School Board Approval

This plan is pending approval by the Manatee County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The mission of Florine J.Abel Elementary school is to provide an academic environment for our students, families, faculty and staff. Our intentions are to create a safe and loving center for us to share skills and concepts which will help each of us to live more positive and productive lives. Our goals include efforts to implement a student centered, standards based curriculum which will include use of text structure to build comprehension and writing skills, acceleration of student learning, fidelity to programs and ongoing student engagement in the lessons. A continued emphasis for the 19-20 school year is to help teachers with full implementation of well written lesson plans to include more small group instruction which will be uploaded to our online classroom tool of Schoology.

Provide the school's vision statement.

The vision of Florine J. Abel Elementary school is to strive for the highest possible achievement for student success. We are united around the proposition of community and family engagement. We foster a culture of positive collaboration to support one another. We raise our expectations for everyone. We value acceleration of student learning, student engagement, fidelity to programs and standards based lesson planning to help students' comprehension using text structures and writing skills.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Webb, Samantha	Principal	Facilitate the development of school wide achievement goals, professional development and collaborative planning opportunities to meet goals and monitoring and adjustment of goals/strategies to ultimately increase student achievement.
Britto, Rebecca	Assistant Principal	

Demographic Information

Principal start date

Wednesday 7/1/2020, Samantha Webb

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

Total number of teacher positions allocated to the school

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Data component with the lowest performance is ELA proficiency across grades 3-5, especially compared to the district level which is performing 12-14% below in each grade level. Contributing factors to 18.19's school data include a large number of students reading below grade level indicated by iReady ELA diagnostics and DIBELS ORF assessments.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Greatest decline was in 5th grade ELA, which declined by 3% from the year prior. However, the cohort did increase by 3%. Factors that contribute to the decline are that the cohort scored significantly lower the year prior.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Data component with the greatest gap compared to the state average is 3rd grade ELA with a gap of 19% followed by 5th grade ELA with a gap of 18%. Factors that contribute to the gap are a significant amount of students reading below grade level as measured by iREADY ELA diagnostics and DIBELS ORF assessments.

Which data component showed the most improvement? What new actions did your school take in this area?

The data component that showed the most improvement was 4th grade math with an improvement of 19% from in one year comparable to the state. Actions that school took to achieve this improvement was through the inclusion of math spiral review and acceleration through "Acaletics."

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

An area of concern in ELA proficiency for grades 3-5 and learning gains for the lowest quartile for ELA and Math.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. ELA Proficiency for grades 3-5
- 2. ELA Learning Gains for grades 4 & 5
- 3. ELA Learning Gains for Lowest Quartile grades 4 & 5
- 4. Math Learning Gains for grades 4 & 5
- 5. Math Learning Gains for Lowest Quartile grades 4 & 5

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Differentiation

Area of Focus Description and Rationale: One area of focus is providing small group differentiation for students in both ELA and Math. Small group differentiation provides remediation for students to close reading and/or math gaps and be provided with additional scaffolding techniques. Differentiation also provides acceleration for students that are meeting or exceeding proficiency. In order for us to make gains in proficiency for reading and math as well as increase learning gains, small group differentiation for students is necessary.

ELA proficiency will increase by 5% per grade level as measured by the FSA. Math proficiency will increase to 65% across grades as measured by the FSA.

Measurable Outcome:

Learning Gains for both Math and ELA will increase to 85% across grades as measured by the FSA.

Learning Gains for the Lowest Quartile will increase to 85% across grade as measured by the FSA.

Person responsible

for Samantha Webb (webbs@manateeschools.net)

monitoring outcome:

Evidence- Small group differentiation

based Remediation **Strategy:** Acceleration

Rationale for Evidence-

Strategy:

based

After student data analysis across grade levels, it was evident that classrooms had a variety of student learning levels and learning needs. In order to close achievement gaps for students and provide acceleration opportunities, the need to differentiate instruction was concluded. Data was used from 18.19 FSA scores and district scores (iReady, Quarterly Benchmarks) to determine the need to increase student achievement and select the

instructional strategy to best meet the learning needs of our students.

Action Steps to Implement

Identify student learning needs using previous data points (FSA scores, district quarterly benchmark scores, iReady diagnostic scores)

Identify opportunities for differentiation for ELA and Math (close reading strategies, reciprocal reading strategies, Math Acaletics, Math spiral review)

Identify and select additional highly effective staff to assist in providing differentiation opportunities Select materials to provide differentiation materials that align to standards

Monitor the progress of the differentiation groups through student learning gain scale scores

Person Responsible

Samantha Webb (webbs@manateeschools.net)

#2. Instructional Practice specifically relating to Student Engagement

Area of Focus Description and Rationale: Another area of focus is increasing student engagement to impact student achievement through proficiency and learning gains. Student engagement was identified as a critical need based on ELA proficiency and learning gains scores, since the scores were significantly lower in these areas compared across the school and compared to district ELA scores. Ultimately, increasing student engagement will lead to increased student learning and mastery of core standards.

Measurable Outcome:

ELA scores will increase by 5% across grades 3-5 as measured by the FSA.

ELA learning gains will increase to 85% as measured by the FSA.

ELA learning gains for the lowest quartile will increase by 85% as measured by the FSA.

Person responsible

for Samantha Webb (webbs@manateeschools.net)

monitoring outcome:

Evidence-

based Implementation of Thinking Maps

Strategy:

Rationale

for

Thinking maps increases comprehension, provides explicit vocabulary instruction, provides

Evidencebased

concrete representation for core ELA standards and provides writing support.

Strategy:

Action Steps to Implement

Provide professional development on Thinking Maps for staff

Provide ongoing coaching opportunities for Thinking Maps and how to use

Collaboratively plan with grade level teams on the selection and implementation of Thinking Maps for ELA, Science and Math.

Person

Responsible

Samantha Webb (webbs@manateeschools.net)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

The leadership team will begin implementation of the high effect size practice of "student reported grades" where students begin monitoring their grades based on individual learning gains. Learning gains for students will be monitored and students will take part in learning gains celebrations. Monthly Data Chats with grade level teams will look at learning gains of students, followed by collaborative planning addressing how to increase learning gains using different differentiation strategies and engagement techniques.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

We begin by building a positive culture and environment through shared development of common core values and achievement goals with our school staff and students. Shared core values include prioritizing community, professionalism, and positivity. Development of shared achievement goals include 5% increase for ELA proficiency, 65% math proficiency, and 85% learning gains. Students take ownership in a positive culture and environment though shared achievement goals, "100% Learning Gains," and using monthly character traits (Character Strong) to reinforce school wide goals. We have created monthly "Learning Gains" celebrations for students to acknowledge and celebrate when students meet their specific learning gain goals for reading, math or science.

We include our families to assist in the development of a positive school culture through consistent parent/family communication. This includes weekly Connect Ed messages and using Abel's Class DOJO. Parents are informed of upcoming events, how to access their child's grades and opportunities to come discuss their child's progress with the school at any time. We also communicate with parents their child's learning gains and celebrate student successes across the school level.

This year we have diligently focused on developing our school wide community and business partners to help us building our school community. Community partnerships have a clear understanding of our school wide goals to increase student achievement and assist in providing school supplies for our students. In addition, our community partners have donated essential items such as food and clothing for our most fragile students whose families are facing financial difficulties.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Differentiation	\$0.00
2	III.A.	Areas of Focus: Instructional Practice: Student Engagement	\$0.00
		Total:	\$0.00
