School Board Approval

This plan was approved by the Bay County School Board on 10/13/2020.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan was approved by the Bay County School Board on 10/13/2020.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The students, parents and community of Northside Elementary School will provide an environment where students feel secure, valued and confident to learn in diverse ways while mastering skills to become life-long learners and contributors to the community.

Provide the school's vision statement.

A collaborative focus on every student every day.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Frowert, Lora	Principal	
Allen, Alison	Teacher, K-12	
Lewis, Kelly	Teacher, K-12	
Ensminger, Katrina	Teacher, K-12	
Hornkohl, Jennifer	Teacher, ESE	
Nield, Marcy	Teacher, K-12	
Gall, Chad	Assistant Principal	
Campbell, Jamie	School Counselor	
Cox, Angel	Teacher, K-12	
Quimuyog, Pamela	Teacher, K-12	
Peters, Megan	Teacher, K-12	
Pena, Angela	Teacher, K-12	
Harvey, Amy	Principal	

Demographic Information

Principal start date

Tuesday 12/15/2020, Lora Frowert

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

2

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

5

Total number of teacher positions allocated to the school

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

The school-wide data component that performed the lowest is Math Lowest 25th Percentile, 51%. This was also the lowest performing area from 2018; however there was a 16% increase from 2018 (35%) to 2019

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Northside had an increase of at least 5% in all data components.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

The school-wide data component with the biggest gap when compared to the state average is Math Achievement with a difference of 6%. It should be noted that the gap

was closed by 4% from last school year. (2018: State 62%, Northside 52%, 2019: State 63%, Northside 57%)

Which data component showed the most improvement? What new actions did your school take in this area?

The school-wide data component that showed the most improvement was ELA Lowest 25th Percentile with an increase of 21% (35%-56%). Lowest quartile students were provided individualized targeted daily interventions and supports throughout the school year based on monthly data analysis.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Northside has one subgroup area that did not meet the target of 41%. The Black/African American subgroup score was 36%.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Black/African American Subgroup
2. ELA Achievement
3. Behavior/Discipline

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to ELA

Area of Focus Description and Rationale:	Northside Elementary will increase the number of students making learning gains and demonstrating proficiency in ELA by planning, preparing and implementing targeted differentiated instruction that meets the intent and rigor of the standards. English Language Arts (ELA) remains our area of focus. While Northside's overall proficiency level in ELA increased 6% from 56% to 62% and our overall learning gains increased 14% from 51% to 65%, both areas remain below our target of 70% proficiency.
Measurable Outcome:	ELA proficiency will increase by 3% from 62% to 65%. ELA learning gains will increase by 5% from 65% to 70%.
Person responsible for monitoring outcome:	Lora Frowert (frowelr@bay.k12.fl.us)
Evidence-based Strategy:	Standards aligned targeted Tier I instruction utilizing high quality text and providing additional individualized supports at Tier II and III.
Rationale for Evidence-based Strategy:	Implementing the EL Curriculum will ensure a guaranteed and viable curriculum, using high quality text and encompassing all standards.

Action Steps to Implement

Continue to build and strengthen Professional Learning Communities (PLCs) at each grade level. This will provide opportunity for collaborative teaching which will enhance the level of instruction provided and ensure that assessments are aligned to the rigor and intent of the standards. Teachers will participate in weekly PLCs to plan and prepare for effective standards aligned instructional delivery and assessment. ELA Liaisons will attend quarterly liaison meetings and bring information back to the PLC.

Person Responsible Lora Frowert (frowelr@bay.k12.fl.us)

Implementation of the Simplified MTSS/RTI at Work process will continue, allowing us to strengthen and support the school's academic program through strategic focus. A universal spreadsheet will be used to track data on students that need extra intervention. The universal spreadsheet will be utilized during monthly MTSS Leadership Team meeting and Grade Level Data Chats, where all teachers in grade level PLCs, instructional coaches, support team members (to include MTSS Interventionist- School and District Level) and administration discuss the needs of the students and develop a plan to address the needs. Having the sheet available to teachers and staff allows them to review and update information in real time for us to problem solve the MTSS process for academics as well as behavior.

