Demographics

Principal: Gregory Rubick M

Start Date for this Principal: 7/1/2009

2019-20 Status (per MSID File)	Active
School Type and Grades Served (per MSID File)	Elementary School PK-6
Primary Service Type (per MSID File)	K-12 General Education
2018-19 Title I School	Yes
2018-19 Economically Disadvantaged (FRL) Rate (as reported on Survey 3)	100%
2018-19 ESSA Subgroups Represented (subgroups with 10 or more students) (subgroups below the federal threshold are identified with an asterisk)	Students With Disabilities* English Language Learners Black/African American Students Hispanic Students Multiracial Students White Students Economically Disadvantaged Students
School Grades History	2018-19: B (59%) 2017-18: C (51%) 2016-17: C (52%) 2015-16: C (53%) 2014-15: C (53%)
2019-20 School Improvement (SI) Information*	
SI Region	Southeast
Regional Executive Director	LaShawn Russ-Porterfield
Turnaround Option/Cycle	N/A
Year	
Support Tier	

ESSA Status	N/A
* As defined under Rule 6A-1.099811, Florida Administrative Code. For more information, click here .	

School Board Approval

This plan is pending approval by the Brevard County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a Schoolwide Improvement Plan (SIP) for each school in the district that has a school grade of D or F. This plan is also a requirement for Targeted Support and Improvement (TS&I) and Comprehensive Support and Improvement (CS&I) schools pursuant to 1008.33 F.S. and the Every Student Succeeds Act (ESSA).

To be designated as TS&I, a school must have one or more ESSA subgroup(s) with a Federal Index below 41%. This plan shall be approved by the district. There are three ways a school can be designated as CS&I:

1. have a school grade of D or F
2. have a graduation rate of 67% or lower
3. have an overall Federal Index below 41%.

For these schools, the SIP shall be approved by the district as well as the Bureau of School Improvement.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F, or a graduation rate 67% or less. Districts may opt to require a SIP using a template of its choosing for schools that do not fit the aforementioned conditions. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at www.floridacims.org.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

School Board Approval

This plan is pending approval by the Brevard County School Board.

SIP Authority

Section 1001.42(18), Florida Statutes, requires district school boards to annually approve and require implementation of a school improvement plan (SIP) for each school in the district that has a school grade of D or F.

The Florida Department of Education (FDOE) SIP template meets all statutory and rule requirements for traditional public schools and incorporates all components required for schools receiving Title I funds. This template is required by State Board of Education Rule 6A-1.099811, Florida Administrative Code, for all non-charter schools with a current grade of D or F (see page 4). For schools receiving a grade of A, B, or C, the district may opt to require a SIP using a template of its choosing. This document was prepared by school and district leadership using the FDOE's school improvement planning web application located at

<https://www.floridacims.org>.

Purpose and Outline of the SIP

The SIP is intended to be the primary artifact used by every school with stakeholders to review data, set goals, create an action plan and monitor progress. The Florida Department of Education encourages schools to use the SIP as a "living document" by continually updating, refining and using the plan to guide their work throughout the year. This printed version represents the SIP as of the "Date Modified" listed in the footer.

Part I: School Information

School Mission and Vision

Provide the school's mission statement.

To create a positive, caring environment where all students are inspired to succeed and remain on a path of lifelong learning. (revised 2017)

Provide the school's vision statement.

To serve every student with excellence as the standard. (revised 2017)

School Leadership Team

Membership

Identify the name, email address and position title for each member of the school leadership team:

