School Board Approval

This plan is pending approval by the Volusia County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

T ogether we can achieve I ntegrity G oals E xcellence R espect, responsibility and S uccess!

Provide the school's vision statement.

We believe that students will learn when...

- there is a positive, welcoming environment where they are respected, supported by all stakeholders, and encouraged to take risks.

- lessons are engaging, relevant, and hands-on.
- instruction is meaningful, purposeful, and differentiated.
- feedback is immediate and specific.
- their learning styles and individual learning timelines are respected.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

| Name | Title | Job Duties and Responsibilities |
|---------------------|------------------------|---|
| Tidmarsh, Lonnie | Principal | 2020-2021 School Improvement Plan Administrator and Contact 2020-2021 Title I Administrator and Contact 2020-2021 Timbercrest MTSS Leadership Team Member The school-based MTSS leadership team identifies school based resources (both materials and personnel) to determine the continuum of academic and behavioral supports available to students at the individual school site. Academic and behavioral data are considered in order to determine priorities and functions of other existing teams (e.g., Problem Solving Team, PBIS Team, and Professional Learning Communities). The Problem Solving process (i.e., Problem Identification, Analysis of Problem, Intervention Implementation and Response to Intervention) is used as the way of work of all teams and not just for individual student concerns. Adherence to the Problem Solving process ensures that individual, class-wide, and school-wide issues are addressed systematically with data; that interventions (supports) are tiered to the targeted problems; and that a plan is in place to monitor progress. |
| | | The school improvement plan is data driven and focuses on areas of school- based need for both specific content areas as well as specific student populations. Similarly, MTSS is a data-driven framework that seeks to find solutions/resources matched in intensity to student need in academic and behavioral areas. The MTSS framework follows the district's four-step problem solving process, with Rtl as an integral component of the process. As a result, the school improvement plan is based on a strategic analysis of data, and identified resources (as identified by the MTSS school based leadership team) are matched to the needs of the students/schools. Building the SIP within the context of MTSS results in the school determining the areas of most significant need and, as importantly, enables the school to develop a plan that can be addressed based on existing resources. |

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Learning Gains of the Lowest 25% in the area of mathematics according to 2018-2019 FSA data. 39% of of the lowest 25% made learning gains in mathematics. Also, the Subgroup Federal Index identified our Students with Disabilities as an ESSA subgroup needing support due to a rating of 40%. Learning Gains of the Lowest 25% in the area of mathematics decreased 7% when comparing 2017-2018 data to 2018-2019 data. Our ESSA subgroup Students with Disabilities saw decreases in the area of achievement (-9%), learning gains (-16%), and learning gains of lowest 25% (-16%) when comparing ELA data from 2017-2018 to 2018-2019. Additionally, Students with Disabilities decreased in achievement (-6%) in mathematics when comparing 2017-2018 data to 2018-2019 data.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Learning Gains of the Lowest 25% in the area of mathematics according to 2018-2019 FSA data. When comparing 2017-2018 data to 2018-2019 data, a 7% decline in learning gains occurred with the Lowest 25% in the area of mathematics. Within our ESSA subgroup (Students with Disabilities), a 16% decline occurred in learning gains and 16% decline in learning gains of the lowest 25% in the area of ELA. Part of this decline mentioned above should be attributed to the new mathematics series the district adopted in the 2018-2019 school year. There were minimal trainings during preplanning related to this series. Much of the necessary training occurred mid-year. Supplemental resources to fill gaps created by using a textbook that was not geared toward specific Florida standards (such as Engage NY and CPalms) were platforms teachers were unfamiliar with and needed additional training. Additional training was needed for our general education teachers related to our ESSA subgroup-Students with Disabilities.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

