lake Forest's lowest quartile in 5th grade ELA will increase by 4%. Lowest quartile in 5th grade math will increase by 23%. There will be an increase of 41% in 4 ESSE subgroups.

Measurable Outcome:

These subgroups include students with disabilities, student who are black/African American, students who are white, students who are economically disadvantaged. Increase in science proficiency of 10% on the FSA.

Person responsible

for Elizabeth Le Clear (lecleaea@gm.sbac.edu)

monitoring outcome:

Students will be using a daily curriculum of Iready, Acaletics, Achieve 3000 and Reflex Math. Collaborative planning for teachers. An extended 120 minute ELA block. Additional teacher to reduce class size. Utilize a home school Ligison. Consultant to provide

Evidencebased Strategy: teacher to reduce class size. Utilize a home-school Liaison. Consultant to provide professional and technical services.

Introduce AVID strategies to teachers and administrative staff to promote instructional leadership.

Teachers within the district administration pool will shadow experienced administrators from other schools

from other schools.

Lake Forest data suggests a need for an increase in student engagement and

Rationale for Evidence-based

differentiation. Lake forest students data also suggests a lack of foundational skills and background knowledge needed to build ELA, math and science comprehension. The daily curriculum materials offer a weekly, monthly progress monitoring feature as well as current

data for teachers to focus on areas of weakness.

Strategy: AVID strategies (Advancement via Individual determination) promote student independent

thinking and instructional leadership.

Action Steps to Implement

Collaborative instructional planning focused on analysis of task and student work aligned to the FL standards at a minimum of twice a week.

AVID conference

Dr. LeClear will support teachers to understand and better utilize data for guiding instruction and student progress.

Dr. LeClear will meet with each teacher seperately to map out plans for professional growth.

The teachers interested in leadership will be provided by Dr. LeClear to become instructional leaders with committees, shodowing, one on one data chats.

Person Responsible

Elizabeth Le Clear (lecleaea@gm.sbac.edu)

Differentiated instruction using work stations and small groups. The work stations will include iready, , achieve 3000, Acaletics, math reflex.

Person Responsible

Elizabeth Le Clear (lecleaea@gm.sbac.edu)

Extended learning opportunities which will focus on ELA, math and science. The teacher schedule will include 120 minute ELA block, an extended math and science block.

Person Responsible

Elizabeth Le Clear (lecleaea@gm.sbac.edu)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

An area of concern based on Early Warning System is student attendance. School wide 28% of students demonstrated attendance below 90%, with intermediate grades at 27%. In the second semester of 2019-2020 school year a Home-School Liasion was hired who is tasked, in part, with communicating with families of students with excessive absences. This postioin will continue into the 2020-2021 school year.

The following steps will also be taken to address lowering this percentage of students demonstrating attendance lower than 90%.

- 1.Daily social-emotional curriculum Caring School Community
- 2. Progress monitoring of student attendance/tardies
- 3. Implementation of incentives for student attendance
- 4. Professional development
- 5. Culturally responsive instruction

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Through interactions, such as Open House, Parent Conferences, parent involvement activities, we are provided opportunities to learn about students' cultures thus building relationships between teachers and students. The school has business and faith based partnerships that are supportive of the needs of students, staff and families. The school builds and sustains partnerships with the local community for the purpose of securing and utilizing resources to support the school and student achievement through community members and parents involvement in the School Advisory Council (SAC). Several businesses support our PBS implementation through donations and goods and services. Local churches and organizations provide supplies for teachers and students, support our weekend backpack program (food for the weekend) and mentor and volunteer at the school.

Lake Forest has a full time guidance counselor, Social Worker and a Mental Health Coordinator that provide both whole group, small group and individual counseling and assist families who are in need. A Home-

School Liaison assists faculty and staff in contacting families and supports families. We have partnered with several groups from the University of Florida and community to provide mentors to students needing additional emotional and social support. Our district has selected our school to participate in "System of Care" program that connects families in need with community resources. In addition, Caring School Community, a social-emotional curriculum is implemented daily at all grade levels by instructors.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
