School Board Approval

This plan is pending approval by the Clay County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Our mission is to offer a virtual education experience which allows students to dream, achieve, and soar anywhere, anytime on any path.

Provide the school's vision statement.

Clay Virtual Academy will provide students a learning path in an innovative online environment where mastery learning is the focus of each child's motivation, organization, and dedication in preparing them to be leaders in a global marketplace.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Weaver, Gayle	Other	Running data reports and using them to drive professional development opportunities for teachers and staff.
Kowieski, Melissa	Assistant Principal	Directly responsible to the school principal and serves in staff relationships. Assume all administrative duties in the absence of the principal. Assist in any duties outlined on the principal's job description and delegated by the principal.
Stilianou, Amanda	Principal	Manages and supports teachers and staff in order to increase student achievement. Oversees budget and all faculty and staff. Responsible for accurate FTE, ESE records, and enrollment records. Includes all job duties and responsibilities set forth in the Clay County School District's job description of school principal.

Demographic Information

Principal start date

Wednesday 7/1/2020, Amanda Stilianou

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

3

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

19

Total number of teacher positions allocated to the school 118

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Math learning gains. Math learning gains were low across the District and the State.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

There is no data from the previous year in which to compare.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

We exceeded the state average in every area except for math learning gains. This was low across our Distrtict.

Which data component showed the most improvement? What new actions did your school take in this area?

There is no data from the previous year in which to compare.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

There is no potential areas of concern due to the areas of Focus for this data set.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

- 1. Math learning gains.
- 2. Math achievement.
- 3. ELA learning gains.
- 4. Student participation in live lessons and tutoring sessions.
- 5. Improving climate and culture of the school.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Math

Area of Focus

Description and Improve Math learning gains and math achievement

Rationale:

Measurable Improve from 53% (2019) to 56% (2020) for math learning gains and math

Outcome: achievement from 67% to 70%.

Person

responsible for

monitoring outcome:

Amanda Stilianou (amanda.stilianou@myoneclay.net)

Evidence-based Strategy:

Math interventions will be used an evidence-based strategy to help improve math

learning gains from 53% to 56%. Students will participate in weekly math

interventions to help improve overall math learning gains

Rationale for Evidence-based Strategy:

Early intervention provides the best method for addressing students who are

struggling with mathematics. Research has shown that intervention will help improve

students' math scores and proficiency.

Action Steps to Implement

School Leadership Team will gather and analyze school wide data to determine which students scored low in math.

Person Responsible

Amanda Stilianou (amanda.stilianou@myoneclay.net)

School will utilize a math standards assessment.

Person

Responsible Amanda Stilianou (amanda.stilianou@myoneclay.net)

The School Leadership Team will choose a teacher to assist students who are identified as scoring below average, using math interventions strategies.

Person Responsible

Amanda Stilianou (amanda.stilianou@myoneclay.net)

The Leadership Team will continually monitor student achievement to determine improvement based on intervention strategies that are utilized.

Person

Responsible

[no one identified]

Data will be collected and analyzed by the leadership team to determine further action steps.

Person

Responsible

Amanda Stilianou (amanda.stilianou@myoneclay.net)

#2. Instructional Practice specifically relating to ELA

Area of Focus Improve ELA learning gains This will be accomplished through using assessments to identify areas where students are scoring low to average. Teachers will develop and **and Rationale:** implement learning strategies to help students improve ELA assessment scores.

Measurable Outcome: Improve ELA gains from 72% (2019) to 75% for 2020.

Person responsible for monitoring

Amanda Stilianou (amanda.stilianou@myoneclay.net)

Evidence-

outcome:

We will use the following evidence-based strategies to help improve ELA growth:

based 1. Tutoring

Strategy: 2. Teacher led activities via one on one virtual meetings with students

3. Analyze i-Ready Diagnostics

Rationale for Evidencebased

Strategy:

Research suggests that early interventions will help students improve ELA scores. These interventions will focus on literacy skill development to help students improve

literacy.

Action Steps to Implement

School Leadership Team will analyze school wide data to determine which students are performing below average.

Person
Responsible
Amanda Stilianou (amanda.stilianou@myoneclay.net)

The School will use standards based mastery assessment to assess reading standards of students at CVA.

Person
Responsible
Amanda Stilianou (amanda.stilianou@myoneclay.net)

Students identified with ELA deficiency will be referred to the Tier system to determine best intervention practices.

Person
Responsible
Amanda Stilianou (amanda.stilianou@myoneclay.net)

The school leadership team will continuously monitor teachers use of interventions by checking their lesson plans and spot checking during live lessons.

Person
Responsible
Amanda Stilianou (amanda.stilianou@myoneclay.net)

The school leadership team will check progress every 6 weeks to determine student progress and then determine further action steps.

monitoring outcome:

Evidence-

based

Teachers will utilize attendance to monitor student participation

Strategy:

Rationale for

Evidence-

Teachers will interact with students during live lessons to engage students in learning

based lessons.

Strategy:

Action Steps to Implement

No action steps were entered for this area of focus

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

We plan to improve student growth in math and ELA by using evidence-based strategies listed in the areas of focus. We will have teachers engage more with students through the use of live lessons to assist students attain subject mastery standards.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Clay Virtual Academy (CVA) Leadership will promote building a positive culture and environment by providing experienced leadership teams to work closely and lead new and returning CVA teachers.

CVA Leadership will communicate promptly and effectively to address various school related topics and events to keep the CVA team abreast of school happenings.

The Leadership team will conduct monthly Professional Learning to have teachers work and learn collaboratively to better their teaching craft, emphasize positive communication with students and families and learn about new best practices in virtual education.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Instructional Practice: Math	\$0.00
2	III.A.	Areas of Focus: Instructional Practice: ELA	\$0.00
3	III.A.	Areas of Focus: Culture & Environment: Student Attendance	\$0.00
		Total:	\$0.00