ELA Learning Gains for our ESSA subgroup (Students with Disabilities) with a gap of -11% and ELA Learning Gains of the Lowest 25% for our ESSA subgroup (Students with Disabilities) with a gap of -15%. Both components had a decrease at the school level when comparing 2017-2018 FSA data to 2018-2019 FSA data. At the school level, Timbercrest saw a decrease in ELA Learning Gains for our ESSA subgroup (Students with Disabilities) of -16%. At the school level, Timbercrest saw a decrease in ELA Learning Gains of the Lowest 25% for our ESSA subgroup (Students with Disabilities) of -16%. Part of the gap mentioned above (ELA learning gains with our ESSA subgroup and lowest 25%) could be attributed to a lack of targeted and structured intervention/enrichment. As Timbercrest has secured funds for additional targeted intervention/enrichment, a process has been created to plan and execute targeted intervention/enrichment based on data. In previous years, intervention groups were determined based on teacher recommendation rather that data. IReady has giving us data to monitor and assess intervention/enrichment ongoing and throughout the year.

Which data component showed the most improvement? What new actions did your school take in this area?

Learning Gains of the Lowest 25% in the area of ELA according to the 2018-2019 FSA data. When comparing 2017-2018 data to 2018-2019 data, a 6% increase in learning gains occured with the Lowest 25% in the area of ELA. Within our ESSA subgroup (Students with Disabilities), a 15% increase occured in Learning Gains in math and Achievement in science. Some of the increases within our ESSA subgroup can be attributed to a new ESE support team. Four of the five teachers in our ESE team are new to Timbercrest and strategically hired based on our needs. Administration provided staff with UDL training to support our ESE students. Administration implemented a rotating schedule in which admin visited classrooms every day and provide feedback based on teaching practices. Administration provided training to teachers focused on formative assessments and embedded them into daily instruction. In the area of science, administration made changes in the master schedule to include more minutes for science. Science intervention was implemented for the first time. School-wide training in the 5E model (science) and coaching provided as needed.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

1. Students scoring a Level 1 on statewide assessment in the year 2018-2019 (3rd grade-5 students, 4th grade-16 students, 5th grade-34 students).

2. Students with attendance below 90% (Kindergarten-4 students, 1st grade-6 students, 2nd grade-4 students, 3rd grade-3 students, 4th grade-8 students, 5th grade-3 students).

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Math Lowest Quartile Learning Gains
- 2. English Language Arts Lowest Quartile Learning Gains
- 3. ESSA Subgroup (less than 41%)-Students with Disabilities
- 4. Science Proficiency

Part III: Planning for Improvement

Areas of Focus:

| #1. Instructional Practice specifically relating to Science | | | | |
|---|---|--|--|--|
| Area of Focus Description and Rationale: | cus scription d Science Proficiency-As a result of our Needs Assessment and Analysis it revealed that of Science Proficiency was at 65% in 2018-2019. Our SLT has decided to focus on Science Proficiency for all students. Further analysis revealed that most of the students in our targeted ESSA Subgroups of ESE preformed below 41% in 2018-2019. | | | |
| Measurable Outcome: | Increase Science Proficiency from 65% in 2018-2019 to 70% in 2020-2021. Students with Disabilities (ESSA Subgroup) Science Proficiency from 36% in 2018-2019 to 42% in 2020-2021. | | | |
| Person responsible for monitoring outcome: | Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us) | | | |
| Evidence- based Strategy: | Standards based instruction. | | | |
| Rationale for Evidence- based Strategy: | dence- ied Response to Intervention has a 1.29 effect size according to John Hattie. Strategy to Integrate with Prior Knowledge has a .93 effect size according to John Hattie. Intervention for Students with Learning Needs has a .77 effect size according to John Hattie. Vocabulary Programs has a .62 effect size according to John Hattie. | | | |

#1. Instructional Practice specifically relating to Scienc

Action Steps to Implement

1. Review Science Proficiency data to finalize master schedule focused on proper placement of students for interventions, ESE and ESOL support.

Person Responsible Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us)

2. Facilitate PL on Science Trace Maps.

Person

Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

3. Conduct PLCs monthly for data chats focused on reviewing student groupings and planning for interventions.

Person

Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

4. Provide quarterly data day planning meetings for grades K-5th, including ESE and ESOL, with the support of Administration, Academic Instructional Coach, Intervention Teachers, and Administrative Teacher on Assignment.