Name	Title	Job Duties and Responsibilities
Rubick, Gregory	Principal	Greg Rubick is the principal and serves as the instructional leader, overseeing all aspects of school improvement including personnel, student achievement, and school safety. He facilitates collaboration and problem solving among the staff to ensure the implementation of high quality instructional practices utilizing the MTSS process. Mr. Rubick is a member of IPST, the School Advisory Council, and PTO where he communicates school-wide data involving all stakeholders. He also ensures that school safety and student well-being remain high priorities contributing to student success.
Haman, Heather	School Counselor	Heather Haman is one of our School Counselors and serves as our School Advisory Council Chair. She facilitates the MTSS process, developing plans for students needing individual progress monitoring, exceptional student education, and individual accommodations. She is a member of the RtI team and facilitates IPST. She coordinates staff development related to social/emotional growth, classroom management, and behavior interventions.
Kahler, Stefania	Teacher, K-12	Stefania Kahler is the Title One Coordinator and she supports tiered interventions, data collection, and student progress monitoring. She co-facilitates the RtI team and meets with teachers bi-weekly to monitor students who are academically at risk. Mrs. Kahler plans and organizes Family Involvement events, provides professional development, and is the Treasurer of the School Advisory Council.
King, Michelle	Instructional Coach	Michelle King is our Literacy Coach and serves as a School Advisory Council member. She monitors instruction and student mastery of the standards and oversees all Reading programs. Mrs. King meets weekly with teachers to plan and model standards-based lessons and district initiatives. She co-facilitates bi-weekly RtI meetings to analyze student data and plan tiered instruction. She plans professional development opportunities for teachers and leads the ELA professional learning community.
Fredenburg, Michael	Assistant Principal	Michael Fredenburg is the assistant principal, and supports various aspects of school improvement including curriculum, student discipline, and facility security and safety. Additionally, he coordinates the Beginning Teacher Program, plans professional development, and serves as the school testing coordinator. He co-facilitates the RtI meetings and ensures teachers are closely monitoring student progress.

Early Warning Systems

Current Year

The number of students by grade level that exhibit each early warning indicator listed:

Analysis

Data Reflection

Answer the following reflection prompts after examining any/all relevant school data sources (see guide for examples for relevant data sources).

Which data component showed the lowest performance? Explain the contributing factor(s) to last year's low performance and discuss any trends.

Port Malabar students showed the lowest performance in the area of Science proficiency at 47%. (data based on 5th grade Science scores only) Our Science scores have declined for the past few years, as teachers have spent more instructional time focusing on improving reading and math. There are a limited number of minutes in a given school day, which impacts how we serve our ESE students who receive services for Speech, Language, OT/PT, or academic support. Students may miss science instruction as they are pulled to focus on their individualized goals and plans.

Which data component showed the greatest decline from the prior year? Explain the factor(s) that contributed to this decline.

While Overall Math Achievement at Port Malabar went up from 54% in 2018 to 58% in 2019, we noted a decline when looking specifically at grade level data. While 44% of 4th graders were at

proficiency in 2018 in Overall Math Achievement, only 41% of the cohort group of 5th graders scored at proficiency on the 2019 Math FSA test, a decline of 3%. Additionally, the 5th grade scores declined by 15% from 2018 to 2019.

Possible factors contributing to the declines in 5th grade Math may have been that the curriculum did not strongly align to the standards and there may have been inconsistencies in planning curriculum and instruction. Another possible factor could have been that a large percentage of students in this grade level were flagged with Early Warning Indicators including 23% of students presenting as SWD.

Which data component had the greatest gap when compared to the state average? Explain the factor(s) that contributed to this gap and any trends.

Port Malabar students (grades 3-6) performed 5% below the district and state in overall Math Achievement, with proficiency levels at 58% for Port Malabar students, and 63% for the district and state. Trends show that although our students performed below the district and state, we did increase in overall proficiency from 54% in 2018 to 58% in 2019. The biggest possible factor contributing to proficiency levels below the state include a lack of rigorous curriculum aligned to state standards. Kindergarten-Fifth Grade classrooms used the Envision Math curriculum for core instruction which has been found to be poorly aligned to MAFS.

Which data component showed the most improvement? What new actions did your school take in this area?

In ELA, 68% of Port Malabar students in the Lowest 25th Percentile showed learning gains while only 53% of students in the state Lowest 25th Percentile made learning gains. This is a positive gap of 15% for Port Malabar. In 2018, only 41% of our students in the Lowest 25th Percentile made a learning gain on the FSA ELA. This was an increase of 27% for our school. Several factors may have contributed to our success in this area, but one of the biggest changes in curriculum school-wide was the addition of iReady online instruction and the use of the iReady Toolbox lessons monitored and implemented with fidelity.

Reflecting on the EWS data from Part I (D), identify one or two potential areas of concern? (see Guidance tab for additional information)

Number of Level 1 students at risk academically

Number of students suspended one or more days

Rank your highest priorities (maximum of 5) for schoolwide improvement in the upcoming school year.

