Turnaround Option/Cycle	N/A
Year	
Support Tier	

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here.

School Board Approval

This plan is pending approval by the Polk County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

We believe each child is unique and has potential. We believe it is our responsibility to instill in each child the ability to think critically, work cooperatively, pursue knowledge, respect others and make responsible healthy choices.

Provide the school's vision statement.

Chain of Lakes Elementary is a family partnership committed to excellence. We expect everyone to cooperatively acquire the skills and knowledge necessary to become successful lifelong learners and productive citizens with respect for themselves, others and the world around them.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Duncan, Victor	Principal	
Nelson, Suzie	Assistant Principal	
Ford, Beth	Assistant Principal	
Nottage, Lavieria	School Counselor	
Drehmer, Melissa	Other	
Frost, Laura	School Counselor	
Albritton, Shawn	Instructional Media	
Brock, Jackie	Administrative Support	
Victor, Bruce	Dean	
Wilson, Kristi	Instructional Coach	
Scharff, Joanne	Instructional Coach	
Thomas, Brittany	Teacher, ESE	LEA

Demographic Information

Principal start date

Thursday 7/1/2010, Suzie Nelson

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

6

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

11

Total number of teacher positions allocated to the school 63

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The data component showing the lowest performance is Fourth Grade, specifically the learning gains and bottom quartile cells, in both ELA and Mathematics. The contributing factor to last year's low performance was the absence of using data to engage in ongoing preplanning to reteach or accelerate students in specific content areas through small groups or mini-lessons. This contributed to the widening of student gaps, the inability for students to retain new content information, and students' lack of exposure to content in higher taxonomies. State assessment data has shown a higher percentage for fourth-grade learning gains and bottom quartile in ELA and Mathematics over the past two years.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The data component showing the greatest decline from the prior year is mathematics in grades four and five. The contributing factor to last year's low performance was the absence of using data to engage in ongoing preplanning to reteach or accelerate students in specific content areas through small groups or mini-lessons. This contributed to the widening of student gaps, the inability for students to retain new content information, and students' lack of exposure to content in higher taxonomies.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The data component having the greatest gap when compared to the state average was in the area of science. This year's low performance was primarily due to our students' lack of exposure to analyzing scientific data/information on a deeper level. The standards were taught this year but at a lower taxonomy. The content was not taught to be used for application or analyzing purposes. Our goal this year is to use rigorous materials that require students to analyze scientific data and apply that knowledge. As far as trends, our data do not support a trend. Our science scores continue to fluctuate each year (ie. High, low, high, low).

Which data component showed the most improvement? What new actions did your school take in this area?

The data component showing the most improvement is third-grade mathematics. The continued and new actions our school took in this area were consistent and thorough planning of state standards and quality delivery of instruction. Third grade incorporates opportunities within their lessons for students to experience productive struggle allowing students to develop meaningful strategies. This grade level focused on data-driven results and implementing plans where gaps were noted.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

After reflecting on our EWS data from Part I (D), one potential area of concern is attendance in grades one and three.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Fourth Grade ELA & Mathematics
- 2. Fifth Grade ELA & Mathematics
- 3. Reading Foundations Grades K & 1
- 4. Science Instruction Grades K through 4

5.

Part III: Planning for Improvement

Areas of Focus:

	mai Practice specifically relating to Small Group Instruction
Area of Focus Description and Rationale:	The area of focus is on planning and implementing small group instruction. The absence of preplanning for student misconceptions and misunderstanding of content leads to additional gaps and the students' inability to make connections to extend their learning. Planning for varied student responses to delivered instruction allows students to receive immediate feedback and alternate strategies to mastery standards.
Measurable Outcome:	Using ongoing data to plan and implement quality small groups our school should be able to increase or maintain ELA learning gains from 69% to 72% and increase the learning gains of our Lowest 25% from 65% to 68%. Additionally, in the area of mathematics, our school should be able to increase or maintain learnings from 74% to 77% and increase Lowest 25% from 61% to 64%.
Person responsible for monitoring outcome:	Suzie Nelson (suzie.nelson@polk-fl.net)
Evidence- based Strategy:	-Ongoing planning for small group instruction -Implementing quality small group instruction
Rationale for Evidence- based Strategy:	The strategies selected above have shown to be effective and have a high impact effect size on student progress. The criteria for selecting the above strategies are based on current resources and experience of success we have had in other academic areas.