Person

Responsible Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us)

5. Create Coaching Cycles to support teacher growth in the area of science instruction.

Person Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

6. Conduct four data walks with Administration, Academic Instructional Coach, Administrative Teacher on Assignment, and Teacher Leaders.

Person Responsible Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us) 7. Monitor science instruction and intervention through ongoing Administrative Walkthroughs and Feedback.

Person Responsible

8. Integrate science content within the reading intervention block.

Person

Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

9. Continue science instruction per week by creating a master schedule to include science instruction 5 days a week with an increase in science minutes each day. Increase based on science assessment data throughout the year.

Person Responsible Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us)

10. Monitor progress using SMT/VST data during weekly PLC and Data Days.

Person Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

11. Continue use of 5E lessons and provide feedback as needed.

Person

Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

12. PTA Family STEAM Night focused on parent involvement will include focus standards chosen based on the district assessment data. Activities will include a hands on approach to review and solidify science knowledge in grades K-2. Family STEAM Night will also inform families on science activities that can be utilized at home to support the science standards.

Person

Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

13. 5th grade science Spring Break Nearpod Review will be provided to all 5th grade students based on Trace Map Data from SMT 2.

Person

Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

| #2. Instructional Practice specifically relating to ELA | | | | | |
|---|--|--|--|--|--|
| Area of Focus Description and Rationale: | English Language Arts Lowest Quartile Learning Gains-As a result of our Needs Assessment and Analysis it revealed that 46% of our students in the Lowest Quartile made learning gains in ELA in 2018-2019. Further analysis revealed that within the lowest quartile our focus will include the students in our targeted ESSA Subgroup Students with Disabilities. | | | | |
| Measurable Outcome: | Increase ELA learning gains in the lowest quartile from 46% in 2018-2019 to 50% in 2020-2021. Students with Disabilities (ESSA Subgroup) increase ELA learning gains in the lowest quartile with students with disabliites from 23% in 2018-2019 to 42% in 2020-2021. | | | | |
| Person responsible for monitoring outcome: | Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us) | | | | |
| Evidence- based Strategy: | Differentiated Instruction provided by teachers and specialized intervention teachers. | | | | |
| Rationale for Evidence- based Strategy: | Small group instruction has an effect size of .47 according to John Hattie. Interventions for Students with Learning Needs has a .77 effect size according to John Hatti's meta-analysis. | | | | |
| | | | | | |

Action Steps to Implement

1. Conduct PLCs monthly for data chats focused on reviewing student groupings and planning for interventions.

Person Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

#2 Instructional Practice specifically relating to ELA

2. Provide quarterly data day planning meetings for grades K-5th, including ESE and ESOL, with the support of Administration, Academic Instructional Coach, Intervention Teachers, and Administrative Teacher on Assignment.

Person Responsible

Create Coaching Cycles to support teacher growth in the area of reading instruction.

Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us)

Person

Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

4. Conduct four data walks with Administration, Academic Instructional Coach, Administrative Teacher on Assignment, and Teacher Leaders.

Person

Responsible Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us)

5. Monitor ELA instruction and intervention through ongoing Administrative Walkthroughs and Feedback.

Person Responsible Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us)

6. Monitor progress using County Assessments (Wonders/TCI etc) data during weekly PLC and Data Days.

Person Responsible Kristy Kuches (kkuches@volusia.k12.fl.us) 7. Provide PL on iReady data analysis following diagnostic tests.

Person Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

8. Literacy Week and/or Night that will provide parents with reading/writing strategies to build the homeschool connection.