1. Improve Math Achievement
2. Improve Science Achievement
3. Continue upward trend of ELA Achievement
4. Continue to strengthen Social/Emotional Learning
5. Continue School Safety Prevention, Mitigation, and Preparedness

Part III: Planning for Improvement

Areas of Focus:

#1	
Title	Math Achievement
Rationale	Port Malabar students (grade 3-6) performed 5% below the district and state in Overall Math Achievement.
State the measurable outcome the school plans to achieve	Overall Math Achievement (students in grade 3-6 at proficiency) will increase by 5%. 63% of all students in grades 3-6 and 55% of students within the Lowest 25% will exhibit Learning Gains on Math FSA.
Person responsible for monitoring outcome	Michael Fredenburg (fredenburg.michael@brevardschools.org)
Evidence-based Strategy	We are implementing Eureka Math in Kindergarten - 5th grade, which is a more rigorous, standards-aligned curriculum.
Rationale for Evidence-based Strategy	Although we are moving our math scores forward, we are not where we want to be in comparison to state and district levels of achievement. Our previous program was poorly aligned to state standards and did not meet our student needs. Based on research and District Pilot School Data, Port Malabar opted to adopt Eureka Math as our core Math curriculum.
Action Step	
Description	<ol style="list-style-type: none"> 1. Adopt Eureka Math and ensure all classroom teachers have sufficient materials. 2. Send grade level leads to district "Train the Trainer" training 3. Dedicate professional development for the entire school year to Eureka Math Implementation Training 4. Build in additional instructional time into school schedules 5. Provide additional teacher planning time for Math Collaboration and Team planning. 6. Utilize District Math Resource Teacher, Sandy Davis, for additional professional development for teachers.
Person Responsible	Michael Fredenburg (fredenburg.michael@brevardschools.org)

#2	
Title	Science Achievement
Rationale	Port Malabar students (grade 5) performed 10% below the district and 6% below the state in Overall Science Achievement .
State the measurable outcome the school plans to achieve	Overall Science Achievement (students in grade 5 at proficiency) will increase by 6%, meeting the state proficiency level of 53%.
Person responsible for monitoring outcome	Cindy Whalin (whalin.cindy@brevardschools.org)
Evidence-based Strategy	Teachers will use Destination Science: The Quest for Quality Instruction, (the district curriculum materials) with an increased focus on the 5E Model of Unit Planning (Engage, Explore, Explain, Elaborate, and Evaluate).
Rationale for Evidence-based Strategy	The Destination Science curriculum guides were developed using nationally based research and our district BSCS committee and introduced last year to BPS teachers. Fully implementing the program with fidelity and support will enhance core science instruction.
Action Step	
Description	<ol style="list-style-type: none"> 1. Fully implement Destination Science K-6 and ensure all classroom teachers have sufficient materials. 2. Build in science instructional time into school schedules, and ensure schedule is followed with fidelity. 3. Provide ongoing Science Professional Development sessions for all teachers 4. Utilize District Science Resource Teacher, Michelle Ferro, to work closely with all 3rd, 4th, and 5th grade teachers to help strengthen instruction. 5. Host a "Family Science Night" to engage families in Science (materials funded by Title 1)
Person Responsible	Cindy Whalin (whalin.cindy@brevardschools.org)

#3	
Title	ELA Achievement
Rationale	Port Malabar students (grade 3-6) performed 1% below the district and 4% above the state in Overall ELA Achievement.
State the measurable outcome the school plans to achieve	Overall ELA Achievement (students in grade 3-6 at proficiency) will increase by 3%. 64% of all students in grades 3-6 will achieve a Level 3 or higher on FSA ELA in Spring of 2020.
Person responsible for monitoring outcome	Michelle King (king.michelle@brevardschools.org)
Evidence-based Strategy	Port Malabar will continue using iReady weekly online instruction with fidelity, grades K-6. Teachers will also use the iReady Teacher Toolbox lessons for reteaching, instruction, and formative assessments.
Rationale for Evidence-based Strategy	Nationwide data supports the use of iReady instruction and progress monitoring tools as a research-based, rigorous resource for teachers to use to meet the requirements of the LAFS. Correlations between iReady data and 2019 FSA scores for Port Malabar were very strong, indicating that when used with fidelity and monitored closely, iReady can be an effective tool used throughout all of our classrooms.
Action Step	
Description	<ol style="list-style-type: none"> 1. Correlate 2018-19 iReady scores with Spring 2019 FSA data to determine effectiveness 2. Purchase iReady online instruction (Reading) and Ready Toolbox (with Title 1 funds) 3. Monitor usage and success rates through weekly meetings between Admin/Instructional Coach 4. Provide iReady PD for all teachers in October 2019 and January 2020 to analyze diagnostic data, identify specific needs, and plan for future instruction 5. Progress monitor students in the Lowest 25th percentile using iReady Diagnostcs, QLA scores, and tiered data 6. Utilize Title 1 teachers to supply Tier 2 and Tier 3 interventions to support students in the Lowest 25th percentile 7. Utilize Title 1 Writing teacher to model writing instruction for Grades 4-6 8.. Develop and implement incentives for students and teachers

