## School Board Approval

This plan is pending approval by the Polk County School Board.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at [www.floridacims.org](http://www.floridacims.org).

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## School Board Approval

This plan is pending approval by the Polk County School Board.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part I: School Information

### School Mission and Vision

#### **Provide the school's mission statement.**

Bartow Elementary Academy is a family partnership inspiring today's learners to become tomorrow's leaders.

#### **Provide the school's vision statement.**

Bartow Elementary Academy is a family partnership dedicated to inspiring and preparing learners to become productive global citizens. Our desire is for everyone to use life skills, technology, and innovative experiences to build tomorrow's leaders.

### School Leadership Team

#### **Membership**

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Nelson, Tracy	Principal	<p>The Leadership Team serves as the school’s climate committee, ensuring that a positive learning climate fosters learning gains and student achievement in a diverse setting. The committee works together to share the school vision and mission. The committee also analyzes the Successful Schools Survey completed by parents and students. The committee makes recommendations to the School Advisory Council as necessary, informing both of concerns, issues, and possible strategies to address the various areas. The committee serves as a liaison to gather input from other staff members. The Leadership Team participates in writing, monitoring, and evaluating the School Improvement Plan. This includes assisting with the areas of focus, rationale, intended outcomes, action steps, and evaluation for all curriculum areas. It also analyzes data, conducts needs assessments, and provides input for areas of need for staff development. Furthermore, we work to provide appropriate professional learning activities based on the instructional needs of each grade level team. Dr. Tracy Nelson is the Instructional Leader of the school. She holds a dual doctorate in Organizational Leadership with a focus in Educational Leadership from Nova Southeastern University.</p> <p>Dr. Nelson believes in the importance of building positive relationships with staff, students, parents and community members. She has facilitated several training opportunities including MTSS, The Reading Block, Differentiated Instruction, Working with Difficult Children, Data Analysis and Positive Behavior Intervention Supports, LSI, Data Chats and Parent/Teacher Conferences. Dr. Nelson believes in shared decision making and using parent and staff surveys to help develop a plan of action for the coming school year.</p>
		<p>Mrs. Wallace is our guidance counselor and brings a great deal of knowledge to BEA. She is compassionate, understanding and truly listens when one speaks. Mrs. Wallace easily builds positive working relationships with all school stakeholders. She conducts several groups such as grief counseling, peer mediation, bullying, social skills and works individually with students in need. She is scheduled to meet monthly with administration and our instructional staff to ensure MTSS is well documented and make changes as necessary. She also locates resources for teachers to use during MTSS based on student need and explains and assists in the monitoring process. Additionally, she observes classrooms to ensure Harmony lessons are implemented with fidelity.</p>
		<p>Mrs. Jones is our assistant principal. She has a positive attitude and comes to us with a masters and Specialist degree in Educational Leadership. She has facilitated numerous training opportunities for staff including small group instruction, engaging difficult students, differentiated instruction, data analysis, Positive Behavior and CHAMPS to name a few. Mrs. Jones meets with staff to build their instructional knowledge base and share best practices to ensure overall academic improvement for each child we serve.</p>
		<p>Mrs. Wolfe has been a highly effective teacher at our school for several years and has served as an instructional coach for the past two year. She brings a wealth of best practices and content knowledge to the table. She thinks outside the box to assist teachers in pushing their children academically and helps set goals for students and our instructional staff. She has modeled in classrooms,</p>

Name	Title	Job Duties and Responsibilities
------	-------	---------------------------------

assisted in lesson planning, participated in collaborative planning sessions, and analyzes and tracks data for the school. In addition, she assist teachers with making decisions about instruction based on their individual data. This year Mrs. Wolfe will continue to mentor teachers, attends coaches meetings and teach reading endorsement classes. She will also be one of our fourth grade ELA teachers.

Mrs. Katsoulis has been in the Polk County School system for many years. Mrs. Katsoulis has had years of experience as a teacher within our district. For the last several years she has been a technology manager and taught our students the ins and outs of our morning production show. In addition, she works closely with our instructional and administrative staff to ensure our technology is updated and working properly for our progress monitoring and testing that occurs in our computer lab and individual classrooms. Mrs. Katsoulis is extremely professional, pays a great deal to detail and is proactive in getting her job completed.

Steven Benfield has been at BEA for the past several years as our inclusion teacher. He has worked to build positive working relationships with staff, students and parents. He continually provides a variety of strategies to address the needs of ever child. He is detailed oriented when documenting the implementation of accommodations provided to each child based on his/her individual education plan (IEP). We have seen a reduction in our gap between our special education and regular education students with his drive and determination. Our students love working with Mr. Benfield and making him proud. He is a great motivator for all students!