#1. Instructional Practice specifically relating to Small Group Instruction

Action Steps to Implement

-Academic Coaches and Administrative Team will revisit core instruction plans to ensure instructional delivery aligns with state standards

Person

Suzie Nelson (suzie.nelson@polk-fl.net) Responsible

-Academic Coaches and Administrative Team will train and model for teachers the instructional strategy of scaffolding and mini-lessons

Person

Joanne Scharff (joanne.scharff@polk-fl.com) Responsible

-Academic Coaches and Administrative Team will train and model teachers on using data to plan and implement quality small group instruction and check and track implementation of plans

Person Kristi Wilson (kristi.wilson@polk-fl.net) Responsible

Academic Coaches and Administrative Team (Title I School Counselor) will conduct ongoing data reviews to determine student deficiencies and plan of action to provide support to teacher and students; also analyzing the RW printed assessment results, providing additional ink and supplies to support instruction

Person

Laura Frost (laura.frost@polk-fl.net) Responsible

-Title I Para-Educator and Media Para will provide targeted small group reading and math small group instruction

Person Suzie Nelson (suzie.nelson@polk-fl.net) Responsible

-Communicate student academic progress in parent's communication notebook, agenda, etc.

Person Jackie Brock (jackie.brock@polk-fl.net) Responsible

-Supplies will be provided to families to engage in activities involving the state standards during family academic nights and through the school website

Person

Jackie Brock (jackie.brock@polk-fl.net) Responsible

#2. Instructional Practice specifically relating to Science

Area of Focus The area of focus is on science. Students' lack of exposure to analyzing scientific data/ Description information on a deeper level. The standards were taught this year but at a lower and Rationale: taxonomy. The content was not taught to be used for application or analyzing purposes. Measurable Our specific measurable outcome the school plans to achieve is to increase our NGSSS assessment score from 50% to 53%. Outcome: Person responsible Beth Ford (beth.ford@polk-fl.net) for monitoring outcome: Evidence-Our goal this year is to use rigorous materials that require students to analyze scientific based data and apply that knowledge. Strategy: Rationale for Providing students with the opportunity to engage with similar science text such as the Evidence-NGSSS assessment will provide them with exposure, and the development of the based necessary skills to process the information, and apply knowledge. Strategy:

Action Steps to Implement

-Academic Coaches and Administrative Team will collaborate with teachers to modify plans to align with science standards while engaging students in relevant labs requiring analysis of data and application of information.

Person

Kristi Wilson (kristi.wilson@polk-fl.net) Responsible

-Use science progress monitoring data to determine learning gaps and interventions and ability group students based on content mastery.

Person Joanne Scharff (joanne.scharff@polk-fl.net) Responsible

-Administrative team will provide opportunities for vertical teams to discuss the progression of science standards kindergarten through 5th grade

Person Suzie Nelson (suzie.nelson@polk-fl.net) Responsible

-Communicate student academic progress in parent communication notebook, agenda, etc.

Person Jackie Brock (jackie.brock@polk-fl.net) Responsible

-Supplies will be provided to families to engage in activities involving the state standards during family academic nights and through our school website

Person Jackie Brock (jackie.brock@polk-fl.net) Responsible

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Increasing the effectiveness of our K and 1 phonetic instruction is a priority for our campus. Through the process of effective scheduling, teacher training, and aligned resources, students in grades K and 1 will leave their grade level with a strong reading foundation. The leadership team will provide support through curriculum planning, observation and feedback, modeling, and analyzing data for gains and growth areas.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Chain of Lakes Elementary addresses building positive school culture and environment involving all stakeholders by building relationships with school families and community members in an ongoing, welcoming environment. This is a constant, flexible process with multiple avenues including, monthly grade chair meetings, weekly grade-level meetings, family involvement activities, and a comprehensive SAC committee that includes a sampling of all stakeholders. We actively seek input on Chain of Lakes Elementary's mission, protocols, and input on school plans for decision-making through our stakeholder meetings, surveys, and by family involvement surveys after each family activity. We participate actively in community and college events and support our community colleges by hosting interns, promoting summer activities on campuses, and hosting a summer showcase.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Small Group Instruction	\$0.00
2	III.A.	Areas of Focus: Instructional Practice: Science	\$0.00
		Total:	\$0.00
