## School Board Approval

N/A

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at [www.floridacims.org](http://www.floridacims.org).

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <https://www.floridacims.org>.

## Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

## Part I: School Information

### School Mission and Vision

**Provide the school's mission statement.**

Downtown Doral Charter Upper School’s mission is to provide our students with a comprehensive dual curriculum and bicultural/bilingual education through language acquisition and innovative programs, facilitated by a highly-qualified staff promoting students’ academic excellence creating future world leaders.

**Provide the school's vision statement.**

The vision of Downtown Doral Charter Upper School is Innovative Leaders Nurturing Passionate Global Leaders.

### School Leadership Team

**Membership**

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

| Name            | Title                  | Job Duties and Responsibilities |
|-----------------|------------------------|---------------------------------|
| Lapica, Wilhelm | Principal              |                                 |
| Orta, Lourdes   | Administrative Support |                                 |

### Demographic Information

**Principal start date**

Monday 9/3/2018, Kim Ortiz

**Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective.** *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

**Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective.** *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

**Total number of teacher positions allocated to the school**

51

## Analysis

### Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

**Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.**

The lowest components is ELA gains. Unable to define trends for the school due to insufficient data collection.

**Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.**

Decline is not observable as we only have data from our first year of operation (2018-2019).

**Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.**

All our data components are above the state average. The data component with the greatest gap when compared to the state average is Math Lowest 25% Percentile, scoring at 92% with the state at 45%. Trends are not measurable at this moment due to insufficient data collection.

**Which data component showed the most improvement? What new actions did your school take in this area?**

Data is only available for one academic year. Improvement is not observable due to insufficient data collection.

**Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?**

Although our percentages far exceed the district and state average, we expect to see continued growth in the area of ELA, being our lowest percentages of 83% (ELA Gains) and 84% (ELA Gains Lowest 25%).

**Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.**

1. An increase in the effectiveness of our counseling department for academic and emotional needs of our students.
2. Bridging learning gaps between grade levels to decrease lack in basic academic skills.
3. Increase staff connections and morale.
4. Overall health for our staff and students during this difficult time.
5. Reduce distance learning impact.

## Part III: Planning for Improvement

### Areas of Focus:

**#1. Culture & Environment specifically relating to Social Emotional Learning**

**Area of Focus Description and Rationale:** The Climate Survey showed that 47% of our students were unsure if the counseling department properly addressed their needs while 15% agreed that they felt under-served by the counseling department. Lack of support from the counseling department can result in academic failure and emotional distress.

**Measurable Outcome:** The schools plans to achieve a 15% increase in positive sentiment towards the counseling department.

**Person responsible for monitoring outcome:** Lourdes Orta (lourdesmorta@dadeschools.net)

**Evidence-based Strategy:** Increasing the counseling department and assigning specific roles to each counselor, as well as assigning an individual counselor per student are the evidence-based strategies we will implement.

**Rationale for Evidence-based Strategy:** According to the Professional Journal for Educators "a study of counseling practices in six states shows that effective counseling strategies tend to have positive effects on classroom attendance, discipline, and overall achievement (Carey & Dimmitt, 2012). These studies suggest that school counseling programs are most successful when counseling services include more than a response to a situation that already exists." This research emphasizes that when counseling encompasses academics and emotional health, students are able to reach their full academic, career and emotional potential.  
<https://kappanonline.org/oconnor-school-counselors-make-world-difference/>

**Action Steps to Implement**

1. Increased counseling department (by 3)
2. Assigned roles to each counselor (Academics counselor, college counselor, trust counselor).
3. Assign students personal counselor (By last name).
4. Small-group counseling activities (Quarterly).
5. Classroom presentations on topics that promote academic and social-emotional growth for parents and students.
6. Counseling intervention program.

**Person Responsible** Wilhelm Lapica (wlapica@dadeschools.net)

## #2. Instructional Practice specifically relating to Collaborative Planning

**Area of Focus Description and Rationale:** The Climate Survey showed that 67% of teachers feel their students are deficient in basic academic skills. Additionally, 42 % of teachers feel that their students are not academically prepared for class. The learning gap grows exponentially between each year and becomes more difficult to close as the courses increase in rigor.

**Measurable Outcome:** In the next climate survey for the 2020-2021 school year, the school plans to achieve a 50% or higher in rate of satisfaction in basic academic skills and academic preparation.

**Person responsible for monitoring outcome:** Wilhelm Lapica (wlapica@dadeschools.net)

**Evidence-based Strategy:** We will continue our cooperative planning within departments with more defined guidelines and we will begin implementing interdisciplinary planning to bridge learning gaps between grade levels.

**Rationale for Evidence-based Strategy:** The peer review article, "The State of Cooperative Learning in Postsecondary and Professional Settings" found in Educational Psychology Review, highlights the outcomes of interdependence. Among these outcomes are, higher achievements, positive social relationships, psychological health, prominent civic values, and a positive outlook towards college. [https://soe.rutgers.edu/sites/default/files/imce/pdfs/Johnson\\_StateCoperativeLearning.pdf](https://soe.rutgers.edu/sites/default/files/imce/pdfs/Johnson_StateCoperativeLearning.pdf)

### Action Steps to Implement

1. Create more intervention groups starting early in the year (Math, English, Spanish, Portuguese).
2. Interdisciplinary unit planning.
3. Vertical and horizontal planning.

**Person Responsible** Lourdes Orta (lourdesmorta@dadeschools.net)

### Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

**For priorities 1 and 2 listed on 2.E, our plan of action is detailed in the area of focus. To increase staff connections and morale, priority 3, we created a more diverse "Social Committee" including one member of each department. The Social committee will make a presence monthly with games, give-away, and social "virtual" gatherings for the staff. Furthermore, to target priority 4, the health of our student and staff, we have an abundance of new policies detailing norms for moving through the building, disinfecting, safety attire, visitors in the building, reporting of illness, and more. Finally, to target distance learning impact; priority 5, interventions have increased and counselors created an intervention tier procedure to target absences, behavior, and course failures.**

## Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

At Downtown Doral Charter Upper School, we believe that proper educational formation requires multiple entities to come together. A child needs a working partnership between the home, school, and community. For this reason, we have opened our doors to all families and encouraged active involvement. Our families complete a total of 20 volunteer hours per year. Meaning, that parental participation in school events is always high. We ensure we serve our students well by allowing them to voice their interest and using them to guide our offerings. Many of the clubs, such as photography, chess, spirit squad, mental health and awareness, and more, were all proposed by our own student body. With our Administration's open door policy, our teachers have endless opportunities to take initiatives and provide feedback when needed. Our counselors and activities director focus on bringing in outside sources such as prominent business leaders and community members. We are located in an ideal community and have formed bonds with the near by businesses who attend our events such as, career day, Hispanic heritage, Brazilian independence, and more. Overall, here at Downtown Doral Charter Upper School we have prioritized a family environment to ensure involvement from all stakeholders which has granted the school the Five Star School Award. We acknowledge that these partnerships permits a successful education journey for our students.

**Parent Family and Engagement Plan (PFEP) Link**

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

**Part V: Budget**

**The approved budget does not reflect any amendments submitted for this project.**