Lori Crowley has been a highly effective gifted teacher for us the past three years. She has a proven track record for engaging students in meaningful rigorous activities. She eagerly builds relationships with our students and gets them to think outside the box. Her expertise is on project based learning that creates self-directed teams that explore a variety of work: from science projects to kindness project that involve the entire school. The tasks she assigns encourages these students to be open minded, think about the "what ifs" and "what could be" and our students take it from there.

Wolfe, Shari	Instructional Coach	
Benfield, Steven	Teacher, ESE	
Crowley, Lori	Teacher, ESE	
Jones, Nikki	Assistant Principal

## Analysis

### Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

**Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.**

The data component that performed the lowest was 5th grade ELA. Based on the data, we documented 70% proficiency. This percent is a nine percent decrease over the previous school year. This year, fifth grade performed better than fourth grade for the first time in more than five years.

**Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.**

The data component that showed the greatest decline from the prior year is our fourth grade ELA scores. We fell four percentage points from 81% to 77%. This is the second year our fourth grade team documented a decline in proficiency numbers.

**Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.**

The data component with the largest gap when compared to the state average was in the area of ELA learning gains of our lowest 25%. The state documented 53% and our school documented 31%.

**Which data component showed the most improvement? What new actions did your school take in this area?**

The data component that showed the most improvement was our 5th grade Math proficiency levels. Our percentage went from 75% to 83%, which is eight percent increase. The eight percent increase is the highest we have seen in the last five years. The teacher introduced more manipulatives and use of interactive notebooks.

**Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?**

There are a couple of concerns we have regarding our Early Warning System data:

1. course failure
2. subgroup data

**Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.**

1. Improve core instruction in every classroom
2. Build capacity in grades three through five
3. Increase learning gains for Black, Economically Disadvantaged and Students with Disabilities
4. Positively address the needs of our lowest 25/30% of students
5. Continue to develop self-directed teams to enhance student mastery on content outcomes

## Part III: Planning for Improvement

### Areas of Focus:

**#1. Instructional Practice specifically relating to Differentiation**

**Area of Focus Description and Rationale:** Based on our learning gains percentages, if teachers improve the core instruction (Tier 1) including small groups with differentiated instruction, then students will be authentically engaged in challenging work that would develop their levels of cognitive complexity and mastery of skills. This would enhance our overall performance that supports the PCSB District Strategic Plan: Goal 1-District Grade and Goal 2-Graduation Rate.

**Measurable Outcome:** We expect to see higher complexity activities being worked on by self-directed teams in all classrooms. Providing students with opportunities to collaborate, discuss, set goals, choose materials and organize the process, would lead to greater independence and higher levels of achievement. The ultimate outcome would be to move overall proficiency in ELA from 77% to 82%; learning gains from 45% to 50%; and our lowest 25% from 31% to 40%. We would like to move our science proficiency from 78% to 82%. Finally, we would like to move our overall proficiency in math from 83% to 88%; learning gains from 61% to 65%; and our lowest 25% from 52% to 60%.

**Person responsible for monitoring outcome:** Tracy Nelson (tracy.nelson@polk-fl.net)

**Evidence-based Strategy:** In order to address this area of focus our School Based Leadership Team (SBLT) and instructional staff need to dig into learning targets and scales, understand the depth of standards ensuring the task is aligned to the standard, maintain pace with standards-based instruction and ensure success criteria are being mastered (Order 1 Change. We will utilize our SBLT to monitor information obtained from LSI training/Trend Tracker to enhance our overall core instruction and instructional outcomes.

**Rationale for Evidence-based Strategy:** We will use the following to monitor the effectiveness of implementation in the are of focus: Administrative team will monitor implementation of core instruction and differentiated instruction, structured blocks with schedules posted by content area in each classroom, utilization of CHAMPS and positive classroom management (PBIS).

**Action Steps to Implement**

1. Weekly collaborative planning session with administration
2. Common use of Marzano's Taxonomy
3. STAR, FRECKLE, iStation, Smarty Ants progress monitoring results
4. MTSS documentation and implementation
5. Quality assignments with rigor, grade recovery, interim and report cards

**Person Responsible** Nikki Jones (nikki.jones@polk-fl.net)

**#2. ESSA Subgroup specifically relating to Outcomes for Multiple Subgroups**

**Area of Focus**  
**Description and Rationale:** Based on our ESSA Report, African American and Economically Disadvantaged students are falling behind our school's overall Federal Index of 70%. Our Subgroup Federal Index for African Americans is 56% and 64% for our Economically Disadvantaged students.

