School Board Approval

This plan is pending approval by the Polk County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a “living document” by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the “Date Modified” listed in the footer.

School Board Approval

This plan is pending approval by the Polk County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at

<https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The Mission of Compass Charter Middle School is to promote critical thinking and creativity, strong academic skills and a commitment to creating lifelong learners. The school will empower students through high intellectual and conduct standards — building on their promise, as they prepare for high school, careers and citizenship.

Provide the school's vision statement.

Compass Middle Charter School seeks to enable middle school young men and women to:

- (a) Develop the necessary skills to think critically, analytically, and creatively;
- (b) Attain strong skills in mathematics, language, literature, history, science, and technology;
- (c) Promoted a respect and understanding of individual differences and cultures; and
- (d) Commit to a lifetime of learning and civic responsibility.

Compass Middle Charter School has taken an active part in addressing the needs of those students who lack motivation, and are disinterested in school as well as meeting the needs of those students who have failed at least one year of school. These students range in ages from eleven to sixteen years old and are presently in grades five through eight.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
FINE, ANITA	Principal	To lead the team through guidance and direction. To make final decisions.
Jones, LeDarion	Dean	Manages discipline, positive behavior interventionist
Wilson, Shelly	Instructional Coach	Monitors academics, reading interventionist

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Our 5th Grade group showed the lowest performance on the FSA ELA assessment. Our teacher in that subject left mid-year and Compass was unable to find a teacher to take the class. This effected the students tremendously.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

The 6th grade group showed the greatest decline from the prior year on the FSA Mathematics assessment. This has been a trend for the past two years. Learning gains from 5th to 6th grade in FSA Mathematics have greatly decrease both years.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The 8th grade FSA ELA Assessment scores show the greatest gap when compared to the state average. This has been the tend for the past two years. Our 8th grade group is usually our hardest group, as most are new to our school and have not worked with us from 5th-8th grade. The are coming to us their last year of middle school because their zoned schools have not been working for them. They are lower in level 3's and up but did well with learning gains.

Which data component showed the most improvement? What new actions did your school take in this area?

Our 7th grade group made the most improvement in learning gains, for both Math and ELA assessments. Last year Compass implemented more project based learning and student academic teaming which motivated this group of students.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

An area of concern with the early warning signs is that 59% of Compass's current students scored a level 1 on their previous FSA tests.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Improving Student Motivation
2. Decreasing Student Achievement Gaps
3. Increasing rigor in the classroom
4. Student Ownership

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Differentiation

Area of Focus Description and Rationale:	Compass Charter will decrease the achievement gaps of students by engaging students in instruction that meets students' individual needs through the use of state identified highly effective instructional delivery practices. Compass Charter is an at risk school, that focuses on students have struggled in a regular school atmosphere. Most of our students have some sort of achievement gap due to this struggle. This common achievement gap for our students will be even more of an issue for the 2020-2021 school year due to distance learning in spring of 2020.
Measurable Outcome:	Compass Charter will increase student learning gains in both ELA and Mathematics. At least 36% of Compass Middle Charter students will earn learning gains on the FSA ELA Assessment by May of 2021, compared to the 2019 FSA. At least 30% of Compass Middle Charter students will earn learning gains on the FSA Mathematics assessment by May of 2021, compared to the 2019 FSA.
Person responsible for monitoring outcome:	ANITA FINE (anita.fine@polk-fl.net)
Evidence-based Strategy:	Compass Charter will use the the Marzano evidence-based strategy of Student Ownership through Academic Teaming for this Area of Focus.
Rationale for Evidence-based Strategy:	<p>In many classrooms, the teacher's role is to talk and the student's role is to listen. Whose brain is doing most of the work in this scenario? Michael D. Toth and David A. Sousa present an alternative: a new pedagogical model called student-led academic teaming. In academic teams, students collaborate, peer coach, and peer teach while engaging in rigorous, standards-based tasks - a combination that leads to true social, emotional, and cognitive learning (SECL).</p> <p>The simple truth is student-led academic teaming elevates core instruction to a level of rigor far beyond that of traditional classrooms and familiar grouping strategies. This evidence-based strategy includes a groundbreaking 10,000 student research study on a large urban district where teaming raised achievement across the board, and narrowed achievement gaps for African-American students, English Language Learners, and students with special needs.</p>

