ESSA Status	N/A

* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, [click here](#).

School Board Approval

This plan is pending approval by the Columbia County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

Through the relentless pursuit of student learning, our highly qualified teachers will provide rigorous standards-based instruction, which will result in academic growth for all students. We are committed to providing the highest quality education for all students by setting high expectations to promote life-long learning. We embrace the partnership between school, home, and community and we are committed to helping our students become part of the global community, to celebrate diversity, and meet the opportunities of the future.

Provide the school's vision statement.

Fort White Elementary School will provide opportunities for each student to learn skills, acquire knowledge, and develop character within a rich, diverse, and nurturing learning environment. Students will emerge as respectful, responsible citizens prepared to succeed in our global community.

School Leadership Team

Membership

Identify the name, email address, position title, and job duties/responsibilities for each member of the school leadership team.:

Name	Title	Job Duties and Responsibilities
Christie, Michael	Principal	Michael Christie will lead the Fort White Elementary School Leadership Team in striving daily to help foster a culture of learning and acceptance by supporting teachers, students, and families. Each classroom teacher and support staff will provide a rigorous education embedded with intervention supports for students with additional needs. As a Leadership Team, we will also support each other by listening and contributing to all endeavors, creating an empowered decision-making group.
Barnett, Carol	Other	Carol Barnett, Curriculum Resource Teachers serves multiple purposes through working with classroom teachers, resource teachers, paraprofessionals and tutors to provide curricular resources and effective supplemental instructional materials. The CRT is responsible to train in the use of the resources and to help in the implementation of the resources in both whole group and small group instruction. Also, the CRT works with parents and family members in providing resources and training in the use of the resources so that the parent or family member can build their skills in helping their child academically at home. The CRT coordinates the school's Title 1 program, volunteer coordinator and assistant FSA testing coordinator.
Jackson, Syreeta	Assistant Principal	Assists the principal in overseeing the MTSS and SIP initiatives and conducting teacher evaluations. She will also be responsible for school discipline as related to MTSS and the school-wide discipline plan and assist in evaluating school/grade level data.
Huesman, Leanne	Instructional Coach	Work to increase the effectiveness of all teachers through effective evaluation and high quality, personalized professional development. The instructional coach provides job-embedded professional learning to all teachers regardless of where each teacher's skill level resides on the mastery spectrum. Additionally, the instructional coach leads a district-wide initiative that will provide consistency and understanding of instructional methodology, high impact instructional strategies, data analysis of student performance assessment outcomes, and other professional learning activities that focus on student needs.
Peach, Ashley	School Counselor	Kelly Sistrunk, Guidance Counselor - assist the principal in overseeing MTSS and SIP initiatives; Chairman of MTSS team, assist teachers with student concerns to include counseling, the involvement of outside agencies; Mignrat contact, assists team in evaluation of school, grade level and student data. Ms. Sistrunk also the testing coordinator for FSA testing.

Demographic Information

Principal start date

Wednesday 9/30/2020, Syreeta Jackson Lee

Number of teachers with a 2019 3-year aggregate or a 1-year Algebra state VAM rating of Highly Effective. *Note: For UniSIG Supplemental Teacher Allocation, teachers must have at least 10 student assessments.*

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Growth in the lower performing 25% continues to lag. This is due to the increasing number of limited English speakers as well as migrant students enrolling at FWE.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

There were improvements school-wide, thus the improvement in the school's grade.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Fifth-grade math had the greatest performance gap of 13% behind the district and 8% behind the state. The trend has been that FWE math scores fall below district and state performance levels.

Which data component showed the most improvement? What new actions did your school take in this area?

There was a vast improvement in the number of students scoring a Level 1 on the FSA, coming from 113 to 27. Changing the daily way of implementing instruction in each classroom and increasing the rigor in all grades was the greatest contributing factor.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern?

Students with two or more indicators increased from 66 to 123. This could be attributed to the increase in course failures. More specific intervention strategies will continue to take place to help improve this data.

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Phonics instruction in all grades
2. Math fact fluency in all grades
3. Strategic vocabulary instruction in all grades
4. Intensive reading instruction in all grades
5. Restorative practices and relationship building

Part III: Planning for Improvement

Areas of Focus:

#1. Culture & Environment specifically relating to Parent Involvement**Area of Focus**

Description and Rationale: Determining the needs of parents of the current students will allow parent and family engagement activities to better serve our parents to increase student performance.

Measurable Outcome:

At the completion of the 2020-2021 school year, 50% of the students in grades 3,4, and 5 will increase proficiency in ELA, Math, and Science by 10%, as compared to the 2018-2019 FSA scores with the implementation of the Parent and Family Engagement Plan.