Title	Social/Emotional Learning
Rationale	<p>Port Malabar is experiencing an increase in the number of Bullying/Harassment Complaints across all grades. A majority of these complaints are found to be unsubstantiated. This indicates a need for Character Education and coping skills at the Tier 1 Level. Early warning systems review over the past two years reveal an upward trend in discipline events across all grade levels.in 2018 we had 410 discipline referrals and in 2019, there were 492 discipline referrals.</p> <p>In addition, Parent/Community survey input indicates a desire for more Social/Emotional Learning as part of the school day to improve student relationships, strengthen overall student mental health, and improve student behaviors.</p>
State the measurable outcome the school plans to achieve	<p>Improve suspension rate by 2 percentage points (from 7% to 5%)</p> <p>Decrease number of referrals by 20% (from 492 to 394)</p> <p>Decrease bullying/harassment complaints by 20%(from 22 to 18)</p>
Person responsible for monitoring outcome	Heather Haman (haman.heather@brevardschools.org)
Evidence-based Strategy	Port Malabar ensures the social-emotional needs of all students are being met by providing various tiered intervention levels of support. We employ two full-time Certified School Counselors and one full-time ESE Specialist (to work with our behavior classrooms) to provide Character Education and coping skills.
Rationale for Evidence-based Strategy	<p>Bullying/harassment complaints have increased over the last year indicating a need for a consistent approach to building student capacity to improve their relationships and better cope with challenging situations.</p> <p>Character Education and coping skills are provided school-wide using national, research based programs (Second Step SEL Program, We Thinker's SEL Program, and Zones of Regulation). Suicide prevention programs are implemented through BPS provided materials.</p>
Action Step	
Description	<ol style="list-style-type: none"> 1. Employ full-time Certified School Counselor using Title I funds to assist in meeting the needs of all students 2. Tier 1 services provided to all students K-6 to include monthly character education classes on various character traits provided by our counselors, followed by classroom teachers carrying the themes throughout the month 3. Tier II weekly/bi-weekly small group counseling sessions on attendance, coping skills, academics, friendship relationships, bullying, and building self-esteem as needed. 4. Mentoring and/or daily check-in/check-out system with an adult on campus provided weekly/bi-weekly to students in need 5. Professional development and training in suicide awareness and other mental health issues offered teachers and staff by school counselors 6. Purchase Character Education programs and materials with Title I funds (Second Step SEL Program, We Thinker's SEL Program, and Zones of Regulation) for use in school-wide instruction

Title School Safety

Rationale Schools are legally and socially obligated to exercise due diligence in preventing and mitigating harm to students and staff.

State the measurable outcome the school plans to achieve Port Malabar will be 100% in compliance with all components of the Florida Safe Schools Assessment Tool. 100% of all staff members will receive training and be fluent in school safety procedures.

Person responsible for monitoring outcome Cindy Whalin (whalin.cindy@brevardschools.org)

Evidence-based Strategy Use the Florida Safe Schools Assessment Tool (FSSAT) and School Emergency Operation Plan (SEOP) to review and implement policies, procedures, staffing and security features to enhance school readiness for security and safety.

Rationale for Evidence-based Strategy Florida State Statutes-legal obligations of schools in preventing and mitigating harm to students and staff.

Florida Administrative Code (Rules)-legal operational codes for facilities and inspections.

Brevard Public Schools Bylaws and Policies-School Board stated terms for meeting the responsibility for the safety of students and staff.