Action Steps to Implement

1. Compass Charter's principal, reading interventionist, and 6 teachers will attend the Learning Sciences International Conference in June of 2020 in order to gain knowledge from experts on Students Ownership and Academic Teaming.
2. Compass Charter's staff attending the conference will conduct a professional development workshop on student ownership and academic teaming the first week of August to the rest of Compass' instructional staff.
3. Compass will utilize their Reading Interventionist to model academic teaming for teachers, coach teachers through student empowerment, and mentor them through out the year.
4. Compass Charter's instructional staff's focus for PLC's throughout the year will be on student ownership and academic teaming to discuss strengths, weaknesses, and implementation.

Person Responsible ANITA FINE (anita.fine@polk-fl.net)

#2. Culture & Environment specifically relating to Positive Behavior Intervention and Supports

Area of Focus Description and Rationale:	Compass will create a sense of priority for education for all students while also instilling a commitment to lifelong learning and civic responsibility. The majority of students at Compass Charter have been retained at least one academic year before enrolling in the school. Students have low self confidence in academic ability and many are not motivated to perform in school due to their low self confidence. Compass Charter also has high levels of poverty, with many home environments that do not see education as a priority.
Measurable Outcome:	Compass Charter will increase student learning gains in both ELA and Mathematics. At least 36% of Compass Middle Charter students will earn learning gains on the FSA ELA Assessment by May of 2021, compared to the 2019 FSA. At least 30% of Compass Middle Charter students will earn learning gains on the FSA Mathematics assessment by May of 2021, compared to the 2019 FSA.
Person responsible for monitoring outcome:	ANITA FINE (anita.fine@polk-fl.net)
Evidence-based Strategy:	Positive Behavioral Interventions and Support program. PBIS is a proactive approach that schools use to improve school safety and promote positive behavior. The focus of PBIS is prevention, not punishment.
Rationale for Evidence-based Strategy:	PBIS creates schools where all students succeed. Tier 1 practices and systems establish a foundation of regular, proactive support while preventing unwanted behaviors. Schools provide these universal supports to all students, school-wide. Tier 2 practices and systems support students who are at risk for developing more serious problem behaviors before those behaviors start. These supports help students develop the skills they need to benefit from core programs at the school. At Tier 3, students receive more intensive, individualized support to improve their behavioral and academic outcomes. At this level, schools rely on formal assessments to determine a student's need.

Action Steps to Implement

1. Compass Charter teachers will go through professional development workshops the first week in August, focused on increasing student motivation, led by veteran teachers.
2. Students will take surveys, three times, throughout the year to answer what would motivate them in school, what Compass is currently doing that helps, and what they would like to add to help motivation.
3. Compass will hold bi-monthly rewards to help motivate students.
4. Compass staff will focus on creating positive relationships with students throughout the year.
5. After every the first month of school and nine week period, Compass staff will meet to discuss student motivation and plan for improvements. The staff will also identify students that need to be placed in PBIS tiers.
6. Compass will take students on educational field trips five times through out the school year. Students will earn educational field trips through achieved learning gains.
7. Compass will provide small group opportunities for students to help with relationships and mindset through pull out sessions with our Reading Internationalist and After School Learning Programs.
8. Compass will employ a Behavioral Interventionist that will create rewards and a rewards program to increase student motivation.

Person Responsible ANITA FINE (anita.fine@polk-fl.net)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Students coming back to Compass Charter for the 2020-2021 school year will have a larger learning gap due to distance learning the last quarter of the 2019-2020 school year. Compass Charter is planning to utilize inclusion and support strategies throughout the classroom for all students to help focus on closing these large learning gaps. Compass Charter will hold a book study throughout the year using the LSI book, Inclusion & CCSS Supports for Students & Staff by Toby J. Karten. The book explores inclusion strategies, instructional supports, monitoring, reflection, and collaborative practices.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Creating a positive school culture is the first focus each year for Compass Charter. Specifically for Compass Charter an at-risk school, where many do not see education as a priority, if there is not a positive school culture students will not be motivated to perform or even attend school. Please see attached Parent and Family Engagement Plan for full details on how we plan to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.