**Measurable Outcome:** We expect to increase proficiency with our African American subgroup from 56% to 60%; we will increase proficiency within our Economically Disadvantaged subgroup from 51% to 55%. Additionally, we will increase learning gains and lowest 25 percent learning gains for both subgroups by four percent. Each academic teacher will provide small group differentiated instruction during their ELA blocks. MTSS interventions will be implemented to ensure consistent progress of each student in the above subgroups.

**Person responsible for monitoring outcome:** Tracy Nelson (tracy.nelson@polk-fl.net)

**Evidence-based Strategy:** We will use the following to monitor the effectiveness of implementation in this area of focus: administration will conduct monthly data chats with students and teachers, review MTSS documentation during monthly grade level meetings, monitor small group differentiated instruction during classroom observations, daily walk-roughs and weekly lesson plans.

**Rationale for Evidence-based Strategy:** The strategies chosen will provide weekly progress reports to analyze data and make instructional decisions appropriate for each child's learning pathway. Adjustments in instruction and interventions will be made in a timely manner thus assuring that all students are moving forward.

**Action Steps to Implement**

1. Data chats with students and teachers
2. MTSS monthly meetings to monitor students progress
3. Lesson plans and classroom walk-throughs/observations
4. STAR, FRECKLE, iStation
5. Weekly assessments in ELA, Math and Science

**Person Responsible** Nikki Jones (nikki.jones@polk-fl.net)

**#3. Leadership specifically relating to Specific Teacher Feedback**

**Area of Focus Description and Rationale:** Based on our proficiency levels, if teachers improve and/or maintain levels 3, 4, or 5 in grades 3-5 our overall school proficiency levels for those grade levels will continue to grow. This would enhance overall proficiency performance that supports the PCSB District Strategic Plan: Goal 1-District Grade.

**Measurable Outcome:** We expect to see higher complexity activities by self-directed teams in all classrooms. Providing students with opportunities to collaborate, discuss, set goals, choose materials and organize the process, would lead to greater independence and higher levels of achievement. The ultimate outcome would be to increase our number of students performing proficiently and reduce the number of students still performing below the state mandated proficiency level.

**Person responsible for monitoring outcome:** Tracy Nelson (tracy.nelson@polk-fl.net)

**Evidence-based Strategy:** In order to address this area of focus, the SBLT and instructional staff will focus on teaching to the depth of the standard and beyond. Weekly lesson plans will document standards. We will help teachers' development and implement meta-cognitive skills and differentiated instruction to ensure all students are moving forward, address gender differences by subject area, subgroup and grade level (gap analysis), providing additional time/support before, during and after school and assigning project-based activities/tasks to engage students in work of higher complexity levels while working in self-directed teams.

**Rationale for Evidence-based Strategy:** Based on proficiency levels, if teachers improve and/or maintain levels 3, 4, or 5 in grades 3-5, our overall school proficiency levels for those grade levels will continue to grow. This would enhance our overall performance that supports the PCSB District Strategic Plan: Goal 1-District Grade.

**Action Steps to Implement**

*No action steps were entered for this area of focus*

**Additional Schoolwide Improvement Priorities**

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

1. Teach to the depth of each standard
2. Authentic student engagement (compliance vs. true engagement)
3. Differentiated tasks/assessments
4. Higher complexity levels for all tasks with documentation
5. Monitor progress of all subgroups

**Part IV: Positive Culture & Environment**

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Kindergarten Big Step Day is held in May. During this time, parents and students rotate to a variety of activities to help familiarize them with the school and kindergarten expectations. Each student is observed completing various skill activities. Within the first 30 days of school, kindergartners are given the Florida Kindergarten Readiness Test (FLKRS). This tool is used to measure a student's readiness for school.

Fifth graders attend a transition meeting that is hosted by the guidance counselor from the feeder middle school (Union Academy). They receive information on middle school requirements, programs offered, and are afforded a question/answer session with middle school students. Elective schedules are sent home at the end of each session.

Boy and Girl Scouts will visit to discuss transitioning into middle school. In addition, Stephen Scheloske, Principal of Union Academy is our partner in preparing our students for what if facing them as middle school students.

**Parent Family and Engagement Plan (PFEP) Link**

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

**Part V: Budget**

**The approved budget does not reflect any amendments submitted for this project.**

1	III.A.	Areas of Focus: Instructional Practice: Differentiation	\$0.00
2	III.A.	Areas of Focus: ESSA Subgroup: Outcomes for Multiple Subgroups	\$0.00
3	III.A.	Areas of Focus: Leadership: Specific Teacher Feedback	\$0.00
<b>Total:</b>			<b>\$0.00</b>