Person responsible for monitoring outcome:

Carol Barnett (barnettc@columbiak12.com)

Evidence-based Strategy:

FWES will continue to seek parent and family engagement input from all parents and families, not just a targeted group. There continues to be disparities in educational attainment in the percentage of parents who attended school or class events. Our goal at FWES is to create a family-centered, nurturing school climate where all families and shareholders feel welcomed.

Rationale for Evidence-based Strategy:

Parents will also have continuous access to a resource room, where there are study aids, pamphlets, flashcards, hands-on resources for parents and families, and internet access for filling out school-wide and district forms.

Action Steps to Implement

1. Use an evaluation at each function to get immediate feedback on the effectiveness and usefulness of the event
2. Provide a survey at each function for immediate feedback
3. Communicate/ advertise school events via Facebook, newsletters, flyers, school-based website, and marquee.
4. Provide resources and up-to-date material for the parent/ family resource room and events.

Person Responsible

Carol Barnett (barnettc@columbiak12.com)

#2. Instructional Practice specifically relating to Standards-aligned Instruction

Area of Focus	The students of FWES will show learning gains in each component of the FSA; ELA, Math, and Science.
Description and Rationale:	Continued implementation of standards-aligned instruction, web-based software, research-based supplemental material, evidence-based professional development, coupled with intervention groups will increase student achievement.
Measurable Outcome:	50% of all Level 1 students in grades 3,4, and 5 will show growth in both ELA and Math portions of the FSA. Overall proficiency in ELA and Math will increase by 3%, in each grade level.
Person responsible for monitoring outcome:	Michael Christie (christiem@columbiak12.com)
Evidence-based Strategy:	Differentiation will occur in every classroom at Fort White Elementary School. Intentional small group instruction will help drive individual student achievement, which will, in turn, impact student performance on the FSA.
Rationale for Evidence-based Strategy:	Students will continue to work on their iReady lessons in both ELA and Math, based on the weekly requirements set by the school district. Teachers will use iReady and classroom assessments to help drive small/ intervention groups. Grade level paraprofessionals will push into classrooms for additional small/ intervention group supports.

Action Steps to Implement

1. research-based supplemental materials, evidence-based software, and supplies will be provided
2. evidence-based professional development will be provided for faculty and staff as needed
3. differentiated small group instruction as a daily way of instruction
4. instructional coach will provide classroom support for all beginning teachers and any teacher who show signs of need
5. resource teacher will provide additional differentiated small group supports for specified students

Person Responsible Michael Christie (christiem@columbiak12.com)

Additional Schoolwide Improvement Priorities

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities.

The students in 2E of the Needs Analysis will continue to be monitored closely by teachers and the Leadership Team. Students who are in need of additional interventions may begin the MTSS process. All students will receive small group intervention.

Part IV: Positive Culture & Environment

A positive school culture and environment reflects: a supportive and fulfilling environment, learning conditions that meet the needs of all students, people who are sure of their roles and relationships in student learning, and a culture that values trust, respect and high expectations. Consulting with various stakeholder groups to employ school improvement strategies that impact the positive school culture and environment are critical. Stakeholder groups more proximal to the school include teachers, students, and families of students, volunteers, and school board members. Broad stakeholder groups include early childhood providers, community colleges and universities, social services, and business partners.

Stakeholders play a key role in school performance and addressing equity. Consulting various stakeholder groups is critical in formulating a statement of vision, mission, values, goals, and employing school improvement strategies.

Describe how the school addresses building a positive school culture and environment ensuring all stakeholders are involved.

Fort White Elementary School provides ample opportunities for faculty, staff, families, and the community to collaborate. Some of these opportunities include Meet the Teacher, Open House, Title I annual meeting, parent-teacher conferences, parent workshops, SAC, PTO, volunteer opportunities, and community clean-up days. We also provide surveys for parent and community input and involvement. Fort White Elementary also ensures that the social-emotional needs of our students are being met by providing support in multiple ways. Staff, faculty, parents, and outside entities work together positively to motivate, support, and provide interventions and incentives to ensure that students can flourish in the school setting. Faculty and staff model and support positive relationships by providing a nourishing school culture. The emotional safety of each student is addressed by making sure that the school is free of bullying, harassment, and undesired behaviors. Two school-based leadership team members are trained as Bullying Investigators. Through motivational strategies, the students are rewarded and recognized for displaying excellent behavior and having integrity. In addition, Fort White Elementary school provides a variety of activities to advance college and career awareness. The school meets collaboratively with parents getting input for activities which include but are not limited to Career days, Robotics, Science Fair, the gifted program, Tropicana Speech contest, Math Bee, Spelling Bee, Brain Bowl, Stem camp and community helpers in VPK. Teachers also provide rigorous instruction in all subjects to prepare students for college and career expectations.

Parent Family and Engagement Plan (PFEP) Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.
