SI Region	Central
Regional Executive Director	Lucinda Thompson
Turnaround Option/Cycle	N/A
Year	
Support Tier	
ESSA Status	TS&I
* As defined under Rule 6A-1.099811, Florida Administrative Code. For	or more information, <u>click here</u> .

School Board Approval

This plan is pending approval by the Manatee County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

- 1. have a school grade of D or F
- 2. have a graduation rate of 67% or lower
- 3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at <u>www.floridacims.org.</u>

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at https://www.floridaCIMS.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

The mission of Stewart Elementary School is to stimulate students to become self-motivated, life-long learners by providing appropriate educational experience through the involvement of staff, parents, and community.

Provide the school's vision statement.

Our vision is to provide a safe and stimulating environment where students are trustworthy and take learning seriously to reach their highest academic, social and emotional potential. Students will meet these high expectations while learning how to be respectful and responsible citizens so they can make their best contribution to society.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Hougland, Joseph	Principal	
Heathcote, Lisa	Assistant Principal	
Butler, Brenda	Teacher, K-12	
Savchuk, Michelle	School Counselor	
Drao, Heather	Teacher, ESE	
Bosner, Heather	Teacher, K-12	
Schultz, Kim	Teacher, K-12	
Thomas, Vanzetta	Teacher, K-12	
Powell, Kelly	Dean	
Santora, Jennifer		

Demographic Information

Principal start date

Tuesday 9/1/2020, Joe Hougland

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Effective. Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.

Total number of teacher positions allocated to the school 30

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

In 2019, just 41% of our L-25 Math students made gains as compared to 2018 of 50%. We did not have our typical curriculum to address the Florida Math Standards. We anticipate that performance will be 50% or higher this year.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

Our Science achievement went from 64% in 2018 to 53% in 2019. Prior to last year, we had a departmentalized 5th grade. The Science teacher then took a position teaching STEM. Our achievement was impacted as other teachers gained traction with their teaching. Benchmarks during the 2019-2020 school looked very promising. Our benchmark assessment for Quarter 1 was 78%, and Quarter 2 was 83% proficient.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

As stated above, just 41% of our L25 math students made gains. This is below BOTH the state and County average. The gap year in curriculum material appears to have impacted student performance. This indicated a need for teacher training in Math standards.

Which data component showed the most improvement? What new actions did your school take in this area?

Our ELA L25 growth improved from 52% in 2018 to 69% in 2019. This is a testament to our hard work with strategic, small group instruction during WIN time. This is only going to improve with our experience. Unfortunately, because of COVID, our small group instruction is happening with just homeroom classes for now. Teachers are working hard to create a pathway to success.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

We do not have areas of concern.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Math L25

2. Science

3. NOTE: ELL Subgroup removed due to redistricting in the school district. We currently have 6 ELL students remaining at Stewart.

4.

5.

Part III: Planning for Improvement

Areas of Focus:

#1. Instructional Practice specifically relating to Math

Area of Focus Description and Rationale:	We will continue to focus on our L25 Math students because just 41% made gains during testing in 2019. Last year's Q2 benchmark showed 61% made gains. We will focus on effective differentiation and scaffolding of standards.
Measurable Outcome:	If we focus on effective differentiation and scaffolding of standards then at least 60% of our L25 Math students will show gains and growth by May 2021.
Person responsible for monitoring outcome:	Lisa Heathcote (heathcotel@manateeschools.net)
Evidence- based Strategy:	We will utilize the GAP (Goal, Analysis, Plan) eliminator to differentiate and scaffold standards to effectively and efficiently fill the gaps of learning for our L25 Math students. We will utilize IXL, I Ready Standards Mastery, District Benchmarks, Acaletics and Reflex Math to monitor progress.
Rationale for Evidence- based Strategy:	The GAP eliminator will assist us in effectively and efficiently scaffolding content for each learner. We will utilize IXL, I Ready Standards Mastery, District Benchmarks, Acaletics and Reflex Math to monitor progress.

Action Steps to Implement

1. We know our goal is to show 60% or more of our L-25 Math students making gains.

2. We will analyze data and create an action plan.

3. Strategic resources will be selected and aligned to student needs.

4. Teachers will participate in monthly data chats to review data, and determine how assessment of all data (T 1,2 and 3) informs instruction.

5. We will offer remediation to those students who could benefit.

Person Responsible

Lisa Heathcote (heathcotel@manateeschools.net)

No description entered

Person

[no one identified] Responsible

#2. Instructional Practice specifically relating to Science				
Area of Focus Description and Rationale:	If we implement a K-5 Science plan to include an emphasis on Power Standards along with interactive science notebooks (writing to raise achievement), then proficiency on the FCAT 2.0 Science will increase from 53% to 70% as measured in the 2020-2021 school year.			
Measurable Outcome:	If we implement a K-5 Science plan to include an emphasis on Power Standards along with interactive science notebooks (writing to raise achievement), then proficiency on the FCAT 2.0 Science will increase from 53% to 70% or more as measured in the 2020-2021 school year.			
Person responsible for monitoring outcome:	Lisa Heathcote (heathcotel@manateeschools.net)			
Evidence- based Strategy:	We will utilize Study Island Science and HMH standards-based assessments and district benchmarks to monitor student progress. We will utilize GAP (Goal, Analysis, Plan) eliminator to effectively differentiate and scaffold standards and fill the gaps of learning for our students.			
Rationale for Evidence- based Strategy:	We will utilize the GAP (Goal, Analysis, Plan) eliminator to effectively differentiate and scaffold standards and fill the gaps of learning for our Science students. We will utilize Study Island Science, HMH assessments and District Benchmarks to monitor student progress.			
Action Steps to Implement				

1. We know our goal is to be 70% or more proficient in Science.

2. We will analyze data from initial Science assessments and create an action plan.

3. Strategic resources will be selected and aligned to student needs.

4. Teachers will participate in monthly data chats to review data, and determine how assessment of all Science data (T 1,2 and 3) informs instruction.

5. We will offer remediation to those students who could benefit.

Person

Responsible Lisa Heathcote (heathcotel@manateeschools.net)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

We have no other school-wide improvement priorities.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.