Person

Responsible Michelle Miles (mmmiles@volusia.k12.fl.us)

9. Facilitate an FSA Boot Camp to prepare students for the ELA state assessment.

Person Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

10. Remediation through intervention and after school tutoring.

Person Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

11. Provide enrichment during the ELA intervention block.

Person Responsible Kristy Kuches (kkuches@volusia.k12.fl.us)

| #3. Instructional Practice specifically relating to Math | | | |
|--|---|--|--|
| Area of Focus Description and Rationale: | Math Lowest Quartile Learning Gains-As a result of our Needs Assessment and Analysis it revealed that 39% of our students in lowest quartile made learning gains according to the Math FSA 2018-2019. Further analysis revealed that our focus will include the students in our targeted ESSA Subgroups Students with Disabilities. | | |
| Measurable Outcome: | Increase Math learning gains from 39% in 2018-2019 to 50% in 2020-2021. Students with Disabilities (ESSA Subgroup) increase math proficiency from 26% in 2018-2019 to 42% in 2020-2021. | | |
| Person responsible for monitoring outcome: | Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us) | | |
| Evidence- based Strategy: | Differentiated Instruction provided by teachers and specialized intervention teachers. | | |
| Rationale for Evidence- based Strategy: | Response to Intervention has a 1.29 effect size according to John Hattie. | | |
| Action Steps | to Implement | | |
| 1. Structure m | nath instructional time in our master schedule to include math intervention 4 days a week. | | |

Person

Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us) Responsible

2. Facilitate PL on iReady Toolbox and analyzing diagnostic data.

Person

Kristy Kuches (kkuches@volusia.k12.fl.us) Responsible

3. Conduct PLCs monthly for data chats focused on reviewing student groupings and planning for interventions.

Person

Kristy Kuches (kkuches@volusia.k12.fl.us) Responsible

4. Provide quarterly data day planning meetings for grades K-5th, including ESE and ESOL, with support of Administration, Academic Instructional Coach, Intervention Teachers, and Administrative Teacher on Assignment.

Person Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us) Responsible

5. Create Coaching Cycles to support teacher growth in the area of Math instruction.

Person

Kristy Kuches (kkuches@volusia.k12.fl.us) Responsible

6. Conduct four data walks with Administration, Academic Instructional Coach, Administrative Teacher on Assignment, and Teacher Leaders.

Person Lonnie Tidmarsh (ljtidmar@volusia.k12.fl.us) Responsible

7. Monitor math instruction and intervention through ongoing Administrative Walkthroughs and Feedback.

Person

Kristy Kuches (kkuches@volusia.k12.fl.us) Responsible

8. Integrate math content within science block.

Person

Kristy Kuches (kkuches@volusia.k12.fl.us) Responsible

9. Monitor progress using SMT/Envision Unit Tests data during weekly PLC and Data Days.

Person

Kristy Kuches (kkuches@volusia.k12.fl.us) Responsible

10. Coordinate a Math night at local Publix for real world application to math concepts.

Person Kristy Kuches (kkuches@volusia.k12.fl.us) Responsible

11. Professional learning on small group math instruction with feedback.

Person Kristy Kuches (kkuches@volusia.k12.fl.us) Responsible

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

All returning stakeholders will receive a refresher on the PBIS stratgies, including the addition of the Tier 2 supports. PBIS will encourage positive behavior and attendance. New teachers will receive a full PBIS training.

Time has been designated on the master calendar for all students to receive SEL.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Timbercrest will hold Parent Involvement Nights such as a S.T.E.A.M. Night, Literacy Night, Weekly Tuck in Tuesday videos, Literacy Night, and Publix Math Night. These events will include the Timbercrest Leadership Team, teachers from other Volusia County Schools and volunteers from higher education universities such as UCF and DSC. We also host Meet the Teacher day virtually, two Open House nights TBD, and Title 1 Parent Meetings TBD. PTA Events will be held throughout the year to include the community in events. Our volunteer coordinator will seek additional business partners to provide incentives

for student achievement in the areas of academics and behavior. We are also continuing to build a schoolwide student incentive program to support our Positive Behavior Interventions and Supports initiative. This house system reward program will include parents and business partners.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

| 1 | III.A. | Areas of Focus: Instructional Practice: Science | | | \$2,300.00 | | |