Action Step

Description

1. Complete the 2019-2020 School Security Risk Assessment (School Safety Leadership Team)
2. Develop and update the 2019-2020 School Emergency Operation Plan (Threat Assessment Team)
3. Assess potential hazards specific to our school
4. Identify available resources and security features needed to enhance school safety and security
5. Plan and prioritize needed resources and projects
6. Oversee and implement planned safety and security projects
7. Provide continued preparedness and crisis response training for students and staff
8. Work with local Law Enforcement to plan and implement all required safety drills (fire and scenario practice)

Person Responsible Cindy Whalin (whalin.cindy@brevardschools.org)

Additional Schoolwide Improvement Priorities (optional)

After choosing your Area(s) of Focus, explain how you will address the remaining schoolwide improvement priorities (see the Guidance tab for more information).

In addition to our Areas of Focus, Port Malabar continuously strives to increase our Parent and Family Engagement Program. Ongoing research shows that family engagement in schools improves student achievement and reduces absenteeism. Students with involved parents earn higher grades and test scores, have better social skills, and show improved behavior. Port Malabar currently has a strong Family Engagement Program, with a high level of participation in school events. A detailed explanation

of strategies to be implemented during the 2019-2020 school year can be found in the Parent and Family Engagement Plan (PFEP) uploaded in Section IV, Title I Requirements.

Part IV: Title I Requirements

Additional Title I Requirements

This section must be completed if the school is implementing a Title I, Part A schoolwide program and opts to use the Schoolwide Improvement Plan to satisfy the requirements of the schoolwide program plan, as outlined in the Every Student Succeeds Act, Public Law No. 114-95, Â§ 1114(b). This section is not required for non-Title I schools.

Describe how the school plans to build positive relationships with parents, families, and other community stakeholders to fulfill the school's mission and support the needs of students.

Port Malabar will continue to seek feedback to strengthen our School-Parent relationship. We will utilize our School-Based Parent Surveys, the District Parent Survey, SAC and PTO input from meetings, as well as exit slips from all Parent Involvement events. Feedback on our events has always been very positive, with a consistently high attendance rate. We will use input from stakeholders to expand our parent, family and community involvement.

As a result of previous feedback from stakeholders, we will change the hours for some parent involvement opportunities to allow for more participation. We will also continue to ask our PTO to help with food, as many families have expressed difficulty attending evening events during the dinnertime hour.

Based on survey and exit slip feedback, there is a continued need for parent support in the areas of Math, Reading and Science. Port Malabar will continue to host educational Family Nights, and supply parents with educational resources throughout the year. .

Communication between school and parents continues to be an area of concern, based on many of our Parent Surveys. As a result, we will continue to use text-messaging through Blackboard Connect to all families, PeachJar, and will have a more focused effort on ensuring that our website stays more current. We will work to better communicate assessment data to parents as well as more information on Florida Standards taught in each grade level. Finally, we will provide professional development with teachers on how to better communicate with parents, and how to work with families living in poverty.

PFEP Link

The school completes a Parental Involvement Plan (PFEP), which is available at the school site.

Describe how the school ensures the social-emotional needs of all students are being met, which may include providing counseling, mentoring and other pupil services.

Port Malabar ensures the social-emotional needs of all students are being met by providing various levels of support. We employ two full-time Certified School Counselors and one full-time ESE Specialist to work with our behavior classrooms. The school provides all staff, parents and community members the opportunity to refer a child that they are concerned about through a written referral that can be found in the front office of the school. Once a referral is received in the counseling office the counselor assigned to that student begins the process of obtaining background information and permissions from the parent to see the child. The counseling program model that is used is a tiered model to replicate that of the RtI model for academics and behavior. Tier 1 being what all students receive, these services include monthly character education classes on various character traits provided by our counselors and then the themes are carried through the month by the classroom teachers. Tier two would include weekly/bi-weekly small group counseling sessions on such matters of attendance, coping skills, academics, friendship/bullying, etc., Second Step SEL Program, We Thinker's SEL Program, Zones of Regulation, weekly/biweekly mentoring by adults on campus and/or daily check-in/check-out system with

an adult on campus. Tier three would include a referral to approved counseling vendors that provide therapeutic counseling along with weekly individual counseling by a counselor here at school until that is in process, at this tier you would also see the continuation of the other two tiers.