Person Responsible Angela Pena (penaac@bay.k12.fl.us)

Timely flexible interventions are implemented with fidelity and student progress is monitored regularly. Tier II interventions are provided by the classroom teacher and Tier III interventions provided by the MTSS Intervention Team.

Person Responsible Katrina Ensminger (ensmika@bay.k12.fl.us)

#2. Culture & Environment specifically relating to Positive Behavior Intervention and Supports

Area of Focus Description and Rationale:	Northside Elementary School will implement 15 minutes of daily Character Education in order to decrease student discipline referrals by 5%. Implementing character education daily will teach behavior expectations and how to appropriately respond to tough situations.
Measurable Outcome:	Effective instruction in character education will lead to a decrease of discipline incidents by 5%.
Person responsible for monitoring outcome:	Chad Gall (gallch@bay.k12.fl.us)
Evidence-based Strategy:	Effective instruction in character education will lead to a decrease of discipline incidents by 5%.
Rationale for Evidence-based Strategy:	When teachers embed character education into their instruction, the classroom becomes a more caring, respectful, and inclusive community.

Action Steps to Implement

Core Essentials is a character development curriculum that will be used school-wide to provide a common language for behavior expectations. This curriculum will define and teach students the expected behavior for school. The Core Essential Big Three Behavior Expectations will be posted in classrooms, hallways, cafeteria, and common areas.

Person Responsible Chad Gall (gallch@bay.k12.fl.us)

Positive behavior will be celebrated at our monthly pep rally. Each class will nominate the student that best exemplifies the core behavior trait of the month. Each student will receive a certificate, a Viking t-shirt and attend a special breakfast with their family (pending visitation policy).

Person Responsible Chad Gall (gallch@bay.k12.fl.us)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

Northside's Black/African American subgroup is performing slightly below 41% threshold set by the state, with a rate of 36%. Academic achievement data will be analyzed during weekly PLC meetings and monthly data chats.

Teachers will employ a variety of learning strategies that engage students in active participation, address multiple learning styles, and stimulate students' intellectual interests. Instructional interventions and/or acceleration will be provided by classroom teachers and interventional staff. Social emotional supports will be provided by the school based Behavioral Interventionist and Triad Team (mental health therapist and social workers). Building and maintaining positive relationships and recruitment of Elevate Bay Mentors will remain a priority.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Northside Elementary School provides support for the physical, social, and emotional needs of our students. Northside partners with several local churches and community programs to provide school supplies, food (weekend backpack program), and clothing to our families in need. The Guidance counselor provides lists of community resources to our families and regularly meets with parents to discuss individual needs. Character education and bullying prevention are integrated into the school curriculum. PanCare employees coordinate the health needs of our students, as well as coordinating annual health screenings and dental care. School staff coordinate with resource teachers, school psychologist, behavior interventionist and other district staff to administer various screenings as needed for individual students. Telehealth programs are in place to provide physical and mental healthcare; including a paraprofessional assigned to coordinate care. Northside provides services that support the counseling, assessment, referral and educational needs of our students. Using the MTSS process, staff identify student needs and design differentiated instruction and/or interventions to support the learning of all students. Students receive support through specialized programs such as Tier II and Tier III support through specialized programs such as a social skills group, Zoo U individualized software program, Check & Connect with a staff member, and mentoring. School staff collaborates with members of the Triad Team as well as outside resources (social workers, behavior interventionist, Florida Therapy counselors, Anchorage Children's Home, Elevate Bay and other community partners) to discuss coordination, implementation, and efficiency of services and works to identify new strategies or resources to benefit our students.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: ELA	\$0.00
2	III.A.	Areas of Focus: Culture & Environment: Positive Behavior Intervention and Supports	\$0.00
Total:			\$0.00
