School Board Approval

N/A

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

"We are dedicated to actively engaging all individuals in quality learning experiences that will enable them to value themselves and become responsible, productive citizens in a changing world."

Provide the school's vision statement.

Our vision and belief is that every student needs to succeed in the 21st century with an education that is both academically rigorous and "real-world" relevant. We think of academic rigor as students being able to apply their skills and knowledge to real-world problems, to adapt solutions to an ever-changing society, and to solve problems we have yet to recognize. Teaching through application is a very effective way to engage students and ensure they can apply what they have learned.

We believe that the Discovery High School family works together and shares responsibility for guiding our students' education by:

• Providing a safe and orderly environment conducive to learning for students,

• Actively engaging students in the learning process through a variety of teaching strategies and modality styles,

• Encouraging students to value themselves and have an acceptance of cultural differences of ideas and feelings,

• Providing ongoing technological training for growth in a changing world.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Jemison, Darryl	Principal	
Fontaine, Beth	Assistant Principal	

Demographic Information

Principal start date

Friday 6/30/2017, Darryl Jemison

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

2

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

4

Total number of teacher positions allocated to the school 45

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Math Lowest 25% had the lowest performance. We had a large number of incoming 9th graders that were not on grade level when they arrived to us. We felt like we made progress with them throughout the year but not enough to raise our performance in this area.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Math Lowest 25% had the greatest decline. We had a large number of incoming 9th graders that were not on grade level when they arrived to us. We felt like we made progress with them throughout the year but not enough to raise our performance in this area

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Math Lowest 25% had the biggest gap. We had a large number of incoming 9th graders that were not on grade level when they arrived to us. We felt like we made progress with them throughout the year but not enough to raise our performance in this area

Which data component showed the most improvement? What new actions did your school take in this area?

ELA Lowest 25% showed the most improvement. Select staff attended Learning Sciences International PD.

Those staff members then created several PDs to share with other staff members throughout the year. The training focused on helping teachers learn more research-based instructional strategies to help students to be successful in mastering content area standards. This will particularly helped with the lowest quartile students who were struggling to make gains.

Teachers also attended PLCs monthly led by admin that focused on effective literacy strategies and quality questioning.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

English Language Learners and Students With Disabilities not meeting the 41% target.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Improving our learning gains in the Math Lowest 25%.
- 2. Continue Improving our learning gains in the ELA Lowest 25%

3. Coming up with more ways to assist our English Language Learners and Students With Disabilities.

- 4.
- 5.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

	that Fractice Specifically relating to ELA				
Area of Focus Description and Rationale:	Improving our learning gains in ELA for our lowest quartile. While our scores for this quartile actually improved, we are still working on ways to assist the students in this quartile so that all are able to meet the graduation requirements needed.				
Measurable Outcome:	ELA Lowest 25% will show gains of at least 3% from the previous year's data.				
Person responsible for monitoring outcome:	Darryl Jemison (darryl.jemison@discoveryfl.org)				
Evidence- based	Select staff will attend the virtual Learning Sciences International PD in June. Those staff members will then create PDs to share with other staff members throughout the year. The training will focus on helping teachers learn more research-based instructional strategies to help students to be successful in mastering content area standards. This will particularly helped with the lowest quartile students who were struggling to make gains.				
Strategy:	Teachers will also attend monthly Subject Area Meetings led by admin and coaches that focus on helping teachers examine their content area standards and understand the depth to which the standards need to be taught. Specific training will be provided in the areas of differentiation, HOT questioning, and data analysis.				
Rationale for Evidence- based Strategy:	Teachers have expressed a need for PD in differentiation, and administration has also identified HOT questioning, data analysis, and depth of standard being taught as areas in need of improvement during classroom observations.				
Action Steps	to Implement				
Select Teache	ers to attend LSI PD.				
Person Responsible	Darryl Jemison (darryl.jemison@discoveryfl.org)				
Meet with staf	f that attended PD to formulate PD plan for sharing LSI Info with the whole staff.				
Person Responsible	Darryl Jemison (darryl.jemison@discoveryfl.org)				
Deliver staff-w	vide PD about LSI strategies on student teaming and motivation.				
Person Responsible	Darryl Jemison (darryl.jemison@discoveryfl.org)				
Create agend analysis.	as/plan for Subject Area meetings that focus on differentiation, quality questioning, and data				
Person Responsible	Beth Fontaine (beth.fontaine@polk-fl.net)				

"	har Fractice specifically relating to Math				
Area of Focus Description and Rationale:	Improving our learning gains in Math for our lowest quartile. We were 18% below the state Average and 17% the District average. We also decreased by 10% from the previous year. Helping our students achieve grade level proficiency is a critical need.				
Measurable Outcome:	Math Lowest 25% will show gains of at least 5% from the previous year's data.				
Person responsible for monitoring outcome:	Darryl Jemison (darryl.jemison@discoveryfl.org)				
Evidence- based	Select staff will attend the virtual Learning Sciences International PD in June. Those staff members will then create PDs to share with other staff members throughout the year. Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

The School Leadership team will address the remaining improvement priorities by having our ESE Facilitator, Nichole Clark, and our ELL Coordinator/Counselor, Gina Cruz, provide specific trainings on the implementation of effective classroom strategies for SWD and ELLs.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

In order to ensure that our stakeholders are actively engaged in Discovery High School, we have added and will continue our work with the following two groups:

1. Staff Advisory Council(SAC) - we meet once a month with a group teachers to discuss issues and concerns at our school. We have at least one teacher from each subject group on the council.

2. Parent Advisory Council(PAC) - we meet once a month with parents to discuss issues and concerns from a parent perspective. We send out a letter at the beginning of the year to see which parents are interested in participating.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: ELA	\$0.00
2	III.A.	Areas of Focus: Instructional Practice: Math	\$0.00
		Total:	\$0.00
