School Board Approval

This plan is pending approval by the Broward County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Miramar High School will provide a strong foundation for students to reach their ultimate potential through comprehensive curricula, rigorous standards and comprehensive assessments. The educational standards at Miramar High School, home to the International Baccalaureate and Aviation Magnet Programs, will foster cultural awareness and understanding so that graduates will be compassionate and independent thinkers in an emerging global society.

Provide the school's vision statement.

Miramar High school is achieving excellence in education for 21st century learners through college and career readiness, while supporting social emotional needs.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Formoso, Maria	Principal	Oversees implementation of School Improvement Plan
Bergeron, Kaila	Assistant Principal	Oversees teachers that work with students with disabilities; ensures students receive the services they need
Fernandez, Jason	Teacher, K-12	SAC Co-Chair Drafts SIP
Francois, Alexander	Assistant Principal	Oversees social studies teachers that work with students on literacy skills; ensures students receive the services they need
Murray, John	Assistant Principal	Oversees math teachers that work with students with disabilities on math skills; ensures students receive the services they need
Selvidge, Cristina	Assistant Principal	Oversees elective teachers that work with students on literacy skills; ensures students receive the services they need; manages team that develops and implements school improvement plan
Winter, Shelly	Assistant Principal	Oversees English and reading teachers that work with students on literacy skills; ensures students receive the services they need

Demographic Information

Principal start date

Tuesday 9/16/2014, Maria Formoso

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

7

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

54

Total number of teacher positions allocated to the school

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Students in the lowest 25th percentile in math showed the lowest performance. These students struggle with math concepts and have consistently been level one students. In order to overcome their deficits, these students need intensive math support. We need to dedicate more staff and resources to these students in order for them to become proficient.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Students showed the greatest decline in ELA achievement. The year this data was gathered of the 10th grade ELA teachers left the school after the 1st semester. The teacher's classes were taught by an interim sub for the 2nd semester. The sub did not have the curricular background to adequately prepare students for the ELA FSA.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Math achievement proficiency has the greatest gap when compared with the state average. Most of the students taking the EOC in algebra and geometry are students that struggle with math concepts and have consistently been level one or two students. In order to overcome their deficits, these students need intensive math support. We need to dedicate more staff and resources to these students in order for them to become proficient.

Which data component showed the most improvement? What new actions did your school take in this area?

Science achievement showed the most improvement. The science department has utilized literacy skills when teaching their curriculum. Teachers emphasize the importance of vocabulary mastery and promote the use of test taking strategies.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

The number of level one students testing and their failure to meet with academic success when passing core classes contribute to our proficiency struggles.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Monitor student progress in core areas utilizing common formative assessments
2. Provide remediation for students that show deficiency on common formative assessments
3. Increase academic support for students in their ELA & math courses
4. Promote literacy as well as college and career readiness through elective courses
5. Ensure students are socially and emotionally supported to meet with academic success

Part III: Planning for Improvement

Areas of Focus:

#1. ESSA Subgroup specifically relating to Students with Disabilities**Area of Focus Description and Rationale:**

Students with disabilities struggle to synthesize information across multiple subjects, through various platforms. Additionally, they do not perform well on high stakes testing.

Measurable Outcome:

9th and 10th grade students with disabilities will demonstrate 41% proficiency in English/ Language Arts and math as measured by the Florida Standards Assessment administered in May 2021.

Person responsible for monitoring outcome:

Cristina Selvidge (cristina.selvidge@browardschools.com)

Evidence-based Strategy:

In order to accommodate students with disabilities, we will attempt to break material down into smaller segments, in small group settings. We will utilize various instructional methods such as scaffolding and chunking to assist students in attaining master of previously taught material. Periodically students will be tested to assess their level of mastery.

Rationale for Evidence-based Strategy:

The rationale is based on data scores that reflect success of reinforcing material through small group instruction.

Action Steps to Implement

Students will be given a pre-assessment. That assessment will be used to identify the areas of weakness or greatest deficiency that need to be addressed. Students will be sorted into small groups. Within those small groups students will be provided differentiated instruction by their support facilitators. Support facilitators will monitor student's progress on differentiated instructions through activities. Every eight weeks students we will give a post-test to refine instruction focus practices as needed.

Person Responsible

Kaila Bergeron (kaila.bergeron@browardschools.com)

#2. Instructional Practice specifically relating to ELA

Area of Focus Description and Rationale: A majority of Miramar students struggle with literacy skills such as the identification of key ideas and details, integration of knowledge, analysis of craft and structure, utilization of proper grammar as well as correct usage of language and editing which are the five standards tested on the ELA FSA.

Measurable Outcome: 9th and 10th grade students will demonstrate 45% proficiency in English/language Arts as measured by the Florida Standards Assessment administered in May of 2021.

Person responsible for monitoring outcome: Cristina Selvidge (cristina.selvidge@browardschools.com)

Evidence-based Strategy: Standard-based Instructional Focus Guides will be created that aligned to instruction to grade-level standards. Common formative assessments will be administered to monitor success of plan implementation. Remediation will be provided to target deficiency in students that lack proficiency in mastery of the standards..

Rationale for Evidence-based Strategy: The rationale for this strategy is based on data scores that reflect success of curriculum alignment as well as the use of common formative assessments to monitor student mastery as a result of of curriculum alignment.

Action Steps to Implement

The English/Language Arts department head will create standard-based Instructional Focus Guides for grades 9-12 to ensure that classroom instruction is aligned to grade-level standards. English/Language Arts teachers will follow the grade-level Instructional Focus Guide which provides a thorough curriculum that closely aligns grade-level standards. A common formative assessment will be administered every six weeks to collect data to monitor student mastery of standards. Remediation will be provided for standards which students lack mastery.