Describe the strategies the school employs to support incoming and outgoing cohorts of students in transition from one school level to another.

Port Malabar coordinates and integrates with multiple parent involvement programs. These programs and activities teach families how to help their child(ren) at home. In April, Title I coordinates an event called Kindergarten Round-up. This is where all area VPK, preschool programs and families with incoming Kindergarten students are invited to come familiarize themselves with the school. They also meet the teachers and staff and tour the campus. A Kindergarten teacher models ways to check for comprehension while reading aloud to a child. The parents are also given materials and games to help their child with the transition into Kindergarten. Title I continues the collaboration efforts with public preschools throughout the year by inviting them to all family involvement events and opportunities at the school.

In order to help to create a smooth transition from Elementary to Middle School, Port Malabar's 6th grade teachers and Title 1 staff shares all pertinent information with parents of 6th grade students. This includes: registration information, Open House events, and special program qualifications & deadlines. A representative from our feeder middle school also comes to Port Malabar and addresses the 6th grade students. Information is shared with them regarding available opportunities and/or programs at the middle school level.

Describe the process through which school leadership identifies and aligns all available resources (e.g., personnel, instructional, curricular) in order to meet the needs of all students and maximize desired student outcomes. Include the methodology for coordinating and supplementing federal, state and local funds, services and programs. Provide the person(s) responsible, frequency of meetings, how an inventory of resources is maintained and any problem-solving activities used to determine how to apply resources for the highest impact.

Alignment of Resources: The Literacy Coach, Title 1 Coordinator, Guidance Counselor (MTSS Coordinator) and Principal meet with teachers biweekly to discuss the academic needs of students. Tier 1, 2, and 3 data is monitored and discussed. The Leadership Team also meets weekly to monitor data and reflect on observations.

Coordinating Programs: Through Title 1 funding, Port Malabar is able to employ highly qualified personnel to support all areas of the SIP. This includes: a full time Literacy Coach, Computer Teacher, one additional Guidance Counselor (Social/Emotional Education), ELA/Writing Specialist, Two Full time interventionists (Reading & Math) and a part time Math Interventionist. Title III - Port Malabar has 54 ELL students who receive support from one ELL Teacher and one ELL Assistant. Title X - BPS receives funding to support homeless students through a resource teacher at the District office. Port Malabar currently has ___ students listed as in transition. Supplemental Academic Instruction - Port Malabar currently receives additional funding for our Academic Support Program. The primary focus of ASP is literacy intervention for students in grades 3-6. HeadStart - Port Malabar has an in-house HeadStart program with one 3-year old class and one VPK class. Title II (Improving Teacher Quality): Port Malabar has a strong Mentoring and Teacher Induction Program, spear-headed by our Assistant Principal.

Persons Responsible: Port Malabar's Leadership team meets individually each week to discuss data reports (i-Ready, Tier 1,2,3 data, walk through & observation data), and with all teachers biweekly to review data, monitor progress, and discuss issues with current programs. Professional Development is designed around the needs identified during these meetings. A Title 1 Framework is completed to designate allocated resources in areas of need identified by Comprehensive Needs Assessment and previous years' Framework Evaluation.

Describe the strategies the school uses to advance college and career awareness, which may include establishing partnerships with business, industry or community organizations.

Port Malabar partners with local community organizations to plan activities, guest speakers, and field trips to help advance college and career awareness.

Field trips include: 6th Grade to Kennedy Space Center, 4th Grade Indian River Lagoon, 5th Grade to Brevard Symphony Orchestra

Guest Speakers include: Jim Kennedy from Kennedy Space Center to talk about careers in the Space Industry; Local Public Servants such as our Mayor and City Councilmen; Our local Fire Department and Police Department visit to help promote First Responder jobs.

Additional activities include JA in a Day to teach financial literacy, Science Fair for intermediate grades, and volunteer mentors from local businesses.

Part V: Budget

The approved budget does not reflect any amendments submitted for this project.

1	III.A.	Areas of Focus: Math Achievement	\$0.00
2	III.A.	Areas of Focus: Science Achievement	\$0.00
3	III.A.	Areas of Focus: ELA Achievement	\$0.00
4	III.A.	Areas of Focus: Social/Emotional Learning	\$0.00
5	III.A.	Areas of Focus: School Safety	\$0.00
Total:			\$0.00
